

# Tikehau Fund - Tikehau Impact Credit

Share class F-Dis-EUR (ISIN LU2349747340)

A Sub-Fund of Tikehau Fund. A UCITS managed by Tikehau Investment Management

## Investment objectives and policy

Tikehau Impact Credit (the "**Sub-Fund**") is a sub-fund of Tikehau Fund (the "**Fund**"). The Sub-Fund entails a sustainable investment objective pursuant to article 9 of the SFDR by which it aims at contributing to the transition towards a net zero carbon economy (the "**Impact Objective**") and seeks to achieve an annualised net performance higher than 3-month Euribor ("EUR 3M") + 200 basis points, net of management fees over a minimum investment period of five (5) years (the "**Financial Objective**"). In the event of an unfavourable trend in expected market conditions the Financial Objective may not be achieved.

Investors' attention is drawn to the fact that the Sub-Fund is actively managed and its strategy will never consist in tracking the composition of a benchmark index, provided that the Global High Yield Index (HW00) Index may be used as a representative investment universe from which the Sub-Fund usually selects securities. Nonetheless, the Management Company has full discretion over the composition of the portfolio of the Sub-Fund, and there are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from those of the Global High Yield Index (HW00) Index. Also, the 3-month Euribor index may be used to calculate the performance fee and/or as an ex-post performance indicator. As stated above, the Management Company has full discretion over the composition of the portfolio of the Sub-Fund and it should be noted that the composition of the Sub-Fund's portfolio and performance of the Sub-Fund are not linked to the 3-month Euribor index.

Pursuant to the Impact Objective, the Sub-Fund's shall, (i) have a portfolio weighted average carbon intensity (the "**Carbon Intensity**") at least 30% lower than that of the ICE Global High Yield ESG Tilt Index (HWSG Index), (ii) ensure a minimal exposure of at least 25% of its net assets to issuers operating in sectors highly exposed to climate change mitigation, climate change adaptation and other environmental objectives issues as identified in the Taxonomy Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment, and (iii) limit exposure to the financial sector (banks and insurance companies) up to 30% of its net assets.

Within this frame, the Sub-Fund's investment strategy consists of investing up to 100% of its net assets in primarily in corporate high yield securities but also in corporate investment grade instruments or Green and Sustainable Bonds as well as other assimilated debt instruments from all economic sectors and geographical areas, including without limit in emerging markets. The Sub-Fund can also invest up to 25% of its net assets in contingent convertible bonds ("**CoCos**") and up to 10% of its net assets in each of the following categories (i) unrated debt securities, including securities deemed by the Management Company of comparable quality to "High Yield" securities, (ii) distressed instruments or defaulted instruments (i.e. securities which are highly vulnerable to non-payment and the rating of which is below "CCC" according to S&P at their acquisition date, or equivalent), (iii) unlisted bond vehicles, (iv) equities.

Carbon Intensity represents the arithmetic average of the carbon intensity of each of the issuers (total greenhouse gas emissions (GHG) on scopes 1 and 2 divided by total turnover) weighted by their weighting in the portfolio. This calculation entails certain methodological limitations identified in the prospectus (such as the use of external sources and the absence of consideration of scope 3 GHG linked to the value chain). ESG criteria also contribute to investment decisions but are not the decisive factor in these decisions.

The recommended investment horizon is at least 5 years. Orders for subscription and redemption must be received by the registrar and transfer agent before 12:00 noon Luxembourg time on each valuation day, and will be settled at the latest on the second Bank Business Day following the applicable valuation date.

F-Dis-EUR shares are distribution shares and reserved for investors investing through (i) an intermediary providing a management mandate service daily or an independent advice service; and/or (ii) non-independent or restricted advisors who have agreed not to receive retrocessions or are not authorised to receive retrocessions; and/or (iii) the Management Company, and whose minimal initial subscription amount is EUR 100.

## Risk and reward profile

This share class of the Sub-Fund belongs to risk category 4 due to the volatility of its net asset value. The volatility of the net asset value is the result of the volatility of the prices of the assets held in the portfolio, which influences the valuation of the share class which also takes into account the various fees and expenses applied to it.

Historical data, such as those used to calculate the synthetic indicator, may not be a reliable indication for the future of the risk profile of the Sub-Fund.

The risk category of this Sub-Fund is not guaranteed and may change over time.

The lowest category does not mean "risk-free".

Investors receive no guarantee that they will get back the capital they initially invest.

### Key risks not taken into account in this indicator :

**Sustainability risk:** The Sub-Fund has sustainable investment as its objective pursuant to article 9 of SFDR and entails both the Financial Approach and the Impact Approach. Hence the Sub-Fund should be exposed to a broad range of sustainability risks.

**Liquidity risk:** There is a risk that the Fund will not be able to pay repurchase proceeds within the time period stated in the Prospectus, because of unusual market conditions, an unusually high volume of repurchase requests, or other reasons.

**Counterparty risk:** The Sub-Fund will be subject to the risk of the inability of any counterparty (including the Depositary and Clearing Brokers) to perform with respect to transactions, whether due to its own insolvency or that of others, bankruptcy, market illiquidity or disruption or other causes and whether resulting from systemic or other reasons.

**Credit risk:** risk that an issuer of a bond (including money-market instruments) held by the Sub-Fund may default on its obligations to pay interest and repay principal and the Sub-Fund will not recover its investment. **DISCLAIMER : THIS SUB-FUND MAY INVEST UP TO 100% OF ITS ASSETS IN BONDS OF LOW CREDIT QUALITY, AND THEREFORE PRESENTS A VERY HIGH CREDIT RISK.**

For a description of all risks, please refer to the Fund's prospectus.
