Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Principal Asset Management℠

"I2 Class Income Plus Units", a unit class of Asian High Yield Fund (the Fund), a sub-Fund of Principal Global Investors Funds (the Trust) (ISIN: IE00BK1X4W79)

This Fund is managed by Principal Global Investors (Ireland) Limited (the Manager), part of The Principal Financial Group of companies

Objectives and investment policy

The objective of the Fund is to provide a return consisting of income and, over the long term, capital growth.

The Fund will invest in high yield fixed income securities that capture the growth potential of Asia with a focus on Greater China. It generally invests at least 70% of its net asset value in a portfolio of high-yield fixed income securities, which have been issued by governments and agencies of, or companies domiciled in, or exercising the principal part of their business activity in Asia. Such securities may include fixed interest rate corporate bonds, sovereign bonds, senior callable bonds and contingent convertible securities (CoCos). The Fund's securities will generally be rated below investment grade.

The Fund may also invest in 144A Securities and loans to gain low risk exposure to high-yield fixed income securities. It may also invest in global emerging markets outside of Asia.

The Fund will utilise Financial Derivative Instruments (FDI) for efficient portfolio management. Global exposure and leverage from the use of FDIs shall not exceed 50% of the Net Asset Value of the Fund (which will be measured using the commitment approach). The Fund may invest in the following range of FDI; Forwards, Swaps (including Total Return Swaps), Futures, credit linked notes and Reverse Repos.

This Fund is classified as an ESG Orientated Fund as defined in the Prospectus and takes certain environmental and social characteristics into account, including greenhouse gas emissions, carbon footprint, public health, health and safety, and workforce and community management. The Fund also excludes thermal coal producers, companies that derive a significant proportion of revenue from tobacco production and involvement in controversial weapons.

While it is generally intended for the Fund to be fully invested at all times, there may be a portion of assets held in cash or equivalents at any given time.

The Fund may also invest in UCITS eligible Funds in order to obtain its objective.

Any income received by the unit class will be reinvested.

You may buy or sell units on demand on each Dealing Day being a Business Day as defined in the Fund's supplement (which together with the prospectus constitutes the Prospectus).

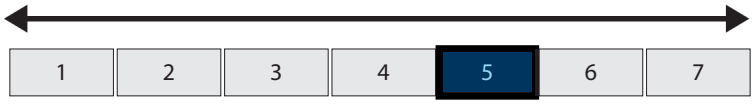

The Fund is actively managed and aims to outperform the ICE BofAML Asian Dollar High Yield Index (the "Index"). However, the Index composition is not factored into the investment management process and the portfolio manager maintains full discretion to select investments for the Fund in line with the above investment policy.

Please see the section entitled Investment Objective, Policies, Strategy and Profile of a Typical Investor of the Supplement where full details are disclosed.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk — **Typically higher rewards, higher risk**

This Fund is ranked at 5 because Funds of this type have experienced medium to high rises and falls in value in the past.

The following are risks materially relevant that are not captured by the SRRI:

• The market value of debt securities is affected by changes in prevailing interest rates. The Fund may also be exposed to credit and default risk by investing in such securities. The default risk increases for below investment grade debt securities.

• There are specific risks associated with investments in emerging markets, resulting from potentially less developed market practices. These include legal, political and fiscal instability, settlement, liquidity, currency, accounting standards and custodial risk.

• Investments in the China Interbank Bond Market through Bond Connect may subject the Fund to additional liquidity, settlement, legal and regulatory risk.

• The Manager integrates sustainability risks into the investment processes for the Fund in relation to risk management and decision making. This means ESG factors are considered as part of the investment process which may carry the risk that the Fund's performance may be negatively impacted due to restrictions placed on its exposure to certain sectors or types of investments as a result.

• The Fund may utilise a number of derivative instruments in managing the Investment Objective of the Fund. The primary risks associated with the use of such instruments are credit risk, counterparty risk and collateral risk.

• The value of an investment may fluctuate due to changes in exchange rates between currencies and may or may not be hedged back to the Fund's base currency.

• There may be risks associated with investment in Contingent convertible securities due the unpredictable nature of conversion events and the higher credit risk of subordinated instruments.

• Fees and/or distributions may be paid out of the capital of the fund, which has the effect of lowering the capital value of investors' holdings in the fund and limiting the potential for future capital growth.

Please see the section entitled Special Investment Considerations and Risks of the Prospectus where full details are disclosed.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year	
Ongoing charges	0.60%

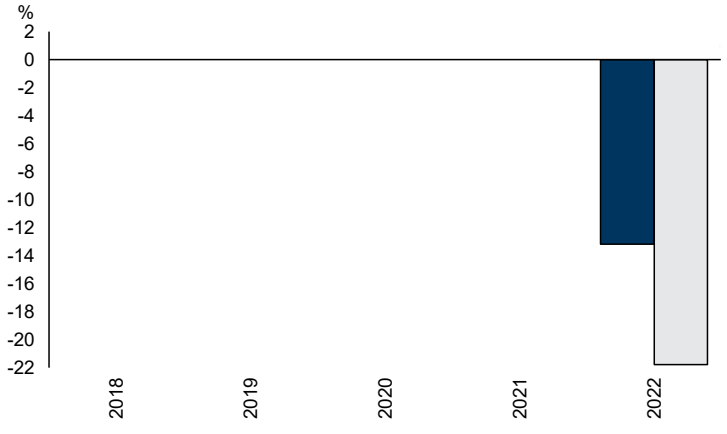

Charges taken from the Fund under specific conditions	
Performance fee	NONE

Ongoing charges are based on the last year's expenses, for the year ending December 2022, and this figure may vary from year to year. It excludes:

- Portfolio transactions costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.
- Whereas the entry charge will not normally be made on a conversion, the Manager is entitled to make any such charges at its discretion. In particular, if more than four conversions are made during a twelve month period, the Manager may impose a service fee for any subsequent conversions during the subsequent twelve month period.

For more information about charges, please see Charges and Expenses in the Prospectus which is available as set out below.

Past performance

	2018	2019	2020	2021	2022

Practical information

- The Trustee is The Bank of New York Mellon SA/NV, Dublin Branch
- Additional information about the Trust (the Prospectus, Supplement, latest annual and semi-annual accounts) may be obtained from BNY Mellon Fund Services (Ireland) DAC (the Administrator), One Dockland Central, Guild Street, IFSC, Dublin 1, Ireland. This document describes a unit class of the sub-Fund. The Prospectus and periodic reports relate to the Trust.
- The latest Net Asset Value per Unit will be available on www.principalglobal.com. Dealing prices are also available from the Administrator.
- The Manager may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus of the Trustee.
- The Trust is an umbrella type unit trust with segregated liability between its sub-Funds. This means that investors have no claims over the assets of a sub-Fund in which they do not own units.
- On any Dealing Day, holders may switch their units to another share class of the sub-Fund, or to units of another sub-Fund of the Trust, subject to the Terms set out in the Prospectus under "Conversion of Units". Please note that Irish tax legislation may have an impact on your personal tax position.
- More specific information about the sub-Fund is available in the Prospectus and Supplement. Information on the specific classes available for sale in your particular jurisdiction/residence is available from the Distributor, Principal Global Investors (Europe) Limited.
- Details of the Manager's remuneration policy including, but not limited to, a description of how remuneration and benefits are calculated, the identities of persons responsible for awarding the remuneration and benefits including the composition of the remuneration committee, where such a committee exists, are available at the following website: www.principalglobal.com.
- Principal Asset Management is the trading name of Principal Global Investors, LLC and affiliates.
- A copy of the remuneration policy may be obtained free of charge on request from the Manager.

The Trust is authorised in Ireland and regulated by the Central Bank of Ireland. The Manager is authorised in Ireland and regulated by the Central Bank of Ireland.
