LUMYNA

Lumyna - BOFA MLCX Commodity Alpha UCITS Fund - USD Z-5 (Acc)

ISIN Code: LU2295572890

a sub-fund of Lumyna Funds (the "Fund")

Management Company: Generali Investments Luxembourg S.A.

Objectives and investment policy

The Fund aims to track the BofA Merrill Lynch Commodity Index eXtra AF5T Total Return Index (the "Index"), providing a market neutral exposure to commodity markets.

The Fund is passively managed and is managed in reference to the Index.

The Index is based on sub-indices comprised of the principal commodity sectors: energy, base metals and grains and oil seeds. The Index takes a long position in the BofA Merrill Lynch Commodity MLCXXA1 Excess Return Strategy (the "MLCXXA1E Index") and a corresponding short position in the Bloomberg Commodity ex-Precious Metals IndexSM (the "BCOMXPM Index"). A party agreeing to buy an asset, is said to take a "long" position in an asset and a party agreeing to sell the asset is said to take a "short" position. The Index aims to exploit the difference in the performance of the sub-indices on a five times leveraged basis.

The Fund will use swaps to implement its investment strategy and forward currency contracts for share class hedging purposes. In the case of swaps, the Fund will exchange interest rate flow with a counterparty for a return based on the Index. The Fund can enter into one or more cash management transactions such as a reverse repurchase agreement

(under which the Fund will buy securities from a counterparty, with an agreement to sell back such securities at a future date), or the purchase of a portfolio of transferable securities, money market instruments, and/or collective investment undertakings, to generate interest rate flows. Returns can be expected from a combination of capital growth and income.

The benchmark index for this share class is published separately on Bloomberg under the ticker MLCXAF5T Index and is reflected in the performance chart included in this document.

The currency of the Fund is USD and your shares will be denominated in USD.

Your shares are non-distributing (i.e. any income arising from your shares will be included in their value).

You may redeem your shares on demand on any UK, US and Luxembourg banking day.
