

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Lumyna - MW Systematic Alpha UCITS Fund - GBP B (acc)

ISIN Code: LU2367654311

a sub-fund of Lumyna - Marshall Wace UCITS SICAV (the "Fund")
Management Company: Generali Investments Luxembourg S.A.

Objectives and investment policy

The investment objective of the Fund is to provide investors with consistent positive performance. The Fund may also invest in debt securities, which may be government or corporate.

The Fund invests primarily in equities, systematically on the basis of investment decisions generated by Marshall Wace's proprietary quantitative trading system. Marshall Wace can also add its own investment ideas to the Fund's portfolio. The Fund may also invest in a broad range of assets other than equities, including in AAA- or Aaa rated fixed or floating rate government debt.

The Fund may use derivatives, including over-the-counter swap transactions, options, warrants, futures and forward contracts to achieve the investment objective. The Fund will not focus on any specific country or sector. Leverage will only be achieved through derivatives.

The Fund is actively managed, and is not managed in reference to a benchmark.

Portfolio transaction costs, which may be material and are not included in the charges disclosed in the "Charges" section, are paid out of the assets of the Fund.

The currency of the Fund is USD and your shares will be denominated in GBP. Your shares will be hedged with the aim of protecting them from exchange rate fluctuations between their denominated currency and the currency of the Fund.

Your shares are non-distributing (i.e. any income arising from your shares will be included in their value).

Investors can redeem and subscribe for shares in the Fund on demand on any Wednesday on which banks are open for business in Luxembourg, London and Dublin or the next following Business Day if such day is not a Business Day

For further information, please see the "Investment Objective" and "Investment Policy" sections of the Fund supplement to the prospectus. Unless otherwise defined in this document, all words and expressions defined in the Company's current Prospectus shall have the same meaning herein.

Risk and reward profile

The risk category has been calculated based upon simulation of the Fund's performance using historical data, which may not be a reliable indicator of the Fund's future risk profile.

The risk category shown is not guaranteed and may change over time.

The lowest category (category 1) does not mean that the investment is risk-free.

The Fund is rated 5 due to the nature of its investments which include the following risks:

Derivatives risk: The Fund may use derivatives for investment purposes. Derivatives are highly sensitive to changes in the value of the asset on which they are based, which may result in greater fluctuations in the value of the Fund. The impact to the Fund can be greater where derivatives are used in an extensive or complex way.

Equity risk: The risk that the value of equities and equity-related securities within the Fund may be affected by a change in the stock market movements or changes in a company's financial condition.

Model risk: The Fund uses quantitative models in order to make investment decisions. As market dynamics shift over time, a quantitative model may become less efficient or may even present deficiencies under certain market conditions.

The following are additional risks which are not captured in the risk category:

Counterparty risk: The risk that the other party to a transaction with the Fund may fail to fulfil its contractual obligations and may expose the Fund to financial losses.

Interest rate risk: The risk that fluctuations in interest rates may affect the value of certain investments in the Fund. If interest rates rise, typically the value of a bond will fall which could affect the value of the Fund.

Futures risk: Futures markets are highly volatile and a high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a futures contract may result in substantial losses to the Fund.

Your investment is not guaranteed and its value can go down as well as up.

For more information about risk, please see the 'Risk Factors' section of the prospectus, which is available at www.lumyna.com.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	1.88%
Charges taken from the fund under certain specific conditions	
Performance fee	20% year of any returns the Fund achieves above the High Water Mark. Actual performance fee charged last year: 0.00%

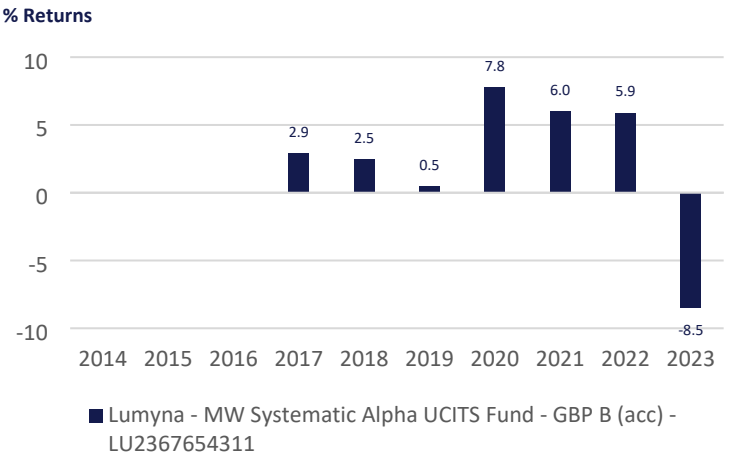

The ongoing charges figure is an estimate of the charges. The Fund's annual report for each financial year will include details on the exact charges made. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund.

This includes 1.50% management fees and 0.20% maximum estimated research charge.

Conversion charge: up to 5.00%.

For more information about charges, please see the "Fees and Expenses" section of the prospectus, which is available at www.lumyna.com.

Past performance

Lumyna - MW Systematic Alpha UCITS Fund was launched in 2022, and the share class was launched in 2022.

The past performance is calculated in GBP.

Past performance is not a guide to future performance.

The performance figures include all on-going charges.

For each share class of Lumyna - MW Systematic Alpha UCITS Fund, inception dates prior to the cross-border merger of Marshall Wace UCITS Funds plc with Lumyna-Marshall Wace UCITS SICAV relate to the equivalent former investment vehicle. Net data relates to the relevant share classes of MW Systematic Alpha UCITS Fund for the period up to the date of the merger and to Lumyna - MW Systematic Alpha UCITS Fund for the period thereafter which pursued a materially consistent investment policy and was managed by the same Investment Manager. The increase in the fee structure following the merger compared to the fee structure of the equivalent share class of the former investment vehicle is not considered material.

Lumyna - MW Systematic Alpha UCITS Fund allows for a higher maximum leverage than the equivalent former investment vehicle, however this is not considered to materially change the investment strategy.

Practical information

Depository Bank: J.P. Morgan SE, Luxembourg Branch.

The Fund is subject to Luxembourg tax legislation which may have an impact on your personal tax position.

Lumyna - Marshall Wace UCITS SICAV may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus of the Fund.

You can convert shares of the Fund into shares of the other sub-funds of Lumyna - Marshall Wace UCITS SICAV as detailed in the "Section 3: Share Dealing, Sub-section 3. Redemptions" section of the prospectus.

The Fund is one of the sub-funds offered by Lumyna - Marshall Wace UCITS SICAV. The assets and liabilities of the Fund are segregated from the other sub-funds. The prospectus and periodic reports are prepared for the entire umbrella fund. Only the profit or loss of the Fund impacts your investment.
