Fidelity Funds - Sustainable Japan Equity Fund

a sub-fund of Fidelity Funds

Fidelity Funds - Sustainable Japan Equity Fund A-ACC-SGD (SGD/JPY hedged)

(ISIN:LU2456868384)

This fund is managed by FIL Investment Management (Luxembourg) S.A.

Objectives and Investment Policy

Objective: The fund aims to achieve capital growth over the long term.

Investment Policy: The fund invests at least 70% (and normally 75%) of its assets, in equities of companies that are listed, headquartered, or do most of their business in Japan. The fund may also invest in money market instruments on an ancillary basis.

The fund invests at least 70% of its assets in securities of issuers with favourable environmental, social and governance (ESG) characteristics and up to 30% in securities of issuers with improving ESG characteristics. The Investment Manager will exclude investment in issuers with a Fidelity Sustainability Rating of 'C' or below.

Investment Process: In actively managing the fund, the Investment Manager considers growth and valuation metrics, company financials, return on capital, cash flows and other financial measures, as well as company management, industry, economic conditions, and other factors. The Investment Manager also considers ESG characteristics when assessing investment risks and opportunities. In determining favourable ESG characteristics, the Investment Manager takes into account ESG ratings provided by Fidelity or external agencies. Through the investment management process, the Investment Manager aims to ensure that investee companies follow good governance practices.

The fund assesses the ESG characteristics of at least 90% of its assets. The fund's average ESG rating exceeds the average ESG rating of its investment universe (as represented by the benchmark) after excluding 20% of the assets with the lowest ESG ratings.

The fund adheres to the Fidelity Sustainable Family of Funds standards. For more information, see "Sustainable Investing and ESG Integration".

Derivatives and Techniques: The fund may use derivatives for hedging, efficient portfolio management and investment purposes.

Benchmark: TOPIX Total Return Index, an index that does not take into account ESG characteristics. Used for: investment selection, risk monitoring and performance comparison.

Risk Management Method: Commitment.

Base Currency: SGD.

Distribution: As this is a non-distributing share class, dividends are re-invested.

The reference currency of the fund is hedged to the reference currency of the share class. This hedging has the effect of translating (or "replicating") the returns expressed in the fund's reference currency into returns expressed in the reference currency of the share class.

The long and short active currency positions may not be correlated with the underlying securities positions held by the fund.

Risk and Reward Profile

Historical data may not be a reliable indication for the future.

The risk category shown is not guaranteed and may change over time.

The lowest category does not mean a "risk free" investment.

The risk and reward profile is classified by the level of historical fluctuation of the Net Asset Values of the share class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

The value of your investment may fall as well as rise and you may get back less than you originally invested.

This Fund is categorised in risk class 5 because, in accordance with the investment policy, the value of the investments may fluctuate somewhat sharply. Consequently, both the expected return and the potential risk of loss may be above average.

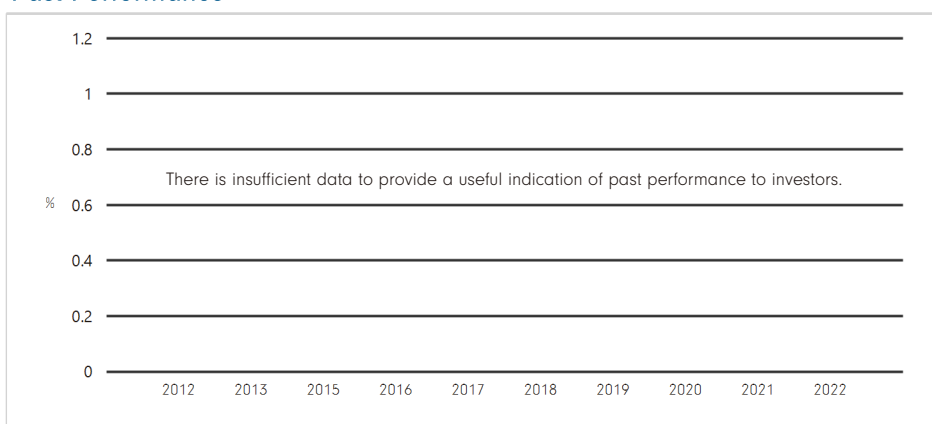

Additional risks: See "Risk Descriptions" for more information. Concentration, Counterparty and collateral, Currency, Derivatives, Equities, Hedging, Investment fund, Liquidity, Market, Operational, Sustainable investing. The fund may invest in instruments denominated in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the value of your investment. Currency hedging may be used which aims to reduce the effect of such changes. However, the effects may not be completely eliminated to the degree expected.
