

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

**Class D EUR Dist Series 1 (ISIN: IE00BKTNQ905)**

**Fiera Oaks EM Select Fund (the "Fund"), a sub-fund of OAKS Emerging Umbrella Fund plc (the "Company")**  
**The Company is managed by Bridge Fund Management Limited**

## OBJECTIVES AND INVESTMENT POLICY

**Investment Objective:** The investment objective of the Fund is to achieve capital growth by investing directly and indirectly in a diversified portfolio of financial instruments taking exposure to Global Frontier Countries and Global Emerging Countries.

**Investment Policy:** The Fund will invest in long positions primarily in Global Frontier Equities and Global Emerging Equities which are listed or traded on a Recognised Exchange and financial derivative instruments the underlying securities of which will be based on Global Frontier Securities and Global Emerging Securities and/or indices relating to the Global Frontier Securities and Global Emerging Securities, as further described in the applicable prospectus supplement.

The Fund's exposure to Global Emerging Countries will generally exclude the largest seven Global Emerging Countries (as classified by MSCI), however, the Fund retains the ability to invest up to 50% (including the individual limits disclosed herein) of its net assets in these markets at the Investment Manager's discretion so as to facilitate (i) retained investment where exposure exists in countries which are subsequently reclassified and to permit the Investment Manager to avail of positive opportunities which arise from time to time in line with the investment strategy detailed herein.

The Fund will also invest in securities of companies that derive a substantial amount of their revenues or earnings from, or have a substantial amount of their assets in, Global Emerging Countries and Global Frontier Countries.

The Fund is considered to be actively managed in reference to the MSCI EM+FM ex Select Countries Index ("Benchmark") by virtue of the fact that it uses the Benchmark for performance comparison purposes and it seeks to outperform the Benchmark. However, the Benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the Benchmark.

The Fund may be significantly invested in financial derivative instruments and liquid assets, which may result in the Fund being leveraged.

The base currency of the Fund is USD.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money other than within the medium to long term.

Other classes in the Fund are either accumulating or distributing.

The Directors are empowered to declare and pay dividends or Shares of any Class or Fund in the Company. Your attention is drawn to the section of the Prospectus entitled "The Shares" and the sub-section therein entitled "Dividends and Distributions" for further information. You may redeem your Shares in the Fund on any day on which banks in Dublin, London and New York are open for business.

## RISK AND REWARD PROFILE

These numbers rate how the Fund may perform. Generally the potential for higher gains also mean a larger risk of losses.

The lowest category does not mean a risk free investment. Historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this Fund.

The risk and reward category for this Fund is not guaranteed to remain unchanged, and may shift over time.

This Fund is ranked at 5 because funds of this type have experienced medium to high rises and falls in value in the past.

*Risks materially relevant to the Fund which are not adequately captured by the indicator:*

**Emerging and Frontier Markets Risk:** The securities markets in Emerging and Frontier Market countries are typically smaller, less liquid and significantly more volatile than securities markets in developed countries and may be subject to additional risks including political, economic, legal, currency, inflation and taxation risks.

**Liquidity Risk:** Lower liquidity means there may be insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

**Sub-Custodial Risk:** The assets of funds traded in emerging markets may require the depositary to entrust safekeeping to sub-custodians which may not provide the same degree of investor protection.

**Taxation Risk:** The laws and practices of certain Emerging and Frontiers countries may not be as well established as those of developed countries and the Company could become subject to taxation laws applied retrospectively and not envisaged at the date investments are made, valued or sold.

**Credit Risk:** This refers to the likelihood of the Fund losing money if an issuer is unable to meet its financial obligations or goes bankrupt.

**Share Currency Designation Risk:** Changes in the value of the base currency of the Fund relative to the denominated currency of a share class may give rise to a risk for investors.

**Counterparty Risk:** The Fund may invest in derivative contracts and may find itself exposed to risk arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts.

**Derivatives Risk:** Derivatives are highly sensitive to changes in the value of the assets they are based on. The impact on the Fund is greater where derivatives are used in an extensive way. The use of derivatives may result in the Fund being leveraged whereby the exposure of the Fund as a result of all positions held by it may exceed its net asset value and may result in gains or losses that are greater than the original amount invested

For more information on risks, please see the 'Risk Factors' section of the Prospectus and the Supplement.

# CHARGES

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	0.00%
This is the maximum that might be taken out of your money before it is invested or paid out.	
Charges taken from the fund over a year	
Ongoing charges	1.78%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The Fund has the ability to pay the investment management fee and other fees and expenses from capital with the effect that capital may be eroded and that income will be achieved by foregoing the potential for future capital growth.

The entry and exit charges shown are maximum figures, and in some cases investors may pay less. The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment. You can find out the actual charges from your financial adviser or distributor.

The ongoing charges figure shown is estimated based on the expected total of charges (as the Fund does not have sufficient historical performance) and takes into consideration rebated fees as disclosed in the Supplement. The ongoing charges may vary from year to year and the Company's annual report will include detail on the exact charges made.

It excludes performance fees and portfolio transaction costs, except costs paid to the Depositary and any entry/exit charge paid to an underlying collective investment scheme, if any.

For more information about charges (including the application of anti-dilution levies), please see 'Fees and Expenses' in the Prospectus and the Supplement to the Prospectus, which are available on the website of [www.fundinfo.com](http://www.fundinfo.com).
