

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of this fund. You are advised to read it so you can make an informed decision about whether to invest.

Nippon Growth (UCITS) Fund (the "Fund")

A sub-fund of E.I. Sturdza Funds plc ("the UCITS") managed by Eric Sturdza Management Company S.A. JPY A Share Class ISIN: IE00B563Q870 (the "Representative Class").

INVESTMENT OBJECTIVE & POLICY

The investment objective of the Fund is to achieve long-term capital growth through active sector allocation and stock selection resulting from changes in economic conditions in a range of Japanese equities.

The Fund's investments will be primarily listed on a Recognised Stock Exchange and the Fund will target underlying investments that can easily be bought or sold in the market with few liquidity constraints.

The Fund has the flexibility to invest in cash or money market instruments including short term government bonds issued by the Japanese Government and denominated in JPY, but these assets do not make up a large part of the Fund's investments.

The Fund may also use financial derivatives such as futures and options both to hedge the value of the assets within the investment portfolio and also to gain additional investment exposure where necessary. It is possible that a proportion of the Fund's assets may therefore be invested in financial derivative instruments, which may enhance or detract from the Fund's performance.

The Fund is actively managed, with reference to the TOPIX Index (the "Index") for performance monitoring and calculation

of performance fees. The Investment Adviser is not subject to constraints in terms of deviation from the benchmark composition and may use its discretion to invest in securities/sectors which are not included in the Index. The degree of freedom from the Index may potentially be significant.

You can buy and sell your shares in the Fund on a daily basis. Shares in the AD JPY Class are distributing shares, meaning the Fund may elect to pay a dividend on these Shares. Shares in all other share classes of the Fund are accumulating Shares, as such income from the Fund's investments will be included in the value of the shares rather than being paid as a dividend.

This Fund is deemed to be appropriate for investors who plan to invest for the medium to long term.

Pursuant to the EU's Sustainable Finance Disclosure Regulation (EU) 2019/2088 ('SFDR'), this Fund is classified as a fund that promotes environmental or social characteristics. The Fund will have an averaged ESG score higher than the averaged ESG score of its initial investment universe. For more information on this Fund's investment approach with respect to sustainability and non-financial criteria, please refer to Annex I of the Fund's prospectus supplement or www.ericsturdza.com.

RISK & REWARD PROFILE OF THE FUND

The risk indicator is based on historical data and may not be a reliable indicator of the future risk profile of the Fund, is not guaranteed and may change over time. The lowest category does not mean risk free.

The risk indicator for the Fund is set as 6, which reflects the historic price behaviour of the Fund. Factors that affect the profile include:

Investments in equity securities are subject to fluctuations in value dependent on market conditions which will directly affect the value of investments held by the Fund;

The Fund invests with a single country focus which will increase the risk of investing compared to a fund that invests in a globally diversified range of countries.

Additional risks of investing in this Fund include:

Liquidity Risk: the risk that the assets of the Fund may have low levels of liquidity in some circumstances.

Taxation Risks: the risks of changes in taxation regimes, including legal and regulatory changes.

Custody and Settlement Risk: the risk that the transactions entered into by the Fund are not settled or registered as appropriate.

Counterparty Risk: the risk associated with holding assets with an unrelated third party who may fail to deliver the assets or whose financial standing may affect the value of the assets.

Operational Risk: the risks associated with correctly reflecting the value and safekeeping of the assets of the Fund.

The Prospectus and Supplement give you more details about all risks associated with the Fund – please refer to the "Practical Information" section for details of how to obtain a copy.

CHARGES FOR THIS FUND

One-off charges taken before or after you invest

| | |
|---------------|---|
| Entry Fee (%) | - |
| Exit charge | - |

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing charges | 1.89% |
|-----------------|-------|

Charges taken from the Fund under certain specific conditions

| | |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Performance fee (%) | 15.00% of relative outperformance, if any, of the Net Asset Value per Share (before deducting the amount of any accrued liability for a performance fee) over the TOPIX TR JPY. |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

The entry and exit charges shown are maximum figures. These charges represent the amount that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

The ongoing charge is based on estimated fees and expenses that the Representative Class will pay in one year. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry / exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please see the relevant section in the Supplement, which is available at www.ericsturdza.com.

PAST PERFORMANCE %

Past performance is not a guide to future performance. The value of your investment may go down as well as up and you may not get back the amount you originally invested.

The chart shows the Representative Class's annual performance in JPY terms for each complete calendar year since launch. It is expressed as a percentage change of the Fund's net asset value at each year end.

Performance is shown after deduction of ongoing charges and performance fees. Any entry or exit fees are excluded from the calculation.
