

Fisher Investments Institutional Emerging Markets Responsible Equity ex Fossil Fuels Fund EUR 2 Class, EUR ¹

Investment Objective: The investment objective of the Fisher Investments Institutional Emerging Markets Responsible Equity ex Fossil Fuels Fund (the "Fund") is to outperform the Benchmark while balancing the aim of qualitatively and quantitatively maintaining greater exposure to the United Nations Sustainable Development Goals ("SDGs") than the Performance Benchmark.

Benchmark: MSCI Emerging Markets ex Fossil Fuels Index. The Benchmark is a free float-adjusted market capitalisation index that is designed to measure equity market performance of emerging markets.

Investment Policy: The Fund invests primarily in equities and equity-related securities of, or linked to, issuers that are included in the country indices represented within the Benchmark, but may invest up to 20% of its total assets in equities and equity-related securities of, or linked to, issuers located in countries not represented within the Benchmark. The Investment Manager considers environmental, social and governance factors throughout the investment and portfolio construction process. The Fund is actively managed by the Investment Manager, meaning that investment decisions are made on a fully discretionary basis. Accordingly, the portfolio holdings may significantly deviate from the Benchmark. Prior to investing in the Fund, you should take into account all characteristics and objectives of the Fund as described in the Fund's prospectus and supplement. More information on sustainability-related aspects of the Fund can be found online at: <https://www.fisherinvestments.com/en-gb/ucits>

The calculation methodology for Ongoing Charges is slightly different for UCITS KIIDs and PRIIPs KIDs which is the reason for the different figures. In particular, figures for UCITS KIIDs do not include fees or expenses paid by the Fund for buying and selling investments, whereas the figures for PRIIPs KIDs do include such fees and expenses. See the Fund's prospectus and PRIIPs KID or UCITS KIID (as appropriate) for more information on charges. RISKS

Investing in securities involves the risk of loss and there is no guarantee that all or any capital invested will be repaid. Past performance is never a guarantee of future returns. Investing in shares of the Fund does not grant an investor any ownership interests in the assets held by the Fund. Before investing in the Fund, the Fund's investment objectives, risk, charges and expenses should be carefully considered, including:

Currency Risk: The base currency of the Fund is USD. The non-USD share classes may be affected unfavourably by fluctuations in currency rates.

Liquidity Risk: Some of the Fund's investments may be difficult to buy or sell. This might affect the price at which the investments can be sold, which would affect the Fund's value.

Counterparty Risk: There is a risk that counterparties to some of the Fund's investments may not perform their obligations and that transactions may not settle.

Emerging Markets Risk: The Fund invests in the emerging markets equities market, which carries a higher than average investment risk and the Fund may have problems or delays in getting its investments back when required.

ESG Risk: The Fund may be subject to regulatory uncertainty and additional costs in implementing ESG regulations and is reliant on ESG data which may not always be accurate or complete. The Fund might underperform relative to comparable funds that do not incorporate ESG factors or pursue a sustainable investment objective.

As further described in the Fund's UCITS KIID or PRIIPs KID (as appropriate), this Fund has the following risk classification scores (scores may be different due to slightly different risk calculation methodologies for UCITS KIIDs and PRIIPs KIDs) due to its exposure to emerging market equity markets, which means the Fund may experience significant volatility:

UCITS KIID Risk Classification: 6

PRIIPs KID Risk Classification: 5
