Investment Objective and Strategy

The Fund aims to achieve long-term capital growth by investing in a portfolio of U.S. Equities.

The Fund's Sub-Investment Manager, Easterly Investment Partners, was founded in 1982 and is a long only, value-orientated asset management firm headquartered in Massachusetts, USA.

The Sub-Investment Manager aims to identify U.S. businesses, whose equities are trading at excessive discounts on a relative and absolute basis. Employing a process that is frequently contrarian and always catalyst driven, the Manager then isolates the 25-40 best investment ideas, across all market capitalizations. Their rigorous proprietary analysis helps them to identify the presence of some form of significant catalyst. This part of the process affords them a different return profile than commonly seen in core value portfolios. The strategy follows a rigorous, fundamental, bottom up, value-orientated approach.

Risk Warnings

The Fund is subject to special risk considerations including geographic concentration risk, portfolio concentration risk and operational risk. The investment return and principal value of an investment will fluctuate so that the investor's shares, when redeemed, may be worth more or less than their original cost. Any investor should consider the investment objectives, risks and charges and expenses of the Fund carefully before investing. Where an investment is denominated in a currency other than the investor's currency, changes in rates of exchange may have an adverse effect on the value, price of, or income derived from the investment.
