The Benchmark is exclusively used for performance and internal risk indicators comparison. The Benchmark is not used for individual stock selection and it does not necessarily reflect the portfolio holdings of the Sub-fund. There are no restrictions on the extent to which the Sub-fund's portfolio and performance may deviate from the ones of the Benchmark. Such deviation may be material. The Sub-fund promotes environmental, social and governance (ESG) characteristics

(within the meaning of Article 8 of Regulation (EU) 2019/2088) through a combination of different portfolio management techniques. Are there any other particular risks?

The Sub-fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Sub-fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- Liquidity risk: Assets cannot necessarily be sold at limited cost in an adequately short timeframe. However, this Sub-fund's investments should generally have good liquidity.
- Counterparty risk: Bankruptcy or insolvency of the Sub-fund's derivative counterparties may lead to payment or delivery default. The Sub-fund will endeavor to mitigate this risk by the receipt of financial collateral given as guarantees.
- Operational risk: Deficient processes, technical failures or catastrophic events may cause losses.
- Political and Legal risks: Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks.
