INVESTMENT STRATEGY (Source: Amundi Group)

The compartment's investment objective is to outperform global equity markets over a minimum five-year investment horizon by investing in international equities involved in the entire food value chain (agriculture, forest, water, food and beverage production and distribution, restaurants and all related activities). The investment process takes into account a sustainable approach by excluding certain companies with high Environmental Social and Governance controversies.

PORTFOLIO IMPACT REPORT

CARBON INTENSITY

Total carbon portfolio footprint

WASTE RECYCLING RATIO

DATA COVERAGE

	Benchmark	Portfolio
Coverage rate (Portfolio/Benchmark) :	99.44%	100%

	Portfolio	Benchmark	Universe
Water intensity	74.19%	61.04%	59.95%
Waste recycling ratio	62.90%	49.54%	45.15%

This measurement corresponds to the portion of private issuers for which we have environmental data as a percentage of all private issuers.

This indicator measures the ratio of recycled waste over total produced waste.

WATER INTENSITY

This indicator measures the portfolio's total water withdrawal in cubic meters divided by net sales in EUR. This is an indicator of the water intensity generated by the companies in this portfolio

Sources and definitions

The carbon emissions data is supplied by Trucost. It corresponds to companies' annual emissions expressed in tCO₂e, which covers the six greenhouse gases defined in the Kyoto protocol whose emissions are converted into global warming potential (GWP) in CO₂ equivalent

Definition of scopes:

- **Scope 1** : all emissions that arise directly from sources that are owned or controlled by the company.
- **Scope 2** : all indirect emissions generated by the purchase or production of electricity, steam or heat.
- **Scope 3** : all other indirect emissions, both upstream and downstream in the value chain. To ensure the robustness of the data, in this report we have chosen to use only part of scope 3, i.e. upstream emissions linked to first-tier suppliers. First-tier suppliers are those with which the company has a strong relationship and on which it can exercise direct influence.

²Outstanding securities in terms of ESG criteria excluding cash assets. The additional filter on ESG controversies allows to cover 100% of the universe's and portfolio's holdings.

ISR Label

Definitions and sources

Responsible Investment (RI)

RI expresses sustainable development objectives in investment decisions by adding Environmental, Social and Governance (ESG) criteria in addition to the traditional financial criteria.

RI thus aims to balance economic performance and social and environmental impact by financing companies and public entities which contribute to sustainable development whatever their business sector. By influencing the governance and behaviour of stakeholders, SRI promotes a responsible economy.

ESG criteria

Extra-financial criteria are used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

- o "E" for Environment: energy consumption and greenhouse gas emissions, water and waste management, etc.
- o "S" for Social/Society: human rights, health and safety, etc.
- o "G" for Governance: independence of board of directors, respect of shareholders' rights, etc.

Amundi Group' ratings range issuers from A to G, with A being the highest rating and G the lowest.

Focus on Environmental, Social and Governance key performance indicators

In addition to the overall ESG assessment of the portfolio and the E, S and G dimensions, the manager uses impact indicators to assess the ESG quality of his portfolio. Four representative indicators of Environment, Social, Human Rights and Governance have been identified. The manager's minimum objective is to deliver a quality score higher than that of the index on at least two of the indicators.

Environment¹

Carbon footprint per euro million of sales

Total carbon portfolio footprint (Portfolio/Index) : 386 / 259

This indicator measures the average emissions in metric tonnes of carbon equivalent per unit of a company's revenue (€ million of sales). This is an indicator of the carbon intensity of the value chain of the companies in the portfolio.

* first-tier suppliers only

Coverage rate (Portfolio/Benchmark) : 100% 99.44%

Governance⁴

Board Independence Percentage

The average percentage of directors that meet the designated criteria for independence. Data provider: Refinitiv

%Rated/Rateable - Independent board members 98.76% 98.77%

Social²

Managers' Diversity

Average percentage of women managers. Data provider: Refinitiv

%Rated/Rateable - Women Managers 83.55% 84.94%

Human Rights Compliance

Decent working conditions and freedom of association

Percentage of companies with policies that exclude forced or obligatory child labor or that guarantee freedom of association, applied universally regardless of local laws. Data provider: Refinitiv

%Rated/Rateable - Human Rights Policy 98.76% 98.79%

Sources and definitions

1. Environmental indicator/Climate indicator: Carbon intensity (in metric tons of CO2 per million of revenue). This data is provided by Trucost, This corresponds to companies' annual greenhouse gas emissions expressed in metric tons of carbon dioxide equivalent. (CO2e). It covers the six greenhouse gases identified in the Kyoto Protocol with emissions converted into global warming potential (GWP) in CO2 equivalent. Definition of scopes:

- Scope 1: All direct emissions from sources that are owned or controlled by a company.

- Scope 2: All indirect emissions arising from the purchase or production of electricity, steam or heat.

- Scope 3: All other indirect emissions, upstream and downstream in the value chain. For reasons of data robustness, in this reporting we have chosen to use only part of scope 3: upstream emissions linked to first-tier suppliers. First-tier suppliers are those with which the company has special relations and can influence directly.

2. Management diversity. Average percentage of women managers. This indicator gives a more global measure of the advancement of women within the company than the data limited to the number of women Board members. Data provider: Refinitiv

3. Human Rights Compliance Indicator. percentage of companies with policies that exclude forced or obligatory child labor or that guarantee freedom of association and which are applied universally regardless of local laws. This indicator enables better assessment of fundamental human rights issues. Data provider: Refinitiv

4. Board independence. average percentage of independent directors on the Board of Directors. Data provider: Refinitiv

For these 4 indicators, the total for the portfolio/investment universe is equal to the companies' average for these indicators adjusted for their weight in the portfolio/investment universe.

Portfolio's carbon footprint

Carbon footprint per euro million invested

Total carbon portfolio footprint

179

This indicator measures the portfolio's carbon emissions in metric tonnes of carbon equivalent (tCO₂e) per euro million invested. This is an indicator of the emissions generated by investment in this portfolio.

* first-tier suppliers only

Sectoral contribution to carbon emission

This chart compares the weight of each sector relative to its contribution to the portfolio's carbon emissions.

Coverage of carbon analysis

	Portfolio	Benchmark
% Rated / Total	90.87%	99.44%
Coverage rate (Portfolio/Benchmark) :	100%	99.44%

¹ This measurement corresponds to the portion of private issuers for which we have carbon data as a percentage of all private issuers.

Sources and definitions

The carbon emissions data is supplied by Trucost. It corresponds to companies' annual emissions expressed in tCO₂e, which covers the six greenhouse gases defined in the Kyoto protocol whose emissions are converted into global warming potential (GWP) in CO₂ equivalent

Definition of scopes:

- **Scope 1** : all emissions that arise directly from sources that are owned or controlled by the company.
- **Scope 2** : all indirect emissions generated by the purchase or production of electricity, steam or heat.
- **Scope 3** : all other indirect emissions, both upstream and downstream in the value chain. To ensure the robustness of the data, in this report we have chosen to use only part of scope 3, i.e. upstream emissions linked to first-tier suppliers. First-tier suppliers are those with which the company has a strong relationship and on which it can exercise direct influence.

Geographical contribution to carbon emission

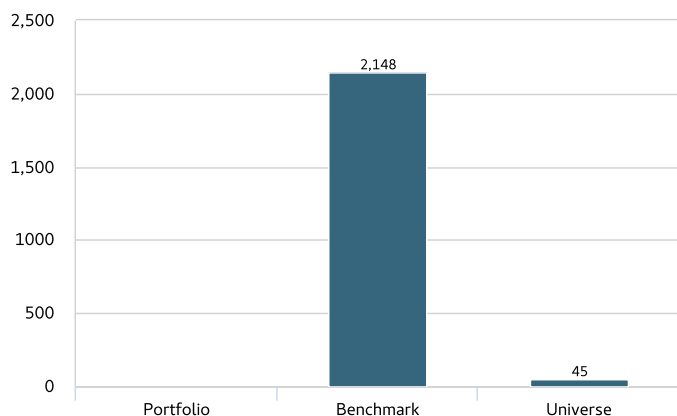

This chart compares the weight of each country relative to its contribution to the portfolio's carbon emissions.

Fund statistics

	Portfolio	Benchmark
Issuers number	66	1492

Carbon reserves per euro million invested

This chart measures the portfolio's carbon reserves in metric tonnes of carbon equivalent per € million invested. It constitutes an indicator of potential emissions, resulting from burning fossil fuel reserves, generated by investment in this portfolio.

Coal exposure

Share of the reporting company's revenues that derives from the following subsectors: electricity generation from coal, extraction of bituminous coal, opencast mining of bituminous coal and lignite.

Main contributors to carbon footprint

	Sector	Weight / Total	Weight / Rateable	tCO ₂ / M€	tCO ₂ / %
INGREDION INC	Consumer staples	2.24%	2.46%	40.11	22.40%
OCI NV	Materials	0.96%	1.06%	14.44	8.06%

TATE & LYLE PLC	Consumer staples	0.38%	0.42%	6.06	3.38%
AGCO CORP	Industrials	2.77%	3.05%	5.71	3.19%
KRAFT HEINZ CO/THE	Consumer staples	2.25%	2.48%	5.57	3.11%
ASSOCIATED BRITISH FOODS PLC	Consumer staples	1.19%	1.31%	5.29	2.95%
DANONE	Consumer staples	1.27%	1.39%	5.18	2.89%

Sources and definitions

All data concerning carbon emissions, coal and green exposure are supplied by Trucost.

Carbon reserves are expressed in potential carbon emissions calculated using the methodology of the Potsdam Institute for Climate Impact Research. The various fossil fuel reserves are converted into potential emissions based on the energy value and carbon content of the different reserves. This data concerns businesses that hold this type of reserves, belonging to the materials, energy and utilities sectors.

Coverage of carbone reserves

	Portfolio	Benchmark
% CO ₂ reserves Rated / Total	-	5.32%
% CO ₂ reserves Rated / Rateable	-	5.32%

¹ This measurement corresponds to the portion of private issuers for which we have carbon reserve data as a percentage of all private issuers.

Green exposure

Share of the reporting company's revenues that derives from the development of "green technologies": renewable energies, biomass, energy efficiency, environmental services, water management, waste management.
