RISK FACTORS

The Fund may suffer losses if the parties that it trades with cannot meet their financial obligations. If the Fund invests in non-standardised complex financial instruments, it is exposed to a greater counterparty default risk. The Fund may invest in financial derivative instruments which can result in greater fluctuations of the Fund's value and may cause the Fund to lose as much as or more than the amount invested. The Fund may be invested in emerging market assets. Emerging markets generally carry greater political, legal, counterparty and operational risk. In exceptional circumstances the Fund may encounter difficulties when buying and selling these investments. The fund may invest in lower rated or unrated bonds of similar quality, which carry a higher degree of risk than higher rated bonds.
