

Tikehau Fund - Tikehau Short Duration

Share class I-R-Acc-EUR (ISIN LU1585266114)

A Sub-Fund of Tikehau Fund. A UCITS managed by Tikehau Investment Management

Investment objectives and policy

Tikehau Short Duration (the "Sub-Fund") is a sub-fund of Tikehau Fund (the "Fund"). The objective of the Sub-Fund is to achieve a net annualised outperformance of the benchmark, Euribor 3M+150 basis points, after management fees, over an investment period of at least 12-18 months.

The Sub-Fund is actively managed and references the benchmark by seeking to outperform it. The Management Company has full discretion over the composition of its portfolio, and there are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the benchmark.

The investment strategy of the Sub-Fund is to manage, on both an active and discretionary basis, a diversified portfolio composed of debt instruments issued by private or public issuers located mainly in the Eurozone, primarily belonging to the "Investment Grade" category (i.e. a Standard and Poor's/Fitch rating of at least BBB- or a Moody's rating of at least Baa3), whose interest rate risk is minimized through the use of rates bonds with variable interest and revisable without maturity criteria, short maturity bonds, instruments for the hedging of interest rate risk and inflation-linked bonds. The rating applied by the portfolio management company will be the highest obtained from the agencies Standard and Poor's, Fitch and Moody's. The Sub-Fund may have an exposure to assets denominated in other currencies than Euro up to 15% of its net assets. The Sub-Fund may also have an exposure to high-yield securities (i.e. having a Standard and Poor's/Fitch rating lower than BBB- or below a Moody's rating of Baa3) or to unrated securities. Both investments will not represent more than 45% of the net assets of the Sub-Fund and exposure in high yield securities will be limited to 35% of the net assets of the Sub-Fund.

The objective is to receive the income generated by the Sub-Fund's portfolio, and possibly to optimize that income via overexposure. In order to achieve its objective or for hedging purposes, the Sub-Fund may use derivative financial instruments, in particular futures contracts, options, forward contracts and credit derivatives. It may also invest in efficient portfolio management techniques. The global exposure from derivatives shall not exceed 100% of the Sub-Fund's net assets.

The Sub-Fund may invest up to 10% of its net assets in UCITS and/or other UCIs (including those managed by the Management Company). The Sub-Fund may invest up to 10% of its net assets in units or bonds

of mutual fund securitization companies managed by the Management Company. The Sub-Fund may invest up to 10% of its net assets in the equity markets, either directly through equities of any capitalization and of all geographic zones or through debt instruments converted or reimbursed in capital or indirectly through UCITS and/or UCIs up to 10% of its net assets. The Sub-Fund may also invest in securities with embedded derivatives (particularly warrants, convertible bonds, credit-linked notes, callable and puttable bonds, Euro Medium Term Notes) traded on regulated, organised or over-the counter Eurozone and/or international markets up to a limit of 100% of its net assets.

The Sub-Fund can invest in contingent convertible bonds ("CoCos") up to 15% of its net assets. The Sub-Fund may invest its excess cash in term deposit accounts. These deposits may amount to up to 100% of the Sub-Fund's assets. The Sub-Fund may invest up to 10% of its net assets in ABS/MBS instruments and hold up to 10% of its net assets in defaulted/distressed securities as a result of the potential downgrading of the issuers (i.e. securities which are highly vulnerable to non-payment and the rating of which is below "CCC" according to Standard & Poor's or the equivalent by any other agency).

The investment team also applies a responsible investment policy materialised by: (i) the respect of the Tikehau Capital Group exclusions (e.g. thermal coal, tobacco and controversial weapons) when selecting issuers; and (ii) the integration of Environmental, Social and Governance ("ESG") factors throughout the life cycle of the investment.

The range of sensitivity to interest rates will lie between - 1 and 1. The range of sensitivity to credit spreads will lie between - 1 and 4.

The recommended investment horizon is at least 12 to 18 months.

Orders for subscription and redemption must be received by the registrar and transfer agent before 12:00 noon Luxembourg time on each valuation day, and will be settled at the latest on the second Bank Business Day following the applicable valuation date.

I-R-Acc-EUR shares are capitalization shares.

I-R-Acc-EUR shares are reserved for sophisticated investors who (i) do not invest through any distributor (i.e. marketed directly by Tikehau Investment Management) or (ii) investing through an approved distributor, platform, or intermediary that has entered into a specific separate legal agreement with Tikehau Investment Management, whose minimum initial investment is EUR 1,000,000.

Risk and reward profile

The Sub-Fund belongs to risk category 2 due to its overall exposure to the fixed-income markets through securities of the "Investment Grade" category, and on a secondary basis, of the "High Yield" category, including CoCos, which represents a greater return in exchange for a higher risk of default.

Historical data, such as those used to calculate the synthetic indicator, may not be a reliable indication for the future of the risk profile of the Sub-Fund.

The risk category of this Sub-Fund is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Investors receive no guarantee that they will get back the capital they initially invest.

Key risks not taken into account in this indicator :

Credit risk: Credit risk involves the risk that an issuer of a bond (including money-market instruments) held by the Sub-Fund may default on its obligations to pay interest and repay principal and the Sub-Fund will not recover its investment. **DISCLAIMER: THIS SUB-FUND MAY INVEST UP TO 35% OF ITS ASSETS IN BONDS OF LOW CREDIT QUALITY, AND THEREFORE PRESENTS A VERY HIGH CREDIT RISK.**

Liquidity risk: this refers to the difficulty or impossibility of selling certain debt securities held in the portfolio in a timely fashion and at the portfolio valuation price, because of the reduced size of the market or the lack of volumes on the market on which these securities are usually traded.

Counterparty risk: the Sub-Fund uses over-the-counter financial contracts, and/or, in exceptional circumstances, temporary purchases and sales of securities. These transactions with one or more counterparties potentially expose the Sub-Fund to the risk of default for one of them, which could lead to a failure to pay and a decrease in the Sub-Fund's net asset value.

For a description of all risks, please refer to the Fund's prospectus.

Charges

The charges and fees paid cover the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charges	None	The percentage indicated is the maximum that may be deducted from your capital before it is invested, or before you are paid the returns on your investment. In certain cases, the charges paid may be lower than those published. Investors may request the exact amount of entry and exit charges from their financial advisor or distributor.
Exit charges	None	

Charges taken from the Sub-Fund over a year

Ongoing charges	0.50%	The percentage shown is an estimation of the ongoing charges based on the expected total of charges. These charges may vary from one financial year to another. They do not include: performance fees and portfolio intermediary fees, except in the case of an entry/exit charge paid by the Sub Fund when buying or selling units in another collective investment undertaking.
------------------------	-------	-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Charges taken from the Sub-Fund under specific conditions

Performance fee	10 % of the performance over the reference indicator Euribor 3M +150 basis points , provided that such performance is higher than 0 over the relevant crystallisation period. The Sub-Fund does not have sufficient data to be able to provide a useful indication of the amount of performance fee charged in the last financial year.
