

ALLIANCEBERNSTEIN®

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Arya European Alpha Portfolio

a sub-fund of AB SICAV I

Class I Shares (LU2211955310)

This Fund is managed by AllianceBernstein (Luxembourg) S.à r.l., part of the AB Group

OBJECTIVES AND INVESTMENT POLICY

Investment objective

The Fund seeks to increase the value of your investment over time through capital growth.

Investment policy

Under normal market conditions, the Fund (i) combines long and short exposure through equity securities of European companies primarily using financial derivative instruments and (ii) expects net long exposure to not exceed 20% of the Fund's net assets.

The Fund seeks to minimize the volatility of returns through industry diversification and by managing its long and short positions.

The Fund typically invests at least 80%, and not less than two thirds, of its assets in equity securities of mid- to large-capitalization companies that are organized, or have substantial business, in Europe. These companies may be of any industry or sector.

The Investment Manager seeks to take long and short positions on securities with positive or negative growth potential, respectively and to seek risk-adjusted returns. It also aims to minimize volatility through a flexible management of the portfolio's net long exposure and industry diversification.

The Fund may be exposed to any currency.

The Fund uses derivatives to a significant extent for hedging (reducing risks), efficient portfolio management and other investment purposes (including synthetic short positions).

Arya is the name of a specific investment team, all of whose members are employees of the Investment Manager.

Benchmark

The Fund does not use a benchmark.

The Fund is actively managed and the Investment Manager is not constrained by any benchmark. Please see the Fund's prospectus for more information.

Fund currency

The reference currency of the Fund is EUR.

Share class currency

The reference currency of the share class is EUR.

Distribution policy

This share class is a non-distributing share class. Income and capital gains derived from the Fund are reinvested.

Redemption

Shares may be redeemed on any day when both the New York Stock Exchange and Luxembourg banks are open for business.

Terms to understand

Derivatives: Financial instruments whose value is linked to one or more rates, indices, share prices or other values.

Equities: Securities that represent an ownership stake in a company.

Long positions: Positions that result in gains for the Fund when security prices rise and losses when security prices fall.

Net long exposure: The market value of the long positions is greater than the market value of the short positions.

Other investment purposes: In line with the Fund's investment objective and policy, means to gain exposure and/or to manage duration.

Short positions: Positions that result in gains for the Fund when security prices fall and losses when security prices rise.

Volatility: A measure of price movement of securities or other financial instruments over time.

RISK AND REWARD PROFILE

What does this risk indicator mean?

This synthetic risk and reward indicator (SRRI) scale rating indicates how the Fund may perform and the risk of losing some or all of your capital. Generally the potential for higher gains also means a larger risk of losses. The lowest category does not mean a risk free investment.

The above rating is an estimate, not a guarantee. It is calculated using industry-standard methods and is based on medium-term volatility (how sharply the Fund's actual or estimated share price has gone up and down over five years).

Historical data may not be a reliable indication of the future risk profile of this Fund. The risk and reward category for this Fund is not guaranteed to remain unchanged and may shift over time.

Why is this Fund in this category?

The Fund is not guaranteed in capital. The Fund is invested in both equities and debt securities which are subject to variations up or down that can generate gains or losses.

Risks materially relevant to the Fund but not adequately captured by the SRRI:

The rating does not reflect the possible effects of unusual market conditions or large unpredictable events, which could amplify everyday risks and could trigger other risks, such as:

Counterparty risk: If an entity with which the Fund does business becomes insolvent, payments owed to the Fund could be delayed, reduced, or eliminated.

Liquidity risk: Certain securities could become hard to buy or to sell at a desired time or price.

CHARGES

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	1.50%
Exit charge	None

This is the maximum that might be taken out of your money before it is invested/ before the proceeds of your investment are paid out.

Charges taken from the Fund over a year

Ongoing Charge	1.83%
----------------	-------

Charges taken from the Fund under certain specific conditions

Performance fee	The performance fee is 20.00% of the amount the Adjusted NAV of a share class outperforms the High-Water Mark at fiscal year-end. In the Fund's last financial year the performance fee was 0.00%.
-----------------	--

The entry and exit charges shown are maximum figures. In some cases, you might pay less – you can find this out from your financial advisor.

The ongoing charges figure is based on expected expenses for the current fiscal year. This figure may vary from year to year. It excludes:

- ▶ Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in an other collective investment undertaking.

"Adjusted NAV" means the Net Asset Value per share before the reduction of any performance fee if any, and after reduction of any other charges.

"High-Water Mark" means the Adjusted NAV of this class immediately after the last performance fee is paid or, if no performance fee has been paid, the NAV of this class at issue.

For more information about charges, please refer to the Fund's prospectus which is available at www.alliancebernstein.com.

PAST PERFORMANCE

There are insufficient data to provide a useful indication of past performance.

Please be aware that past performance is not a reliable indicator of future results.

The past performance is shown after deduction of ongoing charges. Any entry/exit fees are excluded from the calculation.

The Fund was launched on 04/09/2020.

The share class of the Fund was launched on 17/02/2021.

Performance is shown only where full calendar-year performance history is available.

Past performance has been calculated in EUR and is expressed as a percentage change of the Fund's net asset value at each year end.
