

VISIONFUND - EMERGING MARKETS EQUITY (the “Compartment”), a compartment of VISIONFUND

Share class I EUR (H) (the “Class”) – LU2123307360

Management company: Edmond de Rothschild Asset Management (Luxembourg)

Objectives and investment policy

Objective

The objective of the Compartment is to outperform its benchmark index over a full market cycle by investing in an actively managed portfolio. Environmental, social and governance (ESG) criteria are one of the management components. However, the individual weighting of each one of these criteria in the final decision is not defined in advance.

Benchmark index

The performance of the Compartment may be compared to the MSCI Emerging Market Index denominated in USD, calculated with net dividends reinvested.

The Compartment is actively managed. The benchmark index is used only for performance comparison purposes.

Investment policy

The Compartment invests at least 70% of its net assets in shares (ordinary and preference) or equivalent securities issued by companies that are domiciled, listed or have their registered office in emerging markets, or that carry out most of their business activities in emerging markets.

To a lesser extent, the Compartment may invest in equities of companies whose registered office is located in other geographical areas.

The Compartment may invest up to 20% of its net assets in China-A shares through the Shanghai-Hong Kong Stock Connect programme and/or the Shenzhen-Hong Kong Stock Connect programme.

Up to 100% of the Compartment's net assets may be exposed to currency risk.

In order to protect its assets and/or achieve its management objective, the Compartment may use derivative financial instruments traded on regulated markets or over-the-counter markets.

For cash management purposes, the Compartment may invest up to 25% of its net assets in transferable debt securities and money market instruments. The Compartment will mainly target public or private issuers.

At least 75% of the companies in the portfolio will have an ESG rating. This may be either an internal ESG rating such as that defined by the Manager's Sustainable Investment and ESG Integration Policy (available online at the following link: <https://am.jpmorgan.com/gb/en/asset-management/adv/investment-themes/sustainable-investing/>) or a rating provided by an external non-financial rating agency. At the end of this process, the Fund will have a higher ESG rating than that of its investment universe.

In addition, the selection process for securities includes negative filtering with the aim of excluding companies that contribute to the manufacture of controversial weapons, in accordance with international conventions on the matter, as well as companies exposed to activities related to thermal coal or tobacco, in accordance with the Groupe Edmond de Rothschild exclusion policy, available on its website at <https://www.edmond-de-rothschild.com/en/Pages/Asset%20Management/Responsible-investment.aspx>.

The Compartment falls within the scope of Article 8(1) of the Sustainable Finance Disclosure Regulation (SFDR) because it promotes a combination of environmental and social characteristics, even though no benchmark index has been selected for the purposes of achieving these environmental and social characteristics.

In light of its environmental, social and governance (ESG) strategy, the Compartment promotes environmental characteristics but does not invest in environmentally sustainable economic activities as defined in the Taxonomy Regulation. The investments underlying this financial product do not take into account the EU's criteria regarding environmentally sustainable economic activities as defined in the Taxonomy Regulation.

Minimum recommended holding period: 5 years

Frequency of share buying or selling: Investors may redeem their shares on any bank business day in Luxembourg and France, with the exception of Good Friday, 24 December (Christmas Eve) and days when the French markets are closed (official Euronext Paris SA calendar), no later than 03:00 p.m. (Luxembourg time) on the business day preceding the applicable valuation day.

Income allocation: Accumulation

Risk and reward profile

The above indicator is calculated on the basis of historical data, and may thus not provide a reliable indication of the Compartment's future risk profile. It cannot be guaranteed that the risk and reward category shown will remain unchanged, and the classification may change over time. Category 1 does not mean that an investment is risk-free. Recovery of the initial investment is not guaranteed.

Due to the lack of sufficient history, the risk indicator incorporates simulated data from a reference portfolio. Risk category 6 reflects a potential for very high gains and/or losses in the value of the portfolio. This is due to investments in equities issued from emerging countries.

Significant risks not taken into account in this indicator:

Credit risk: This is when a significant level of investment is made in debt securities.

Liquidity risk: The markets for some securities and instruments may have restricted liquidity. This restricted liquidity may be detrimental to the Compartment, both in terms of the realisation of the quoted prices and the execution of orders at desired prices.

Impact of techniques such as derivatives contracts: The use of derivatives may lead to a greater decrease in assets than the decrease in underlying invested assets or markets.

Counterparty risk: This is when a fund is covered by guarantees or has material investment exposure through contracts with a third party.

Operational risk: The Compartment may record losses due to the failure of operational processes, particularly those related to the safekeeping of assets.

The occurrence of any of these risks may negatively impact the net asset value.

This document describes the Class of the Compartment. The prospectus and the annual and semi-annual reports are prepared for the Fund as a whole. The assets and liabilities of the various compartments are segregated. The assets of a particular compartment will only be available to satisfy the debts, commitments and obligations that relate to this compartment. You may exchange your shares for shares of another class in this compartment or in another compartment of the Fund, provided that you meet the subscription criteria for shares in the new Class, subject to the limitations set out in the paragraph entitled "Share Conversion" in the Prospectus.

Detailed information about the updated remuneration policy, including, in particular, a description of how remunerations and benefits are calculated and the individuals responsible for allocating remunerations and benefits, including the members of the remuneration committee where such a committee exists, is available on the website: <https://www.edmond-de-rothschild.com/en/Pages/legal.aspx>.

Written copies of the summary of this remuneration policy are available to shareholders of the Compartment free of charge upon request.

The prospectus, key investor information, Articles of Association and annual and semi-annual reports are available free of charge from the representative in Switzerland at the address above

The charges and fees paid are used to cover the costs of running the Compartment, including the costs of marketing and distributing units; these charges reduce the potential growth of investments.

The entry and exit charges specified here are the upper limits; the investor may pay less in some cases. Investors may obtain the actual amount of entry and exit charges from their advisor or financial distributor.

The percentage of ongoing charges is based on charges from the 12-month period preceding the month of December 2021. This percentage may vary from year to year. It excludes overperformance fees and intermediary charges with the exception of entry and exit charges paid by the Fund when it buys or sells units from another Fund.

More detailed information on charges can be found in the "CHARGES" section of the UCITS prospectus.

Past performance is not an indication of future results. Ongoing charges are included when calculating performance. Entry and exit charges are excluded.

Past performance is calculated in EUR, with net dividends reinvested.
