Information to the Shareholders

The annual general meeting of Shareholders shall be held, within four (4) months of the end of each financial year in the Grand Duchy of Luxembourg at the registered office of the Fund or at such other place in the Grand Duchy of Luxembourg as may be specified in the convening notice of such meeting.

Audited Annual Reports and unaudited Semi-annual Reports will be sent to the shareholders upon request and will be made available for public inspection on the website: <https://www.generali-investments.lu> of the Management Company and for shareholders' inspection at each of the registered offices of the SICAV and of the Depositary Bank. They will be published within four months following the relevant accounting period, and the latest annual report is made available at least eight days before the annual general meeting. Moreover, unaudited semi-annual reports are made available for shareholders' inspection at each of the registered offices of the SICAV and of the Depositary Bank and will be published within two months following the relevant accounting period.

The financial year ends on December 31.

The list of changes in the composition of the investment portfolio, for the period ended June 30, 2023, is available and free of charge at the registered office of the SICAV.

For classes launched during the period, fees have been annualised.

The TER calculated for the period ended June 30, 2023 are the following:

	Share Class	Currency	TER % without performance fee ¹	TER % with performance fee	SCI ²
Destination Value Total Return	Class EUR D (acc)	EUR	0.21%	0.21%	0.25%
	Class EUR D (acc) Hedge	EUR	0.24%	0.24%	0.26%
	Class EUR I (acc)	EUR	0.93%	0.93%	0.95%
	Class EUR I (acc) Hedge	EUR	0.96%	0.96%	0.96%
	Class EUR I (dis) Hedge	EUR	0.95%	0.95%	0.95%
	Class EUR R (acc)	EUR	1.47%	1.47%	1.46%
	Class EUR S (acc)	EUR	1.97%	1.97%	2.01%
	Class EUR S (acc) Hedge	EUR	2.00%	2.00%	2.00%
	Class EUR S (dis)	EUR	1.97%	2.00%	2.45%
	Class EUR X (acc) Hedge	EUR	0.20%	0.20%	0.22%
Destination Dynamic Income Total Return ³	Class USD I (acc)	USD	0.86%	0.86%	0.90%
	Class EUR A (dis)	EUR	0.69%	1.07%	0.67%

¹ TERs (Total Expense Ratios) above represent the annualized fees impact at share class level. A weighted average of expenses which shareholders could have expected to pay when being invested.

² The SCI (Summary Costs indicators) figure corresponds to the data disclosed in the latest available Key Information Document ("KID") as at the date of this report. The SCI are based on historical expense data, or anticipated when material budget changes occurred during the period. For certain classes of shares and Sub-Funds where there is no relevant expense history, SCI figures are based on estimates. The SCI calculation excludes Variable Management fees and Transaction Costs.

³ The Sub-Fund was launched on May 15, 2023.

As at June 30, 2023, following Sub-Funds are available to investors:

Sub-fund name	Sub-fund currency	Launch Date
Destination Value Total Return	USD	May 04, 2020
Destination Dynamic Income Total Return	EUR	May 15, 2023

2. Significant events

A new sub-fund Destination Dynamic Income Total Return was launched on May 15, 2023.

Class EUR A (dis) was launched on May 15, 2023.

3. Principal accounting policies

3.1 Presentation of financial statements

The SICAV's financial statements are prepared in accordance with the Luxembourg regulations relating to undertakings for collective investment in transferable securities. These financial statements have been prepared on a going concern basis. Portfolios were valued as at June 30, 2023.

The financial statements of the SICAV have been prepared on a going concern basis. The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statements of each Sub-fund's are expressed in USD.

3.2 Cash and cash equivalents

The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received, is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

3.3 Valuation of investment in securities

3.3.1 Securities or money market instruments quoted or traded on an official stock exchange or any other regulated market, are valued at their latest available prices, or, in the event that there should be several such markets, on the basis of their latest available prices on the main market for the relevant asset.

3.3.2 For securities or money market instruments not quoted or traded on an official stock exchange or any other regulated market, and for quoted securities or money market instruments, if, in the opinion of the Board of Directors, the latest available price does not truly reflect the fair market value of the relevant asset, the value of such an asset will be defined by the Board of Directors based on the reasonably foreseeable sales proceeds determined prudently and in good faith by the Board of Directors.

3.3.3 The Net Asset Value per Share of any Sub-Fund of the Fund may be determined by using an amortised cost method for all investments with a known short term maturity date. This involves valuing an investment at its cost and thereafter assuming a constant amortisation to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the investments. While this method provides certainty in valuation, it may result in periods during which value, as determined by amortisation cost, is higher or lower than the price such Sub-Fund would receive if it sold the investment. The Board of Directors will continually assess this method of valuation and recommend changes, where necessary, to ensure that the relevant Sub-Fund's investments will be valued at their fair value as determined in good faith by the Board of Directors. If the Board of

Notes to the financial statements as at June 30, 2023 (cont.)

3. Principal accounting policies (cont.)

3.3 Valuation of investment in securities (cont.)

Directors believe that a deviation from the amortised cost per share may result in material dilution or other unfair results to shareholders, the Board of Directors shall take such corrective action, if any, as they deem appropriate to eliminate or reduce, to the extent reasonably practicable, the dilution or unfair results.

3.3.4 The relevant Sub-Fund shall, in principle, keep in its portfolio the investments determined by the amortisation cost method until their respective maturity date.

3.3.5 The liquidating value of futures, forward or options contracts not dealt in on Regulated Markets or on other regulated markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The liquidating value of futures, forward or options contracts dealt in on Regulated Markets or on other regulated markets shall be based upon the last available settlement prices of these contracts on Regulated Markets and other regulated markets on which the particular futures, forward or options contracts are dealt in by the Fund; provided that if a futures, forward or options contract could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable.

3.3.6 All other assets will be valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

3.3.7 The Board of Directors, in its discretion, may permit some other method of valuation to be used if it considers that such valuation better reflects the fair value of any asset of the Fund.

3.4 Valuation of swaps

3.4.1 Credit default swap

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party (the protection buyer) pays the other (the protection seller) a fixed periodic coupon for the specified life of the agreement in return for a payment contingent on a credit event related to the underlying reference obligation.

If a credit event occurs, the protection seller would be obligated to make a payment, which may be either: (i) a net cash settlement equal to the notional amount of the swap less the auction value of the reference obligation or (ii) the notional amount of the swap in exchange for the delivery of the reference obligation. Selling protection effectively adds leverage to a Sub-Fund's portfolio up to the notional amount of swap agreements.

The notional amount represents the maximum potential liability under a contract and is not reflected in the statement of net assets. Potential liabilities under these contracts may be reduced by: the auction rates of the underlying reference obligations; upfront payments received at the inception of a swap; and net amounts received from credit default swaps purchased with the identical reference obligation.

Credit default swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under "Unrealised appreciation/(depreciation) on swap contracts". Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading "Net realised gains/(losses) on swap contracts" and "Change in net unrealized appreciation/(depreciation) on swap contracts".

The accrued interests on credit default swap contracts are included in "interest receivable" and "interest payable" in the statement of net assets.

Notes to the financial statements as at June 30, 2023 (cont.)

3. Principal accounting policies (cont.)

3.4 Valuation of swaps (cont.)

3.4.1 Credit default swap (cont.)

The related interest income or expense is disclosed net of withholding tax in the statement of operations and changes in net assets.

3.5 Valuation of futures contracts

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or for a cash amount based on the change in the value of the underlying instrument at a specific date in the future. Upon entering into a futures contract, the Sub-Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by the Sub-Fund periodically and are based on changes in the market Value of open futures contracts.

The unrealised appreciation/ (depreciation) on futures contracts is disclosed in the statement of net assets under “Unrealised appreciation/ (depreciation) on futures contracts”. Changes in the market value of open futures contracts are recorded as unrealised appreciation/ (depreciation) in the statement of operations and changes in net assets under “Change in net unrealised appreciation/ (depreciation) on futures contracts”.

Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations and changes in net assets under “Net realized gain/ (loss) on futures contracts”. Securities deposited as initial margin are designated in the statement of investments and cash deposited is recorded in the statement of net assets. A receivable and/or a payable to brokers for the daily variation margin is also recorded in the statement of net assets.

3.6 Valuation of options contracts

A purchaser of a put option has the right, but not the obligation, to sell the underlying instrument at an agreed upon price (“strike price”) to the option seller. A purchaser of a call option has the right, but not the obligation, to purchase the underlying instrument at the strike price from the option seller.

Purchased Options – Premiums paid by the Sub-Fund for purchased options are included in the statement of net assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealised appreciation or depreciation. If the option is allowed to expire, the Fund will lose the entire premium it paid and will record a realised loss for the premium amount. Premiums paid for purchased options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss or cost basis of the security.

Written Options – Premiums received by the Sub-Fund for written options are included in the statement of net assets. The amount of the liability is adjusted daily to reflect the current market value of the written option and the change in market value is recorded as unrealised appreciation or depreciation. Premiums received from written options that expire are treated as realised gains for the premium account. The Sub-Fund records a realised gain or loss on written options based on whether the cost of the closing transaction exceeds the premium received. If a call option is exercised by the option buyer, the premium received by the Sub-Fund is added to the proceeds from the sale of the underlying security to the option buyer and compared to the cost of the closing transaction to determine whether there has been a realised gain or loss. If a put option is exercised by an option buyer, the premium received by the option seller reduces the cost basis of the purchased security.

Written uncovered call options expose the Sub-Fund to unlimited risk of loss. Written covered call options limit the upside potential of a security above the strike price. Written put options expose the Fund to risk of loss if the value of the security declines below the exercise price minus the put premium. The Sub-Fund is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Notes to the financial statements as at June 30, 2023 (cont.)

3. Principal accounting policies (cont.)

3.6 Valuation of options contracts (cont.)

Outstanding options traded on a regulated market are valued based on the closing price or the last available market price of the instruments. OTC options are marked to market based upon prices obtained from third party pricing agents and verified against the value from the counterparty. The market value of options is included in the statement of net assets under the heading "Options bought/ (written) at market value".

The realised gains/ (losses) and change in unrealised appreciation/ (depreciation) on options are disclosed in the statement of operations and changes in net assets respectively under the headings "Net realised gains/ (losses) on options contracts" and "Change in net unrealised appreciation/ (depreciation) on options contracts."

3.7 Valuation of forward foreign exchange contracts

Forward foreign exchange contracts represent obligations to purchase or sell foreign currency on a specified future date at a price fixed at the time the contracts are entered into. Non-deliverable forward foreign exchange contracts are settled with the counterparty in cash without the delivery of foreign currency. The values of the forward foreign exchange contracts are adjusted daily based on the applicable exchange rate of the underlying currency. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until the contract settlement date. When the forward contract is closed, the Sub-Fund records a realised gain or loss equal to the difference between the value at the time the contract was opened and the value at the time it was closed.

The unrealised appreciation/ (depreciation) on forward foreign exchange contracts is disclosed in the statement of net assets under "Unrealised appreciation/ (depreciation) on forward foreign exchange contracts". Realised gains/ (losses) and change in unrealised appreciation/ (depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under "Net realised gains/ (losses) on forward foreign exchange contracts" and "Change in net unrealised appreciation/ (depreciation) on forward foreign exchange contracts".

3.8 Net realised gains or losses resulting from sales of investments

The realised gains or losses resulting from the sales of investments are calculated on an identified cost basis.

3.9 Foreign exchange translation

The SICAV's financial statements are expressed in USD. Net assets of each sub-fund expressed in foreign currencies are therefore converted and combined in USD at the exchange rate in force at the close of the financial period.

The acquisition cost of securities expressed in a currency other than the reference currency is translated into the reference currency at the exchange rates prevailing on the date of purchase.

Income and expenses expressed in other currencies than the reference currency are converted at exchange rates ruling at the transaction date.

Assets and liabilities expressed in other currencies than the reference currency are converted at exchange rates ruling at the period-end. The realised gains and losses or unrealised appreciation and depreciations on foreign exchange translation are recognized in the Statement of Operations and Changes in Net Assets in determining the increase or decrease in net assets.

The following exchange rates (against USD) have been used to convert the investments and other assets and liabilities denominated in currencies other than USD for the Fund:

Currency	Current Account Period
AUD	1.5023
CAD	1.3233
CNH	7.2748

Notes to the financial statements as at June 30, 2023 (cont.)

3. Principal accounting policies (cont.)

3.9 Foreign exchange translation (cont.)

CNY	7.2641
EUR	0.9166
GBP	0.7866
HKD	7.8366
JPY	144.5350
KRW	1317.6500
NOK	10.7136

3.10 Dividend and interest income

Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a net basis before withholding tax, if any. Interest income is accrued on a daily basis.

3.11 Formation expenses

Formation expenses will be borne by the Sub-Fund which is initially launched. Further Sub-Fund will only bear the preliminary expenses relating to their own launching. The formation expenses of each new Sub-fund will be borne by such Sub-fund and may be amortised over a period of up to five years.

4. Management, Distributors and Performance fees

The SICAV pays for the various sub-funds and by classes of shares an annual management fee accrued on each valuation day as a percentage of the net assets and payable monthly in arrears. The management fee may be used to pay the Management Company for the portfolio management, the investment manager, any distributors and/or any permanent representatives in places of registration of the SICAV or any sub-fund.

As set out in the prospectus of the SICAV, the Investment Manager is entitled to receive from the net assets of certain sub-funds or classes, an annual performance fee equal to the difference between the performance of the net asset value per share over the performance period and the performance of the benchmark provided that the net asset value per share at the end of the performance period exceeds the historical highest net asset value per share at the end of any prior performance period since the launch date of the sub-fund.

The Management and performance fees were as follows:

Sub-funds	Investment management fees	Performance fee
Destination Value Total Return		
Class EUR D (acc)	0.00%	0.00%
Class EUR D (acc) Hedge	0.00%	0.00%
Class EUR I (acc)	0.75%	15.00%
Class EUR I (acc) Hedge	0.75%	15.00%
Class EUR I (dis) Hedge	0.75%	15.00%
Class EUR R (acc)	1.25%	15.00%
Class EUR S (acc)	1.75%	15.00%
Class EUR S (acc) Hedge	1.75%	15.00%
Class EUR S (dis)	1.75%	15.00%
Class EUR X (acc) Hedge	0.00%	0.00%
Class USD I (acc)	0.75%	15.00%

Notes to the financial statements as at June 30, 2023 (cont.)

4. Management, Distributors and Performance fees (cont.)

Sub-funds		Investment management fees	Performance fee
Destination Dynamic Income Total Return ¹	Class EUR A (dis)	0.50%	15.00%

¹ The Sub-Fund was launched on May 15, 2023.

For the period ended June 30, 2023 the performance fees charged per share class were:

Sub-funds	Share class	Base Currency	Amount in sub-funds currency	% of Net assets ²
Destination Value Total Return	Class EUR S (dis)	EUR	153	0.01%
Destination Dynamic Income Total Return ¹	Class EUR A (dis)	EUR	24,275	0.05%

¹The Sub-Fund was launched on 15 May 2023.

²Percentage of the amount in base currency / Total net asset value in base currency of the class as at period end.

5. Management company fee

The Management Company is entitled to receive an administrative fee for all its administrative activities at an annual rate of 0.08% of the net assets accrued on each valuation day and payable monthly in arrears.

6. Depositary and Central Administration fees

The Depositary and the Central Administration are entitled to receive fees out of the assets of the Fund in accordance with usual market practice. The fees payable to the Depositary and the Central Administration will not exceed 0.05% p.a. of the respective Sub-Fund's average net assets. The fees include the fees to be paid to the correspondents of the Depositary. Such fees are calculated and accrued on each Valuation Day and are payable quarterly in arrears.

7. Operating and administrative fees

The Fund bears all ordinary operating costs and expenses incurred in the operation of the Fund or any Sub-Fund or Share Class ("Operating and Administrative Expenses") including but not limited to costs and expenses incurred in connection with:

- professional advisory services (such as legal, tax, accounting, compliance, auditing and other advisory services) taken by the Fund or the Management Company on behalf of the Fund,
- initial and ongoing obligations relating to the registration and/or listing of the Fund, a Sub-fund or Share Class and the distribution of Shares in Luxembourg and abroad (such as fees charged by and expenses payable to financial regulators, correspondent banks, representatives, listing agent, paying agent and other agents and/or service providers appointed in this context, as well as advisory, legal and translation costs),
- preparing, producing, printing, depositing, publishing and/or distributing any documents relating to the Fund, a Sub-fund or Share Class that are required by applicable laws and regulation.

8. Taxation

Under current law and practice, the Fund is not liable for any Luxembourg income or net wealth tax nor are distributions, redemptions or payments made by the Fund to its shareholders under the Shares and distribution of liquidation proceeds subject to any Luxembourg withholding tax.

Notes to the financial statements as at June 30, 2023 (cont.)

8. Taxation (cont.)

The Fund is not liable for any Luxembourg tax other than a once and-for-all tax of EUR 1,200.– that was paid upon incorporation, a registration duty of EUR 75 if the Articles of Incorporation are amended and a subscription tax (taxe d'abonnement) of 0.05% per annum, such tax being payable quarterly and calculated on the aggregate net assets of the Fund valued at the end of the relevant calendar quarter. However, a reduced tax rate of 0.01% per annum is applicable where a Sub-Fund invests exclusively in money market instruments or deposits with credit institutions, or where the Class of Shares of the Sub-Fund are reserved to one or more institutional investors.

9. Net Asset Value adjustment ("Swing Pricing")

In certain circumstances, subscriptions, redemptions, and conversions in a Sub-fund may have a negative impact on the Net Asset Value per Share. Where subscriptions, redemptions, and/or conversions in a Sub-fund cause the Sub-fund to buy and/or sell underlying investments, the value of these investments may be affected by bid/offer spreads, trading costs and related expenses including transaction charges, brokerage fees, and taxes.

This investment activity may have a negative impact on the Net Asset Value per Share called "dilution". In order to protect existing or remaining investors from the potential effect of dilution, the Fund may apply a "swing pricing" methodology, which adjusts the Net Asset Value per Share to account for the aggregate costs of buying and/or selling underlying investments. The Fund may apply a so-called "swing pricing" methodology which adjusts the Net Asset Value per Share to account for the aggregate costs of buying and/or selling underlying investments.

The Net Asset Value per Share will be adjusted by a certain percentage set by the Board of Directors from time to time for each Sub-fund called the "Swing Factor". The Swing Factor represents the estimated bid-offer spread of the assets in which the Sub-fund invests and estimated tax, trading costs, and related expenses that may be incurred by the Sub-fund as a result of buying and/or selling underlying investments.

As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, the Swing Factor may be different for net subscriptions and net redemptions in a Sub-fund. Generally, the Swing Factor will not exceed two percent (2%) of the Net Asset Value per Share unless otherwise set out for each Sub-fund in its Supplement. A periodical review will be undertaken in order to verify the appropriateness of the Swing Factor in view of market conditions.

The Board of Directors will determine if a partial swing or full swing is adopted. If a partial swing is adopted, the Net Asset Value per Share will be adjusted upwards or downwards if net subscriptions or redemptions in a Sub-fund exceed a certain threshold set by the Board of Directors from time to time for each Sub-fund (the "Swing Threshold"). If a full swing is adopted, no Swing Threshold will apply.

The Swing Factor will have the following effect on subscriptions or redemptions:

- 1) on a Sub-fund experiencing levels of net subscriptions with respect to a Valuation Day (i.e. subscriptions are greater in value than redemptions) (in excess of the Swing Threshold, where applicable) the Net Asset Value per Share will be adjusted upwards by the Swing Factor; and
- 2) on a Sub-fund experiencing levels of net redemptions with respect to a Valuation Day (i.e. redemptions are greater in value than subscriptions) (in excess of the Swing Threshold, where applicable) the Net Asset Value per Share will be adjusted downwards by the Swing Factor.

The volatility of the Net Asset Value of the Sub-fund might not reflect the true portfolio performance (and therefore might deviate from the Sub-fund's benchmark, where applicable) as a consequence of the application of swing pricing. The Performance Fee, where applicable, will be charged on the basis of the unswung Net Asset Value of the Sub-fund.

No swing factor has been applied on the NAV of June 30, 2023 used for the financial statements.

Notes to the financial statements as at June 30, 2023 (cont.)

10. Income equalisation

For tax and accounting purposes, and to avoid any dilution in respect of Distribution Shares, the Fund uses an accounting practice known as equalisation, by which a portion of the Subscription Price or Redemption Price, equivalent on a per Share basis to the amount of undistributed earnings of the Share Class on the subscription day or redemption day, is credited or charged to undistributed earnings of such Share Class. As a result, undistributed earnings per Share are unaffected by subscriptions or redemptions of Shares on any subscription day or redemption day.

The equalisation values are included in the Subscriptions and Redemptions in the Statements of Operations and Changes in Net Assets.

11. Collateral

The table below provides the cash collateral received/paid held as at June 30, 2023. The cash collateral received/paid is included in the statement of net assets respectively under "Due to broker" and "Due from broker".

Plenisfer Investments SICAV	Sub-fund currency	Counterparty	Type of collateral	Collateral amount received (in sub-fund currency) ¹	Collateral amount paid (in sub-fund currency)
Destination Value Total Return	USD	Goldman Sachs	Cash	–	900,000
	USD	J.P. Morgan AG	Cash	–	1,700,000
	USD	Morgan Stanley	Cash	–	15,786
	USD	UBS AG	Cash	–	680,000
Destination Dynamic Income Total Return	EUR	Goldman Sachs	Cash	–	310,000
	EUR	J.P. Morgan AG	Cash	–	640,000
	EUR	Morgan Stanley	Cash	–	280,000

¹These collaterals are off balance sheet.

12. Dividend distributions

There were no distribution during the period.

13. Director fees

For the period ended June 30, 2023, there were no Director fees borne by the SICAV.

14. Subsequent events

There were no subsequent events.

Additional Information

Securities Financing Transactions (SFTR)

The Fund did not hold any total return swaps or enter in security financing transactions during the period ended June 30, 2023.

Global Exposure calculation method

The sub-fund Destination Value Total Return uses the absolute Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 20%.

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations
- Confidence level: 99%
- Holding period: 20 days
- Length of data history: At least 1 year

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 3.40%
- Highest utilisation: 5.85%
- Average utilisation: 4.39%

The average level of leverage calculated using the sum of notionals approach was 271.07%.

Global Exposure calculation method

The sub-fund Destination Dynamic Income Total Return uses the absolute Value at Risk (VaR) approach in order to monitor and measure the global exposure.

The limit was set at 20%.

The VaR figures have been calculated based on the following input data:

- Model used: Monte-Carlo Simulations
- Confidence level: 99%
- Holding period: 20 days
- Length of data history: At least 1 year

The utilisation of the VaR limits was as follows:

- Lowest utilisation: 0.36%
- Highest utilisation: 1.57%
- Average utilisation: 1.12%

The average level of leverage calculated using the sum of notionals approach was 57.82%.
