

# Key Investor Information

This document provides key information for investors in this Sub-fund. It is not marketing material. The information it contains is required by law to help you understand the features of the Sub-fund along with the risks and other related information, should you decide to invest. You are advised to read it so that you can make an informed decision about whether to invest.

## AZ Alternative - Commodity (the “Sub-fund”) is a sub-fund of AZ Fund 1 (the “Fund”)

B-AZ FUND Hedged (ACC) class - ISIN LU2238330398

The Fund is managed by Azimut Investments S.A. (the **Management Company**).

## OBJECTIVES AND INVESTMENT POLICY

### Objectives

The Sub-fund's investment objective is long-term capital growth.

### Investment policy

The Sub-fund seeks to achieve its investment objective by actively investing in commodity indices.

The Sub-fund indirectly invests between 50% and 100% of its net assets in commodities through derivative financial instruments on commodity indices, UCITS and/or other UCIs, ETFs and/or ETCs.

The Sub-fund may also invest in Total Return Swaps (TRS). Gross exposure to TRS will not exceed 200% of the Sub-fund's net assets and it is expected that this exposure will remain within a range of 50% to 200% of the Sub-fund's net assets. The strategies underlying TRS are “long only” or “long/short” on financial indices with exposure to commodities.

The Sub-fund is only likely to use a portion of its assets to achieve its desired exposure to the aforementioned assets owing to the use of derivative financial instruments. As a result, the remaining assets of the Sub-fund may be invested in debt securities in order to provide additional total income over the long term.

The Sub-fund may also invest up to 80% of its net assets in debt securities issued by issuers in developed countries, up to 30% of its net assets in debt securities issued by issuers in emerging countries and up to 30% of its net assets in debt securities rated sub-investment grade.

The Sub-fund uses the main financial derivatives for investment purposes and/or to hedge against risks. Gross exposure to total return swaps shall not exceed 200% of the Sub-fund's net asset value. Leverage calculated based on the sum of notional method: maximum 300%.

The Sub-fund is actively managed and is not managed in relation to a benchmark index. For the purpose of calculating the performance fee, the following benchmark is used: 90% Bloomberg Commodity Total Return Index + 10% Bloomberg US Treasury Bill Index + EUR/USD 3M Hedging Costs (FXHCEUUS).

### Specific information on units

You may request the sale of your units on a daily basis, except in certain circumstances (see the prospectus).

Dividend payments are not expected. Any income from the portfolio is reinvested.

The EUR class is hedged against the Sub-fund's currency, the US dollar.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within seven years.

### Definitions

**Actively managed Sub-fund:** a Sub-fund for which the manager has the flexibility to select the securities that make up the portfolio, in line with the objectives and investment policy laid out.

## RISK AND REWARD PROFILE

### Definition of the risk and reward indicator

The aim of the risk indicator is to provide you with an evaluation of changes in unit prices. Risk category 6 means that the unit price is very volatile. As a result, the risk of loss and the expected return may also be very high. However, even the lowest category does not mean that the investment is “risk free”.

Historical data may not provide reliable information about the future. The displayed risk indicator is not guaranteed and is likely to change over time. There is no capital guarantee and the value of the Sub-fund is not protected.

### Reason why the Sub-fund is classified in this risk category

This Sub-fund's risk level primarily reflects the investment positions in commodities and derivative instruments depending on market volatility within the predefined margin.

### Particular risks for the Sub-fund not included in the indicator:

**Emerging market risk:** risk associated with investing in emerging markets. Due to their political instability, the volatility of the exchange rate of their currencies and the limited number of investment opportunities, the risk of these markets is greater than in countries considered as developed.

**Currency risk:** the Fund invests in other currencies. Fluctuations in exchange rates will therefore have an impact on the value of the investment.

**Risk associated with the “long/short” strategy:** this risk is linked to long and/or short positions designed to adjust the net exposure to the market. The Fund may incur significant losses if its long and short positions simultaneously experience unfavourable trends in opposite directions.

**Risks associated with total return swaps:** when the Fund and any of its Sub-funds enter into total return swaps on a net basis, both payment flows are offset and the Fund or the Sub-fund will only receive or pay, as the case may be, the net amount of the two payments. If the other party to a total return swap defaults, in normal circumstances, the risk of loss of the Fund or Sub-fund concerned is the net amount of the total return of the payments that the Fund or Sub-fund is contractually entitled to receive.

**Risks associated with commodities:** commodity prices are more volatile than those of other asset classes.

Other investment risks are specified in the risks section of the prospectus.

CHARGES

The charges you pay are used to cover the costs of running the Sub-fund, including marketing and distribution costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:	
Entry charge	1.00% of the amount invested for subscriptions made in single solution.
Exit charge	2.50%
The percentage indicated is the maximum that may be taken out of your capital before it is invested and/or before the proceeds of your investment are paid out. Please contact your financial advisor or distributor for the actual charges.	
Charges deducted from the Sub-fund over a year:	
Ongoing charges	3.83%
Charges deducted from the Sub-fund under specific conditions:	
Performance fee	<p>The management fee is increased or reduced on a straight-line basis by a variable management fee, up to a maximum of 20% of the amount of the management fee, based on the difference between the performance of the class and the performance of the 90% Bloomberg Commodity Total Return Index + 10% Bloomberg US Treasury Bill Index + EUR/USD 3M Hedging Costs (FXHCEUUS) benchmark index over the same performance period (so-called “fulcrum” variable management fee).</p> <p>The actual amount of fees charged to the Sub-fund during the last financial year was 0.05%. This amount was calculated using a calculation method that is no longer in force. Since 01/04/2022, a “fulcrum fee model” has been applied.</p> <p><b>In some cases, a performance fee may be levied even when the performance of the Sub-fund is negative.</b></p>

The amount of ongoing charges indicated is an estimate because there has been a change in the charges. This amount may change from year to year.

Ongoing charges do not take into account the following:

- performance fees and
- costs of portfolio transactions, unless the Sub-fund pays entry or exit charges when it buys or sells units in another undertaking for collective investment.

To find out more about the charges, please refer to the prospectus available at [www.azimutinvestments.com](http://www.azimutinvestments.com).

PAST PERFORMANCE

Please note that for this class no performance data for a full calendar year is available.

- The Sub-fund was created in 2020.
- The B-AZ FUND Hedged (ACC) class was launched in 2021.
- The performance of the Sub-fund is not linked to that of the benchmark index. The latter is intended to be used to calculate the performance fee (fulcrum).

A\*: Since 01/04/2022, a “fulcrum fee model” has been applied. Benchmark index up to 01/04/2022: 3M Libor USD (US0003M) + 2% + EUR/USD 3M Hedging Costs (FXHCEUUS).

PRACTICAL INFORMATION

- **Management Company:** Azimut Investments S.A.
- **Depository:** BNP Paribas Securities Services, succursale de Luxembourg.
- **Documentation:** additional information on the Sub-fund, including the prospectus, the latest financial statements and unit prices, is available free of charge at [www.azimutinvestments.com](http://www.azimutinvestments.com) or from the Management Company’s registered office: Azimut Investments S.A., 2A Rue Eugène Ruppert, L-2453 Luxembourg, Luxembourg.
- **Remuneration policy:** details of the remuneration policy are available on the Management Company’s website at [www.azimutinvestments.com](http://www.azimutinvestments.com). This policy includes, in particular, a description (i) of the calculation of remuneration and allowances paid to staff and (ii) details of the persons responsible for their allocation. A paper version of the remuneration policy statement is available free of charge upon request.
- **Taxation:** your tax system could have an impact on your investment, depending on your citizenship, place of residence or nationality. For further information, please consult your financial advisor before investing.
- **Responsibility:** the Management Company may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus.
- **Separation of Sub-funds:** the Fund offers several Sub-funds whose assets and liabilities are legally separate. The prospectus and financial statements are established for the entire Fund.
- **Exchanging units:** any unitholder may request that all or part of their units in a Sub-fund are converted into units of the same class in another Sub-fund, unless the factsheet of the Sub-fund in the fund’s prospectus expressly excludes this option.
