Objectives and investment policy

The compartment PWM Funds - Global Corporate Defensive is to provide capital growth over the mid to long term with a moderate volatility. The Compartment will mainly offer an exposure corporate debt securities (including money market instruments) of any type.

The Sub-Fund is actively managed. The index Bloomberg Barclays Global Aggregate Corporate 1-10Y benchmark (BPLCTRUH Index) is only used for the calculation of the relative VAR and for comparison purpose. The Sub-Fund does not intend to track the index and can deviate significantly or entirely from the index.

In order to achieve its objective, the Compartment will mainly invest directly in the securities mentioned in the previous paragraph; in UCITS and/or other UCIs (limited to 10% of the net assets of the Compartment), having as main objective to invest or grant an exposure to the above-mentioned securities; in any transferable securities (such as structured products, as described below) linked (or offering an exposure) to the performance of the above-mentioned securities.

On an ancillary basis, the Compartment may invest in debt securities other than those above-mentioned, and may also invest in structured products other than those above-mentioned, and may invest in cash.

It is understood that the Compartment may invest in non-investment grade debt securities and non-rated debt securities up to 40% of its net assets; the Compartment may invest indirectly in asset-backed securities and mortgage backed securities up to 20% of its net assets; the Compartment may invest in convertible bonds of any type (including contingent convertible bonds) up to 20% of its net assets. the expected average credit rating of the Compartment's portfolio will be BBB- (S&P notation) or an equivalent credit rating from other recognized credit rating agencies; investments in emerging countries will be limited to 45% of the net assets of the Compartment.

Investments in China may be performed, inter alia, on the China Interbank Bond Market ("CIBM"). Investments in China may also be performed on any acceptable securities trading and clearing linked programs or access instruments which may be available to the Compartment in the future. These investments will not exceed 10% of the Compartment's net assets.

The Compartment may invest up to 10% of its net assets in structured products. In compliance with the Grand-Ducal Regulation of 8 February 2008, the Compartment may also invest in structured products without embedded derivatives, correlated with changes in commodities (including precious metals) with cash settlement. Those investments may not be used to elude the investment policy of the Compartment.

Risk and reward profile

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.

- The risk category shown is not guaranteed and may shift over time.

- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.

- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The portfolio of this Sub-Fund consists mainly of corporate debt securities of any type issued worldwide. Hence, the risk/reward profile of the Sub-Fund should correspond to the Medium Low risk category of on the SRRI scale.

Are there any other particular Risks?

Risks that could affect fund performance and are not necessarily fully reflected in the risk and reward rating include:

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value in certain market conditions.

Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset.

- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.

- **Credit risks:** The Sub-Fund invests a significant portion of its assets in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which may result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Sub-Fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the management company or by external third parties or may be damaged by external events, such as natural disasters.
