The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

"D Class Accumulation Units", a unit class of U.S. Blue Chip Equity Fund (the Fund), a sub-fund of Principal Global Investors Funds (the Trust) (ISIN: IE00BKFHVJ11)

This Fund is managed by Principal Global Investors (Ireland) Limited (the Manager), part of The Principal Financial Group of companies

Objectives and investment policy

The investment objective of the Fund is to seek capital growth over the medium to long term.

The Fund invests at least 80% of its net asset value in equity and equity related securities of companies which are incorporated and/or listed on stock exchanges in the United States. The Fund will invest in equity securities of companies that are, in the opinion of the Investment Manager, considered to be “blue chip” companies (companies considered to have a good reputation, be well established in the market, show strong fundamentals, and have weathered economic downturns). The is a preference to invest, where appropriate, in businesses where the owner of that business generally has a larger interest in the company's shares compared to what they receive in annual compensation from that business and where management of the company is focused on building long-term value for the company. It is expected that the Fund will have low portfolio turnover and focus on long term holdings. The Fund may also invest in shares of companies which are incorporated and/or listed on stock exchanges outside the United States.

While it is generally intended for the Fund to be fully invested at all times, there may be a portion of assets held in cash or deposits at any given time.

The Fund may also invest in UCITS eligible Funds in order to obtain its objective.

Any income received by the unit class will be reinvested.

You may buy or sell units on demand on each Dealing Day being a Business Day as defined in the Fund's supplement (which together with the prospectus constitutes the Prospectus).

The Fund is actively managed and aims to outperform the Russell 1000 Growth TR Index (the “Index”). The portfolio manager may reference the Index as part of the investment management process, and it is also considered as part of the investment risk monitoring process. However, the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy.

Please see the section entitled Investment Objective, Policies, Strategy and Profile of a Typical Investor of the Supplement where full details are disclosed.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

This Fund is ranked at 6 because funds of this type have experienced high rises and falls in value in the past.

The following are risks materially relevant that are not captured by the SRRI:

- The price of equity securities fluctuates based on changes in a company's financial condition, overall market and economic conditions and market sentiment, resulting in an increased potential for volatility.

Please see the section entitled Special Investment Considerations and Risks of the Prospectus where full details are disclosed.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.63%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

Switching charge (for switching into the Fund from another fund) 0.00%. Ongoing charges are based on the last year's expenses, for the year ended December 2023, and this figure may vary from year to year. It excludes:

- Portfolio transactions costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.
- Whereas the entry charge will not normally be made on a conversion, the Manager is entitled to make any such charges at its discretion. In particular, if more than four conversions are made during a twelve month period, the Manager may impose a service fee for any subsequent conversions during the subsequent twelve month period.

For more information about charges, please see Charges and Expenses in the Prospectus which is available as set out below.
