Man GLG Dynamic Income Class I USD Shares

(ISIN:IE000NS7XVU2) Man GLG Dynamic Income (the 'Fund') is a sub-fund of Man Funds plc (the 'Company').

Man Asset Management (Ireland) Limited, part of Man Group plc, is the Manager of the Company.

Objectives and investment policy

- The Fund aims to provide investors with income and capital growth over a medium to long-term period by investing predominantly in bonds issued by companies and governments worldwide.
- To achieve this, the Investment Manager evaluates the expected risk and return of each individual issuer in the Portfolio. Metrics such as yield, or yield spread to government bonds with a similar maturity date will be analysed to assess expected returns. The investment philosophy is to buy securities in which the expected returns overstate the risks, benefitting from income and capital appreciation either by holding the security to redemption or through selling the security at a higher price when the implied risk of default as determined by the market is equal to the Investment Manager's assessment of the risk.
- The Fund typically aims to create returns through a long exposure. However, it may apply a 'long-short strategy' whereby, in addition to buying and holding assets, it may use derivatives (ie instruments whose prices are dependent on one or more underlying asset ('FDI') to take 'short' positions whereby the Fund may make money in respect of issuers whose securities the Fund believes to be overvalued or expects to fall in value.
- The Fund will invest at least 80% of its Net Asset Value in fixed and floating rate government, corporate or securitised bonds denominated in USD (or in other currencies and hedged back to USD) issued by governments, government agencies, supra-national and corporate issuers worldwide listed or traded on markets globally. The Fund will invest across the full range of capital structures from senior secured to subordinated bonds (senior securities holders will always be first to receive a payout from a company's holdings in the event of default whereas subordinate status means they only are paid out after senior bonds).
- The Fund may also invest in a number of other assets including currencies, money market instruments, mortgage backed securities, asset backed securities (including collateralised loan obligations and collateralised mortgage obligations), equities and other fixed income investments, eligible collective investment schemes and other liquid assets. The Fund may also invest in bonds that are convertible from debt to equity upon the occurrence of a trigger event (CoCos).
- The Fund's investments will not be limited by geographical sector. The Fund may invest in emerging markets and such investment is not expected to exceed 40% of its Net Asset Value. There is no limit to the extent the Fund may gain exposure to non-investment grade securities.
- The Fund may actively use FDI to achieve its investment objective, for efficient portfolio management purposes and for hedging against anticipated movements in a market or security, or where it is more economically effective than directly holding the underlying asset.
- The Fund may increase its holdings of cash and other liquid assets in times of exceptional market circumstances or where it is of the opinion that there are insufficient investment opportunities.
- The Fund is actively managed and no benchmark is used as a universe for the selection of investments or for performance comparison purposes.
- The Fund's reference currency is USD.
- Any income earned on investments will be added to the value of investors' shares and investors can buy and sell their shares on each dealing day of the Fund.
- Investment in the Fund is suitable for investors who can hold for the medium to long term and who are prepared to have a medium risk investment in order to generate potentially higher returns.

Risk and reward profile

Lower risk — Higher risk

Typically lower rewards — Typically higher rewards

1	2	3	4	**5**	6	7

- The lowest category does not mean 'risk free'.
- The risk and reward profile is not guaranteed and may change over time.
- Historical data may not be a reliable indication for the future.
- The risk category for this share class is 5 as funds of this nature engage in strategies that typically have a moderate to high volatility. The calculation is based on the historical volatility of the Fund's performance. Where there is insufficient Fund performance the calculation is based on either the historical volatility of a relevant benchmark for the investment strategy or the Manager's Value at Risk limit for the Fund. Please refer to the prospectus for further information relating to the Value at Risk.

The following risks may not be fully captured by the risk and reward profile:

- The Fund is subject to normal market fluctuations and the risks associated with investing in international securities markets and therefore the value of your investment and the income from it may rise as well as fall and you may not get back the amount originally invested.
- The Fund will be exposed to credit risk on counterparties with which it trades in relation to on-exchange traded instruments such as futures and options and where applicable, 'over-the- counter'("OTC","non-exchange") transactions.
- The value of investments designated in another currency may rise and fall due to exchange rate fluctuations. Adverse movements in currency exchange rates may result in a decrease in return and a loss of capital. It may not be possible or practicable to successfully hedge against the currency risk exposure in all circumstances.
- The Fund may make investments or hold trading positions in markets that are volatile and which may become illiquid. Timely and cost efficient sale of trading positions can be impaired by decreased trading volume and/or increased price volatility.
- The Fund will invest in FDI to achieve its investment objective. The use of FDI involves additional risks such as high sensitivity to price movements of the asset on which it is based. The extensive use of FDI may significantly multiply the gains or losses.
- The Fund's use of FDI may result in increased leverage which may lead to significant losses.
- The Fund may invest a significant proportion of its assets in securities with exposure to emerging markets which involve additional risks relating to matters such as the illiquidity of securities and the potentially volatile nature of markets.
- The Fund may invest a significant proportion of its assets in non-investment grade securities (such as “high yield” securities) are considered higher risk investments that may cause income and principal losses for the Fund. They are instruments which credit agencies have given a rating which indicates a higher risk of default.
- Whilst the Fund aims to provide capital growth, a positive return is not guaranteed over any time period and capital is in fact at risk.

A complete description of risks is set out in the prospectus section entitled 'Certain Investment Risks'.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.70%

Charges taken from the fund under certain specific conditions

Performance fee	None

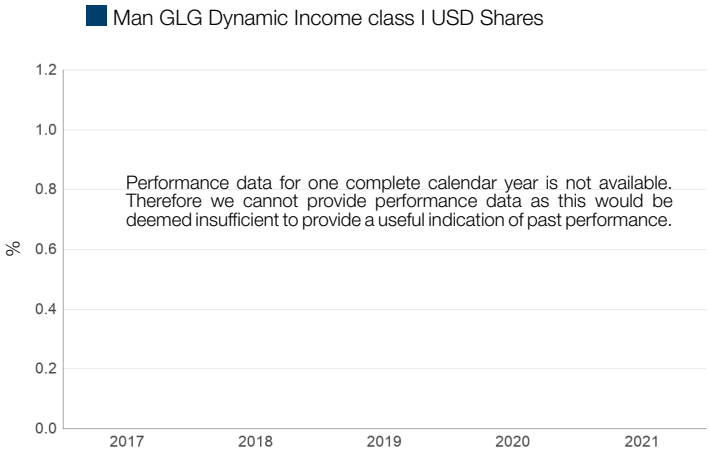

The entry and exit charges shown are maximum figures and in some cases you might pay less. Please refer to your financial advisor or the distributor for the actual charges.

As this share class has not had a full year of performance, the ongoing charges figure is an estimated figure.

This figure may vary from year to year. It excludes performance fees (where applicable) and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another sub-fund.

For detailed information on charges and fees please see the 'Fees and Expenses' section of the prospectus.
