Mr Paolo Casadonte (from April 29, 2022) Head of Projects & Business Relationship Management Assicurazioni Generali S.p.A. Generali Asset Management Partners

Report of the Board of Directors

Macroeconomic overview

The economic situation in 2022 was mainly characterized by the outbreak of war in Ukraine and a significant increase in inflation rates. As early as autumn 2021, catch-up effects from the Covid-19 pandemic had already started to meet reduced supply, which was negatively impacted not least by disrupted supply chains. The supply side was additionally hit by the corona wave in the first quarter 2022 as well as the shutdown in China's Shanghai area. However, above all, Russia's invasion of Ukraine and the West's tough sanctions response have led to massively rising energy prices and even endangered supply security. In particular, the price of natural gas reached record highs. As a consequence, inflation rates accelerated almost around the globe. In the euro area, inflation rose to a peak of 10.6% yoy in October, but slightly receded to 9.2% yoy by the end of the year while the 2022 average stood at 8.4%. Although energy prices were the main driver, the inflation surge also increasingly impacted core items, driving up the core inflation rate (ex-energy and unprocessed food) to 6.9% yoy as of December. The US – as well as many other countries – was also hit by spiralling inflation, although demand side effects played a comparably more important role. US headline inflation peaked at 9.1% yoy, while the core rate reached 6.6% yoy.

In view of the high inflation rates, monetary policy has changed course: it feared above all a persistence of excessively high inflation expectations with the risk of a negative wage-price spiral. At the same time, however, it could possibly exacerbate the economic downturn by raising interest rates. In the euro area, the inflation risks triggered a sharp ECB policy turnaround. It ended asset purchases by the end of June and started to hike rates in July. The deposit rate rose in several steps from -0.5% to 2.0% by December 2022, and it was announced that quantitative tightening was about to come. In the US, inflation pushed the Fed towards a very aggressive pace of monetary tightening. After four 75 rate hikes between June and November, the central bank moderated in December the rhythm of tightening to 50 bps, raising the Fed funds rate to the 4.25%-4.5% range.

Financial markets

Financial market developments in 2022 were largely determined by the interaction of inflation rates well above the central banks' targets and the resulting tightening of monetary policy. At the outset of the year, high inflation was still seen as a late consequence of the Covid 19 pandemic that would soon subside. However, the war in Ukraine and the associated sharp rise in energy prices led to significantly higher inflation expectations. Together with an associated tightening of monetary policy, this impacted strongly on markets. The influence of these factors did not diminish until the end of the year: Accordingly, economic activity generally softened. But as inflation rates did not rise any further and started to come off their peaks by the end of the year, markets increasingly began to focus on the end of the monetary policy tightening cycle.

The yield on 10-year Bunds left negative territory and trended upwards to around 2.5% until autumn. Recession fears and expectations that the Fed could hike key rates less forcefully gave government bonds a tailwind again at times. However, it reached a high of 2.56% at the end of the year. Within the euro area, the end of the ECB's purchase of government bonds also contributed to a widening of the yield differential between bonds from Southern European countries and German Bunds.

The equity markets trended weaker over the year as a whole. In the final quarter, speculation about a less severe recession in the euro zone and a change in monetary policy by the central banks were the main drivers of an upward movement. However, the US stock market fell -19.4% over the year, the European market weakened slightly less at -14.5%. The MSCI World receded by -19.6% in US-Dollar terms. In this environment, the US dollar gained significantly in value against the euro over the course of the year.

Outlook 2023

Covid-19 and Ukraine war

The outlook for 2023 is again burdened by considerable uncertainties: This applies above all to the war in Ukraine, which could both continue or end unexpectedly. We foresee the status quo to continue for some time. Russian gas supplies will remain on low levels. The mild winter so far helped avoid gas shortages as gas storage facilities are well filled. Fundamentally, the energy supply situation remains a cause of concern. Regarding corona, new variants and thus fresh waves cannot be ruled out, although they seem unlikely to have the same (lockdown) effects as in the past. Moreover, China's U-turn in its zero Covid policy substantially decreased the risk of supply side disruptions in international trade. Nevertheless, geopolitical tensions remain.

Macroeconomy

Macroeconomically, still high inflation leads to a considerable loss in the real purchasing power of private households and thus dampens consumer spending. At the same time, high energy prices weigh on production, especially in energy-intensive industries. However, energy prices have recently come off from their peaks and in some regions, sentiment improved. The U-turn in its Covid policy let us expect a strong rebound in China, with a growth rate of 5.7%, giving some support to world trade. Nevertheless, while we expect inflation rates to mitigate, they will remain well above central banks targets. We see monetary policy to continue tightening although increasingly drawing to a close in their tightening cycles. Regarding the euro area, the ECB is likely to further increase its deposit rate to 3.5% and to reduce total assets through a moderate repayment of acquired securities (asset purchase programmes, APPs). We also expect a further tightening of US monetary policy with key interest rates in the range of 5.0% to 5.25%, which could, however, give way to the first rate cut in the final quarter of 2023. For the US economy, we expect a mild recession in H1 2023 but a small positive GDP growth rate of 0.6% for the total year, in line with a growth rate for the euro area of 0.7%.

Financial Markets

In 2023, the development on financial markets will be driven by a tug of war between decreasing but still high inflationary pressure, a reduction in monetary policy tightening (ECB) or even a slightly less restrictive pace (Fed) and economic development that will continue to be burdened. Geopolitical uncertainties and risks are also likely to leave their mark, in particular the war in Ukraine and the associated risks on the energy markets. The tensions surrounding Taiwan also need to be monitored.

In this mixed situation, volatility is likely to remain high. However, the earnings situation should stabilize from the middle of the year and the valuation ratios should improve again. Overall, we expect a slight upward trend in risky investments for 2023. We expect elevated yield levels to persist on the government bond markets in the eurozone. The reduction in the government bond holdings of the ECB and further interest rate hikes are likely to be important drivers. With the Fed likely to end its tightening stance in 2023 and start considering rate cuts, US government bonds should outperform those in the euro area. We see 10-year Treasury yields receding moderately over the course of the year. The US dollar would again lose value against the euro.

Remuneration Policy (Unaudited)

Generali Investments Luxembourg S.A. ("the Management Company") has designed and implemented a remuneration policy which is consistent with and promotes sound and effective risk management by having a business model which by its nature does not promote excessive risk taking that is inconsistent with the risk profile of the SICAV. The Management Company's remuneration policy integrates governance, pay structure and risk alignment rules that are designed to be consistent with the business strategy, objectives, values and interests of the Management Company, the SICAV and the shareholders of the SICAV, and includes measures to avoid conflicts of interest.

Description of the calculation of the remuneration and benefits

The amount of the fixed remuneration of the employees is determined in the respective individual contracts. The level of fixed remuneration may be, without being required thereto, oriented on the basis of market value and any other applicable standards, as for instance, a statutory minimum social wage or the indications of a collective bargaining agreement as it may be applicable from time to time.

The Management Company will, in principle, attribute to eligible employees, a variable compensation if the Management Company has made (for the concerned calendar/financial year) a gross profit, whereby the gross profit is determined at a stage before the payment of taxes and elements of the variable remuneration.

A specific personnel evaluation tool is used in order to determine the amount of variable remuneration to be attributed to each eligible employee. Performance criteria are established for each individual with goals according to performance, effectiveness and engagement perspectives.

Remuneration Committee

The Management Company has appointed a remuneration committee which reports to the Board of Directors of the Management Company.

Remuneration disclosure

During its last accounting year ended December 31, 2022, the Management Company remunerated staff members as follows:

Total fixed remuneration (in EUR)	5,258,333
Total variable remuneration* (in EUR)	465,452
Total remuneration (in EUR)	5,723,785
Number of beneficiaries	53
Aggregate amount of remuneration for senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profile of the Management Company (in EUR)	1,444,841
Aggregate amount of remuneration for other members of staff (in EUR)	4,278,944

*Paid after year end.

Remuneration Policy by sub-fund

Pursuant to Article 69(3)(a) of the UCITS Directive and referring to the last available situation, the remuneration details for the investment manager are as follows:

Aperture Investors SICAV - New World Opportunities Fund

For its services to the Sub-fund, the Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily, at a rate of 1.525% (the "Base Fee"). The VMF Minimum portion of the Base Fee will be calculated and accrued daily based on the Sub-fund's average daily net assets. The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's average daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark plus 3.75% (375 basis points) (the "VMF Midpoint Hurdle") over the Performance Period.

The sub-fund out-performed its index during the reference period, so performance compensation was paid to the portfolio team in 2022.

Aperture Investors SICAV - Credit Opportunities Fund

For its services to the Sub-fund, the Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily, at a rate of 2.34% (the "Base Fee"). The VMF Minimum portion of the Base Fee will be calculated and accrued daily based on the Sub-fund's average daily net assets. The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's average daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark plus 6.50% (650 basis points) (the "VMF Midpoint Hurdle") over the Performance Period.

The sub-fund out-performed its index during the reference period, so performance compensation was paid to the portfolio team in 2022.

Aperture Investors SICAV - Endeavour Equity Fund

For its services to the Sub-fund, the Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily, at a rate of 2.94% (the "Base Fee"). The VMF Minimum portion of the Base Fee will be calculated and accrued daily based on the Sub-fund's average daily net assets. The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's average daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark plus 8.50% (850 basis points) (the "VMF Midpoint Hurdle") over the Performance Period.

As the sub-fund underperformed its index, no compensation from performance fees was paid to the portfolio team in 2022.

Aperture Investors SICAV - European Innovation Fund

For its services to the Sub-fund, the Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily, at a rate of 2.85% (the "Base Fee"). The VMF Minimum portion of the Base Fee will be calculated and accrued daily based on the Sub-fund's average daily net assets. The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's average daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark plus 8.50% (850 basis points) (the "VMF Midpoint Hurdle") over the Performance Period.

As the sub-fund underperformed its index, no compensation from performance fees was paid to the portfolio team in 2022.

Aperture Investors SICAV - Short Duration High Yield Fund

For its services to the Sub-fund, the Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily, at a rate of 1.425% (the "Base Fee"). The VMF Minimum portion of the Base Fee will be calculated and accrued daily based on the Sub-fund's average daily net assets. The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's average daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark plus 3.75% (375 basis points) (the "VMF Midpoint Hurdle") over the Performance Period.

The sub-fund out-performed its index during the reference period, so performance compensation was paid to the portfolio team in 2022

Aperture Investors SICAV - Small Cap Innovation Fund

For its services to the Sub-fund, the Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily, at a rate of 3.25% (the "Base Fee"). The VMF Minimum portion of the Base Fee will be calculated and accrued daily based on the Sub-fund's average daily net assets. The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's average daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark plus 7.50% (750 basis points) (the "VMF Midpoint Hurdle") over the Performance Period.

As the sub-fund underperformed its index, no compensation from performance fees was paid to the portfolio team in 2022.

Aperture Investors SICAV - Discover Equity Fund

For its services to the Sub-fund, the Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily, at a rate of 2.175% (the "Base Fee"). The VMF Minimum portion of the Base Fee will be calculated and accrued daily based on the Sub-fund's average daily net assets. The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's average daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark plus 6.25% (625 basis points) (the "VMF Midpoint Hurdle") over the Performance Period.

As the sub-fund underperformed its index, no compensation from performance fees was paid to the portfolio team in 2022.

Total remuneration to the portfolio team in 2022 was approximately 5.7 mil. EUR. The amount is inclusive of salaries paid to portfolio team members that perform activities for funds with the same strategy in other jurisdictions.

The Board of Directors

Luxembourg, April 12, 2023

Information to the Shareholders

The annual general meeting of Shareholders shall be held, within four (4) months of the end of each financial year in the Grand Duchy of Luxembourg at the registered office of the Fund or at such other place in the Grand Duchy of Luxembourg as may be specified in the convening notice of such meeting.

Audited Annual Reports and audited financial statements and unaudited Semi-annual Reports will be sent to the shareholders upon request and will be made available for public inspection on the website: https://www.generali-investments.lu of the Management Company and for shareholders' inspection at each of the registered offices of the SICAV and of the Depositary Bank. They will be published within four months following the relevant accounting period, and the latest annual report is made available at least eight days before the annual general meeting. Moreover, unaudited semi-annual reports are made available for shareholders' inspection at each of the registered offices of the SICAV and of the Depositary Bank and will be published within two months following the relevant accounting period.

The financial year ends on December 31. The list of changes in the composition of the investment portfolio, for the year ended December 31, 2022, is available and free of charge at the registered office of the SICAV.

The Total Expense Ratio includes all fees but excludes transaction costs and above variable management fees. For classes launched during the year, fees have been annualised.

The Total Expense Ratio calculated for the year ended December 31, 2022 are the following:

¹ The TERs (Total Expense Ratios) above represent the annualized fees impact at share class level. A weighted average of expenses which shareholders could have expected to pay when being invested. TER doesn't include minimum VMF, please refer to note 13 in order to know the minimum applicable.

The SCI (Summary Costs indicators) figure corresponds to the data disclosed in the latest available Key Investor Document ("KID") as at the date of this report. The SCI are based on historical expense data, or anticipated when material budget changes occurred during the period. For certain classes of shares and Sub-Funds where there is no relevant expense history, Summary Cost Indicator figures are based on estimates. The SCI calculation excludes Variable Management fees and Transaction Costs.

Report of the Investment Manager

New World Opportunities Fund

The Aperture New World Opportunities sub-fund (APNWIXU LX Equity) finished 2022 with a return of -10.31% net of fees, underperforming its benchmark (Bloomberg EM USD Aggregate 1-5 Year Total Return Index) with a return of -9.32%. For 2022, the sub-fund ranked 13th out of 91 funds in its Global Emerging Markets Bond Morningstar category. Looking back at the year, the sub-fund navigated well amid what some believe was the worst bond market in modern times. The sub-fund's shorter than benchmark duration and underweight to Russian assets helped to outperform modestly in the first half of the year. Brights spots included our Fundamental core bond portfolio, which added roughly 25 bps above the benchmark due to limited Russian bond exposure, and Tactical trading, which added approximately 16 bps over the year. However, Relative Value positioning hurt the sub-fund by more than 40 bps as plays hoping for a China reopening from COVID suffered. Additionally, there were more than 20 bps in Special Situations markdowns related to distressed Chinese property exposure whose businesses and restructurings were impaired and delayed amid the country's blanket lockdown policy. As of December 31st, the sub-fund's largest geographic exposures were to the United States and India, where the sub-fund was overweight. Other top geographic exposure included China, where the sub-fund was significantly underweight. From an asset class perspective, the sub-fund maintained its overweight to corporate bonds and underweight to government bonds.

Credit Opportunities Fund

The Aperture Credit Opportunities sub-fund (Ticker: AICOIUC LX Equity) finished 2022 with a return of -1.08% net of fees, underperforming its benchmark return of 3.63%. For 2022, the sub-fund ranked 7th out of 30 funds in the Global Flexible Bond Morningstar category. The 2022 focus has been on the macro picture, especially the forward path of inflation and growth. The sense that a soft landing is more of a possibility was more salient towards the end of the year than it was perceived to be during the beginning of H2 2022. If this is the case, it would justify the continued strength in equities and credit. As of December 31st, the sub-fund had its largest exposures to Oil & Gas, Retail, Commercial Services and Banks. The US and UK combined comprised roughly 43% of the sub-fund's geographic exposure at year's end.

Endeavour Equity Fund

The Aperture Endeavour Equity sub-fund (Ticker: AENEIUA LX Equity) finished 2022 with a return of -16.11% net of fees, underperforming its benchmark return of -15.48%. For the year, the sub-fund ranked 32nd out of 98 funds in its Global Large-Cap Blend Equity Morningstar category. Returns of companies in 2022 had less to do with earnings and much more to do with sensitivity to duration (i.e. the Fed's fight against inflation and quantitative tightening). We expect this trend to reverse in 2023 and anticipate performance will be driven by differentiated earnings paths. As of December 2022, the sub-fund largest absolute sector exposures were to Financials, Communication Services, and Consumer Discretionary. On a relative basis, the sub-fund was overweight Financials, Materials, and Communication Services as of year-end. The sub-fund was in line with Energy and Utilities. The sub-fund's largest absolute geographic exposure was to the United States. The sub-fund was underweight relative to the benchmark in its exposure to the United States, and this was the case for most of the year.

European Innovation Fund

The Aperture European Innovation sub-fund, (Ticker: APEIIEA LX Equity) finished 2022 with a return of -16.30% net of fees, underperforming its benchmark return of -9.49%. For the year, the sub-fund ranked 88th out of 113 funds in its Europe Large-Cap Blend Morningstar category. Technology was the largest sector weight for the sub-fund at year end. Meanwhile, Food, Beverage & Tobacco as well as Healthcare were the sub-fund's largest sector underweights as of December 31st. At the geographic level, the sub-fund was particularly exposed to France on both an absolute and relative basis. Part of our process is being humble and learning what we could improve in an effort to achieve better outcomes, and this is particularly true during the periods of drawdowns. While we did well in the year in terms of our stock selection, we did not hold them at the right weighting. Going forward, our research and deep dive analysis will continue to inform our sizing as we believe that sizing plays an important role in the portfolio's potential for long term alpha generation. That said, we have also taken into consideration the potential benefits of a near term equal sizing awareness. We have noted the unfortunate timing of our conviction in Banks benefiting from an equal playing field vs their Fintech competition early in the year, given the rate environment. We were quick to react protecting to the downside on the week of the Ukraine invasion. Later in the year, we remained cautious, held back by the prospects of systemic risks and windfall taxes. This is another area where with hindsight, should we have kept an average sizing approach throughout the year, we may have potentially managed a similar downside capture but with a better upside one.

Short Duration High Yield Fund

The Aperture Short Duration High Yield sub-fund (Ticker: SHHYUXX LX Equity) finished 2022 with a return of -4.36% net of fees, outperforming its benchmark return (ICE BofAML 1-3 Year BB-B US Cash Pay High Yield Index (J1A4) (with EUR/hedged selections, expressed in EUR) at -4.72%. For 2022, the sub-fund ranked 4th out of 62 funds in its Global High Yield Bond Morningstar category. Q4 was the only positive quarter in 2022 for short duration bonds. We expect short-dated debt to perform well in 2023 though remain cautious of European short-dated debt as we feel that the European rate rise process is only about halfway to completion. The sub-fund ended the year with a weighted average current yield of 5.95%. At the sector level, the sub-fund's largest exposures were to Auto Manufacturers and Diversified Financial Services. The sub-fund's largest net exposure was to Ford Motor.

Small Cap Innovation Fund

The Aperture Small-Cap Innovation sub-fund (Ticker: APSCIYI LX Equity) returned -22.83% net of fees in 2022, underperforming the MSCI Europe Small Cap Net Total Return EUR Index which returned -22.50% over the same period. Our positioning going forward is evolving towards more balance and in favor of Cyclicals again. We are taking into consideration the potential for improvement in the business cycle should the inflation peak, as was hinted by the CPI numbers in November and December. In addition, we have also added exposure to sectors geared to China as the reopening of the economy is gathering momentum, such as Mining and Capital Goods. The sub-fund ended the year with the largest absolute and relative exposures in Industrial Goods and Services as well as Technology.

Discover Equity Fund

The Aperture Discover Equity sub-fund (Ticker: APSIIUA LX Equity), incepted July 20 2022, returned -4.35% net of fees in 2022, underperforming the Russell 2000 Total Return Index which returned -2.95% over the same period. We focus on companies within Consumer Discretionary, Information Technology, Industrials, and Materials sectors. In our experience, their business models more often experience dynamic positive change than those within Utility, Financial or Energy sectors, where the macro environment often dictates performance more so than idiosyncratic company specific drivers. We expect earnings performance to be the key determinant of stock price returns in 2023, a welcome change for our strategy relative to the highly correlated and factor driven rotational market of the past few years. The sub-fund ended the year with the largest absolute and relative exposures in Industrials and Consumer Discretionary.

To the Shareholders of Aperture Investors SICAV 49, avenue J.F. Kennedy L-1855 Luxembourg Grand Duchy of Luxembourg

REPORT OF THE REVISEUR D'ENTREPRISES AGREE

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Aperture Investors SICAV and each of its sub-funds ("the Fund"), which comprise the statement of net assets and the schedule of investments as at 31 December 2022 and the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Aperture Investors SICAV and each of its sub-funds as at 31 December 2022, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession ("Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the Commission de Surveillance du Secteur Financier ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the « Responsibilities of "réviseur d'entreprises agréé" for the Audit of the Financial Statements » section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

— Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to

those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Luxembourg, Date of the auditor's report

Short Duration High Yield Fund	EUR	November 17, 2020
Small Cap Innovation Fund	EUR	December 21, 2021
Discover Equity Fund	USD	July 20, 2022

2. Significant events

New prospectus were issued on January 3 2022, July 1 2022 and December 1 2022.

During the year Discover Equity Fund was launched on July 20, 2022.

The events happening in Russia and Ukraine require utmost attention and focus. Generali Investments Luxembourg S.A. ("GIL")'s Senior Management has established a dedicated "Operational Crisis Committee" composed by all relevant internal stakeholders (Risk Management/Valuation, Operations, Oversight of Delegates, Compliance etc.), in order to be prepared to manage any possible issue in case of further market deterioration.

GIL's Compliance Function monitors the new sanctions measures which have an impact on GIL's business: the EU, US, and UK have issued numerous sanctions against Russia and we may expect additional restrictive measures to be imposed in the near future, depending on the evolution of the Russian – Ukrainian conflicts.

The war in Ukraine impacted securities related to companies domiciled in, or linked to, Russia and/or listed on exchanges located in Russia, including the Moscow Exchange ("Russian Securities"). Funds under Generali Investments Luxembourg S.A. ("GIL") management have limited exposure to Ukrainian and Russian securities. The Board of Directors of the SICAV continuously monitors the situation in order to assess the impact on any Russian Securities held by the SICAV.

During the year ended December 31, 2022 the following share classes were launched:

Fund name	Share class	Share class currency	Launch date
Credit Opportunities Fund			
	Class RH	EUR	January 25, 2022
	Class DH	CHF	December 23, 2022
Discover Equity Fund

	Class I	USD	July 20, 2022
	Class IH	EUR	July 20, 2022
	Class I	EUR	September 9, 2022

During the year ended December 31, 2022 the following share classes were deactivated:

Fund Name	Share class	Share class currency	Close Date
Credit Opportunities Fund	Class IH GBP	GBP	May 23, 2022
Endeavour Equity Fund	Class R USD	USD	March 15, 2022
European Innovation Fund	Class RH USD	USD	March 15, 2022

3. Summary of significant accounting policies

Presentation of the financial statements

The SICAV's financial statements are prepared in accordance with the Luxembourg regulations relating to undertakings for collective investment in transferable securities. Portfolios were valued on the last market price available at the time the calculation was performed.

The financial statements of the SICAV have been prepared on a going concern basis. The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statements of each Sub-fund, converted in USD if relevant.

a) Securities portfolio

The value of financial assets listed on an official stock exchange or dealt in on another regulated market is determined according to their last available price, or, in the event that there should be several such markets, on the basis of the latest available price on the main market for the relevant asset.

In the event that the assets are neither listed on a stock exchange nor dealt in on another regulated market or if the price as determined above is not representative of the fair market value in the opinion of the Board of Directors of the SICAV, the value of such assets shall be assessed on the basis of their foreseeable sales prices estimated prudently and in good faith by the Board of Directors of the SICAV.

All investments with a known short-term maturity date are valued by using the amortised cost method. This involves valuing an investment at its cost and thereafter assuming a constant amortisation to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the investments. If the Board of Directors of the SICAV believes that a deviation from the amortised cost per share may result in material dilution or other unfair results to shareholders, the Board of Directors of the SICAV shall take such corrective action, if any, as they deem appropriate to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.

Units or shares issued by open-ended investment funds are valued at their last available net asset value per share/unit or in accordance with the below paragraph when such securities are listed.

Shares or units in exchange traded funds which are listed or quoted on a recognised securities exchange are determined according to their last available price.

b) Cash at bank

The value of any cash on hand is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

c) Broker Accounts

Cash deposited as initial margin and/or collateral linked to derivative transactions are recorded in the statement of net assets under the account "Other banks and broker accounts".

A receivable and/or a payable to brokers for the daily variation margin is also recorded in the Statement of Net Assets under the accounts "Other banks and broker accounts" and/or "Due to broker" respectively.

d) Conversion of items expressed in foreign currencies

The SICAV's financial statements are expressed in USD. Net assets of each sub-fund expressed in foreign currencies are therefore converted and combined in USD at the exchange rate in force at the close of the financial year.

Transactions and acquisition costs denominated in foreign currencies are converted into the accounting currency of each sub-fund based on the exchange rate in force on the date of the transaction or acquisition. Assets and liabilities denominated in foreign currencies are converted into the accounting currency of each sub-fund based on the exchange rate in force at the end of the financial year. Any resulting gains or losses are recognised in the Statement of Operations and Changes in Net Assets.

The exchange rates at the year-end were the following:

1 USD = 1.474600 AUD	1 USD = 5.279750 BRL	1 USD = 1.354950 CAD	1 USD = 0.925200 CHF
1 USD = 6.951700 CNH	1 USD = 22.632000 CZK	1 USD = 6.967850 DKK	1 USD = 24.75500 EGP
1 USD = 0.936988 EUR	1 USD = 0.831324 GBP	1 USD = 7.804950 HKD	1 USD = 375.216700 HUF
1 USD = 3.528500 ILS	1 USD = 131.945000 JPY	1 USD = 19.487250 MXN	1 USD = 9.851000 NOK
1 USD = 4.386250 PLN	1 USD = 10.419500 SEK	1 USD = 1.341200 SGD	1 USD = 18.719500 TRY
1 LISD = 30.735500 TWD	1 LISD = 17.015000.7 A.B.		

e) Dividend and interest income

Dividend income is accounted for on an ex-dividend basis, net of withholding tax. Interest income is recognised on an accrual basis, net of withholding tax.

Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. It is disclosed in the Statement of Operations and Changes in Net Assets as a positive sum under the income position "Interest on bonds/money markets instruments, net" and as a negative sum under the expense position "Interest on bonds/money markets instruments, net".

f) Allocation of costs and expenses

Specific costs and expenses are charged to each sub-fund. Non-specific costs and expenses are usually distributed between the sub-funds in proportion to their respective net assets.

g) Financial future contracts

Open financial future contracts are valued at their last known price on the valuation date or on the closing date. The unrealised appreciation or depreciation on financial futures is disclosed in the Schedule of Investments. Guarantee deposits and margin calls are recorded under the Statement of Net Assets under the headings "Other banks and broker accounts" and "Due to broker".

h) Forward foreign exchange contracts

Outstanding forward foreign exchange contracts are valued at the closing date by reference to the rate of exchange applicable to the outstanding life of the contract. The unrealised appreciation or depreciation on forward foreign exchange contracts is disclosed in the Schedule of Investments.

i) Option contracts

Listed option contracts traded on a regulated market are valued based on the closing price or the last available market price of the instruments. OTC option contracts are marked to market based upon prices obtained from third party pricing agents and verified against the value from the counterparty. The market value on option contracts is disclosed in the Schedule of Investments.

j) Credit default swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset or basket of assets, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. Upfront payments, which represent a risk premium, are amortised or accreted over the contract term. The credit default swaps are revalued at each net asset value calculation. The unrealised appreciation or depreciation on credit default swaps is disclosed in the Schedule of Investments.

k) Total return swaps

A total return swap is a bilateral agreement in which each party agrees to exchange payments based on the performance of an underlying instrument (security, commodity, index,..) thereof for a fixed or variable rate. The total performance includes gains and losses on the underlying, as well as any interest or dividend during the contract period according to the type of underlying. The total return swaps are revalued at each net asset value calculation. The unrealised appreciation or depreciation on total return swaps is disclosed in the Schedule of Investments.

1) Interest rate swap contracts

An Interest Rate Swap is a bilateral agreement in which each party agrees to exchange a series of interest payments for another series of interest payments on the basis of a notional amount serving as the basis of calculation that is generally not exchanged. The unrealised appreciation or depreciation on Interest rate swap contracts is disclosed in the Schedule of Investments.

m) Currency swap contracts

A currency swap is a bilateral agreement in which each party agrees to pay each other a fixed or floating interest rate, with one party making the payment in one currency and the other party making the payment in a different currency. One party receives a fixed/floating rate based on a Money market index of a currency, and pays to the counterparty a fixed/floating rate based on a Money market index of another currency. Generally it is designed in order to make the whole trade valued at 0 at inception.

It is valued using a discounted cash flow computation based on respective currencies IR curves, and cash flow schedule.

n) Contracts for difference

A contract for differences is an agreement between two parties to pay the other the change in the price of an underlying asset. Depending on which way the price moves, one party pays the other the difference from the time the contract was agreed to the point in time where it ends. The unrealised appreciation or depreciation on Contracts for difference is disclosed in the Schedule of Investments.

o) Swing pricing

In certain circumstances, subscriptions, redemptions, and conversions in a Sub-fund may have a negative impact on the Net Asset Value per Share. Where subscriptions, redemptions, and/or conversions in a Sub-fund cause the Sub-fund to buy and/or sell underlying investments, the value of these investments may be affected by bid/offer spreads, trading costs and related expenses including transaction charges, brokerage fees, and taxes.

This investment activity may have a negative impact on the Net Asset Value per Share called "dilution". In order to protect existing or remaining investors from the potential effect of dilution, the Fund may apply a "swing pricing" methodology which adjusts the Net Asset Value per Share to account for the aggregate costs of buying and/or selling underlying investments.

Swing pricing is a protection mechanism in case of subscriptions or redemptions that will prevent the dilution of the sub-fund's performance. The mechanism allocates trading costs to the investors subscribing or redeeming from the sub-fund which will prevent long term shareholders to bear these trading costs.

Swing pricing is not an additional charge to an investor but a mechanism that ensures that existing investors in the sub-fund do not bear costs linked to capital activity. The swing pricing mechanism can be applied either at every capital activity (full swing pricing) or when the capital activity is higher than a predefined threshold (partial swing pricing).

The Board of Directors of the APERTURE INVESTORS SICAV has decided to apply a partial swing pricing to all sub-funds of the SICAV: the process is triggered, and the net asset value ("NAV") is swung, only when the net capital activity exceeds a predefined threshold known as the swing threshold.

In case the swing pricing mechanism is applied, the NAV is swung by a factor which is determined by the Board of Directors of the SICAV.

Such factor is reviewed on a quarterly basis. In case of significant market events (such as a financial crisis), the swing factor may be revised at any time, but the maximum impact is capped to 2% of the sub-fund's NAV.

The fund administrator is responsible for the daily application of the swing factors based on the agreed thresholds at the sub-fund level. This process is automatic and no exceptions are permitted. Swing factors are applied by the fund administrator following receipt of the estimated net investor flows from the transfer agent. When accounting for swing pricing, the fund administration will record a single line adjusting entry into the books and records of the sub-fund, which will be reversed in the subsequent NAV computation day. The entry itself does not reflect any actual asset or liability of the sub-fund, rather it is an adjustment designed to capture the trading costs associated with a flow.

Swing pricing is evaluated and applied at sub-fund level, based on the net of all investor dealing; the same swing factor is applied to all share classes of the same sub-fund, and to all investors dealing within those share classes. No swing factor has been applied on the NAV of December 31, 2022 used for the financial statements.

p) Repurchase/reverse repurchase

Repurchase agreements consist of transactions governed by an agreement whereby a party sells securities or instruments to a counterparty, subject to a commitment to repurchase them, or substituted securities or instruments of the same description, from the counterparty at a specified price on a future date specified, or to be specified, by the transferor. Such transactions are commonly referred to as repurchase agreements ("Repo") for the party selling the securities or instruments, and reverse repurchase agreements ("Reverse Repo") for the counterparty buying them.

q) Formation expenses

The fees and expenses incurred in connection with the formation of the Fund are borne by the Fund and may be amortised over a period of up to five years. The formation expenses of each new Sub-fund are borne by such Sub-fund and may be amortised over a period of up to five years on straight line basis.

4. Determination of net asset value of shares

This report is presented on the basis of the latest net asset value calculated during the financial year (i.e. December 30, 2022).

The net asset value per share of each class of shares in each sub-fund is determined by dividing the value of the total net assets of that sub-fund properly allocable to such class by the total number of shares of such class outstanding on the valuation day.

Transaction costs

Transaction costs have been defined as broker commission fees, commission on futures contracts, market fees and taxes relating to purchase or sale of equity and investments in other funds. Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. Depositary based transaction costs are included in Depositary and administrative fees in the Statement of Operations and Changes in Net Assets. Transaction costs are recognised in the Statement of Operations and Changes in Net Assets as part of net realised gain/(loss) on investment securities.

For the year ended December 31, 2022 the following Sub-Funds incurred transaction costs related to purchase or sale of securities as follows:

Sub-Fund	Currency	Transaction costs
New World Opportunities Fund	USD	293,170
Credit Opportunities Fund	USD	32,213
Endeavour Equity Fund	USD	244,407
European Innovation Fund	EUR	2,150,945
Short Duration High Yield Fund	EUR	10,922
Small Cap Innovation Fund	EUR	516,391
Discover Equity Fund	USD	52,306

6. Taxe d'abonnement

The SICAV pays a subscription tax (taxe d'abonnement) of 0.05% per annum, such tax being payable quarterly and calculated on the aggregate net assets of the SICAV valued at the end of the relevant calendar quarter, unless a reduced tax rate of 0.01% per annum is applicable. Furthermore, some exemptions from subscription tax are available.

7. Management fees

As set out in the prospectus of the SICAV, the sub-funds pay a Variable Management Fee (VMF, also known as a fulcrum fee) by available Share Classes based on the performance of the Variable Share Class relative to that of a certain benchmark, as further described in the note 13. This VMF may be used to pay the Management Company for the portfolio management, the Investment Managers, investment advisors and/or any Global Distributor. The VMF minimum, corresponding to a fixed percentage of the NAV of the Sub-Funds (as detailed in the Note 13), is included in the "Management Fees" in the Statement of Operations and Changes in Net Assets. The Variable part is included in the "Variable Management fees" in the Statement of Operations and Changes in Net Assets. Please refer to the Prospectus of the SICAV for further details about the Variable Management Fees.

In addition to the above, the Management Company is entitled to receive an administrative fee for all its administrative activities at an annual rate of 0.08% of the net assets accrued on each valuation day and payable monthly in arrears.

8. Depositary and administrative fees

The depositary and the administrative agent are paid by the SICAV on the basis of business practice in Luxembourg. These fees are calculated on the basis of the daily net assets of the sub-funds and are payable quarterly in arrears at an annual rate of max. 0.05%.

9. Hedging fees

A currency passive overlay is performed on the currency hedged Share Classes, enabling the hedging of the currency risks against currency exchange fluctuations, when the Share Class currency is different from the reference currency of the Sub-fund. Where undertaken, the effects of this hedging are reflected in the Net Asset Value and, therefore, in the performance of the Share Class. Similarly, any expenses arising from such hedging transactions are borne by the relevant hedged Share Class. There is no assurance that these hedging strategies are successful.

The currency hedging is performed by State Street Bank International GmbH, Luxembourg Branch on the relevant hedged Share Classes.

10. Research fees

The Sub-Funds pay for the costs of research that the Investment Manager uses to provide its services by way of a research payment charge. The research payment charge is payable by the Sub-Funds into a research payment account ("RPA") maintained by the Investment Manager. The Investment Manager controls the research payment account and pays research providers for the research it consumes for that account.

The RPA will pay for investment research provided by brokers, or other research providers, selected by Aperture UK which will be utilised in the portfolio management decision process only in respect of the applicable Sub-funds. Such research charges shall be funded based on a budget for research payments based on an estimate of research costs that can be charged across all portfolios with similar strategies under management. The research budget will be reviewed regularly by Aperture UK and previously approved by the Board of Directors, at least annually. Information on the

budgeted amount for research (including any changes to the budget) will be made available to shareholders on the following website: https://apertureinvestors.com/intl/uk-regulatory-disclosure/. Estimated aggregate research charges and RPA policy will be made available to shareholders upon request. Aperture UK considers that access to research may be integral to the applicable Sub-funds' investment objectives and will aim to add significant value to investment decisions made on behalf of the applicable Sub-funds. Where the full research budget is not spent, this will either be returned to the Sub-fund or Sub-funds concerned or carried over and offset against research payments in future periods. Aperture UK, in consultation with and approval by, the Management Company, will take reasonable steps to ensure that the rebate or offset is fairly allocated between clients. This is applicable only for the following sub-funds managed by Aperture Investors UK, such as Credit Opportunities Fund, European Innovation Fund, Short Duration High Yield Fund and Small Cap Innovation Fund.

Research fees are reflected in the Statement of Operations and Charges in Net Assets under the heading "Research fees".

11. Investments in related parties

When the SICAV invests in the shares/units of other UCITS and/or other UCIs that are managed, directly or by delegation, by the same Management Company or by any other company to which the Management Company is linked by common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes, that Management Company or other company may not charge any management fee nor any subscription or redemption fees on account of the SICAV's investment in the shares/units of other UCITS and/or other UCIs.

12. Changes in portfolio composition

The details of the changes in portfolio composition for the year ended December 31, 2022, are at the disposal of the shareholders at the registered office of the SICAV and are available upon request free of charge.

13. Variable Management Fees

As set out in the prospectus of the SICAV, the Fund pay a variable management fee (the Variable Management Fee or VMF) (also known as a fulcrum fee) by available Share Classes based on the performance of the Variable Share Class relative to that of a certain benchmark. This VMF may be used to pay the Management Company for the portfolio management, the Investment Managers, investment advisors and/or any Global Distributor. The Investment Manager is entitled to a variable management fee ("VMF"), which is calculated and accrued daily. The VMF Minimum portion of the VMF will be calculated and accrued daily based on the Sub-fund's Net Asset Value, and classified under the caption "Management fees". The rest of the VMF amount, if any, will be calculated and accrued daily based on the Sub-fund's daily Modified Net Assets, adjusted upward or downward by a performance adjustment (the "Performance Adjustment") that depends on whether, and to what extent, the performance of the Sub-fund exceeds, or is exceeded by, the performance of the Benchmark over the Performance Period. The Sub-fund could pay a Performance Adjustment for positive relative performance even if the Sub-fund decreases in value, so long as the performance of the Sub-fund exceeds that of the VMF Midpoint Hurdle.

The Variable management fees are calculated as follows:

APERTURE INVESTORS SICAV	Share class	VMF (minimum)	VMF (maximum)	Mechanism	Performance Benchmark	Performance Period
New World Opportunities Fund	class A, I, R, D, E ¹	0.40%	2.65%	Variable Management Fee (fulcrum fee)	Bloomberg Barclays EM USD Aggregate 1-5 Year Total Return Index +3.75%	Calendar year
	class X ²	N/A	N/A	N/A	N/A	N/A

	class X ²	N/A	N/A	N/A	N/A	N/A

¹The class A was not active during 2022.

In addition to the above, the performance of the various sub-funds is assessed on a three years period and, starting from the third Performance Period, a portion of the variable management fee paid over this period may be or may not be refunded at the end of each Variable Management Fee Period in the corresponding sub-fund if the cumulative fund return does not exceed the cumulative benchmark return over the period ("clawback rebate mechanism"). This refund must be determined by the Investment Manager and validated by the Management Company.

For the year from January 1, 2022 to December 31, 2022 the variable management fees charged per share class were:

APERTURE INVESTORS SICAV	Class	Base currency of the sub-funds	Amount in base currency of the sub-funds	% of net assets*
	Class R (dis)	USD	106	0.00
	Class I (acc)	USD	41	0.01
New World Opportunities Fund	Class IH (acc)	USD	2,035	0.01

	Class RH (acc)	USD	60	0.00
Short Duration High Yield Fund	Class A (dis)	EUR	122,463	0.03

 $[\]boldsymbol{*}$ Percentage of the amount / Total net asset value of the class as at year end.

14. Income equalisation

For tax and accounting purposes, and to avoid any dilution in respect of Distribution Shares, the Fund uses an accounting practice known as equalisation, by which a portion of the Subscription Price or Redemption Price, equivalent on a per Share basis to the amount of undistributed earnings of the Share Class on the subscription day or redemption day, is credited or charged to undistributed earnings of such Share Class. As a result, undistributed earnings per Share are unaffected by subscriptions or redemptions of Shares on any subscription day or redemption day.

The equalisation values are included in the Subscriptions and Redemptions in the Statements of Operations and Changes in Net Assets.

²Share class only available to Individuals (as defined in prospectus) for the purpose of the re-investment by the Fund of the Deferred Amount with respect to the crystallized Performance Fee or VMF, as applicable, in case of clawback rebate.

³The classes A, R were not active during 2022.

⁴The classes R, E were not active during 2022.

15. Cash Collateral

The table below provides the cash collateral balances received/paid as at December 31, 2022. The cash collateral paid is included in the statement of net assets under "Other banks and broker accounts".

APERTURE INVESTORS SICAV	Sub-fund currency	Counterparty	Type of collateral	Collateral amount received (in sub-fund currency)*	Collateral amount paid (in sub-fund currency)

^{*} These collaterals are off balance sheet.

16. Stock Collateral

The table below provides the stock collateral information as at December 31, 2022. The stock collateral given is included in the statement of net assets under "Investments in securities at market value".

Sub-funds	Sub-fund currency	Type of collateral	Counterparty	Market Value of Stock collateral given (in sub-fund currency)
New World Opportunities Fund	USD	Bond	J.P. MORGAN	435,024
Endeavour Equity Fund	USD	Bond	J.P. MORGAN	162,190
Small Cap Innovation Fund	EUR	Bond	MORGAN STANLEY	13,458,203

17. Dividend Distributions

On February 9, 2022 the Board of Directors of the SICAV has decided to pay a dividend with an ex-dividend date on February 11, 2022 and the payment on February 16, 2022. The amount was as follows:

APERTURE INVESTORS SICAV	Currency	Unitary dividend	Share class
Credit Opportunities Fund	EUR	1.79	Class AH EUR
Credit Opportunities Fund	EUR	1.84	Class IH EUR
Endeavour Equity Fund	EUR	7.27	Class I EUR
Endeavour Equity Fund	EUR	7.21	Class IH EUR
European Innovation Fund	EUR	6.68	Class I EUR
European Innovation Fund	EUR	6.65	Class R EUR
New World Opportunities Fund	EUR	1.30	Class IH EUR
New World Opportunities Fund	USD	1.34	Class R USD
Short Duration High Yield Fund	EUR	0.34	Class A EUR

On April 22, 2022 the Board of Directors of the SICAV has decided to pay a dividend with an ex-dividend date on May 4, 2022 and the payment on May 10, 2022. The amount was as follows:

APERTURE INVESTORS SICAV	Currency	Unitary dividend	Share class
Credit Opportunities Fund	EUR	0.75	Class AH EUR
Credit Opportunities Fund	EUR	0.77	Class IH EUR
Credit Opportunities Fund	EUR	0.47	Class EH EUR
European Innovation Fund	EUR	0.25	Class I EUR
European Innovation Fund	EUR	0.26	Class R EUR
New World Opportunities Fund	EUR	0.70	Class IH EUR
New World Opportunities Fund	USD	0.52	Class R USD
Short Duration High Yield Fund	EUR	0.75	Class A EUR

On July 22, 2022 the Board of Directors of the SICAV has decided to pay a dividend with an ex-dividend date on August 1, 2022 and the payment on August 4, 2022. The amount was as follows:

APERTURE INVESTORS SICAV	Currency	Unitary dividend	Share class
Credit Opportunities Fund	EUR	0.67	Class AH EUR
Credit Opportunities Fund	EUR	0.69	Class IH EUR
Credit Opportunities Fund	EUR	0.41	Class EH EUR
European Innovation Fund	EUR	1.25	Class I EUR
European Innovation Fund	EUR	1.17	Class R EUR
New World Opportunities Fund	EUR	0.74	Class IH EUR
New World Opportunities Fund	USD	1.08	Class R USD
Short Duration High Yield Fund	EUR	1.79	Class A EUR

On October 14, 2022 the Board of Directors of the SICAV has decided to pay a dividend with an ex-dividend date on October 26, 2022 and the payment on October 31, 2022. The amount was as follows:

APERTURE INVESTORS SICAV	Currency	Unitary dividend	Share class
Credit Opportunities Fund	EUR	0.30	Class AH EUR
Credit Opportunities Fund	EUR	0.30	Class IH EUR
Credit Opportunities Fund	EUR	0.04	Class EH EUR
European Innovation Fund	EUR	0.20	Class I EUR
European Innovation Fund	EUR	0.18	Class R EUR
New World Opportunities Fund	EUR	0.78	Class IH EUR
New World Opportunities Fund	USD	0.76	Class R USD
Short Duration High Yield Fund	EUR	1.26	Class A EUR

18. Subsequent events

Mr Pierre Bouchoms resigned as director of Aperture Investors Sicav, effective as of February 15, 2023.

A new sub-fund ("Merging Debt Opportunities Fund") was launched on February 28, 2023.

Additional Information (unaudited)

1. Securities Financing Transactions and of Reuse Regulation (SFTR)

The Regulation (EU) 2015/2365 on transparency of securities financing transactions and of reuse "SFTR" ("Regulation") was published in the Official Journal of the European Union on December 23, 2015 and entered into force on January 12, 2016.

Its purpose is to enhance transparency on the market (i) of securities financing transactions (i.e. mainly securities or commodities lending or borrowing, repurchase and reverse repurchase agreements as well as lending margin transaction) ("SFT") and (ii) of the reuse of financial instruments.

a) Global data

As at December 31, 2022 the assets engaged in Total return swaps ("TRS") as an absolute value and as a proportion of NAV were as follows:

APERTURE INVESTORS SICAV	Assets engaged in absolute terms	Assets engaged
	(in sub-fund currency)	(NAV %)
Credit Opportunities Fund	635,345	0.07%

b) Aggregate transaction data

As at December 31, 2022, the cash collateral paid/received for TRS is detailed in the below table:

APERTURE INVESTORS SICAV	Sub-fund currency	Collateral received*	Collateral paid*
Credit Opportunities Fund	USD	-	21,102,982

^{*} The above collateral amount is used to reduce exposure of several type of derivative instruments, including TRS.

All TRS have the following maturity tenor as detailed in the below table:

APERTURE INVESTORS SICAV	Sub-fund	One month to	Three months	Above one	Total
	currency	three months	to one year	year	
Credit Opportunities Fund	USD	635,345	-	-	635,345

c) Data on reuse of collateral

There was no reuse of cash collateral related to TRS.

d) Safekeeping of collateral received

There is no collateral received by the sub-fund Credit Opportunities for TRS as at December 31, 2022.

e) Safekeeping of collateral paid

The cash collateral paid for TRS as at December 31, 2022 was held at Goldman Sachs, Morgan Stanley and Merrill Lynch for Credit Opportunities Fund.

f) Data on return and cost for each type of SFTs

For TRS held by the sub-fund Credit Opportunities Fund, the return, identified as the net realised profit/(loss), movement in net unrealised appreciation/(depreciation), and interest received on TRS during the year, was USD (1,821,708). The cost, identified as interest paid on TRS during the year, was USD (775,071).

2. Global Exposure calculation method

The global exposure of the sub-funds is calculated in accordance with the provisions of the CSSF Circular 11/512.

The sub-fund New World Opportunities Fund uses the absolute Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 6.75%

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations

- Confidence level: 99%
- Holding period: 20 days
- Length of data history: 2 years of data

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 0.89%
- Highest utilisation: 6.02%
- Average utilisation: 1.82%

The average level of leverage calculated using the sum of notionals approach was 82.68%.

The sub-fund Credit Opportunities Fund uses the absolute Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 3.30%

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations

- Confidence level: 99%
- Holding period: 20 days
- Length of data history: 2 years of data

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 0.68%
- Highest utilisation: 1.47%
- Average utilisation: 1.05%

The average level of leverage calculated using the sum of notionals approach was 129.60%.

The sub-fund Endeavour Equity Fund uses the absolute Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 12.00%

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations
- Confidence level: 99%
- Holding period: 20 days
- Length of data history: 2 years of data

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 7.35%
- Highest utilisation: 14.82%
- Average utilisation: 10.10%

The average level of leverage calculated using the sum of notionals approach was 131.10%.

The sub-fund European Innovation Fund uses the relative Value at Risk (VaR) approach in order to monitor and measure the global exposure.

2 years of data

The limit was set at 150.00%

- Length of data history:

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations
- Confidence level: 99%
- Holding period: 20 days

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 89.29%
- Highest utilisation: 118.58%
- Average utilisation: 103.74%

The average level of leverage calculated using the sum of notionals approach was 21.04%.

The sub-fund Short Duration High Yield Fund uses the relative Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 180.00%

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations

- Confidence level: 99%
- Holding period: 20 days
- Length of data history: 2 years of data

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 16.75% - Highest utilisation: 64.46% - Average utilisation: 39.02%

The average level of leverage calculated using the sum of notionals approach was 128.76%.

The sub-fund Small Cap Innovation Fund uses the relative Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 175.00%

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations

- Confidence level: 99%
- Holding period: 20 days
- Length of data history: 2 years of data

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 0.00%
- Highest utilisation: 256.58%
- Average utilisation: 89.94%

The average level of leverage calculated using the sum of notionals approach was 30.57%.

The sub-fund Discover Equity Fund uses the relative Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 165.00%

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations

- Confidence level: 99%
- Holding period: 20 days
- Length of data history: 2 years of data
- Lowest utilisation: 118.09%
- Highest utilisation: 153.02%
- Average utilisation: 126.21%

The average level of leverage calculated using the sum of notionals approach was 17.68%.

3. Sustainable Finance Disclosure Regulation (SFDR)

Starting from 10 March 2021, in accordance with the Regulation (EU) 2019/2088 (Sustainable Finance Disclosure Regulation), the Company amended its Sustainability Policy describing the financial instrument selection and monitoring methodologies adopted by the Company in order to include the Sustainability risk analysis as part of its decision-making process on investments relating to collective asset management services.

New World Opportunities Fund

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Credit Opportunities Fund

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Endeavour Equity Fund

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

European Innovation Fund

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Short Duration High Yield Fund

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Small Cap Innovation Fund

The methodologies used to assess, measure and monitor the environmental or social characteristics:

The sub-fund is subject to Article 8 under SFDR. As part of the bottom-up analysis, the Sub-fund aims to integrate the analysis of potential risks derived from certain ESG considerations in its research process in evaluating the attractiveness of the company as an investment. The ESG risk rating criteria will always be determined by the Investment Manager and may include one or more of the following factors by way of example: a) Environment: Carbon Emissions, Resource Use, Pollution and Waste, b) Social: Human Capital, Product Liabilities, Supply Chain, c) Governance: Ownership and Control, Board, Business Ethics and Remuneration, d) Controversies such as Toxic Emissions, Privacy & Data Security, Discrimination, Impact on Local Communities, Health & Safety, Bribery, etc. We expect that over time the criteria used to assess ESG risks will change and the aforementioned examples may change in practice.

In addition, the Investment Manager is adopting (1) a negative screening policy in the form of an exclusionary list and (2) when exercising its proxy voting rights doing so in a manner that generally promotes good governance and advances sustainability issues. The specific list of exclusion criteria may be updated from time to time, but will include some or all of the following items: Controversial weapons; Fossil fuels, including thermal coal, oil sands; Nuclear power generation; Tobacco; and Palm oil.

Discover Equity Fund

Extent to which environmental or social characteristics are met:

The sub-fund is subject to Article 8 under SFDR. The average ESG score of the portfolio will be higher than the average rating of the MSCI Europe Small Cap Net TR EUR Index (benchmark). ESG analysis will be applied to at least 90% of the portfolio.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Small Cap Innovation Fund Legal entity identifier: 391200WHXE9VVLVSJY28

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?				
Yes	● ○ 🗶 No			
It made sustainable investments with an environmental objective:% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of			
It made sustainable investments with a social objective:%	X It promoted E/S characteristics, but did not make any sustainable investments			

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation

That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-fund were met.

1) Exclusionary screen: Firm-wide exclusionary screen: The Sub-fund incorporates a firm-wide ESG exclusionary screen which looks to exclude businesses with any revenue exposure to the following activities: Production of controversial weapons and country exclusions based on international sanctions.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Fund-specific exclusionary screen: In addition to the firm-wide exclusionary screen, the Subfund also applies further exclusions in adherence with the class C criteria set forth in the Investment Manager's ESG policy. This includes exclusions relating to the following activities: thermal coal (20% revenue threshold), oil sands (20% revenue threshold), nuclear power generation (30% revenue threshold), tobacco production (0% revenue threshold), and palm oil (10% revenue threshold). In the event that a portfolio manager wishes to challenge any existing or potential investments with issuers that are included on the class C exclusionary screen, the investment team will investigate the reasoning and if an investment is still warranted, the rationale will be brought to the Investment Manager's ESG committee for assessment .

The exclusionary screen applies exclusively to long direct positions, and indirect positions in single name issuers and investment products that contain underlying securities, over which the Investment Manager has full investment discretion (i.e. it does not apply to equity indices, ETFs, etc.), provided, however, that an Investment Manager is permitted to take short positions in issuers included on the exclusionary list.

2) Proxy voting: An Investment Manager must have in place and apply at all times policies and procedures in respect of proxy voting that, in general terms, prioritise sustainability concerns and seek to advance sustainability goals, such as advocating for stewardship of environment, fair labour practices, non-discrimination, the protection of human rights and advancing principles of good corporate governance. The Investment Managers will generally engage a third-party provider in respect of proxy voting services, although they may deviate from the third-party provider's recommendations in accordance with their proxy voting policies and procedures if they determine that doing so would be in the best interest of investors.

The Sub-fund adheres to the ISS 'sustainability proxy voting guidelines' to determine how to vote proxies. Any deviations require prior approval from the Chief Compliance Officer of the Investment Manager. Out of the number of items voted over a 12 month period, the Subfund will vote a minimum of 67% in accordance with the sustainability guidelines.

3) ESG Score: The average ESG score of the portfolio will be better than the average rating of the MSCI Europe Small Cap Net TR EUR Index. ESG analysis will be applied to at least 90% of the portfolio.

The ESG data (especially when provided by third-party providers) may be incomplete, inaccurate, or unavailable and as a result, there is a risk to incorrectly assess the ESG score of a security or issuer, which constitutes a methodological limit. The ESG score of the Subfund's portfolio is monitored in a dashboard by the relevant Investment Manager on an ongoing basis and compared against the average ESG rating of the MSCI Europe Small Cap Net TR EUR Index.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of the environmental and social characteristics promoted are the following:

1) Exclusionary screen: The percentage of direct holdings in securities and indirect holdings exposed to a single underlying issuer that are on the exclusionary list as result of the application of the Investment Manager's ESG policy.

Such investments have been successfully excluded in line with the description provided in the immediately preceding response.

2) Proxy voting: The percentage of cast votes in the trailing 12 months in accordance with the ISS 'sustainability proxy voting guidelines'.

Out of the number of items voted in 2022, the Sub-fund voted 100% in accordance with the sustainability guidelines, successfully surpassing the minimum threshold of 67%.

3) ESG Score: The percentage by which the Sub-fund's average ESG score is better than the ESG score of the MSCI Europe Small Cap Net TR EUR Index as referred to above.

In 2022, the Sub-fund's average ESG score was 7.73% better than the average ESG score of the MSCI Europe Small Cap Net TR EUR Index.

...and compared to previous periods?

As this is our first reporting period, this question is not applicable.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Sub-fund did not commit to making sustainable investments. Therefore, this question is not applicable for the Sub-fund.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?
This question is not applicable for the Sub-fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-fund did not consider principal adverse impacts in 2022.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01/01/2022 – 31/12/2022

Largest investments	Sector	% Assets	Country
ITALGAS SPA	Utilities	3.50%	Italy
BANCO BPM SPA	Financials	3.40%	Italy
GURIT HOLDING AG-BR	Materials	2.90%	Switzerland
TRELLEBORG AB-B SHS	Industrials	2.70%	Sweden
ALBIOMA SA	Utilities	2.50%	France
ELEKTA AB-B SHS	Health Care	2.50%	Sweden
BELYSSE GROUP NV	Consumer Discretionary	2.50%	Belgium

SESA SPA	Information Technology	2.40%	Italy
NEXANS SA	Industrials	2.40%	France
ASSYSTEM	Industrials	2.30%	France
SINCH AB	Information Technology	2.30%	Sweden
GFT TECHNOLOGIES SE	Information Technology	2.30%	Germany
ORPEA	Health Care	2.10%	France
SPIRENT COMMUNICATIONS PLC	Information Technology	2.10%	United Kingdom
DESENIO GROUP AB	Consumer Discretionary	2.10%	Sweden

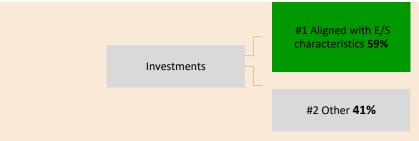

What was the proportion of sustainability-related investments?

N/A

What was the asset allocation?

59% (based on NAV) of the Sub-fund's investments aligned with E/S characteristics.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

Information Technology	18%
Industrials	11%
Financials	7%
Communication Services	4%
Energy	4%
Materials	4%
Utilities	4%
Consumer Discretionary	3%
Health Care	1%
Real Estate	1%

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- Taxonomy-aligned activities are expressed as a share of:
- turnover reflects the "greenness" of investee companies today.
- capital
 expenditure
 (CapEx) shows the
 green investments
 made by investee
 companies,
 relevant for a
 transition to a
 green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable since the Sub-fund does not make sustainable investments. The Sub-fund does not take into account the EU Taxonomy for environmentally sustainable economic activities. Taxonomy alignment of the Sub-fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Sub-fund's portfolio.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

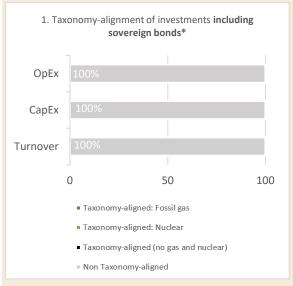

Yes:

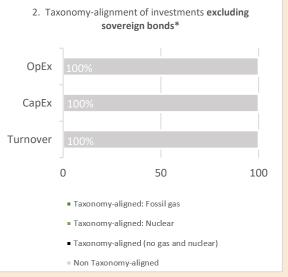

In fossil gas

In nuclear energy

X No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of investments made in transitional and enabling activities?

N/A

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Sub-fund did not commit to making sustainable investments, this question is not applicable for the Sub-fund.

What was the share of socially sustainable investments?

As the Sub-fund did not commit to making sustainable investments, this question is not applicable for the Sub-fund.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

"Other" includes investments for (i) general investment purposes or hedging purposes, which will comprise indices, ETFs, short positions, baskets of equity securities, and foreign exchange swaps (note that (x) exposure to the foregoing may be obtained using derivative instruments and (y) each of these instruments could either be used for investment purposes or for hedging purposes), or (ii) collateral and liquidity management purposes, which will comprise liquidities (such as, among others, bank deposits, money market UCIs and Money Market Instruments). These investments will not be aligned with the E/S characteristics promoted by the Sub-fund. The investments may also comprise Ancillary Liquid Assets pursuant to the investment restrictions set out in the general part of the Prospectus, which includes the Propsectus Supplement of the Sub-Fund. No minimum environmental or social safeguards were applied. However, ESG risk was considered in the due diligence process conducted before any new investment was made.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As mentioned above, the environmental and/or social characteristics promoted by the Sub-fund were met.

For the exclusionary screen, the Investment Manager uses a recognized third-party service provider to identify companies that are included in the exclusionary lists. In the event that an issuer is added to an exclusion list, the relevant portfolio managers will initiate the sale of related positions held in an orderly manner over a reasonable period of time. Each portfolio manager will use reasonable efforts to exclude issuers that should be excluded based on the exclusion screen policy and procedures, even if such issuers do not appear on the list generated by the third-party service provider. The exclusionary screen is hardcoded into each Investment Manager's Order Management System (OMS) and gets updated on a semi-annual basis.

For proxy voting, the Sub-fund adheres to the ISS 'sustainability proxy voting guidelines' to determine how to vote proxies. Any deviations require prior approval from the Chief Compliance Officer of the Investment Manager.

For the ESG score, the Sub-fund analyzes a company's ESG position by reviewing third-party data from MSCI and Sustainalytics as well as the team's fundamental research. The Sub-fund will use the ESG scores from MSCI and Sustainalytics to formulate an ESG score for the portfolio, but will adjust the ESG scores from MSCI and Sustainalytics for a company if evidence indicates any key issues are inappropriately reflected. The Investment Manager for the Sub-fund will also create a proprietary score if there is no coverage from MSCI or Sustainalytics, by identifying several key ESG issues for the relevant company sourced from public data. This reflects the team's view that a realistic picture of the ESG issues is best grasped by using multiple sources of information

The Sub-fund monitors the scores in a dashboard on an ongoing basis and compares them against the average ESG rating of the MSCI Europe Small Cap Net TR EUR Index.

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

How does the reference benchmark differ from a broad market index?

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote. How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark?
 N/A
- How did this financial product perform compared with the broad market index?
 N/A

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Discover Equity Fund Legal entity identifier: 391200SK8U1A8DGU5B92

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?			
Yes	● ○ 🗶 No		
It made sustainable investments with an environmental objective:% in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of% of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective		
It made sustainable investments with a social objective:%	X It promoted E/S characteristics, but did not make any sustainable investments		

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Sustainable

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities.

That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Sub-fund were met.

1) Exclusionary screen: Firm-wide exclusionary screen: The Sub-fund incorporates a firm-wide ESG exclusionary screen which looks to exclude businesses with any revenue exposure to the following activities: Production of controversial weapons and country exclusions based on international sanctions.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Fund-specific exclusionary screen: In addition to the firm-wide exclusionary screen, the Subfund also applies further exclusions in adherence with the class C criteria set forth in the Investment Manager's ESG policy. This includes exclusions relating to the following activities: thermal coal (20% revenue threshold), oil sands (20% revenue threshold), nuclear power generation (30% revenue threshold), tobacco production (0% revenue threshold), and palm oil (10% revenue threshold). In the event that a portfolio manager wishes to challenge any existing or potential investments with issuers that are included on the class C exclusionary screen, the investment team will investigate the reasoning and if an investment is still warranted, the rationale will be brought to the Investment Manager's ESG committee for assessment .

The exclusionary screen applies exclusively to long direct positions, and indirect positions in single name issuers and investment products that contain underlying securities, over which the Investment Manager has full investment discretion (i.e. it does not apply to equity indices, ETFs, etc.), provided, however, that an Investment Manager is permitted to take short positions in issuers included on the exclusionary list.

2) Proxy voting: An Investment Manager must have in place and apply at all times policies and procedures in respect of proxy voting that, in general terms, prioritise sustainability concerns and seek to advance sustainability goals, such as advocating for stewardship of environment, fair labour practices, non-discrimination, the protection of human rights and advancing principles of good corporate governance. The Investment Managers will generally engage a third-party provider in respect of proxy voting services, although they may deviate from the third-party provider's recommendations in accordance with their proxy voting policies and procedures if they determine that doing so would be in the best interest of investors.

The Sub-fund adheres to the ISS 'sustainability proxy voting guidelines' to determine how to vote proxies. Any deviations require prior approval from the Chief Compliance Officer of the Investment Manager. Out of the number of items voted over a 12 month period, the Subfund will vote a minimum of 67% in accordance with the sustainability guidelines.

How did the sustainability indicators perform?

The sustainability indicators used to measure the attainment of the environmental and social characteristics promoted are the following:

1) Exclusionary screen: The percentage of direct holdings in securities and indirect holdings exposed to a single underlying issuer that are on the exclusionary list as result of the application of the Investment Manager's ESG policy.

Such investments have been successfully excluded in line with the description provided in the immediately preceding response.

2) Proxy voting: The percentage of cast votes in the trailing 12 months in accordance with the ISS 'sustainability proxy voting guidelines'.

The Sub-fund launched in July 2022 and therefore a trailing 12 month overview is not available.

...and compared to previous periods?

As this is our first reporting period, this question is not applicable.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Sub-fund did not commit to making sustainable investments. Therefore, this question is not applicable for the Sub-fund.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This question is not applicable for the Sub-fund.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-fund did not consider principal adverse impacts in 2022.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 13/07/2022 – 31/12/2022

Largest investments	Sector	% Assets	Country
INGEVITY CORP	Materials	6.20%	US
MONTROSE ENVIRONMENTAL GROUP	Industrials	6.10%	US
DOUBLEVERIFY HOLDINGS INC	Information Technology	5.90%	US
SKYLINE CHAMPION CORP	Consumer Discretionary	5.80%	US
WESCO INTERNATIONAL INC	Industrials	5.40%	US
VAIL RESORTS INC	Consumer Discretionary	4.60%	US
PROGYNY INC	Health Care	4.50%	US
SPROUT SOCIAL INC - CLASS A	Industrials	4.50%	US
DRIVEN BRANDS HOLDINGS INC	Information Technology	4.50%	US
TRAVEL + LEISURE CO	Consumer Discretionary	4.40%	US
ATKORE INC	Industrials	4.20%	US
MALIBU BOATS INC - A	Consumer Discretionary	4.10%	US
DESCARTES SYSTEMS GRP/THE	Information Technology	4.10%	Canada

RH US EQUITY CFD	Consumer Discretionary	4.10%	US

Asset allocation describes the share of investments in specific assets.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

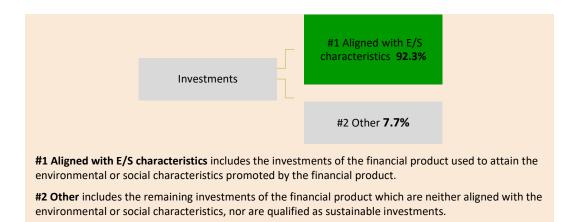

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the proportion of sustainability-related investments?

N/A

What was the asset allocation?

92.3% (based on NAV) of the Sub-fund's investments aligned with E/S characteristics.

In which economic sectors were the investments made?

Industrials	34%
Consumer Discretionary	27%
Information Technology	17%
Health Care	7%
Materials	6%
Communication Services	3%
Others	6%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable since the Sub-fund does not make sustainable investments. The Sub-fund does not take into account the EU Taxonomy for environmentally sustainable economic activities. Taxonomy alignment of the Sub-fund's investments has therefore not been calculated and has as a result been deemed to constitute 0% of the Sub-fund's portfolio.

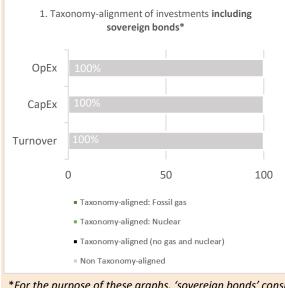

Taxonomy-aligned activities are expressed as a share of:

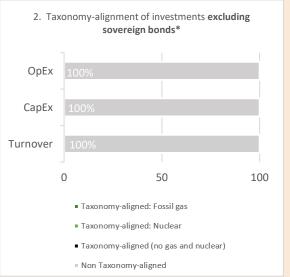

- turnover reflects the "greenness" of investee companies today.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational expenditure (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes: In fossil gas In nuclear energy X No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

N/A

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

N/A

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

As the Sub-fund did not commit to making sustainable investments, this question is not applicable for the Sub-fund.

What was the share of socially sustainable investments?

As the Sub-fund did not commit to making sustainable investments, this question is not applicable for the Sub-fund.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

"Other" includes investments for (i) general investment purposes or hedging purposes, which will comprise indices, ETFs, short positions, baskets of equity securities, and foreign exchange swaps (note that (x) exposure to the foregoing may be obtained using derivative instruments and (y) each of these instruments could either be used for investment purposes or for hedging purposes), or (ii) collateral and liquidity management purposes, which will comprise liquidities (such as, among others, bank deposits, money market UCIs and Money Market Instruments). These investments will not be aligned with the E/S characteristics promoted by the Sub-fund. The investments may also comprise Ancillary Liquid Assets pursuant to the investment restrictions set out in the general part of the Prospectus, which includes the Propsectus Supplement of the Sub-Fund. No minimum environmental or social safeguards were applied. However, ESG risk was considered in the due diligence process conducted before any new investment was made.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

As mentioned above, the environmental and/or social characteristics promoted by the Sub-fund were met.

For the exclusionary screen, the Investment Manager uses a recognized third-party service provider to identify companies that are included in the exclusionary lists. In the event that an issuer is added to an exclusion list, the relevant portfolio managers will initiate the sale of related positions held in an orderly manner over a reasonable period of time. Each portfolio manager will use reasonable efforts to exclude issuers that should be excluded based on the exclusion screen policy and procedures, even if such issuers do not appear on the list generated by the third-

party service provider. The exclusionary screen is hardcoded into each Investment Manager's Order Management System (OMS) and gets updated on a semi-annual basis.

For proxy voting, the Sub-fund adheres to the ISS 'sustainability proxy voting guidelines' to determine how to vote proxies. Any deviations require prior approval from the Chief Compliance Officer of the Investment Manager

How did this financial product perform compared to the reference benchmark?

No index was designated as a reference benchmark for the purpose of attaining the environmental or social characteristics promoted by the Fund.

How does the reference benchmark differ from a broad market index?

N/A

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

N/A

- How did this financial product perform compared with the reference benchmark?
 N/A
- How did this financial product perform compared with the broad market index?
 N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
