Megatrends

ISIN	LU2275724420	a sub-fund of Vontobel Fund II
Share Class	V	This fund is managed by Vontobel Asset Management S.A., which is part of Vontobel Group.
Currency	USD	This fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

This actively managed sub-fund aims to generate long-term capital growth and to achieve superior risk-adjusted returns. It is categorized as Article 8 SFDR. More details can be found in the prospectus.

- The sub-fund mainly invests directly or indirectly in equities and equity-like securities of companies worldwide that are expected to benefit from megatrends. It may invest via Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect in China A-Shares. It may also invest up to 10% of its assets indirectly in real estate via (i) equities of companies that themselves invest in or manage real estate or (ii) closed-end Real Estate Investment Trusts (REITs) or Real Estate Investment Companies (REICs) whose securities are transferable securities.
- The selection and weighting of assets is mainly based on qualitative and quantitative criteria for different megatrends. Megatrends are long-term developments that are shaping or will shape society and

the economy such as rapid urbanisation, climate change and resource scarcity, shift in global economic power, demographic and social change, technological breakthroughs.

- The sub-fund may use derivatives to achieve the investment objective and for hedging purposes.
- The sub-fund is not managed with reference to a benchmark. The portfolio manager has full investment discretion within the predefined investment limits.
- Any income generated will be reinvested and included in the value of your shares.
- Buying and selling securities entails transaction costs payable in addition to the charges listed.
- Redemption of shares: daily when banks in Luxembourg are open for normal business (see prospectus for details and exceptions).
- Recommendation: this sub-fund may not be suitable for investors who wish to withdraw their money within a period of 5 years.

Risk and reward profile

The indicator above does not signal the risk of a potential loss, but indicates the fluctuations in the sub-fund's share price in the past.

- The share class is assigned to this category because its share price can fluctuate sharply due to the investment policy applied.
- The historical data used to calculate the profile cannot be used as a reliable guide to the future risk profile of the sub-fund.
- The risk category shown is not guaranteed and may change.
- Even the lowest risk category is not entirely free of risk.

When assigning a sub-fund's share class to a risk category, it may be the case that not all risks are taken into account due to the calculation

model used. Such risks include risks in connection with exceptional market events, operational errors, legal and political events. You can find a detailed list of the risks in the "Notice regarding general risks" section of the General Part and the "Risk profile" section of the Special Part of the sales prospectus. The following risks have no direct influence on this category, but may still be important:

- Using derivatives generally creates leverage and entails valuation risks and operational risks. Leverage magnifies gains but also losses. Over-the-counter derivatives involve corresponding counterparty risks.
- Investments in Chinese A-Shares are subject to changes in political, economic and social conditions in China as well as changes in the policies of the PRC government, laws and regulations.
- A company's stock price may be adversely affected by changes in the company, its industry or economic environment and prices can change quickly. Equities typically involve higher risks than bonds and money market instruments.
