

Key Investor Information

This document provides you with key investor information about the Compartment. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in the Compartment. You are advised to read it so that you can make an informed decision about whether to invest.

Pictet TR - Atlas Titan

(the "Compartment") is a compartment of Pictet TR (the "Fund").

HI USD (the "Share Class") - ISIN LU2206556446

The Fund is managed by Pictet Asset Management (Europe) S.A. (the "Management Company"), part of the Pictet group

Objectives and investment policy

OBJECTIVE

To increase the value of your investment, while seeking a positive return in any market conditions (absolute return).

REFERENCE INDEX

MSCI ACWI (EUR) is used for risk monitoring and performance measurement.

PORTFOLIO ASSETS

The Compartment mainly invests in equities worldwide, including in emerging markets and mainland China. The Compartment can invest across any sector and currency. The Compartment may invest in real estate investment trusts (REITs) and commodities (including precious metals). Money market instruments and deposits may represent a significant component of the assets; however, much of its actual performance is likely to derive from exposures created through derivatives and structured products.

DERIVATIVES AND STRUCTURED PRODUCTS

The Compartment may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use derivatives and structured products to gain exposure to portfolio assets.

COMPARTMENT CURRENCY

EUR

INVESTMENT PROCESS

In actively managing the Compartment, that Compartment's investment manager uses fundamental company analysis to select securities that it believes offer favourable growth prospects at a reasonable price (long position) while selling securities of companies that seem to be overvalued (short position). The investment manager may invest in issuers with any environmental, social, and governance (ESG) profile. It methodically exercises voting rights and may engage with issuers in order to positively influence ESG practices. The performance of the Compartment is likely to be significantly different from that of the benchmark, because the Investment Manager has significant discretion to deviate from its securities and weightings.

Terms to understand

Derivatives Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

Emerging markets Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

Equities Securities that represent a share in the business results of a company.

Structured products Securities similar to derivatives, but with defined risk or performance characteristics.

Other characteristics

Designed for Investors who understand the risks of this compartment and plan to invest for 6 years or more. This is an accumulation share class, meaning any income earned is retained in the share price. It is also a hedged share class, which means that it is designed to reduce, but not cancel out, the currency risk between the Compartment currency and the Share Class currency. Orders to buy, switch or redeem shares are ordinarily processed on any day that is a full bank business day in Luxembourg.

Risk and reward profile

The Share Class is assigned to this risk category because of the price variations resulting from its currency and the nature of the Compartment's investments and strategy. The risk category shown is based on historical data and may not be a reliable indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time. The lowest category does not mean a risk-free investment. The Compartment offers no capital guarantee or asset protection measures.

The Compartment may be exposed to the following risks which are not adequately captured by the synthetic risk indicator and may negatively impact its value:

- **Financial Derivatives risk:** the leverage resulting from derivatives amplifies losses in certain market conditions.
- **Counterparty risk:** losses occur when a counterparty does not honour its obligations related to contracts such as over-the-counter derivatives.
- **Investments in emerging markets** are generally more sensitive to risk events, such as changes in the economic, political, fiscal and legal environment, as well as fraud.
- **Investments in Mainland China** may be subject to capital restrictions and trading quotas (e.g. QFII and RQFII regimes). The Compartment may encounter difficulties or delays in enforcing its rights in the event of disputes.
- **Chinese "Stock Connect"** trading programmes may be subject to additional risks related to ownership rights, clearing & settlement, trading quotas and operational issues.
- **Operational risk:** losses resulting from human errors, system failures, incorrect valuation and safekeeping of assets.
- **Sustainability risk:** ESG related risk events or conditions could cause a material negative impact on the value of the investment if they were to occur.

Further information can be found in the prospectus.

Charges

The charges you pay are used to cover the costs of running the Compartment, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry, conversion** and **exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your financial adviser or fund distributor.

The **ongoing charges** shown here are an estimate of future charges. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Compartment when buying or selling units/shares in another collective investment undertaking.

For more information on charges, please refer to the "Fund Charges" section of the Fund's prospectus available on assetmanagement.pictet

One-off charges deducted before or after you invest

Entry charge (in favour of the distributor)	Up to 5.00%
Exit charge (in favour of the distributor)	Up to 1.00%
Conversion charge (in favour of the distributor)	Up to 2.00%

This is the maximum figure that might be taken out of your capital before it is invested and before the proceeds of your investment are paid out.

Charges taken from the Share Class over a year

Ongoing charges	1.56%
-----------------	-------

Charges taken from the Share Class under certain specific conditions

Performance fee	20.00% of the outperformance against the Index* since the last performance fee payment
-----------------	--

* Index: Secured Overnight Financing Rate (SOFR); crystallization frequency is yearly; with absolute and relative High Water Mark principle (past losses have to be recovered, with no losses reset)

In the last financial year, the performance fee represented 2.81% of the Share Class asset.

Past performance

The Share Class was launched on 01 October 2020 (Compartment on 01 October 2020). Past performance is not a guide to future performance. The chart shows the Share Class' performance after payment of all fees, including portfolio transaction fees against the historical performance of the benchmark(s) stated below. Past performance has been calculated in USD.
