

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Mirova Future of Food Fund

is a sub-fund of Mirova Funds (the "SICAV").

J-N1R/A (H-EUR) ISIN LU2549307259

Natixis Investment Managers International, part of the BPCE Group, is the Management Company of the Fund.

OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund has a sustainable investment objective which is to allocate the capital towards sustainable economic models with environmental and/or social benefits by investing in companies operating in the food value chain whose economic activity contributes creating a positive impact on the environment and society. The Sub-Fund will invest in companies listed worldwide, and its financial performance is measured against the MSCI World Net Dividends Reinvested Index over the recommended minimum investment period of 5 years. The MSCI World Index Net Dividend Reinvested is representative of global equity markets.

The Sub-Fund is actively managed. For indicative purposes only, the Sub-Fund's performance may be compared to the Benchmark. In practice, the portfolio of the Sub-Fund is likely to include constituents of the Benchmark, but the Investment Manager has full discretion in the selection of the securities comprising the portfolio within the limits of the Sub-Fund's investment policy. However, it does not aim to replicate that Benchmark and may therefore significantly deviate from it.

The Sub-Fund follows a thematic responsible investment strategy by investing in international companies within the sustainable food value chain delivering solution to address environmental and nutritional challenges. The investment process relies on stock picking based on a deep fundamental analysis of companies combining both financial and ESG considerations.

The Product follows an ESG thematic and "Best-In-Universe" approach (complemented by sectoral exclusion, commitment and voting policies) which aims at assessing systematically the social and environmental impacts of each company in relation to the achievement of UN SDGs. It involves the rating of each company in respect of the criteria: Environmental (such as environmental recycling), Social (such as employee health) and Governance (such as business ethics). An ESG strategy may comprise methodological limitations such as the ESG Driven Investments Risk. Please refer to the sections "Description of the extra-financial analysis and consideration of the ESG criteria" and "Principal risks" of the Prospectus for additional information.

The Sub-Fund will invest at least two-thirds of its total assets in equities issued by companies located in developed countries and up to 20% of its net assets into emerging markets. The Sub-Fund may invest up to 10% of its total assets in money market instruments, cash, cash equivalents or other types of securities than those described above.

The Sub-Fund may use derivatives for hedging and investment purposes.

This hedged share class aims at hedging the net asset value against the fluctuations between the reference currency of the Sub-Fund and the Share Class reference currency.

Income earned by the Sub-Fund is reinvested.

Shareholders may redeem Shares on demand on any business day (in Luxembourg) by 13:30
