

# Key Investor Information

This document provides key information for investors in this Sub-fund. It is not marketing material. The information it contains is required by law to help you understand the features of the Sub-fund along with the risks and other related information, should you decide to invest. You are advised to read it so that you can make an informed decision about whether to invest.

## AZ Equity - Emerging Latin America (the “Sub-fund”) is a sub-fund of AZ Fund 1 (the “Fund”)

A-INSTITUTIONAL EURO (ACC) class - ISIN LU2384287699

The Fund is managed by Azimut Investments S.A. (the Management Company).

### OBJECTIVES AND INVESTMENT POLICY

#### Objectives

The Sub-fund’s investment objective is long-term capital growth.

#### Investment policy

The Sub-fund seeks to achieve its investment objective by actively managing a portfolio of equities and equivalent securities issued by companies that have their registered office and/or that conduct the majority of their business in the Latin America region.

For the purpose of the Sub-fund’s investment policy, the Latin America region includes all countries in Central and South America, including Mexico.

The Sub-fund may also invest up to 20% of its net assets in debt securities and money market instruments issued by governments and/or companies with registered offices in the Latin America region, with no rating restrictions.

The Sub-fund uses the main financial derivatives for investment purposes and/or to hedge against risks. Leverage calculated based on the sum of notionals method: maximum 200%.

The Sub-fund is actively managed and is not managed in relation to a benchmark index. For the purpose of calculating the performance fee, the following benchmark is used: 90% MSCI EM Latin America USD Net Total Return + 10% Bloomberg US Treasury Bill Index.

#### Specific information on units

You may request the sale of your units on a daily basis, except in certain circumstances (see the prospectus).

Dividend payments are not expected. Any income from the portfolio is reinvested.

This unit class is reserved for institutional investors.

Recommendation: this Sub-fund may not be appropriate for investors who plan to withdraw their money within seven years.

#### Definitions

**Actively managed Sub-fund:** a Sub-fund for which the manager has the flexibility to select the securities that make up the portfolio, in line with the objectives and investment policy laid out.

### RISK AND REWARD PROFILE

#### Definition of the risk and reward indicator

The aim of the risk indicator is to provide you with an evaluation of changes in unit prices. Risk category 6 means that the unit price is very volatile. As a result, the risk of loss and the expected return may also be very high. However, even the lowest category does not mean that the investment is “risk free”.

Historical data may not provide reliable information about the future. The displayed risk indicator is not guaranteed and is likely to change over time. There is no capital guarantee and the value of the Sub-fund is not protected.

#### Reason why the Sub-fund is classified in this risk category

This Sub-fund’s risk level primarily reflects the investment positions in equities and foreign currencies depending on market volatility within the predefined margin.

#### Particular risks for the Sub-fund not included in the indicator:

**Risks associated with equities:** this refers to the financial risk associated with the direct or indirect holding of financial assets that represent the shares of a company. The value of equities can increase or decrease depending on the particular characteristics of the issuer (profitability, financial capacity) and the general developments of the stock markets.

**Emerging market risk:** risk associated with investing in emerging markets. Due to their political instability, the volatility of the exchange rate of their currencies and the limited number of investment opportunities, the risk of these markets is greater than in countries considered as developed.

**Concentration risk:** when the Sub-fund invests heavily in a company, sector or country that is significantly affected by an adverse event, its unit price may fall.

**Currency risk:** the Fund invests in other currencies. Fluctuations in exchange rates will therefore have an impact on the value of the investment.

Other investment risks are specified in the risks section of the prospectus.

## CHARGES

The charges you pay are used to cover the costs of running the Sub-fund, including marketing and distribution costs. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:	
Entry charge	2.00% of the amount invested for subscriptions made in single solution.
Exit charge	None
The percentage indicated is the maximum that may be taken out of your capital before it is invested and/or before the proceeds of your investment are paid out. Please contact your financial advisor or distributor for the actual charges.	
Charges deducted from the Sub-fund over a year:	
Ongoing charges	2.05%
Charges deducted from the Sub-fund under specific conditions:	
Performance fee	The management fee is increased or reduced on a straight-line basis by a variable management fee, up to a maximum of 20% of the amount of the management fee, based on the difference between the performance of the class and the performance of the 90% MSCI EM Latin America USD Net Total Return + 10% Bloomberg US Treasury Bill Index benchmark index over the same performance period (so-called “fulcrum” variable management fee). <b>In some cases, a performance fee may be levied even when the performance of the Sub-fund is negative.</b>

Given that this unit has not yet recorded a full year in terms of performance, the amount of ongoing charges is estimated. This amount may change from year to year.

Ongoing charges do not take into account the following:

- performance fees and
- costs of portfolio transactions, unless the Sub-fund pays entry or exit charges when it buys or sells units in another undertaking for collective investment.

To find out more about the charges, please refer to the prospectus available at [www.azimutinvestments.com](http://www.azimutinvestments.com).

## PAST PERFORMANCE

Please note that for this class no performance data for a full calendar year is available.

- The Sub-fund was created in 2006.
- The A-INSTITUTIONAL EURO (ACC) class will be launched at a later date.
- The performance of the Sub-fund is not linked to that of the benchmark index. The latter is intended to be used to calculate the performance fee (fulcrum).

A\*: Since 01/04/2022, a “fulcrum fee model” has been applied. Benchmark index up to 01/04/2022: 3M Libor USD (US0003M) + 5%.
