Fund Manager comments

Echiquier Value Euro B turned in a positive monthly performance of 4.19% and of 18.85% year-to-date.

The fund ended the year on a positive note thanks to a buoyant selection of mid-cap stocks. The prospect of falling key interest rates on both sides of the Atlantic is supporting the valuations of smaller-cap stocks. United Internet is benefiting from the encouraging outlook communicated for 2024 by its mobile telephony subsidiary 1&1. Similarly, Jungheinrich (forklift trucks) is up significantly after having been unnecessarily penalised between August and October. We should also note the rebound of Page Group (recruitment agency), whose valuation levels had recently hit all-time lows. 2024 promises to be a more demanding year from a stock-picking point of view, particularly for large caps, which posted strong growth in 2023. Our management philosophy, which focuses on selecting discounted, profitable companies, currently gives pride of place to small- and mid-caps, which we believe offer greater potential in the years ahead.
