DPAM B Equities DRAGONS Sustainable

(a sub-fund of DPAM B SA, a public SICAV under Belgian law)

managed by DPAM SA

Class W - ISIN: BE6324103918

Objectives and investment policy

Objective

- The objective of the fund is to provide you with exposure to equity securities of companies located in the Asia/Pacific region selected on the basis of certain trends and business themes. The fund promotes a combination of environmental and social aspects, and invests partly in assets with a sustainable investment objective, as defined in Regulation (EU) 2019/2088 on sustainability-related disclosures for the financial services sector. This is an actively managed fund, which means that the portfolio manager does not aim to replicate the performance of a benchmark.

Investment policy

- The fund principally invests in the equities and/or other securities giving access to so-called "companies of the future" located in the Asia-Pacific region, identified by the acronym DRAGONS: (Disruptive Technology, Rising Middle Class, Ageing & Health, Generation Z, O² & Ecology, Nanotechnology, Security) and these companies are selected on the basis of environmental, social and governance (ESG) criteria. The selection is based on a methodology that, across the entire portfolio, a) excludes companies that are not in compliance with certain global standards, including the UN Global Compact (human rights, labour, environmental protection and anti-corruption), b) excludes companies that are involved in controversial activities (tobacco, gambling, thermal coal, etc.) or involved in major ESG controversies (incidents, allegations related to environmental, social, governance issues). The selection is also based on an analysis and rating of the ESG profile of the invested company using ESG Scorecards (grids analysing the most relevant and material ESG risks to which companies are exposed) only for the portion of investments with a sustainable objective. Finally, for the portion of investments with a sustainable objective, impact research and sustainability themes ensure that the company's products and/or services finance – in proportion to its turnover – sustainable development. More information can be found on the website www.dpamfunds.com.

Benchmark: MSCI AC Asia Pacific Net Return.

Use of the benchmark: the benchmark is used to compare performance. The selection and weighting of the assets in the fund's portfolio may differ significantly from the composition of the benchmark.

Subscription/Redemption

- All subscription or redemption requests may be made prior to 3:00 p. m. (Belgian time) on each business day to Banque Degroof Petercam SA.

Types of Units

- The units of the fund are capitalisation units, issued in the form of shares, which do not give right to a dividend. All income earned by the fund is reinvested.

Derivative products

- The fund may, on an optional basis, use derivatives such as futures and/or forwards in order to achieve the investment objectives and/or for hedging purposes (hedging of or exposure to the risks associated with certain markets).

Investment holding period

- This fund may not be appropriate for investors who intend to withdraw their capital within 6 years of the initial investment.

Risk and reward profile

|---|---|---|---|---|---|---|

Certain risks are not (or not adequately) reflected in the risk and reward profile mentioned herein. Amongst those risks, the following could have a material impact on the risk and reward profile of the fund:

- Concentration risk:** as the portfolio is mainly composed of securities Asia-Pacific region and specific thematic sectors, it is likely to be more specifically exposed to the economic development of this sector and area.

- As any investment is risky by nature, the return (performance) thereof is potential only. The risk and reward profile of your investment is reflected by a synthetic indicator which ranks the fund over a risk/return scale from the lowest (1) to the highest (7) risk category.
- The computation of this risk/reward profile is based on the portfolio's net asset value fluctuations (volatility) recorded over the past 5 years (or on simulations based on an appropriate benchmark for funds or share classes of less than 5 years). It gives an indication of the fund's potential performance and of your capital risk exposure, but it does not guarantee that the risk/reward profile currently published will remain unchanged.
- Historical data, such as those used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the fund.
- The lowest risk/return category (level 1) does not mean a risk-free investment.
- The risk/return profile mentioned herein is essentially due to the presence of equities in the portfolio.
- The capital invested in this fund is neither guaranteed nor protected. You may therefore lose all or part of your investment.

Charges

The charges are used to pay the costs of running the fund (including the marketing and distribution costs thereof). These costs reduce the potential growth of your investment.
