SUPPLEMENT

LORD ABBETT GLOBAL EQUITY FUND

(A Fund of Lord Abbett Global Funds I plc, an open-ended investment company with variable capital constituted as an umbrella fund with segregated liability between its Funds)

The date of this Supplement is 13 January 2023

This Supplement contains specific information in relation to the Lord Abbett Global Equity Fund (the “Fund”), a sub-fund of Lord Abbett Global Funds I plc (the “Company”). It forms part of and must be read in the context of and together with the Prospectus of the Company dated 1 December 2022.

Words and expressions defined in the Prospectus shall, unless the context otherwise requires, have the same meaning when used in this Supplement.

INTRODUCTION

This Supplement comprises information relating to the Shares of the Fund to be issued in accordance with the Prospectus and this Supplement.

The general details set out in the Prospectus apply to the Fund save where otherwise stated in this Supplement. To the extent that there is any inconsistency between this Supplement and the Prospectus this Supplement shall prevail.

Investors should read the section “RISK FACTORS” before investing in the Fund.

An investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors.

The Fund is actively managed.

DEFINITIONS

In this Supplement, the following words and phrases shall have the meanings indicated below:

“Emerging Markets Country”	every nation in the world not classified as a Developed Market by MSCI.
-----------------------------------	---

THE FUND

Investment Objective

The investment objective of the Fund is to seek long-term capital appreciation.

Investment Policies

Under normal conditions, the Fund invests principally in a diversified portfolio of equity securities of global issuers across all market capitalizations. Such securities may be denominated in U.S. dollars or any other currency and may be traded on any of the markets set out in Schedule 1 of the Prospectus. The Fund may invest in excess of 20% of its Net Asset Value in securities of issuers of Emerging Market Countries. There is no specific limit on the maximum investment in any one market but it is anticipated that the portfolio will be globally diversified.

The Fund may invest in any security that represents equity ownership in a company. Equity securities usually include common stocks, preferred stocks, equity interests in trusts (including real estate investment trusts (“REITs” and privately offered trusts), partnerships, joint ventures, limited liability companies, vehicles with similar legal structures, and other instruments with similar characteristics. Equity securities will be deemed for investment purposes to include warrants and rights offerings, convertible securities (which may embed an option) and depositary receipts such as American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”). The Fund gains exposure to Chinese securities by utilizing the StockConnect program to purchase China A and B shares.

The Fund may invest up to 10% of its net assets in Underlying Collective Investment Schemes, subject to the requirements of the Central Bank and the Regulations. Such Underlying Collective Investment Schemes will have investment policies consistent with the investment policies of the Fund. For the avoidance of doubt, the Fund shall not invest more than 10% of its net assets in any Underlying Collective Investment Schemes, individually or in aggregate.

In pursuing its investment objective, the Fund may invest in FDIs. The Fund may use FDIs in order to seek to enhance returns, to attempt to hedge some of its investment risk or currency risk or as a substitute position for holding the underlying asset on which the FDI is based. The FDI that the Fund may use consist of futures contracts, forward contracts, options and swap agreements. The underlying reference security for FDIs which will, at all times, reflect the investment policies of the Fund may be a single security, a basket of securities or an index of securities. FDIs may also use interest rates or currencies as a reference. Where the Fund invests in FDIs that are based on financial indices, these indices will be consistent with the investment policies of the Fund and generally will not be rebalanced more frequently than monthly. It is not anticipated that such rebalancing will increase Fund costs or impact the Fund's ability to comply with its investment restrictions. Details of any such indices used will be disclosed in the periodic reports of the Fund. Where any particular stock in an index exceeds the permitted investment restrictions it will be treated as a passive investment breach and the investment closed as a matter of priority, but taking account of the best interests of Shareholders.

Convertible securities, such as convertible preferred stock and convertible bonds, may represent derived investment positions whose value at maturity or interest rate is linked to equity securities and which may therefore embed FDIs. The leverage exposure of the Fund through the use of FDIs will not exceed 100% of the Fund's Net Asset Value, as measured using the commitment approach.

The Investment Manager operates a risk management process on behalf of the Fund in relation to its use of FDIs, details of which are set out in the Prospectus under the section "USE OF FINANCIAL DERIVATIVE INSTRUMENTS: Risk Management".

While the Base Currency of the Fund is USD, the Fund may hold securities denominated in currencies other than the Base Currency. Accordingly, the value of the Fund may be affected by the value of the local currency of the Fund's investments relative to the Base Currency of the Fund. From time to time the Fund may use currency hedging techniques to limit currency exposure between the currencies of the Fund's investment portfolio and the Base Currency.

The general provisions regarding investment objectives and policies as set out in the "INVESTMENT OBJECTIVES AND POLICIES OF THE FUNDS" section of the Prospectus shall apply.

Investment Process

The Fund seeks to invest in companies that are undervalued based on various valuation criteria, such as forward price to earnings, dividend yield, and cash flow yield. The Investment Manager uses fundamental analysis of both companies and industries to attempt to determine the relative economic value of a business and support an assessment of the inherent investment risks. The Investment Manager also uses quantitative analysis in the investment process.

Generally, the fundamental analysis process evaluates various measures of a company's financial condition. The Investment Manager may take into account both consensus expectations as well as proprietary fundamental analysis including near-term earnings, long-term normalized earnings, and earnings growth rates. The Investment Manager also considers

other factors such as changes in economic conditions and financial environment, new or improved products and services, changes in management or structure of a company, price changes for a company's products or services, and improved efficiencies resulting from new technologies or changes in distribution. The Investment Manager also employs quantitative analysis, such as valuation and risk models, to support its fundamental analysis and assist in stock selection, portfolio construction and risk management.

The Fund may sell a security if it no longer meets the Fund's investment criteria or for a variety of other reasons, such as to secure gains, limit losses, redeploy assets into opportunities believed to be more promising, or satisfy redemption requests, among others. In considering whether to sell a security, the Fund may evaluate factors including, but not limited to, the condition of the economy, changes in the issuer's competitive position, financial condition or valuation characteristics and changes in the outlook for the issuer's industry.

Performance Comparator Benchmark

The benchmark of the Fund is the MSCI All Country World Index (the "Benchmark"). Investors should note that the Benchmark is being used by the Fund for performance comparison purposes only and the Fund does not intend to track the Benchmark. While the Fund may invest in investments which are constituents of the Benchmark, the Fund will be actively managed and its portfolio will not be constrained by reference to any index, and the Investment Manager may use its discretion to invest in instruments which are not included in the Benchmark.

Base Currency

The Base Currency of the Fund is USD.

Investment Restrictions and Risk Management

The general investment restrictions as set out in the "INVESTMENT RESTRICTIONS" section of the Prospectus shall apply. The Fund will only invest in assets that are permitted under the Regulations.

Profile of a Typical Investor

The Fund is intended to serve as a long-term investment option and should not be viewed as an appropriate investment vehicle for short-term gain or trading. The Fund may be suitable for investors able to withstand investment risks associated with investing in global equity securities.

RISK FACTORS

Investment in the Fund carries with it a degree of risk including, but not limited to, the risks described in the "INVESTMENT RISKS AND SPECIAL CONSIDERATIONS" section of the Prospectus. The Investment Manager considers that the investment risks that are ticked in the "INVESTMENT RISKS APPLICABLE TO EACH FUND" section of the Prospectus are relevant to an investment in the Fund. These investment risks are not purported to be exhaustive and potential investors should review the Prospectus and this Supplement carefully and consult with their professional advisers before making an application for Shares. There can be no assurance that the Fund will achieve its investment objective.

The following risks are relevant to the Fund in addition to the risks set out in the Prospectus.

StockConnect Risk

Where a Fund is permitted by its investment policy to invest into China, there are various means for the Fund to obtain such exposure, including using American depositary receipts and “H Shares” (shares of a company incorporated in the Chinese mainland listed on the Hong Kong Stock Exchange). A Fund may also invest in certain eligible securities (“StockConnect Securities”) that are listed and traded on the Shanghai Stock Exchange (“SSE”) through the Hong Kong – Shanghai StockConnect program (“StockConnect”). The Stock Exchange of Hong Kong Limited (“SEHK”), SSE, Hong Kong Securities Clearing Company Limited (“HKSCC”) and China Securities Depository and Clearing Corporation Limited developed StockConnect as a securities trading and clearing program to establish mutual market access between SEHK and SSE.

Investors in StockConnect Securities are not subject to individual investment quotas or licensing requirements, unlike other means of foreign investment in Chinese securities. Additionally, no lock-up periods or restrictions apply to the repatriation of principal and profits.

However, a number of restrictions do apply to StockConnect trading that could affect a Fund’s investments and returns. For example, investors in StockConnect Securities are generally subject to the Peoples Republic of China (“PRC”) securities regulations and SSE listing rules, among other restrictions. Furthermore, an investor may not sell, purchase or transfer its StockConnect Securities other than through StockConnect and in accordance with applicable rules. Although individual investment quotas do not apply, StockConnect participants are subject to daily and aggregate investment quotas, which could restrict or preclude a Fund’s ability to invest in StockConnect Securities or to have a trade settled. Trading in the StockConnect program is accordingly subject to risks relating to applicable trading, clearance and settlement procedures that are untested in the PRC. The withholding tax treatment of dividends and capital gains payable to overseas investors currently is unsettled.

Where shares are purchased through StockConnect, a Fund would only have a contractual claim against HKSCC for the rights and interests in such shares. The Fund does not have any proprietary rights, as the PRC legal system does not recognise the concept of beneficial ownership and the PRC authorities recognise HKSCC as the legal owner of such shares and not the Fund. Further details of the StockConnect program and the quota levels are available on the website of the Hong Kong Stock exchange at: http://www.hkex.com.hk/eng/market/sec_tradinfra/chinaconnect/videos.html

FEES AND EXPENSES

The Fund shall bear its attributable portion of the fees and operating expenses of the Company. The fees and operating expenses of the Company are set out in detail under the section “Fees and Expenses” in the Prospectus.

Management Fee and Expense Limitation

Under the Management Agreement, the Company will pay to the Manager, a maximum fee at an annual rate equal to the percentage of the average daily Net Asset Value of the relevant Class of the Fund as set out in the Schedule to this Supplement. The management fee shall accrue daily and be calculated and payable monthly in arrears. The Manager will remunerate the Investment Manager from its management fee together with any reasonable vouched out of pocket expenses.

In addition, the Manager shall be entitled to be reimbursed its reasonable vouched out-of-pocket expenses. Each Fund shall bear pro rata its share of such out-of-pocket expenses.

The Manager has committed to waive its management fee and, if necessary, reimburse the Fund's operating expenses, in order to keep the Fund's total operating expenses (including the fees and out-of-pocket expenses of the Manager, Administrator and Depositary) from exceeding an annual rate of the daily Net Asset Value of the Fund as set out in the Schedule to this Supplement (the "Expense Limitation"). Operating expenses do not include the cost of buying and selling investments, withholding tax, stamp duty or other taxes on investments, commissions and brokerage fees incurred with respect to investments, and such extraordinary or exceptional costs and expenses (if any) as may arise from time to time, such as material litigation in relation to the Company as may be determined by the Directors in their discretion. The expenses subject to the Expense Limitation shall include the management fee and out-of-pocket expenses. The Manager may renew or discontinue this arrangement at any time upon prior notification to Shareholders.

To the extent that the Manager waives its fee or reimburses the Fund's operating expenses under the Expense Limitation, the Fund's overall expense ratio will be lower than it would have been without the Expense Limitation. This reduction in operating expenses may increase the Fund's investment return and such returns may not be achieved without the benefit of the Expense Limitation.

Depositary's Fee

The Depositary is entitled to receive out of the assets of the Fund a fee at an annual rate which will not exceed 0.03% of the average Net Asset Value of the Fund (plus any applicable taxes). This fee accrues and is calculated on each Dealing Day and payable monthly in arrears. The Depositary shall, subject to a minimum annual fee of USD 30,000 per Fund, also be entitled to receive out of the assets of the Fund all agreed sub-custodian fees, transaction charges (which will be charged at normal commercial rates) together with reasonable out-of-pocket expenses incurred by the Depositary in the performance of its duties under the Depositary Agreement. Such depositary fees shall accrue daily and be calculated and payable monthly in arrears. This fee will be included within the Expense Limitation.

Administrator's Fee

The Administrator is entitled to receive out of the assets of the Fund a fee at an annual rate which will not exceed 0.035% of the average Net Asset Value of the Fund, subject to a minimum fee of USD 7,000 per month per Fund (plus any applicable taxes). This fee accrues and is calculated on each Dealing Day and payable monthly in arrears. The Administrator is also entitled to charge to the Fund all agreed fees and transaction charges, at normal commercial rates, together with reasonable out-of-pocket expenses (plus any applicable taxes), it incurs on behalf of the Fund in the performance of its duties under the Administration Agreement. This fee will be included within the Expense Limitation.

Initial Sales Charge

An initial sales charge of up to 5% of the amount subscribed in respect of subscriptions to Class A Shares and of up to 3% of the amount subscribed in respect of subscriptions to Class N Shares shall be payable, as more particularly described in the "SHARE CLASSES" section of the Prospectus and the Schedule to this Supplement. Where an initial sales charge applies, Shareholders should view their investment as medium to long-term.

SUBSCRIPTIONS
