## Objectives and investment policy

This Fund is actively managed. The benchmark Bloomberg Global Treasury Euro Hedged 3-7 years is used for performance comparison only. The Fund is not benchmark constrained and its performance may deviate significantly from that of the benchmark.

The Fund aims at investing in bonds issued by entities supporting projects with positive social and sustainability outcomes.

The Fund invests in Social Bonds and Sustainability Bonds, which are in line with the internal methodology developed by our Sustainability Centre.

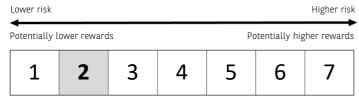

After hedging, the Fund's exposure to currencies other than EUR may not exceed 5%.

The investment team applies also BNP PARIBAS ASSET MANAGEMENT Sustainable Investment Policy, which takes into account Environmental, Social and Governance (ESG) criteria in the investments of the Fund. The Fund invests at least 90% of its assets (excluding investments in cash and cash equivalents) in securities issued by issuers that have an ESG score assessed using the internal methodology.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

# Risk and reward profile

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?

  The right containing in interior of the right containing the righ

The risk category is justified by the investment mainly in Interest Rate instruments. The investor's attention is drawn to the fact that an increase in interest rates results in a decrease in the value of investments in bonds and debt instruments and more generally fixed income instruments.

• The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- <u>Credit Risk:</u> This risk relates to the ability of an issuer to honour its commitments: downgrades of an issue or issuer rating may lead to a drop in the value of associated bonds.
- <u>Operational and Custody Risk</u>: Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at <a href="http://www.bnpparibas-am.com">http://www.bnpparibas-am.com</a>.
