Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

SMaRT Food, a subfund of the SICAV BNP Paribas Funds, short named as BNP Paribas

Class "UP RH CHF Distribution" - ISIN code LU2066072625
This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group.

Objectives and investment policy

This Product is actively managed. The benchmark MSCI AC World (hedged in CHF) NR is used for performance comparison only. The Product is not benchmark constrained and its performance may deviate significantly from that of the benchmark.
The Product seeks to increase the value of its assets over the medium term by investing in shares issued by companies which conduct their business in the sustainable food supply chain and that are delivering solutions to environmental and nutritional challenges.
It may be invested in Mainland China shares restricted to foreign investors such as China A shares which can be listed on a Stock Connect or through a use of a specific license granted by the Chinese authorities.
The investment team applies also BNP PARIBAS ASSET MANAGEMENT's sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria such as but not limited to reduction of emissions of greenhouse gas, respect of human rights, respect of minority shareholders rights, at each step of the investment process of the Product.
The Product follows the Sustainable Thematic approach which means that the Product invests in companies that provide products and services providing concrete solutions to specific environmental and/or social challenges, seeking to benefit from future growth anticipated in these areas while contributing capital towards the transition towards a low-carbon, inclusive economy.
The approach is implemented in order to consistently eliminate at least 20% of the investment universe being companies belonging to the food supply chain prior to applying ESG filters.
An extra-financial strategy may comprise methodological limitations such as the ESG Investment Risk as defined by the asset manager.
A dividend may be distributed.
Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.
This share class aims at hedging the portfolio return from EUR to CHF.

Risk and reward profile

Lower risk — Higher risk

Potentially lower rewards — Potentially higher rewards

1	2	3	4	5	**6**	7

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?
  The risk category is justified by the investment mainly in stocks and shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- Liquidity Risk: This risk arises from the difficulty of selling an asset at a fair market price and at a desired time due to lack of buyers.
- Operational and Custody Risk: Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.
- Risk related to investments in Mainland China: such investments are subject to additional risks that may be the result of political, economic, social, tax, market and operational factors specific to the Chinese Market.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at http://www.bnpparibas-am.com.

Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charges	None
This is the maximum that might be taken out of your money (before the proceeds of your investment are paid out).	
Charges taken from the Fund over each year	
Ongoing charges	0.88% (*)
Charges taken from the fund under specific conditions	
Performance fee	None

The **entry charges** shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser.

(*) The **ongoing charges** figure is based on past expenses determined as of 31 December 2023.

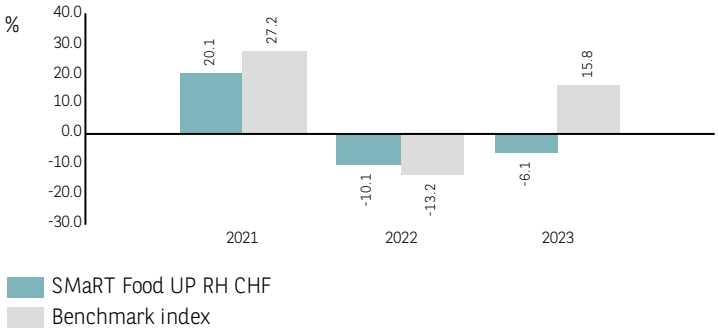

This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

In case of conversion, the investors may be charged a maximum fee of 1.5%.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at http://www.bnpparibas-am.com.

Past performance

- Performance figures are shown for shares classes, for which NAV was continuously calculated during the period from 1st January to 31st December.
- Past performance is not an indicator of future results.
- The ongoing charges of the Fund are included in the calculation of past performance. The entry/exit and conversion fees are excluded from the calculation of the past performance.
- The share class came into existence in 2020.
- Past performance has been calculated in CHF.
- Performance returns are based on the net asset value with distribuable income reinvested.
