The Fund is managed by Waystone Management Company (Lux) S.A.

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The objective of this Sub-Fund is to achieve capital growth through investment in a portfolio of government and corporate bonds. The Sub-fund could invest in all types of fixed income securities, including convertible bonds, preferent shares and other instruments. Ordinary shares could be held when they come from the conversion of convertible bonds.

Investment Policy

Sub-Fund may at its sole discretion and based on its own credit analysis and appraisal of the market and economic situation take the decision to make predominantly investments in non-investment grade securities with a large diversification.

The Sub-Fund may

- invest in ancillary liquid assets or cash equivalent debt and money market instruments. Maturity of these will be less than 12 months at buying;
- acquire units of regulated funds (UCITs and UCIs);
- invest in collective schemes managed by the EDM Group.

The Sub-Fund may, in accordance with its investment restrictions, invest in Financial derivative products for hedging purpose.

Sub-Fund Currency

The reference currency of this Sub-Fund is the EUR and the share class currency is USD. Each share class will obtain local currency return of the underlying assets.

Benchmark

The Sub-Fund is actively managed and uses the BAML HY BB-B US for performance comparison purpose only. The Sub-Fund may select securities on a discretionary basis. The deviation of the portfolio composition of the Sub-Fund compared to the benchmark is material.

Investment Horizon

Recommendation: this Sub-Fund may not be appropriate for investors who plan to withdraw their money within one year.

Income

All income received by the Share Class will be reinvested.

Subscription and Redemption

Investors may buy, switch and redeem shares of the Sub-Fund on a daily basis.

RISK AND REWARD PROFILE

Risk Disclaimer

The risk and reward indicator illustrates where the Sub-Fund is positioned in terms of its possible risks relative to its potential rewards. The higher the Sub-Fund's position on this scale, the greater the possible reward, but also the greater risk of losing money. This risk indicator is calculated using historical data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time. Even if the Sub-Fund is in the lowest risk class you can lose money, as no investments are entirely risk free.

Why is this Sub-Fund in this category?

The Sub-Fund is subject to a medium level of risk being linked to typical risks of securities markets, such as the macro-economic trends at global level, the level of inflation and interest rates, the evolution of corporate income, the issuers'

stability and currency fluctuations. At this time, the level of the risk and reward profile is equal to 4.

Not all risks affecting the Sub-Fund are adequately captured by the synthetic risk indicator. The following risks may affect the Sub-Fund:

Credit risk: which are linked to the debt securities the Sub-Fund may invest in;

Liquidity risk: which may occur when investments are made in financial instruments that could have a lower level of liquidity in some circumstances for example in the case of a market crash or default of issuers; due to massive redemptions of shareholders resulting in a potential decrease of the value of certain of the Sub-Fund's investments;

Counterparty risk: which may occur due to the exposure the Sub-Fund might have through contracts with third parties;

Operational risk: which may occur due to technical issues for example natural disasters, misunderstandings and fraud;

For full details of the risks the Sub-Fund may be exposed to, please refer to the Prospectus of the fund.
