Fund Objective

The Brown Advisory Global Leaders Sustainable Fund, launched in November 2019, seeks to own a concentrated portfolio of 30-40 leading global companies in any sector or country that we believe deliver exceptional customer outcomes and are capable of compounding excess economic returns over time. At the heart of our approach is a belief that our job is to identify high-quality companies underpinned by structural long-term growth and strong management teams and to purchase those companies at reasonable prices for our clients. We are fundamental, bottom-up, research intensive stock-pickers. Our philosophy also embraces ESG principles as part of our due diligence as we believe understanding how a company engages with its stakeholders is key to understanding value creation. The Fund follows the investment philosophy of the Global Leaders strategy which launched in 2015, but in addition this Fund applies an ESG screening process as requested by our investors.

ESG Screens

The Fund intends to invest in companies with measurable ESG outcomes, as determined by Brown Advisory, and seeks to screen out particular companies and industries. In addition to our proprietary and qualitative ESG analysis, we rely on a third-party provider to apply a rules-based screening process which seeks to identify companies that may have controversial business involvement, as determined by Brown Advisory. For example, the Fund seeks to exclude companies that may defy the United Nations Global Compact Principles and the Norges Bank exclusion list. The Fund also seeks to impose investment guidelines on possible controversies including, but not limited to, controversial weapons, conventional weapons, animal testing, fossil fuels, adult entertainment, alcohol, tobacco, gambling, and nuclear power related activities. The Brown Advisory Global Leaders Sustainable UCITS Fund has been awarded the FNG Label 2022. The Fund meets the quality and exclusion standards for sustainable investments in the German speaking countries developed by Forum Nachhaltige Geldanlagen e. V. (FNG; SIF of Germany, Austria, Liechtenstein and Switzerland). The Fund receives two of three possible stars for a particularly ambitious and comprehensive sustainability strategy. Note: It is important for investors to understand that the data informing this process is derived from third party sources, including companies themselves. Although we believe our process is reasonably designed, such data is inherently subject to interpretation, restatement, delay and omission outside of our control. Investors are informed that criteria applied in developing "socially responsible" screens may be additional to the criteria disclosed above. Investors are informed that criteria applied in developing "socially responsible" screens may be additional to the criteria disclosed above.

Risk and Reward Profile

This indicator is based on historical data and may not be a reliable indication for the future risk profile of the Fund.

- The risk category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean your investment is risk-free. The Fund's investments are subject to normal market fluctuations and other risks inherent in equities.
- The Fund is in category 6 as it mostly invests in equities, which typically experience higher levels of price fluctuation than other types of instruments.
- For a more detailed explanation of these and other risk factors, please refer to the section entitled Risk Factors in the prospectus and supplement.

RISKS:

- Operational risk:** The Fund's operations depend on third parties, including the Fund's Administrator and Custodian, and the Fund may suffer disruption or loss in the event of their failure.
- Equities Risk:** equity investments are subject to greater fluctuation in market value than other asset classes as a result of such factors as a company's business performance, investor perceptions, stock market trends and several economic conditions. This may cause the Fund's share price to fluctuate.
- Derivatives Risk:** The Fund is permitted to use certain types of derivatives instruments to seek to protect its assets against some of the risks outlined in this section. Derivatives may fluctuate in value rapidly and may cause losses that are greater than the original amount paid for the relevant derivative. Please refer to the investment policy section of the prospectus for a full list of the types of derivative that the Fund may utilize.
- Liquidity Risk:** The Fund may invest in securities which may, due to negative market conditions, become difficult to sell or may need to be sold at an unfavourable price. This may affect the overall value of the Fund.
- Exchange Rate Risk:** the performance of this share class may be affected by changes in the exchange rates between the share class currency and the US dollar, the currency in which the Fund is denominated, as the Investment Manager will not purchase financial instruments to mitigate any such potential changes in exchange rates.

The Fund is currently notified for marketing into a number of EU Member States under the UCITS Directive. The Company can terminate such notifications for any share class and/or the Fund at any time using the process contained in Article 93a of the UCITS Directive. Certain share classes of the Fund will also be available for subscription in jurisdictions where the Fund may be lawfully privately placed. Please contact Brown Advisory for more information. Investors should carefully consider the investment objectives, risks, charges, and expenses of the Fund. This and other important information is contained in the Prospectus, the Supplement, and the applicable KIIDs. Read these documents carefully before you invest.

ESG considerations that are material will vary by investment style, sector/industry, market trends and client objectives. The strategy seeks to identify companies that it believes may have desirable ESG outcomes, but investors may differ in their views of what constitutes positive or negative ESG outcomes. As a result, the strategy may invest in companies that do not reflect the beliefs and values of any particular investor. The strategy may also invest in companies that would otherwise be screened out of other ESG oriented funds. Security selection will be impacted by the combined focus on ESG assessments and forecasts of return and risk. The strategy intends to invest in companies with measurable ESG outcomes, as determined by Brown Advisory, and seeks to screen out particular companies and industries. Brown Advisory relies on third parties to provide data and screening tools. There is no assurance that this information will be accurate or complete or that it will properly exclude all applicable securities. Investments selected using these tools may perform differently than as forecasted due to the factors incorporated into the screening process, changes from historical trends, and issues in the construction and implementation of the screens (including, but not limited to, software issues and other technological issues). There is no guarantee that Brown Advisory's use of these tools will result in effective investment decisions.
