KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - Europe Responsible Small Cap Equity, a sub-fund of UBAM

Class: UC EUR (Capitalisation) LU1509920440

UBAM is managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow your capital and generate income by investing at least 75% of its net assets in equities issued by companies having their registered office in the European Union, in the United Kingdom and/or European Economic Area.

The Fund is actively managed and may invest up to 25% of its net assets in warrants on transferable securities, convertible bonds or bonds with warrants on transferable securities, bonds and other debt securities and money market instruments.

The Fund invests primarily in stocks of companies which constitute the bottom third in terms of market capitalization of all publicly listed equities. The minimum market capitalization is EUR 100 million.

To enhance the liquidity, the Fund will also invest in medium and larger capitalized companies or in liquid assets such as cash or equivalent, bonds and other debt securities.

The Fund generally seeks to invest in sustainable quality growth business models: strongly financed, well managed, competitively advantaged companies with high or improving returns and exposure to growing end markets. The Investment Manager will generally seek to pursue and engage with companies that demonstrate a willingness to implement strong ESG standards and promote an ambitious sustainability strategy as the Investment Manager believes this will enable them to be in a better position to reduce their carbon intensity, to solidify their competitive positioning and to achieve profitable growth on a sustainable basis.

The primary sustainable objective of the Fund is to promote a carbon footprint lower than the MSCI Europe Small Cap Net Return Index ("the Benchmark").

The Investment Manager performs a negative screening and a norm-based screening to filter the investment universe. ESG related information is entering the suitability screen of the stock selection process. The portfolio construction will consider ESG criteria as well as the contribution to risk that arises from ESG exposures. Company specific and portfolio factors including ESG developments are considered when constructing and monitoring the portfolio.

The ESG analysis covers 100% of the portfolio.

The Fund uses the Benchmark for performance objective.

The Benchmark is representative of the investment universe and of the risk profile of the Fund. Although the Fund's securities will primarily correspond to those of the Benchmark, the Investment Manager has significant discretion to deviate from the Benchmark's constituents in respect to countries, sectors, issuers and instruments, in order to take advantage of specific investment opportunities.

The Benchmark is not aligned with the environmental and/or social characteristics promoted by the Fund.

The Fund's base currency is EUR.

As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is reinvested (capitalisation share class).

Investors in the Fund can subscribe and redeem units on any business day in Luxembourg.

Details of the closing days are available here: <https://www.ubp.com/en/our-offices/ubp-asset-management-europe-sa>.

The recommended holding period is minimum 5 years.

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk category 6 reflects a very high potential gain and/or loss in the value of the portfolio.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Counterparty risk: The use of over-the-counter derivatives exposes the Fund to a risk that the counterparty to the transactions will fully or partially fail to honour its contractual obligations. This may result in a financial loss for the Fund.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

ESG and Sustainability risk: It may result in a material negative impact on the value of an investment and performance of the Fund. Assessment of sustainability risks is complex and requires subjective judgments, which may be based on data which is difficult to obtain and/or incomplete, estimated, out of date or otherwise materially inaccurate. All or part of said data may come/originate from third parties.

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to trade at advantageous times or prices.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	3.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.
