INVESTMENT TEAM

The strategy is managed by senior portfolio managers Frank Campana and James Doolin. Frank and James have worked together as a team for over 20 years and have significant experience in managing convertible hedge fund and absolute return mandates through a wide variety of market conditions. In managing the Strategy, Frank and James are able to draw on the research and idea generation of the wider Fixed Income group and Specialist Equity team. The managers are supported with detailed risk and exposure analytics from quantitative analysts, and more broadly leverage Insight's institutional investment resources in functions such as risk management.

INVESTMENT OBJECTIVE

To deliver a positive return in all market conditions, however positive returns are not guaranteed.

INVESTMENT PHILOSOPHY

Insight's Convertible Bond team observes there are four key components of convertible bond returns – movements in equities, volatility, credit and interest rates. The team believes that markets are inefficient in pricing these components as current prices embed consensus expectations on the future, which have to adjust as new information becomes available and consensus expectations change. The team believes that its focused research allows the portfolio managers to identify issues where securities are being mispriced, thus presenting investment opportunities. Through adopting an arbitrage approach to convertible bond investment – pairing convertible bonds with equity hedges – the team believes each pair position can maximise gamma whilst mitigating downside risk via the bond floor. In the team's view, returns can be further supplemented by the tactical management of equity delta and selectively capturing new issue premia in the convertible bond market.

PERFORMANCE BENCHMARK

The Fund will measure its performance against 1-month EURIBOR (the "Cash Benchmark"). EURIBOR is the Euro Interbank Offer Rate and is a reference rate that is constructed from the average interest rate at which Eurozone banks offer unsecured short-term lending on the inter-bank market.

The Cash Benchmark is used as a target against which to measure its performance on a rolling annualised 3 year basis before fees.

The Fund is actively managed, which means the Investment Manager has discretion over the selection of investments, subject to the investment objective and policies disclosed in the Prospectus.

PERFORMANCE DISCLOSURE

Past performance is not a guide to future performance. The value of investments can fall. Investors may not get back the amount invested. Income from investments may vary and is not guaranteed. Please refer to the prospectus and the KID/ KIID before making any investment decisions. Documents are available in English and an official language of the jurisdictions in which the Fund is registered for public sale. Go to www.bnymellonim.com. For a full list of risks applicable to this fund, please refer to the Prospectus or other offering documents.
