BlackRock Funds I ICAV

Performance, Portfolio Breakdowns and Net Asset information as at: 31-Mar-2024. All other data as at: 10-Apr-2024.  
This document is marketing material. For the Investors in LatAm. Investors should read the KIID/PRIIPs document and prospectus prior to investing, and should refer to the prospectus for the funds full list of risks.

FUND OVERVIEW

- The Fund seeks to achieve a positive absolute return on your investment through a combination of capital growth and income with a limited correlation to market movements.
- The Fund has a flexible approach to asset allocation and will seek to gain exposure across a variety of asset classes. In order to achieve its objective the Fund will invest globally in equity securities (e.g. shares), equity-related (ER) securities, fixed income (FI) securities (e.g. bonds), FI-related securities, money market instruments (MMIs) (e.g. debt instruments with short-term maturities), asset backed securities (ABS) and mortgage-backed securities (MBS) (i.e. financial securities backed by cash flows from debt), deposits, cash and other funds (including exchange traded funds). The FI securities and MMIs may be issued by governments, government agencies, companies and supranationals (e.g. the International Bank for Reconstruction and Development) globally and may include investments with a relatively low credit rating or which are unrated. The Investment Manager (IM) will use a combination of systematic (i.e. rule based) models and discretionary investment techniques. The IM seeks to identify investment opportunities across a global investment universe according to the macroeconomic categories of 'growth' (focusing on assets with attractive exposure to economic growth), 'inflation' (focusing on FI securities with attractive real rates of return), 'policy' (focusing on countries with monetary policy regimes with a tendency to take steps to stimulate economic growth) and 'pricing' (focusing on attractively priced assets globally).
- The Fund will take into account environment, social and governance criteria when selecting investments as disclosed in the prospectus. For further details please refer to the prospectus. The Fund may have indirect exposure (e.g. through FDIs and other funds) to issuers with exposures that are inconsistent with the IM's ESG analysis.

RISK INDICATOR

CAPITAL AT RISK: The value of investments and the income from them can fall as well as rise and are not guaranteed. Investors may not get back the amount originally invested.

KEY RISKS:

- Equities and equity-related securities can be affected by daily stock market movements. Fixed Income securities can be affected by changes to interest rates, credit risk and potential or actual credit rating downgrades. Non-investment grade FI securities can be more sensitive to these events. ABS and MBS may have high levels of borrowing and not fully reflect the value of underlying assets. FDIs are highly sensitive to changes in the value of the asset they are based on. The impact is greater where FDIs are used in an extensive or complex way.
- Due to its investment strategy an 'Absolute Return' fund may not move in line with market trends or fully benefit from a positive market environment.
- Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss.
- Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due.
- Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

|   |        |  |                               |
|---|--------|--|-------------------------------|
| MSCI ESG % Coverage                               | 96.51% | MSCI ESG Fund Rating (AAA-CCC)                               | A                             |
| MSCI ESG Quality Score - Peer Percentile          | 44.94% | MSCI ESG Quality Score (0-10)                                | 6.65                          |

| MSCI Weighted Average Carbon Intensity % Coverage | 67.40% | MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES) | 107.29                        |

All data is from MSCI ESG Fund Ratings as of **21 Mar 2024**, based on holdings as of **30 Sep 2023**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% (or 50% for bond funds and money market funds) of the fund's gross weight must come from securities with ESG coverage by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities.

IMPORTANT INFORMATION:

Certain information contained herein (the "Information") has been provided by MSCI ESG Research LLC, a RIA under the Investment Advisers Act of 1940, and may include data from its affiliates (including MSCI Inc. and its subsidiaries ("MSCI")), or third party suppliers (each an "Information Provider"), and it may not be reproduced or disseminated in whole or in part without prior written permission. The Information has not been submitted to, nor received approval from, the US SEC or any other regulatory body. The Information may not be used to create any derivative works, or in connection with, nor does it constitute, an offer to buy or sell, or a promotion or recommendation of, any security, financial instrument or product or trading strategy, nor should it be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Some funds may be based on or linked to MSCI indexes, and MSCI may be compensated based on the fund's assets under management or other measures. MSCI has established an information barrier between equity index research and certain Information. ### BlackRock Funds I ICAV

BlackRock®

#### GLOSSARY

**SFDR Classification: Article 8:** Products that promote environmental or social characteristics and promote good governance practices.

**Article 9:** Products that have sustainable investments as an objective and follow good governance practices. **Other:** Products that do not meet the criteria to be classified as Article 8 or 9.

**Funds in Peer Group:** The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

**Fund Lipper Global Classification:** The fund peer group as defined by the Lipper Global Classification.

**MSCI ESG Quality Score (0-10):** The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. The Score also considers ESG Rating trend of holdings and the fund exposure to holdings in the laggard category. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

**MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES):** Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.

**Modified Duration:** A measure of price sensitivity of a bond to changes in interest rates. The Modified Duration of the fund is calculated as the average of the underlying bonds' modified duration values, adjusted to take account of their relative weight (size) within the fund.

**Price to Earnings:** A valuation ratio of a company's current share price compared to its per-share earnings in the current forecast year, calculated as current share price divided by current earnings per share.

**MSCI ESG % Coverage:** Percentage of the fund's holdings for which the MSCI ESG ratings data is available. The MSCI ESG Fund Rating, MSCI ESG Quality Score, and MSCI ESG Quality Score - Peer Percentile metrics are displayed for funds with at least 65% coverage.

**Average Market Cap:** The average market capitalization of a fund's equity portfolio gives you a measure of the size of the companies in which the fund invests. Market capitalization is calculated by multiplying the number of a company's shares outstanding by its price per share.

**MSCI ESG Fund Rating (AAA-CCC):** The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

**MSCI ESG Quality Score - Peer Percentile:** The fund's ESG Percentile compared to its Lipper peer group.

**MSCI Weighted Average Carbon Intensity % Coverage:** Percentage of the fund's holdings for which MSCI Carbon Intensity data is available. The MSCI Weighted Average Carbon Intensity metric is displayed for funds with any coverage. Funds with low coverage may not fully represent the fund's carbon characteristics given the lack of coverage.

**Price to Book Ratio:** represents the ratio of the current closing price of the share to the latest quarter's book value per share.

#### IMPORTANT INFORMATION:

'Negative weightings may result from specific circumstances (including timing differences between trade and settlement dates of securities purchased by the funds) and/or the use of certain financial instruments, including derivatives, which may be used to gain or reduce market exposure and/or risk management. Allocations are subject to change

**In the UK and Non-European Economic Area (EEA) countries:** this is issued by BlackRock Investment Management (UK) Limited, authorised and regulated by the Financial Conduct Authority. Registered office: 12 Throgmorton Avenue, London, EC2N 2DL. Tel: + 44 (0)20 7743 3000. Registered in England and Wales No. 02020394. For your protection telephone calls are usually recorded.
