FRANKLIN  
TEMPLETON

# Legg Mason Martin Currie Global Long-Term Unconstrained Fund

Class A Euro Accumulating (Hedged)

ISIN: IE00BMH3NC87

**A sub-fund of:** Legg Mason Global Funds plc

**Managed by:** Franklin Templeton International Services S.à r.l., part of the Franklin Templeton group of companies.

## Objectives and Investment Policy

### Objective

The fund's goal is to achieve growth of the fund's value in the long term.

### Investment Policy

- The fund will invest at least 80% of its assets in shares of companies located anywhere in the world, including emerging market countries. Such investment may be directly in such shares or indirectly via derivatives (financial instruments whose value is derived from the value of other assets).
- The investment manager seeks to identify shares of companies that historically have demonstrated consistent, long-term value creation. If a company passes the investment manager's initial screening then an in-depth analysis and valuation of the company is undertaken. The companies that are still considered attractive at this point are then subjected to a final due diligence analysis.
- The fund will typically invest in 20 to 40 companies.
- The fund may invest in derivatives, to help try to achieve the fund's objective as well as to reduce risk or cost or to generate additional growth for the fund.

**Benchmark:** MSCI AC World (Net Dividends) Index

**Manager's Discretion:** The fund is actively managed, and the investment manager is not constrained by the benchmark. The fund uses the benchmark for performance comparison purposes. While many of the fund's investments will be components of the benchmark, the weightings of the fund's holdings may differ materially from the weightings in the benchmark. The fund will also invest in securities that are not included in the benchmark. The fund's percentage exposures to sectors and industries may differ materially from those of the benchmark.

**Fund's Base Currency:** US Dollar

**Share Class Currency:** Euro

**Transaction Costs:** The fund bears costs in buying and selling investments, which may have a material impact on the fund's performance.

**Dealing Frequency:** You can buy, sell and switch your shares on each day that the New York Stock Exchange is open for business.

**Minimum Initial Investment:** For this share class the minimum initial investment is EUR 1,000.

**Treatment of Income:** Income and gains from the fund's investments are not paid but instead are reflected in the fund's share price.

## Risk and Reward Profile

The indicator is based on the volatility of the returns (past performance) of the reported share class (calculated on a 5 year rolling return basis). Where a share class is inactive / has less than 5 years of returns, the returns of a representative benchmark are used.

There is no guarantee that the fund will remain in the indicator category shown above and the categorisation of the fund may shift over time. Historical data, which is used in calculating the indicator, may not be a reliable indicator of the future risk profile of this fund.

The lowest category does not mean a risk-free investment.

The fund does not offer any capital guarantee or protection and you may not get back the amount invested.

The fund is in its risk/reward category because a concentrated investment (the fund holds fewer investments than many other funds) in shares of companies from various countries and sectors has historically been subject to relatively large fluctuations in value.

**The fund is subject to the following risks which are materially relevant but may not be adequately captured by the indicator:**

**Investment in company shares:** The fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company, its industry or the economy in which it operates.

**Emerging markets investment:** The fund may invest in the markets of countries which are smaller, less developed and regulated, and more volatile than the markets of more developed countries.

**Concentrated fund:** The fund invests in fewer companies than other funds which invest in shares usually do. This means that the fund does not spread its risk as widely as other funds and will therefore be affected more if an individual company has significant losses.

**Sustainability:** The fund's integration of sustainability risks in the investment decision process may have the effect of excluding profitable investments from the investment universe of the fund and may also cause the fund to sell investments that will continue to perform well. A sustainability risk could materialise due to an environmental, social or governance event or condition which may impact the fund's investments and negatively affect the returns of the fund.

**Fund currency:** Changes in exchange rates between the currencies of investments held by the fund and the fund's base currency may negatively affect the value of an investment and any income received from it.

**Derivatives:** The use of derivatives can result in greater fluctuations of the fund's value and may cause the fund to lose as much as or more than the amount invested.

**Fund operations:** The fund is subject to the risk of loss resulting from inadequate or failed internal processes, people or systems or those of third parties such as those responsible for the custody of its assets, especially to the extent that it invests in developing countries.

**Hedged class currency:** The value of your investment may fall due to changes in the exchange rate between the currency of your share class and the base currency of the fund. Efforts will be made to try to protect the value of your investment against such changes, but such efforts may not succeed.

For further explanation on the risks associated with an investment in the fund, please refer to the section entitled "Risk Factors" in the base prospectus and "Primary Risks" in the fund supplement.

## Charges

<i>One-off charges taken before or after you invest</i>	
<b>Entry charge</b>	5.00%
<b>Exit charge</b>	none
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
<i>Charges taken from the fund over a year</i>	
<b>Ongoing charge</b>	1.96%
<i>Charges taken from the fund under certain specific conditions</i>	
<b>Performance fee:</b> none	

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Entry and exit charges shown are the maximum that might be taken out of your money. In some cases, you might pay less and you should speak to your financial adviser about this.

The ongoing charge is based on expenses for the 12 month period ending December 2021. This figure may vary over time.

For more information about charges, please see the "Fees and Expenses" sections of the base prospectus and fund supplement.

## Past Performance

The reported share class has insufficient data history to be able to show a useful indication of past performance.

The fund was launched on 28 June 2016 and the share class began issuing shares on 24 March 2021.
