**Fund Objective**

The objective of the Fund is to generate capital growth over the long term through investment in the fixed-rate, investment grade, Euro-denominated corporate bond market.

**Investment Strategy**

The investment policy of the Fund is to invest in companies bonds which exhibit lower carbon emissions in the way of current emissions and future emissions (measured by fossil fuel reserves), green labelled bonds and climate-aligned issuers bonds and corporate bond securities issued by companies that are better positioned for the physical risks posed by climate change while screening out securities based on an assessment of their adherence to ESG criteria (i.e. international norms in relation to environmental protection, human rights, labour standards, anticorruption, controversial weapons and tobacco).

The Investment Manager, on behalf of the Fund, will invest actively using the Sustainable Climate Corporate Bond Strategy as further described in the "Investment Strategies" section of the Prospectus.

The performance of the Fund will be measured against the Bloomberg Euro Aggregate Corporate Bond Index.

**Past performance is not a reliable indicator of future performance.**

**Investing involves risk including the risk of loss of capital.**

The performance figures contained herein are provided on a gross and net of fees basis. Gross of fees do not reflect the deduction of advisory or other fees which could reduce the return. Index returns reflect capital gains and losses, income, and the reinvestment of dividends. The performance includes the reinvestment of dividends and other corporate earnings and is calculated in the currency stated in the Fund Facts. Calendar year inception performance returns will be partial for the year where the inception date for either the Fund in question or the historic performance-linked Fund (whichever is the earliest) falls within that period. The calculation method for value added returns may show rounding differences.

When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period.

Previous to 1 December 2021, this Fund's Benchmark was the Bloomberg Barclays Euro-Aggregate Corporate Bond Index.
