

Investment Objective

The Leverage Shares 3x Long Japan ETP Securities seeks to track the 3x Long Japan Investment Strategy, which is designed to provide 3x the daily return of iShares MSCI Japan ETF stock, adjusted to reflect the fees and costs of maintaining a leveraged position in the stock. It invests directly in the underlying iShares MSCI Japan ETF stock and uses margin (borrowing) to purchase additional shares of iShares MSCI Japan ETF stock.

For example, if iShares MSCI Japan ETF rises by 1% over a day, then the ETP will rise by 3%, excluding fees. However, if iShares MSCI Japan ETF falls by 1% over a day, then the ETP will fall by 3%, excluding fees.

Key Features

- Opportunity to magnify returns in one simple trade.
- Liquid. Trades like an equity on exchange, with multiple market makers (MMs).
- You cannot lose more than the amount invested, and an intraday rebalance mechanism is designed to cushion the largest intra-day falls.
- Simple to trade, no need for futures, no need to use margin accounts.
- Transparent structure with full ownership of the underlying assets, so credit risk effectively negated.
- Is independent and managed by industry experts.

Key Risks

- Investing in Short and Leveraged ETPs is only suitable for sophisticated traders who understand leverage, daily rebalancing and compounded daily returns.
- Investors can lose the full value of their initial investment (but not more).
- Losses are magnified due to the nature of leveraged returns. Therefore, Short and Leveraged ETPs are only suitable for investors willing to take a high level of risk.
- Daily compounding may result in returns which an investor may not expect if the investor has not fully understood how a Leverage Shares ETP works.
- Due to daily rebalancing and compounding, ETP returns measured over periods longer than one day may differ from the returns of the underlying stock multiplied by the leverage factor.
- Only use these ETPs if you can monitor your positions daily or during the day.
- Please see the 'Risks Factors' section of the Prospectus for a more detailed discussion of the potential risks associated with an investment in this product.

PRODUCT INFORMATION

Product Name	Leverage Shares 3x Long Japan ETP

Disclaimer

Leverage Shares ETPs are only intended for sophisticated traders who understand the associated risks and are able to monitor their positions on an intraday basis. Please consult an investment adviser to determine whether or not the products are suitable for you. Traders should also review the Relevant Prospectus and the Leverage Shares educational materials carefully before considering the ETPs.

No investment advice

Leverage Shares PLC is required by the FCA to clarify that it is not acting for you in any way in relation to the investment or investment activity to which this financial promotion relates. In particular, LEVERAGE SHARES PLC will not provide any investment services to you and or advise you on the merits of, or make any recommendation to you in relation to, the terms of any transaction. No representative of LEVERAGE SHARES PLC is authorised to behave in any way which would lead you to believe otherwise. LEVERAGE SHARES PLC is not, therefore, responsible for providing you with the protections afforded to its clients and you should seek your own independent legal, investment and tax or other advice as you see fit.

No offer for sale

The information contained in this financial promotion is neither an offer for sale nor a solicitation of an offer to buy securities. This financial promotion should not be used as the basis for any investment decision.

Risk Warnings

The value of an investment in ETPs may go down as well as up and past performance is not a reliable indicator of future performance. An investment in ETPs is dependent on the performance of the underlying assets of the relevant investment strategy, less costs, but it is not expected to match that performance precisely. ETPs offering daily leveraged or daily short exposures ("Leveraged ETPs") are products which feature specific risks that prospective investors should understand before investing in them.

Securities issued by the Issuer are products involving a significant degree of risk and may not be suitable for all types of investor. Any decision to invest should be based on the information contained in the Relevant Prospectus of the Issuer (or any supplements thereto) which includes, inter alia, information on certain risks associated with an investment. The price of any securities may go up or down and an investor may not get back the amount invested. Securities are priced in US Dollars/Euros/Pounds and the value of the investment in other currencies will be affected by exchange rate movements.

Short and leveraged exchange-traded products are only intended for investors who understand the risks involved in investing in a product with short and/or leveraged exposure and who intend to invest on a short-term basis. Any investment in short and/or leveraged products should be monitored on a daily basis to ensure consistency with your investment strategy. You should understand that investments in short and/or leveraged exchange-traded products held for a period of longer than one day may not provide returns equivalent to the return from the relevant unleveraged investment multiplied by the relevant leverage factor.

Potential losses in short and/or leveraged exchange-traded products may be magnified in comparison to investments that do not incorporate these strategies. Please refer to the section entitled "Risk Factors" in the relevant prospectus for further details of these and other risks associated with an investment in short and/or leveraged exchange-traded products. You should consult an independent investment adviser prior to making an investment in short and/or leveraged exchange-traded products in order to determine its suitability to your circumstances.

Prospectus

A base prospectus has been approved by the Central Bank of Ireland as competent authority under Regulation (EU) 2017/1129 with respect to the offer and listing of ETPs in Ireland and certain other EU jurisdictions listed below (the "EU Prospectus"). A base prospectus has been approved by the Financial Conduct Authority as competent authority under the United Kingdom's version of Regulation (EU) No 2017/1129 of the European Parliament and of the Council of 14 June 2017 on the prospectus to be published when securities are offered to the public or admitted to trading on a regulated market, and repealing Directive 2003/71/EC, which is part of UK law by virtue of the European Union (Withdrawal) Act 2018 with respect to the offer and listing of ETPs in the United Kingdom.

The Central Bank of Ireland has delivered to the regulators listed below certificates of approval attesting that the EU Prospectus has been drawn up in accordance with Article 25 of Regulation (EU) 2017/1129.

The EU Prospectus (and any supplements thereto) of the Issuer has been passported from Ireland into Italy (Commissione Nazionale per la Società e la Borsa), Germany (Bundesanstalt für Finanzdienstleistungsaufsicht), France (Autorité des Marchés Financiers), Spain (Comisión Nacional del Mercado de Valores), the Netherlands (the Autoriteit Financiële Markten), Poland (Komisja Nadzoru Finansowego) and Belgium (Belgian Financial Services and Markets Authority).

Investors should read the Relevant Prospectus of the Issuer before investing and should refer to the section of the Relevant Prospectus entitled 'Risk Factors' for further details of risks associated with an investment in this product.
