TRP Global Aggregate Bond Fund

INVESTMENT OBJECTIVE

To maximise the value of its shares through both growth in the value of, and income from, its investments.

The fund is actively managed and invests mainly in a diversified portfolio of bonds of all types from issuers around the world including emerging markets.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in debt securities issued by governments, government agencies, supra-national organisations, companies and banks. Generally, debt securities held in the portfolio, as rated by Standard & Poor's or equivalent, are expected to produce an average credit rating within the range of AAA to BBB- credit rating categories. In accordance with its own internal rating system, the investment manager will ensure that the unrated corporate debt securities in which the fund invests are of the same quality as the rated securities of the same type. Portfolio debt securities can include fixed and floating rate bonds as well as preferred shares and other transferable debt securities of any type, including high yield securities (including up to 10% in distressed and/or defaulted bonds). The fund may invest up to 20% of net assets in asset-backed securities (ABS) and mortgage-backed securities (MBS) and invest up to 25% in convertible bonds (including up to 20% in contingent convertible bonds).

In seeking to achieve the fund's objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' section in the latest prospectus. However, as at the date of the latest prospectus, the fund does not expect to invest in any other eligible securities, on an ancillary basis, to more than a limited extent.

The fund may use derivatives for hedging, efficient portfolio management and investment purposes. The fund may

also use derivatives to create synthetic short positions in currencies, debt securities and credit indices. The fund may use total return swaps (TRS) and any use is expected to be on a temporary basis and dependent on market conditions or when prevailing market conditions cause TRS to be the most efficient instrument to express a view in a fixed income market. Use of TRS is expected for efficient portfolio management and the impact is expected to be negligible. Investors should refer to the Total Return Swaps section in the latest prospectus for more details on the expected and maximum use of total return swaps by the fund. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

TRP Global Focused Growth Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

The fund is actively managed and invests mainly in a diversified portfolio of shares of companies that have the potential for above average and sustainable rates of earnings growth. The companies may be anywhere in the world, including emerging markets.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in equity and equity-related securities of listed companies. Types of securities may include common shares, preferred shares, warrants, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs).

The fund may not invest more than 10% of its assets in China. Any investment in China will be made via Hong Kong listed companies or the Hong Kong Stock Connect. In seeking to achieve its objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' section of the latest prospectus. However, as at the date of the latest prospectus, the fund does not expect to invest in any other eligible securities, on an ancillary basis, to more than a limited extent.

The fund may use derivatives for hedging and efficient portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

TRP Global Value Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

The fund is actively managed and invests mainly in a widely diversified portfolio of undervalued shares of companies anywhere in the world, including emerging markets.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in undervalued equity and equity-related securities such as common shares, preferred shares, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs).

The fund may not invest more than 10% of its assets in China. Investments in China may include A and H shares. Investments in China A shares may be made through the Shanghai-Hong Kong Stock Connect or the Shenzhen-Hong Kong Stock Connect programs.

In seeking to achieve the fund's objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' of the latest prospectus. However, as at the date of the latest prospectus, the fund does not expect to invest in any other eligible securities, on an ancillary basis, to more than a limited extent.

The fund may use derivatives for hedging and efficient portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

T. Rowe Price Global Focused Growth Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

The fund is actively managed and invests mainly in a diversified portfolio of shares of companies that have the potential for above average and sustainable rates of earnings growth. The companies may be anywhere in the world, including emerging markets.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in equity and equity-related securities of listed companies. Types of securities may include common shares, preferred shares, warrants, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs).

In seeking to achieve its objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' section of the latest prospectus. However, as at the date of the latest prospectus, the fund does not expect to invest in any other eligible securities, on an ancillary basis, to more than a limited extent.

The fund may use derivatives for hedging and efficient portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

T. Rowe Price Global Growth Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

The fund is actively managed and invests mainly in a diversified portfolio of shares of companies that have the potential for above average and sustainable rates of earnings growth. The companies may be anywhere in the world, including emerging markets.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in equity and equityrelated securities of listed companies whose market capitalisation, at the time of purchase, falls within or above the range covered by the MSCI All Country World Index. Types of securities may include common shares, preferred shares, warrants, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs).

In seeking to achieve its objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' section of the latest prospectus. However, as at the date of the latest prospectus, the fund does not expect to invest in any other eligible securities, on an ancillary basis, to more than a limited extent.

The fund may use derivatives for hedging and efficient portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

T. Rowe Price Health Sciences Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of, and income from, its investments.

The fund is actively managed and invests mainly in a diversified portfolio of shares of companies that are involved in the research, development, production, or distribution of products or services related to health sciences. The companies may be anywhere in the world, including emerging markets, with a focus on companies in the United States.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in equity and equity-related securities of pharmaceutical companies, health care services companies, medical products and device providers, life sciences and biotechnology firms. While the Fund can invest in companies of any size, the majority of its assets are expected to be invested in large- and midcapitalisation companies. Types of securities may include common stocks, preferred stocks, American Depository Receipts (ADRs). Investment in China A shares may be made through the Shanghai-Hong Kong Stock Connect or the Shenzhen-Hong Kong Stock Connect programs. In seeking to achieve the fund's objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' section of the latest prospectus. However, as at the date of the latest prospectus, the fund

does not expect to invest in any other eligible securities, on an ancillary basis, to more than a limited extent. The fund may use derivatives for hedging and efficient

portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

T. Rowe Price Japanese Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

The fund is actively managed and invests mainly in a widely diversified portfolio of shares of companies in Japan.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in equity and equity-related securities of companies that are either incorporated in Japan or conduct most of their business there. Types of securities may include common shares, preferred shares, warrants, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs).

In seeking to achieve the fund's objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' of the latest prospectus. However, as at the date of the latest prospectus, the fund does not expect to invest in any other eligible securities, on an ancillary basis, to more than a limited extent.

The fund may use derivatives for hedging and efficient portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

T. Rowe Price US Large Cap Growth Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

The fund is actively managed and invests mainly in a diversified portfolio of shares from large capitalisation companies in the United States that have the potential for above-average and sustainable rates of earnings growth. Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in equity and equity-related securities of companies that are either incorporated in the United States of America or conduct most of their business there and that have a market capitalisation equal to or greater than the companies in the Russell 1000 Index. Types of securities may include common shares, preferred shares, warrants, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs).

In seeking to achieve its objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' section of the latest prospectus. As at the date of the latest prospectus, this may include eligible securities from other countries, to more than a limited extent.

The fund may use derivatives for hedging and efficient portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

T. Rowe Price US Large Cap Value Equity Fund

INVESTMENT OBJECTIVE

To increase the value of its shares, over the long term, through growth in the value of its investments.

The fund is actively managed and invests mainly in a diversified portfolio of shares from large capitalisation companies in the United States that are selling at discounted valuations relative to their historical average and/or the average of their industries.

Although the fund does not have sustainable investment as an objective, the promotion of environmental and social characteristics is achieved through the fund's commitment to maintain at least 10% of the value of its portfolio invested in Sustainable Investments. The investment manager implements the following investment strategies: exclusion screen, sustainable investment exposure and active ownership. Details of how environmental and/or social characteristics are promoted are further explained in the relevant Sustainable Finance Disclosure Regulation section of this report.

The fund invests primarily in equity and equity-related securities of companies that are either incorporated in the United States of America or conduct most of their business there and that have a market capitalisation equal to or greater than the companies in the Russell 1000 Index. Types of securities may include common shares, preferred shares, warrants, American Depository Receipts (ADRs), European Depository Receipts (EDRs) and Global Depository Receipts (GDRs).

In seeking to achieve the fund's objective the fund may also invest, on an ancillary basis, in other eligible securities as described in the 'General Investment Powers and Restrictions' section of the latest prospectus. As at the date of the latest prospectus, this may include up to a limit of 10%, asset-backed securities (ABS), mortgage-backed securities (MBS), distressed or defaulted bonds and real estate investment trusts (REITs) or eligible securities from other countries to more than a limited extent.

The fund may use derivatives for hedging and efficient portfolio management. Any use of derivatives aims to be consistent with the fund objectives and the environmental and social characteristics described within the 'Objective and Investment Policy' section of the latest prospectus and in the relevant Sustainable Finance Disclosure Regulation section of this report. For a summary of the main types of derivatives that may be used within the fund and what they may be used for, refer to the 'Fund Derivatives Usage' section of the latest prospectus.

Notes to the Financial Statements

As at 30 June 2023

1. THE COMPANY

Select Investment Series III SICAV (the "Company") is an open-ended investment company organised under the laws of the Grand Duchy of Luxembourg as a Société d'Investissement à Capital Variable ("SICAV") and was authorised under Part I of the Law of 17 December 2010, as amended, relating to Undertakings for Collective Investment. The Company was incorporated on 22 March 2018 and qualifies as an Undertakings for Collective Investment in Transferable Securities ("UCITS").

On 22 March 2018, the Company has appointed T. Rowe Price (Luxembourg) Management S.à r.l. as its management company (the "Management Company"), responsible for management, administration and distribution of the Company.

The Company is structured to provide both institutional and individual investors with a choice of investment portfolios ("Fund(s)") each offering different investment objectives designed to meet specific risk expectations and diversification requirements. During the period ended 30 June 2023, the following Funds had the following share class launches and share class liquidations:

New share classes

| Fund | Class Currency | Base Currency | Launch date |
|---|-------------------|------------------|---------------|
| TRP Global Value Equity Fund | | | |
| Class Ih (NOK) | NOK | USD | 14 March 2023 |

| Class Id (GBP) | GBP | USD | 05 April 2023 |

Share Class Liquidation

| Fund | Class Currency | Base Currency | Liquidation date |
|---------------------------------------|-------------------|------------------|------------------|
| T. Rowe Price US Large Cap Growth Equ | uity Fund | | |
| Class I10 | USD | USD | 04 April 2023 |

As at 30 June 2023, up to four classes of shares may be offered to investors ("Class"): Class A Shares, Class I Shares, Class Q Shares and Class S Shares. The shares of any Class may further be sub-divided into categories of shares that either distribute income ("Distributing Shares") or accumulated income ("Accumulating Shares"), and may be hedged ("Hedged Shares") or denominated into a currency other than the currency of denomination for a particular Fund. Class A Shares are available for all investors. Class Q Shares are intended for (i) independent investment advisers, (ii) discretionary investment managers, (iii) intermediaries, in each case where the regulatory environment to which they are subject prohibits the receipt and/or retention of retrocessions, (iv) investors having a written, fee based advisory or discretionary arrangement with entities listed in (i), (ii) and (iii), or (v) clients of non-independent advisers with whom they have a written, fee based agreement that prohibits the receipt and/or retention of retrocessions. Class S Shares are available for institutional investors only. Class S Shares are restricted to investors who have a professional services agreement with the investment manager.

Where appropriate, one or more suffixes (each defined below) may be added to indicate certain characteristics:

d: Indicates that the shares are net income distributing shares. Substantially all income earned by the class over the distribution period is distributed after the deduction of fees and expenses charged to the class.

x, y: Indicates that the shares are gross income distributing shares. Substantially all income earned by the class over the distribution year is distributed prior to the deduction of fees and expenses charged to the class. In effect, fees and expenses will be deducted from capital. While this will increase the amount of income (which may be taxable) available for distribution to holders of the shares, investors should be aware that such charging to capital amounts to a return, or withdrawal, of part of an investor's original investment, or from any capital gains attributable to that original investment, this could erode capital and constrain future growth. Furthermore, where fees and expenses are deducted from capital

and gross income is distributed, this may have tax implications for investors, especially those for whom income and capital gains are subject to different treatment and personal tax rates.

Share classes that do not carry a "d", an "x" or a "y" suffix are accumulating shares.

h: Indicates that the shares are 'portfolio hedged'. Such hedging is intended to reduce or eliminate the effects of changes in the exchange rate between the currency exposure(s) of a fund's portfolio and the share class currency. Although the hedging will seek to fully eliminate the effect of foreign exchange rate fluctuations between the share class currency and the currency exposure(s) of the relevant fund portfolio, it is unlikely that the hedging will eliminate 100% of the difference, because fund cash flows, foreign exchange rates, and market prices are all in constant flux.

b: Indicates that shares are 'benchmark hedged'. Such shares will be hedged, with reference to a relevant index, with the intention to preserve currency exposure taken as part of the investment strategy.

n: Indicates that the shares are 'NAV hedged'. Such shares will be hedged with the intention to reduce or eliminate the effects of changes in the exchange rate between the fund's base currency (not the underlying currency exposures) and the share class currency.

Currency abbreviation: A three-letter abbreviation that indicates the share class currency (the currency in which the shares are issued) when it is different from the base currency of the fund.

Class with number as a suffix indicates that the shares are reserved shares. These shares are limited to particular investors, distributors, or countries.

Reserved shares have the same characteristics as their corresponding nonreserved shares, except that reserved shares may seek income from additional sources and distribute it more frequently (if they are distributing shares), and the Management Company may waive more of its fees. All classes belonging to the same Fund will be commonly invested in adherence with the specific investment objective of the relevant Fund but may differ with regard to fee structure, minimum subscription amount, dividend policy, currency hedging, or other particular features described in the Company's prospectus.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) General

These financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investments funds. The financial statements of the Company and each of its Funds are prepared on a going concern basis of accounting.

The financial statements as at 30 June 2023 are prepared based on the last Net Asset Value ("NAV") as at the current financial period-end, being the one as at 30 June 2023.

(b) Valuation of Securities

In determining the value of the assets of the Funds, securities which are quoted or dealt in on an official exchange or another regulated market are valued at the latest available sale price, or official closing price for certain markets, on the official exchange or market which is normally the principal market for such securities.

Securities which are not quoted or dealt in on an official exchange or another regulated market, as well as securities which are so quoted or dealt in but for which the last sale price is not available, and securities for which the last sale price is not representative of fair value are valued in good faith by and under the direction of the Board of Directors on the basis of reasonably expected sale prices.

As at 30 June 2023

(c) Securities Transactions and Investment Income

Securities transactions are recorded on a trade date basis. Realised gains and losses are determined on the basis of the average cost of securities sold.

Dividend income is accrued on the ex-dividend date (net of withholding taxes). Interest income and expenses are recorded on the accrual basis. Premiums and discounts on debt securities are recognised in income on a straight-line basis.

(d) Cash at Bank and brokers

Cash at banks includes cash balances in time deposits ranging from overnight to three months in duration with various financial institutions meeting certain credit standards. Cash collateral received is included in the cash at bank in assets but is also recorded as cash due to brokers in liabilities in the Statement of Net Assets. Each Fund could experience a delay in recovering the value of these deposits and a possible loss of income or value if the counterparty fails to return deposited amounts. Cash collateral paid/owed to the brokers is recorded as part of Cash at brokers.

(e) Class Accounting and Formation Expenses

Expenses incurred by each Class are charged directly to the Class to which they relate. In particular, the costs and related liabilities and benefits arising from instruments entered into for the purposes of hedging the currency exposure of any particular hedged share class of a fund is exclusively attributed to that share class. Expenses common to all Classes, investment income and realised and unrealised gains and losses are allocated daily to each Class based on relative net assets.

The costs and expenses incurred in connection with the formation of a new fund and the initial issuance of shares may be deferred and amortised over a period not exceeding five years against the assets of that fund and in such amounts in each year as determined by the Board of Directors on an equitable basis.

3. CONVERSION OF FOREIGN CURRENCIES

The books and records of each Fund are kept in the base currency of that Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency prevailing on each such business day, and (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised gains and losses on foreign currency transactions represent:

(i) foreign exchange gains and losses from the holding and sale of foreign currencies, (ii) gains and losses between trade date and settlement date on securities transactions, and (iii) gains and losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received. The Funds do not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of investments held during the period.

4. INVESTMENT TRANSACTIONS

(a) Derivatives

Each Fund may enter into forward currency exchange, financial futures, option and swap contracts which, except for purchased options, represent market risk in excess of the amount reflected in the Statement of Net Assets. The amount of the contracts represents the extent of each Fund's participation in these financial instruments. Forward currency exchange and financial futures contracts are valued daily using prevailing forward exchange rates and current settlement prices, respectively. Option and swap contracts are valued daily using an independent pricing service. Changes in contract value are recorded daily as unrealised gains or losses until termination or maturity. Realized gains or losses are recorded on termination of derivatives contracts. Net annual receipts or payments required by swap contracts are accrued daily as interest income or interest expense on swaps.

Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, interest rates, credit quality, indices and security values underlying these instruments. Other market and credit risks include the possibility that there may be an illiquid market for the contracts, that a change in the value of the contracts may not directly correlate with changes in the value of currencies, indices, or securities being hedged or that the counterparty to a contract defaults on its obligation to perform under the terms of the contract. Open contracts attributable to all classes of a Fund, if applicable, are reflected in each Fund's Schedule of Investments.

The Funds may deposit cash into an account held at the broker in order to meet initial margin requirements on open future contracts and to keep additional Funds available to settle future variation margin liabilities. The deposits held at the broker are included in Deposits on futures in the Statement of Net Assets, if any.

(b) TBA Purchase Commitments

Certain Funds may enter into to be announced ("TBA") purchase commitments, pursuant to which they agreed to purchase mortgage-backed securities for a fixed unit price, with payment and delivery at a scheduled future date beyond the customary settlement year for such mortgage-backed securities. With TBA transactions, the particular securities to be delivered are not identified at the trade date; however, delivered securities must meet specified terms, including issuer, rate and mortgage term, and be within industry-accepted "good delivery" standards. The Funds generally enter into TBA transactions with the intention of taking possession of the underlying mortgage securities.

Until settlement, the Funds maintain cash reserves and liquid assets sufficient to settle its TBA commitments.

5. DIVIDENDS

The Company intends to declare and distribute dividends representing substantially all of the net investment income attributable to Distributing Shares. Dividends in respect of these Shares will be declared in the currency of denomination of the relevant Class and will be recorded on ex-date. Interim dividends in respect of the Distributing Shares of any particular Fund may be paid from the attributable net investment income and realised capital gains with a frequency and at such intervals as the Board of Directors may decide.

No dividend payments were made during the period ended 30 June 2023.

6. DEPOSITARY FEES

The Funds are subject to an annual depositary fee, based upon a reducing scale, from 0.017% to 0.0005% depending upon the value of the assets held in Depositary. This fee is still calculated and accrued on each business day and paid monthly.

~

As at 30 June 2023

7. ADMINISTRATION AND TRANSFER AGENCY FEES

The Funds are subject to an annual administration fee, based upon a reducing scale, from 0.01% to 0.003% depending upon the value of the Fund's net assets. The Funds are, however, subject to a minimum annual administration fee of USD 27,000.

This fee is calculated and accrued each business day and paid monthly.

Transfer Agency Fees are based on the number of transactions processed, number of holdings and include but are not limited to fund/class set-up and annual maintenance fee, and out-of-pocket expenses.

8. TAXATION

Under current law and practice, the Company is not liable for any Luxembourg income tax, nor are dividends paid by the Company subject to any Luxembourg withholding tax. Additionally, no Luxembourg tax is payable on the realised or unrealised capital appreciation of the assets of the Company.

(a) Taxe d'Abonnement

The Funds are liable in Luxembourg to a tax ("Taxe d'Abonnement") of 0.05% per annum in respect to Class A and Q Shares ("Retail Classes") and 0.01% per annum in respect to Class I and S Shares ("Institutional Classes") as provided by the relevant Luxembourg laws. The Taxe d'Abonnement is payable quarterly on the basis of the value of the net assets of each class at the end of the relevant calendar quarter.

(b) Provision for Foreign Taxes

Each Fund is subject to foreign income taxes imposed by certain countries in which it invests. Taxes attributable to income are accrued by each Fund as a reduction of income. Capital gains realised by a Fund upon disposition of securities issued in or by certain foreign countries are subject to capital gains tax imposed by those countries. All taxes are computed in accordance with the applicable foreign tax law, and, to the extent permitted, capital losses are used to offset capital gains. To the extent that tax rates vary based upon holding period, each Fund accrues a deferred tax liability using the minimum applicable tax rate. Current and deferred tax expenses attributable to net capital gains are reflected net of eligible refunds as a component of realised and/or change in unrealised, respectively gain (loss) from investments. For the period ended 30 June 2023, there were current or deferred tax expense amounts attributable to realised or unrealised Indian capital gains as presented in the Statement of Operations and Changes in Net Assets for the below Funds.

| TRP Global Focused Growth Equity Fund | USD | 62,977 |
|---|-----|--------|
| T. Rowe Price Global Focused Growth Equity Fund | USD | 45,089 |

T. Rowe Price Global Growth Equity Fund USD 231,657

As at 30 June 2023, the below Funds did have the following capital loss carry forwards to offset future realised gains on Indian securities subject to Indian capital gain taxes:

| TRP Global Aggregate Bond Fund | USD | 10,494 |
|--------------------------------|-----|--------|
| TRP Global Value Equity Fund | USD | 86,808 |

The capital loss carry forwards would be eligible to be off set against the realized gains for a period of 8 years from the year when the loss was first incurred.

9. RELATED PARTY TRANSACTIONS

(a) Management Company Fee

The Funds are managed by T. Rowe Price (Luxembourg) Management S.à r.l. (the "Management Company"). The Management Company is entitled to receive from the Company a Management Company Fee. 12. SWING PRICING (DILUTION ADJUSTMENT)

Swing pricing is intended to protect the interests of all shareholders by mitigating the negative impact of dilution on the fund's returns.

The actual total cost of purchasing or selling the underlying securities in a fund may be higher or lower than the mid-market value used in calculating the NAV.

The difference can be attributed to a variety of factors including dealing charges, commissions, taxes and dealing spreads as well as other market and trading considerations and can, over time, have a materially disadvantageous effect on a shareholder's interest in a fund if not otherwise accounted for in the calculation of the NAV.

To prevent this effect, known as "dilution", on business days when the amount of trading in a fund's shares will precipitate significant purchases or sales of underlying securities, we will adjust the fund's NAV by an amount estimated to more closely reflect the actual prices and costs of the underlying transactions.

This is often referred to as "swing pricing". These adjustment amounts, called swing factors, can vary with market conditions and transaction volumes and this means that the amount of dilution adjustment applied can change at any time.

Ordinarily, we apply the swing pricing process on a systematic basis across all funds. However, we annually review the principles on which the process is based, including the operational application, the net subscription / redemption related trigger points and the swing factor calculation methodology.

It is not possible to predict accurately whether a price swing will occur at any point in time. In general, the NAV per share applied to all subscription and redemption requests, in the relevant fund on that day, will be adjusted upward when we believe that the demand to buy fund shares is material and downward when we believe that the demand to redeem fund shares is material.

Typically, on any business day, any adjustment is limited to a maximum of 2% of a fund's NAV. However, in the event of extreme or exceptional market conditions and on a temporary basis, it may be necessary for any swing factor to be set at a level which exceeds this maximum. We review these estimates on a regular basis and they can change at any time.

As at June 2023, there was no swing factor applied to any of the Funds.

13. TRANSACTION COSTS

For the period ended 30 June 2023, the amounts are as follows:

| Fund | Fund Currencv | Total transaction costs |
|--|------------------|-------------------------|
| TRP Global Aggregate Bond Fund | USD | 25.914 |
| 00 0 | USD | 54.499 |
| TRP Global Focused Growth Equity Fund | | - , |
| TRP Global Value Equity Fund | USD | 140,628 |
| T. Rowe Price Global Focused Growth Equity Fund | USD | 115,188 |

As at 30 June 2023

| | Fund | |
|---|----------|-------------------------|
| Fund | Currency | Total transaction costs |
| T. Rowe Price Global Growth Equity Fund | USD | 367,444 |
| T. Rowe Price Health Sciences Equity Fund | USD | 60,119 |
| T. Rowe Price Japanese Equity Fund | JPY | 357,612 |
| T. Rowe Price US Large Cap Growth Equity Fund | USD | 81,426 |
| T. Rowe Price US Large Cap Value Equity Fund | USD | 13,286 |

There are no brokerage fees charged separately for transactions on fixed income instruments and derivatives (except for futures). The transaction costs are included in the transaction price, which is known as "marked up".

14. CREDIT FACILITY

The Funds, together with the other investment Funds managed by the Management Company and certain other T. Rowe Price U.S. registered Funds, are party to a \$1.3 billion, 364-day syndicated credit facility (the "facility"). Excluding commitments designated for the foreign investment Funds, the Funds can borrow up to an aggregate commitment amount of \$150 million on a first-come, first-served basis. The facility provides a source of liquidity to the participating Funds for temporary and emergency purposes.

During the period ended 30 June 2023, the Funds have not used the facility and therefore have no borrowing outstanding under the facility as at 30 June 2023.

15. OTHER MATTERS

Unpredictable events such as environmental or natural disasters, war, terrorism, pandemics, outbreaks of infectious diseases, and similar public health threats may significantly affect the economy, the markets and issuers in which the Fund invests. Certain events may cause instability across global markets, including reduced liquidity and disruptions in trading markets, while some events may affect certain geographic regions, countries, sectors, and industries more significantly than others, and exacerbate other pre-existing political, social, and economic risks.

Since 2020, a novel strain of coronavirus (COVID-19) has resulted in disruptions to global business activity and caused significant volatility and declines in global financial markets.

In February 2022, Russian forces entered Ukraine and commenced an armed conflict leading to economic sanctions being imposed on Russia and certain of its citizens, creating impacts on Russian-related stocks and debt and greater volatility in global markets.

In March 2023, overall concerns around the soundness and stability of the global banking sector has sparked concerns of a broader financial crisis impacting the overall banking sector. In certain cases, government agencies have assumed control or otherwise intervened in the operations of certain banks due to liquidity and solvency concerns.

These are recent examples of global events which may have a negative impact on the values of certain portfolio holdings or the Funds' overall performance. The Board is closely monitoring the situation with respect to all securities held in our funds, and to the increased operational risk and financial impacts arising from these events.

PERFORMANCE DISCLOSURE

Past performance is not indicative of current or future performance. Investment in the Shares of the Funds are subject to risks, including possible loss of principal amount invested. Performance data provided for the Funds are based on the base currency of denomination of the relevant Fund shares (unless otherwise noted) and include changes in principal value and reinvested dividends but does not take into account any commissions and costs incurred on the issue and redemption of Fund shares.

Appendix 2: Risk Measurement and Global Exposure

The global exposure is calculated for all funds regardless of their investment strategies. The methods used to measure the global exposure are the commitment approach or the (absolute or relative) VaR approach according to the CSSF Circular 11/512. The commitment approach is used by the Funds which are not disclosed in the table below.

| Funds | Global Exposure Methodology | Leverage % (Av) | Lowest | Highest | Average | Reference Portfolio |

| TRP Global Aggregate Bond Fund | Relative VaR | 253% | 0.46 | 1.04 | 0.79 | Bloomberg Global Aggregate Bond USD Hedged Index |

Further Information

STATEMENT OF CHANGES IN PORTFOLIO

A statement giving the changes in the portfolio of investments for the period ended 30 June 2023 can be obtained free of charge from the registered office of the Company. Additional information regarding the portfolio of each Fund may be requested from the registered office of the Company.

DEALING COMMISSIONS AND INVESTMENT RESEARCH

In choosing broker-dealers to execute trades involving portfolio securities, the investment manager and the SICAV have fiduciary and regulatory requirements to seek broker-dealers that offer "best execution".

Because price is not the only factor to be assessed when determining which firm offers "best execution", the investment manager may choose a broker-dealer who charges a higher commission on trades if the investment manager determines, in good faith, that the commission paid is reasonable in relation to the value of the brokerage services provided.

The investment manager and investment sub-managers may acquire equity and fixed income research designed to assist in the investment decision-making process from independent providers and broker-dealers (i.e., "third party research").

Third party research utilised by the equity and fixed income investment staff of the investment manager and investment sub-managers will be borne by the investment manager or the relevant investment sub-manager. The Funds will not pay for third party research.

GENERAL INFORMATION

The Company's articles of incorporation ("Articles of Incorporation") may be amended from time to time by a meeting of Shareholders, subject to the quorum and majority requirements as provided for by Luxembourg law. Any amendment thereto shall be published in the Recueil électronique des sociétés et associations, in a Luxembourg daily newspaper and, if necessary, in the official publications specified for the respective countries in which Company shares are sold. Such amendments become legally binding on all Shareholders, following their approval by the General Meeting of Shareholders.

Any amendments affecting the rights of the holders of shares of any Class vis-à-vis those of any other Class shall be subject further to the said quorum and majority requirements in respect of each relevant Class.

The Company is a single legal entity. However, each Fund is regarded as being separate from the others and is liable for all of its own obligations, unless other terms have been specifically agreed with its creditors.

The Annual General Meeting of Shareholders of the Company will be held each year in accordance with Luxembourg law, in the commune of Niederanven in the Grand-Duchy of Luxembourg at the registered office of the Company, or at such other place in the Grand-Duchy of Luxembourg as may be specified in the notice of meeting, within six months of the Company's accounting year end. The annual general meeting may be held abroad if, in the absolute and final judgement of the Board, exceptional circumstances so require.

Notices of all Annual General Meetings are sent by mail to all registered Shareholders at their registered address at least eight days prior to each such meeting, and notices of all extraordinary general meetings at least 21 days prior to each such meeting. Such notice will indicate the time and place of such meeting and the conditions of admission thereto, will contain the agenda and will refer to the requirements of Luxembourg law with regard to the necessary quorum and majorities at such meeting. To the extent required by Luxembourg law, further notices will be published in the Recueil électronique des sociétés et associations and in one Luxembourg newspaper.

The annual report, containing the audited combined financial accounts of the Company expressed in US dollars and of each Fund expressed in the relevant currency of denomination, with respect to the preceding financial year will be made available at the registered office within four months of the end of the financial year.

Unaudited semi-annual reports will also be sent, on demand, to Shareholders whose names appear in the register and will be made available at the Company's registered office within two months of the end of the year to which they relate.

The list of countries where the Company has regulatory approvals to market its Funds to institutional and / or retail clients can be obtained from www.troweprice. lu/SICAV3fundregistrations. Information in relation to facilities for investors located in the respective countries, is available at www.eifs.lu/troweprice.

PAYMENT OF RETROCESSIONS AND REBATES

The management company and/or its agents may pay retrocessions as remuneration for distribution activity in respect of fund shares in Switzerland. This remuneration may be deemed payment for the following services in particular: Any activity aimed at promoting the distribution of fund shares. Retrocessions are not deemed to be rebates even if they are ultimately passed on, in full or in part, to the investors.

Disclosure of the receipt of retrocessions is based on the applicable provisions of Federal Act on Financial Services.

Further Information continued

In the case of distribution activity in Switzerland, the management company and/ or its agents may, upon request, pay rebates directly to investors. The purpose of rebates is to reduce the fees or costs incurred by the investor in question. Rebates are permitted provided that:

- they are paid from fees received by the management company or the investment manager and therefore do not represent an additional charge on the fund assets; and
- · they are granted on the basis of objective criteria; and
- all investors who meet these objective criteria and demand rebates are also granted these within the same timeframe and to the same extent.

The objective criteria for the granting of rebates by the management company and/or its agents are as follows:

- Agree to the terms and conditions set out in a written agreement to be entered into between the investor and the management company or the investment manager
- Amount invested
- · Investment behaviour shown by the investor
- Investment period
- Share class purchased

At the request of the investor, the investment manager must disclose the amounts of such rebates free of charge.

The portfolio turnover ratios, the total expense ratio and the performance summary disclosed in the financial statements notes have been calculated in accordance with the Swiss Funds & Asset Management Association Guidelines.

Additional Information on the Management Company:

The Management Company has committed to adhere to the Association of the Luxembourg Fund Industry (ALFI) Code of Conduct for Luxembourg Investment Funds. The purpose of the ALFI Code of Conduct is to provide persons responsible for the management and supervision of a fund with a framework of high-level principles and best practice recommendations for the governance of Luxembourg investment Funds.

Information about Remuneration:

As required by the law of 17 December 2010 relating to Undertakings for Collective Investment, as amended, (the "Law of 2010") the Management Company shall provide general information relating to the financial and nonfinancial criteria of the remuneration policies and practices for relevant categories of staff to enable investors to assess the incentives created. In accordance with the principles set out in art. 111bis and 111ter of the Law of 2010, the Management Company shall disclose at least the information necessary to provide an understanding of the risk profile of the Company and the measures it adopts to avoid or manage conflicts of interest. As such, the Management Company has established a Remuneration Policy Statement (RPS) setting out policies, practices and procedures to comply with the Law of 2010.

The RPS is designed to reward individuals who contribute to the long-term value creation for all clients and investors. The Management Company seeks to accomplish this through a balance of short-term fixed and variable compensations, and long-term equity-based incentives. Further, the RPS is intended to be consistent with, and promotes sound and effective risk management and does not encourage risk-taking that is inconsistent with the risk profile, rules or governing documents of the Funds managed. The Board of the Management Company reviews the RPS annually to ensure remuneration practices are consistent with the firm's risk profile. The RPS is available on request to all investors in the Funds the Management Company manages.

The Management Company has paid the following amounts to its identified staff, as defined in the Law of 2010, for the year ended 31 December 2022. As required by Article 151(3) a) and b) of the Law of 2010, the aggregate amount of remuneration is to be broken down by a) fixed and variable amounts and b) senior management and non-senior management identified staff of the Management Company whose actions have a material impact on the risk profile of the Funds. However, the Management Company's compensation systems do not allow for such amounts to be identified per fund managed. Therefore, the figures show the total remuneration of the staff of the Management Company and the relevant delegates fully or partly involved in the activities of the Funds the Management Company manages and which is attributable to such activities are:

- Number of identified staff is 72.
- Total gross amount of the remuneration of the identified staff fully or partly involved in the activities of the Funds the Management Company manages (including the Company) which is attributable to such activities is EUR 33,809,472.
- (a) Aggregate amount of senior management is EUR 1,344,762.
 - Including a fixed compensation of EUR 901,348 and
 - A short-term variable compensation of EUR 288,525 and a long-term variable compensation of EUR 154,889.
- (b) Aggregate amount of non-senior management having a material impact on the risk profile of the Company is EUR 32,464,710.
 - Including a fixed compensation of EUR 4,902,541 and
 - A short-term variable compensation of EUR 16,538,795 and a long-term variable compensation of EUR 11,023,373.
- (c) Combined is EUR 33,809,472.
