

Eurizon Fund - Equity Circular Economy Z, EUR Accumulation

Data as of 04/30/2024

This Sub-Fund is managed by Eurizon Capital S.A.

NAV (in EUR)	115.13	Fund Size (in EUR)	886 mil	Class Unit Inception Date	03/18/2022
Morningstar Rating TM	No Rating	Fund Manager	Corrado Gaudenzi	Number of Holdings	133
Morningstar Rating TM referred to 03/29/2024					

Investment / Performance Objectives & policy

The fund mainly invests in equities of companies that participate in the transition to a circular economy through processes such as product recycling, waste reduction, product life extension and renewable resources. These companies may be from anywhere in the world, including emerging markets. The fund generally favours direct investment but may at times invest through derivatives. Specifically, the fund normally invests at least 70% of total net assets in equities and equity-related instruments, including convertible bonds. The fund may invest across any market capitalisation. The fund may invest in the following asset classes up to the percentages of total net assets indicated:
- emerging market equities: 10%

Reference period: YTD (year to date) from 01/01/2024 to the date of this reporting. The returns calculations do not take into account taxes applicable to an average professional client in his or her country of residence. When the currency presented differs from yours, there is a currency risk that may result in a decrease in value.

Risk and Reward Profile

The risk indicator assumes you keep the product for 5 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions are could impact the capacity to pay you.

For any further details on investment risks, please refer in particular to the Risks section of the Fund's Prospectus.

Data as of 04/30/2024

Sustainability characteristics

ESG score

The ESG score considers environmental, social and governance factors based on data on the individual issuer provided by MSCI ESG, which are then aggregated according to the underlying securities in the portfolio. The same methodology is also applied to the product benchmark.

SFDR Category
Article 8

The fund is qualified pursuant to Article 8 of Regulation (EU) 2019/2088; see the Sustainability Report for more details.

ESG score
Eurizon Fund - Equity Circular Economy Z

ESG score
Benchmark

Percentage of issuers involved in controversial sectors

Percentage of critical issuers

Carbon footprint

Values other than zero may be due to (i) discontinued issuers, in the best interest of participants and in accordance with current legislation, (ii) issuers for which an engagement activity is in progress or (iii) indirect exposures.

Source: Internal processing of data provided by MSCI ESG Research
Survey period: 12-month rolling average

Appendix

Percentage of issuers involved in controversial sectors

Issuers operating in sectors deemed controversial (not "socially responsible"), to which restrictions or exclusions apply with respect to the entirety of the individual assets under management, are companies (i) that have a clear direct involvement in the manufacture of unconventional weapons; (ii) at least 25% of whose turnover is generated from thermal coal mining or power generation activities; (iii) at least 10% of whose turnover is generated from the exploitation of oil sands.

More specifically, unconventional weapons are understood as: anti-personnel mines; cluster bombs; nuclear weapons*; impoverished uranium; biological weapons; chemical weapons; stealth cluster bombs; blinding lasers; incendiary weapons; white phosphorus.

These provisions do not apply to the activities permitted by the following treaties and/or conventions:

- The Ottawa Treaty (1997) which prohibits the use, stockpiling, production and transfer of anti-personnel mines; the Convention on Cluster Munitions (2008) which prohibits the use, stockpiling, production and transfer of cluster bombs;
- The Chemical Weapons Convention (1997) which prohibits the use, stockpiling, production and transfer of chemical weapons;
- The Biological Weapons Convention (1975) which prohibits the use, stockpiling, production and transfer of biological weapons;
- Regulation (EU) 2018/1542 concerning restrictive measures against the proliferation and use of chemical weapons;

These exclusions are also intended to comply with the requirements established by Law no. 220 of 9 December 2021 on measures to counter the financing of companies producing antipersonnel mines, cluster bombs and submunitions.

*With regard to exclusions on nuclear weapons, issuers based in states that have adhered to the "Nuclear Non-Proliferation Treaty" stipulated on 1 July 1968 are not considered.

Percentage of critical issuers

"Critical" issuers are those companies having a higher exposure to environmental, social and corporate governance risks, i.e. which have a lower ESG sustainability rating level (equal to "CCC" assigned by the specialized info-provider) in the equity and bond investment category and for which an escalation process has been activated, or is being assessed, which determines restrictions and/or exclusions with respect to the entirety of the individual assets under management ("ESG Binding screening").

Percentage of issuers selected on the basis of positive and negative criteria

The weight of government issuers that comply with the specific positive and negative selection criteria identified by the Product, i.e. (i) issuers of green/sustainable bonds and (ii) companies publicly engaged in the energy transition process, particularly through the progressive reduction in Scope 1 and Scope 2 emissions to reach climate neutrality by 2050 ("Net Zero" goal).

Percentage of assets in government issuers meeting the screening criteria

The weight of government issuers that meet the selection criteria defined on the basis of the indicators of the "Sustainable Development Report" and Regulation (EU) 2019/2088 to monitor the principal adverse impacts relating to government issuers.

Percentage of assets in ESG or sustainable investment type UCIs

This is understood as assets of UCITS that promote environmental and/or social characteristics pursuant to Article 8 of Regulation 2019/2088 or which pursue sustainable investment objectives pursuant to Article 9 of said Regulation.

Carbon footprint

The value represents tonnes of carbon dioxide (direct - Scope 1 and indirect - Scope 2) of the investee companies in relation to their turnover.

Sustainable investment

Weighting (i) of issuers with net positive alignment with at least 1 of the United Nations' 17 Sustainable Development Goals (SDG) and no misalignment with any of the SDGs and (ii) of green, social and sustainability bonds.

Data as of 04/30/2024

Investment Manager Commentary

Performance and Investment Choices

In April, the global stock index expressed in euros recorded a positive performance. The portfolio is markedly concentrated on companies that play a leading role in the transition process towards a circular production model in their sector of activity, and on companies whose businesses aid the circular transition of the entire economy. Such companies are mostly active in the manufacturing sector. The prices of the names included in the portfolio are still significantly lower than the average for the stock markets considered, therefore we expect stock picking to make a positive contribution in the medium term to the Fund's performance relative to the benchmark index.

IMPORTANT INFORMATION

Source of information and data related to the Unit of the Sub-Fund: Eurizon Capital SGR S.p.A, Società di gestione del risparmio, a public limited company (società per azioni) incorporated in Italy under number 15010 and having its registered office Via Melchiorre Gioia, 22 - 20124 Milan and authorized to act as investment manager under the supervision of CONSOB.

Morningstar Rating based on the Unit of this document. For more details about the methodology, please refer to the Glossary as well as the following link: https://www.morningstar.com/content/dam/marketing/shared/research/methodology/771945_Morningstar_Rating_for_Funds_Methodology.pdf. Morningstar rating is a quantitative assessment of past performance that takes into account risk and costs imputed. It does not take into account qualitative elements and is calculated on the basis of a (mathematical) formula. The classes are categorized and compared with similar UCITS classes, based on their score and they receive one to five stars. In each category, the top 10% receive 5 stars, the next 22.5% 4 stars, the next 35% 3 stars, the next 22.5% 2 stars, and the last 10% receive 1 star. The rating is calculated monthly on the basis of historical performance over 3, 5 and 10 years and does not take into account the future.
