This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Green Bond

ISIN	LU0035744233	a sub-fund of Vontobel Fund
Share Class	A	This fund is managed by Vontobel Asset Management S.A., which is part of Vontobel Group.
Currency	EUR	This fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

This actively managed sub-fund has a sustainable investment objective which consists of investing in Green Bonds and aims to achieve attractive investment returns. It is categorized as Article 9 SFDR.

- While respecting the principle of risk diversification, the sub-fund invests at least 75% of its net assets in various fixed-income instruments classified as “Green Bonds” according to international standards such as the Green Bond Principles of the International Capital Market Association (ICMA), including up to 10% of its net assets in asset-backed and mortgage-backed securities (“ABS/ MBS”) and up to 25% in convertibles and warrant bonds issued by public and/or private borrowers. The sub-fund may also hold cash.
- **Type of approach:** The sub-fund invests in Green bonds, instruments where the proceeds will be applied to finance or refinance new and/or existing projects that are beneficial to the goals of climate change mitigation and protection of the environment (e.g. solar power, energy efficiency of industrial processes or promoting public transport). The sub-fund uses the benchmark Bloomberg MSCI Green Bond Index (EUR hedged) as universe. It also invests in sustainable and/or social bonds based on standards of the Sustainability Bond Guidelines or the Social Bond

Principles. In addition, it may invest in issuers that have sustainable investments as objectives such as energy efficiency, environmental protection, access to health care, through their products, services or technologies. **Threshold:** At least 90% of the securities in the sub-fund have the sustainability selection criteria applied to it. All investments qualifying as sustainable investments are screened against all significant harm indicators relevant to the economic sector. **Main methodological limits:** potential inconsistency, inaccuracy or lack of availability of ESG data issued by third party providers. **More details on the above can be found in the prospectus.**

- The sub-fund may use derivatives to achieve the investment objective and for hedging purposes.
- The sub-fund is managed with reference to a benchmark. The portfolio manager has full investment discretion within the predefined investment limits.
- Income may be paid out each year.
- Buying and selling securities entails transaction costs payable in addition to the charges listed.
- Redemption of shares: daily when banks in Luxembourg are open for normal business (see prospectus for details and exceptions).

Risk and reward profile

The indicator above does not signal the risk of a potential loss, but indicates the fluctuations in the sub-fund's share price in the past.

- The share class is assigned to this category because its share price can fluctuate moderately due to the investment policy applied.
- The historical data used to calculate the profile cannot be used as a reliable guide to the future risk profile of the sub-fund.
- The risk category shown is not guaranteed and may change.
- Even the lowest risk category is not entirely free of risk.

When assigning a sub-fund's share class to a risk category, it may be the case that not all risks are taken into account. Such risks include

risks in connection with exceptional market events, operational errors, legal and political events. You can find a detailed list of the risks in the "Notice regarding special risks" section in the general part of the sales prospectus. The following risks have no direct influence on this category, but may still be important:

- Securities with a lower credit quality means a higher risk that an issuer may fail to meet its obligations. The investment value may fall if an issuer's credit rating is downgraded.
- Using derivatives generally creates leverage and entails valuation risks and operational risks. Leverage magnifies gains but also losses. Over-the-counter derivatives involve corresponding counterparty risks.
- Asset-backed and mortgage-backed securities, and their underlying receivables are often intransparent. The sub-fund may also be subject to a higher credit and/or prepayment risk.
- The sub-fund also includes sustainability criteria in its investment process. This may mean that the sub-fund's performance is more positive or negative than a conventionally managed portfolio.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs for managing, marketing and distributing it. These charges reduce the return on your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry charge	5.00%

Past performance

The chart shows past performance based on full calendar years. One-off charges are not included when calculating performance.

- Past performance is not an indicator of current or future returns.
- The stated performance of the share class includes ongoing charges, but excludes one-off charges.
- Shares were first issued for this share class in 1991.
- **The investment policy was changed significantly as at 09.03.2021. The performance previously achieved was achieved under circumstances that are no longer valid today.**
- The sub-fund uses the benchmark Bloomberg MSCI Green Bond Index (EUR hedged).
- Past performance of the fund is shown in the currency of the share class (EUR).

The one-off charges shown are maximum figures. In some cases, you might pay less – you can find this out from your financial advisor.

The figure for ongoing charges is an estimate as insufficient data is available for this share class. This may be due to its recent launch or due to a change in its underlying fee rates. The fund's financial statements will include details on the cost calculations. It does not include:

- The fund's transaction costs except for those paid by the fund when buying or selling shares of other collective investment schemes.

You can find more information on costs in the "Fees and expenses" section of the general part of the sales prospectus, available at www.vontobel.com/AM.
