The NT AC Asia ex Japan Green Transition Index Fund (the “Fund”) Share Class A USD Accumulating

A sub-fund of Northern Trust Investment Funds plc

ISIN: IE000EI7GO20

Management Company: Northern Trust Fund Managers (Ireland) Limited (the “Manager”)

Objectives And Investment Policy

The investment objective of the Fund is to closely match the risk and return characteristics of the MSCI AC Asia ex Japan Custom ESG Climate Series A Index (the “Index”) with net dividends reinvested.

The Fund invests in equities (that is, shares and other similar kinds of assets) issued by or related to companies included in the Index.

Target Market: This Fund is appropriate for investors who plan to invest over the medium to long term; and are looking for a passively managed investment in the relevant market(s) with Environmental, Social and Governance (ESG) principles implemented according to a defined set of exclusions.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is an index tracking Fund which seeks to track the risk and return characteristics of the Index by buying all or most of the stocks of the Index. This means it may not hold all the same assets as the Index or hold assets in the same proportion as the Index, and the fund may not match the Index performance.

The Index is calculated and screened by MSCI based on predetermined and objective ESG criteria chosen by the Investment Manager which (i) excludes certain companies not considered to meet sustainability principles, (ii) excludes certain companies with heavy exposure to carbon; and (iii) increases exposure, when compared to the MSCI AC Asia ex Japan Index (Parent Index), to companies deriving revenue from climate-friendly or focused (Green) products or services and which have

a robust carbon reduction strategy. The Index additionally excludes companies not considered to meet socially responsible principles identified by applying criteria that refer to the UN Global Compact ten principles, as well as other ESG criteria selected by the Investment Manager.

For further details on the UN Global Compact principles, please refer to www.unglobalcompact.org/AboutTheGC/TheTenPrinciples/index.html. The Management Company considers that the Fund meets the criteria in Article 8 of the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) to qualify as a financial product that promotes, among other characteristics, environmental or social characteristics.

More information on this products sustainability factors can be found in the Supplement and on our website at www.northerntrust.com/europe/-what-we-do/investment-management/sustainable-finance-regulation. For efficient portfolio management purposes the Fund may invest in derivatives and other financially linked instruments (such as currency forwards and exchange traded futures) to reduce risk, minimise costs or generate additional capital or income. A derivative is a financial contract whose value is derived from other assets.

You can buy or sell shares daily (on each business day of the Fund). An application must be received by the Fund’s administrator before 10.00am (Irish time) on the relevant dealing day.

The base currency of the Fund is U.S. Dollar.

Shares will be accumulating shares (i.e. income will be included in the value).

Risk And Reward Profile

- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category does not mean 'risk free'.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund. The rating is based upon changes in prices of the equities held by the Fund.

Investments across markets are affected by exchange rate risk, where the currencies may fluctuate in value.

Performance volatility can be increased or reduced due to fluctuations in the currencies represented within this document.

The following risks are material in addition to the risks captured by the indicator above:

Liquidity Risk – Some recognised exchanges are less liquid or more

volatile which may affect the price received and time taken when selling investments.

Derivative Risk – Derivatives may result in gains or losses that are greater than the original amount invested.

Investment Risk – The Fund may not achieve its investment objective. An investment in the Fund involves investment risks including possible loss of the amount invested.

Counterparty Risk – In case of bankruptcy of the broker, there is no guarantee collateral held by the broker will be returned to the Fund. In the event of bankruptcy of the counterparty, the premium and any unrealised gains may be lost.

Currency Risk – Where a class of shares are in a currency other than the base currency of the Fund, the non-base share classes of the Fund may be affected unfavourably by fluctuations in currency rates.

Valuation Risk – A position in the Fund may be valued incorrectly, as some prices may be uncertain at a point in time.

Emerging markets are generally more sensitive to economic and political conditions than developed markets and so may be more volatile. Disclosure and regulatory standards may be less stringent, the legal infrastructure may not provide the same degree of shareholder protection and the Fund may encounter restrictions on investment or transfer of assets and failed/delayed delivery of securities or payments.

For more information about risks, please see the section entitled “Risk Factors” of the Fund’s prospectus and supplement, which are available at www.northerntrust.com/pooledfunds.
