

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DECALIA - Sustainable SOCIETY (the "Sub-Fund") is a sub-fund of DECALIA SICAV (the "Fund")

Class RP EUR (the "Class") - ISIN: LU2407358063

The Fund has appointed FundPartner Solutions (Europe) S.A. as management company.

Objectives and investment policy

The Sub-Fund's investment objective is to capitalize on the growth of disruptive and innovating sectors and companies that will shape our future society through the construction of a global equity portfolio centered on 7 themes: Security, O2 and Ecology, Cloud & Digital, Industrial 5.0, Elder & Wellbeing, Tech Med, Young Generation.

The Sub-Fund promotes certain environmental and/or social characteristics. The investment process integrates Environmental, Social and Governance (ESG) aspects based, firstly on the investment manager view and, secondly on third-party research (such as ESG ratings from third party providers).

The Sub-Fund is actively managed. The index MSCI World Net Total Return EUR is only used for the calculation of the performance fee (payable to the investment manager) and for performance comparison purposes. The Sub-Fund does not track the index and can deviate significantly or entirely from the index.

The Sub-Fund will mainly invest in equities and equity related securities of companies that trend or are oriented to at least one of the 7 themes above-mentioned.

If the Sub-Fund can invest in companies of any market capitalisation, a large part of investments can be made in mid and small capitalisation companies.

The Sub-Fund may be exposed to any country (including emerging countries, up to 20% of the Sub-Fund's net assets), to any economic sector (with the nucleus on the above-mentioned 7 themes / economic sectors) and to any currency. However, depending on financial market conditions, the investments / exposure may be focused on one country or on a limited number of countries and/or one economic activity sector and/or one currency.

On an ancillary basis, the Sub-Fund can invest any other type of eligible assets, such as investment grade money market instruments and debt securities, cash, structured products, undertakings for collective

investment (UCIs).

However, the Sub-Fund will invest a maximum 10% of its net assets in UCIs.

The Sub-Fund may use all types of financial derivative instruments traded on a regulated market and/or over the counter, for hedging and for investment purposes. Nevertheless, in normal market conditions, the investment manager intends to use futures and options offering an exposure to equities and currency derivatives.

Under exceptional circumstances, if the investment manager considers this to be in the best interest of the shareholders, on a temporary basis and for defensive purposes, the Sub-Fund may also hold, up to 100% of its net assets, cash and cash equivalents (cash deposits, money market UCIs (under the above-mentioned 10% limit) and money market instruments).

Dealing Frequency

The net asset value for the Class is calculated on each business day in Luxembourg (Calculation Day) based on the pricing of the preceding business day (Valuation Day). The cut-off time to transmit the subscriptions and/or redemptions orders is 12.00 p.m. on the Valuation Day.

Distribution Policy

The Class is cumulative. No dividend will normally be distributed.

Currency

The currency of the Class is EUR.

Risk and reward profile

Risk Disclaimer

- This current risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Sub-Fund.
- The risk category shown is not guaranteed and may shift over time.
- The lowest category, which corresponds to Number 1, cannot be regarded as being risk-free.
- The Sub-Fund does not provide any capital guarantee or asset protection measures.

Why is this Sub-Fund in this category?

The portfolio of this Sub-Fund consists essentially of worldwide equities or equity related securities of companies that will gain from the aforementioned trends related to the secular trend of global ageing. The objective of the Sub-Fund is to achieve capital growth by using absolute return equity-linked investment strategies. Hence, the risk/reward profile of the Sub-Fund should correspond to a High risk category on the risk/reward scale.

Are there any other particular Risks?

Risks that could affect fund performance and are not necessarily fully reflected in the risk and reward rating include:

- **Liquidity risks:** The Sub-Fund may invest part of its assets in less liquid securities. Those are securities that cannot easily be sold or exchanged for cash without a substantial loss in value in certain market conditions. Those securities also cannot be sold quickly because of a lack of ready and willing investors or speculators to purchase the asset.

- **Counterparty risks:** The Sub-Fund can conclude various transactions with contractual partners. If a contractual partner becomes insolvent, it can no longer or can only partly settle unpaid debts owed to the Sub-Fund.

- **Credit risks:** The Sub-Fund may invest in debt securities. The issuers of these debt securities may become insolvent, which will mean that the securities will lose all or some of their value.

- **Risks from the use of derivatives:** The Sub-Fund may use financial derivatives instruments which may result in the Sub-Fund being leveraged and may result in material fluctuations in the value of the Sub-Fund. Leverage on certain types of transactions including derivatives may impair the Sub-Fund's liquidity, cause it to liquidate positions at unfavourable times or otherwise cause the Sub-Fund not to achieve its intended objective.

Leverage occurs when the economic exposure created by the use of derivatives is greater than the amount invested resulting in the Sub-Fund being exposed to a greater loss than the initial investment.

- **Operational risks:** The Sub-Fund may fall victim to fraud or criminal acts. It may suffer losses as a result of misunderstandings or mistakes by employees of the Management Company or by external third parties or may be damaged by external events, such as natural disasters.

- **Sustainability risk:** This risk is any environmental social or governance event or condition that could impact the value of investments. The Investment Manager primarily relies on its ESG analysis and climate risk indicators to categorise the potential level of Sustainability risks in each fund. The level of sustainability risk may fluctuate depending on which investment opportunities the Investment Manager identifies. This means that the fund is exposed to Sustainability Risk which may impact the value of investments over the long term.

Charges

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.60%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	Paid yearly and based on the net asset value (NAV), equivalent to 10.00% of the performance of the NAV per share (measured against the Reference NAV) over the return of a benchmark, calculated during the current period. The benchmark used for the calculation of the Performance Fees is MSCI World total net return EUR.
-----------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The charges you pay are used to pay the cost of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

These percentages are maximum figures which might be charged by intermediaries, in some cases you might pay less. The actual entry and exit charges can be found out from your adviser or distributor.

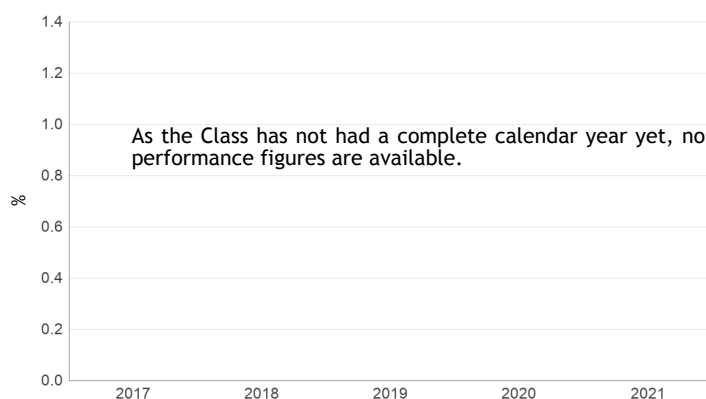

The percentage of ongoing charges is based on an annualized estimation of the fees. This figure may vary from year to year. It excludes:

- Performance fees (if applicable)
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Sub-Fund when buying or selling units in another collective investment undertaking.

For more information about charges, please refer to the Fund's prospectus, section which details the fund expenses, which is available at the Fund's registered office.

Past performance

The redemption and subscription costs connected with the conversion may be charged to the shareholder as indicated in the prospectus. For details about how to switch between sub-funds or classes, please refer to the prospectus, section which details the switch between sub-funds or classes, which is available at www.fundsquare.net.

Specific Sub-Fund Information

This key investor information document describes the Class of a Sub-Fund of the Fund. For more information about other share classe(s) or sub-fund(s), please refer to the prospectus and periodic reports of the Fund. The assets and liabilities of each sub-fund are segregated by law, which means that performance of the assets in other sub-funds does not influence the performance of your investment.
