

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Loomis Sayles Sustainable Euro Credit Fund (R/A (EUR) ISIN: IE00BM990346), a sub-fund of Natixis International Funds (Dublin) I Public Limited Company (the "Company")

Management Company and Promoter: Natixis Investment Managers S.A., part of the Natixis group of companies

Investment Manager: Loomis, Sayles & Company, L.P., part of the Natixis group of companies

Objectives and Investment Policy

Investment objective

The investment objective of the Natixis International Funds (Dublin) I – Loomis Sayles Sustainable Euro Credit Fund (the "Fund") is to seek return through a combination of income and capital appreciation, through an investment process that includes Environmental, Social and Governance ("ESG") considerations.

Investment strategy

The Fund will combine a "top-down" market view, an investment approach that first looks at markets and the economy, with "bottom-up" research of how individual companies perform. As a key component of its bottom-up approach, the Investment Manager uses a proprietary ESG process based upon the following four, sequential steps of i) Screening, ii) Integration, iii) Engagement and iv) Exclusion with the aim of conducting non-financial analysis on more than 90% of the Fund's Net Asset Value.

Investment policy

The Fund may invest any portion of its Net Asset Value in investment grade, fixed income securities (e.g. green bonds as described in the International Capital Markets Association's "Green Bond Principles, Voluntary Process Guidelines for Issuing Green Bonds") denominated in Euro that are issued by companies anywhere in the world. Investment-grade, means greater than or equal to BBB- (Standard & Poor's Ratings Services), Baa3 (Moody's Investors Service, Inc.) or an equivalent rating by Fitch Ratings, or if unrated, determined by the Investment Manager to be of equivalent quality. On occasion, ratings agencies can give different ratings on the same issue and this is known as a "split-rated" issue. In such an instance, the Fund will apply the lower of the ratings. The Fund may also invest any portion of its Net Asset Value in fixed income securities issued by governments (including their agencies, instrumentalities and sponsored entities) and supranational entities (e.g. the World Bank).

The Fund may invest up to 10% of its Net Asset Value in fixed income securities of below investment grade quality; however such securities must be rated no lower than BB- (Standard & Poor's Ratings Services), Ba3 (Moody's Investors Services, Inc.), or an equivalent rating by Fitch Ratings at the time of purchase. The Fund may not invest in fixed income securities rated at or below B+ (Standard & Poor's Ratings Services), B1 (Moody's Investors Services, Inc.), or an equivalent rating by Fitch Ratings. If the credit ratings of any fixed income securities are downgraded below BB- (Standard & Poor's Ratings Services), Ba3 (Moody's Investors

Services, Inc.), or an equivalent rating by Fitch Ratings, the Fund may continue to hold the affected securities. Subject to the state of the markets at the relevant time and provided it is in the best interests of investors, the affected security shall be sold within six months from the downgrade unless the credit rating is restored to the same limit as set out above during this same six month period.

The Fund may invest up to 10% of its Net Asset Value, at time of purchase, in fixed income securities denominated in currencies other than Euro.

The Fund may invest up to 10% of its Net Asset Value in undertakings for collective investment.

The Fund may use derivatives for hedging and/or investment purposes.

The Base Currency of the Fund is the Euro.

The Fund is actively managed with reference to the iBoxx Euro Corporates Overall Total Return Index, meaning the Fund may use the index as a universe from which to select securities. However, while there may be times when the performance of the Fund may be similar to the index, the Fund does not aim to track or replicate the index nor is it constrained by that index and may therefore significantly deviate from it.

In the application of the ESG process in the Investment Strategy and Policy, the Investment Manager will exclude direct investment or limit issuers deriving part of their revenue from certain sectors represented by this reference index.

Shareholders may sell their shares back to the Fund on any business day in Ireland.

Income earned by the Fund is paid out to shareholders if the shares are distributing shares or reinvested by the Fund if the shares are accumulating Shares. Please refer to the section entitled "Dividend Policy" in the Prospectus for additional information.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 3 years.

Risk and Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

This ranking on the synthetic risk and reward indicator scale is due to the Fund's allocation to fixed income markets. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. There is no capital guarantee or protection on the value of the Fund. The lowest category does not mean "risk free".

The following risks are materially relevant to the Fund but are not adequately captured by the synthetic indicator:

Counterparty risk: The counterparty risk is the risk that a counterparty with whom the UCITS has entered into OTC transactions would not be in a position to fulfil its liabilities toward the UCITS.

Credit risk: Credit risk arises from the risk of impairment of the quality of an issuer and/or an issue, which may entail a reduction in the value of the security. It may also arise from default at maturity by an issuer in the portfolio.

Impact of Management Techniques risk: The risk linked to the management techniques is the risk of increased losses due to the use of financial derivatives instruments and/or securities lending and repurchase transactions.

Please refer to the section entitled "Risk Factors" in the Prospectus and in the relevant Supplement for additional details on risks.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Charges by Share Class-Share Class R

One-Off charges taken before or after you invest

Entry Charge 3.00%

Exit Charge None *

This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.

Charges taken from the Fund over a year

Ongoing Charges: 0.97% p.a.

Charges taken from the Fund under certain specific conditions

Performance Fee: None

The **entry** and **exit charges** shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser.

*A levy of up to 2.00% may be applied to an investor engaging in excessive trading or market timing practices.

A switching charge equal to the difference in the sales charges of the share classes may apply if the share class or fund into which you switch has a higher sales charge.

The **ongoing charges** figure is based on expenses for the year ending December 2021. This figure may vary from year to year. It excludes the portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

The Fund's annual report for each financial year will include detail on the exact charges made.

For more information about charges, please refer to chapters "Fees and Expenses" and "Valuation, Subscription and Redemption" of the Fund's prospectus, which is available at www.im.natixis.com/intl/intl-fund-documents.
