AMBERFIELD FUND S.C.A. SICAV-RAIF - MERAKI ANATTEA FUND A, EUR

A Sub-Fund of AMBERFIELD FUND S.C.A. SICAV-RAIF, ISIN LU2355175584
This Fund is managed by Adepa Asset Management S.A.

Objectives and Investment Policy

The Sub-Fund is actively managed. The Sub-Fund aims to provide capital appreciation through investing in listed futures and other derivatives primarily on equities, bonds and currencies, but also on commodities. However, the commodity exposure is limited to a maximum of 40%. The investment selection is based on quantitative criteria as performance and its risk indicators as well as qualitative ones as the constancy of the Investment Manager.

Furthermore, the Sub-Fund may invest as on an ancillary basis in Exchange-traded-notes (ETNs) but with a maximum of 15% of the Net Asset Value of the Sub-Fund.

The Sub-Fund use, for investment and for hedging purposes, all types of financial derivative instruments traded on Regulated Markets and/or over the counter (OTC), provided they are contracted with first class financial institutions specialized in this type of transactions.

The Investment Manager uses quantitative research analysis based on an algorithm to assist on the investment decision process. The Sub-Fund may take both long and short positions in derivative contracts. As the investment strategy is unbiased with regards to going long or short, it uses trends (in either direction) and takes positions to seek to profit from

those expected trends.

As the Sub-Fund will primarily invest in derivatives, the Sub-Fund may hold significant amounts in cash or cash equivalents such as money market instruments and money market UCIs or UCITS, or US or EU member state government debt securities (including bonds or treasury bills) or placed in deposits with US or EU member state high grade banks (i.e. banks that issue investment-grade debt). Such investment decisions will be made and implemented solely by the Investment Manager.

The Sub-Fund is not managed in reference to a benchmark.

The Sub-Fund will capitalise its entire earnings following an income accumulation policy.

The Share Class's currency is EUR. The Sub-Fund's reference currency is EUR.

The aforementioned investment strategy corresponds to investors with a high investment risk profile.

The investors are able to redeem their units on a monthly basis.

Risk and Reward Profile

The risk/return indicator shows the correlation between risk and returns. Historical data may not be a reliable indication for the future. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean 'risk free'.

The risk category of the Sub-Fund is 6 and is calculated from historical data or simulated historical data of the underlying securities when the real data is not sufficient. Past performance is not necessarily a reliable indicator of the Sub-Fund's future risk and reward profile.

The following risks may materially impact the Sub-Fund but are not captured by the indicator:

Credit risk: The default of the issuer of a debt instrument held by the Sub-Fund.

Liquidity risk: Securities in the Sub-Fund may be sold below their valuation due to insufficient liquidity in the market.

Counterparty risk: A counterpart may fail paying the proceeds related to the sale of securities by the Sub-Fund or may fail delivering the securities purchased by the Sub-Fund. A counterpart of the Sub-Fund in an OTC derivative may fail satisfying its obligations towards the Sub-Fund at any event of the OTC derivative agreement.

Operational risk: Failures or delays in operational processes may negatively affect the Sub-Fund.

Derivatives risk: Derivatives may be used to increase, lower or maintain the risk level of the Sub-Fund. The derivative strategy may fail resulting in significant losses for the Sub-Fund.

Currency risk: Exchange rate fluctuations may negatively affect the value of the Sub-Fund's investments.

Event Risk: The overall value of all types of investments may be affected by devaluations, political and governmental interventions in relevant markets or irregular and sudden market fluctuations.

The above mentioned list of risk factors is not exhaustive. Other factors may influence the pricing of the underlying securities and therefore the value of the Sub-Fund's investments.

Charges for this Fund

One-off charges taken before or after you invest
