Source: Janus Henderson Investors, Staff and assets under management (AUM) data as at 31 December 2022. AUM data excludes Exchange-Traded Note ('ETN') assets.

#### Who we are

Janus Henderson Investors ('Janus Henderson') is a global asset manager offering a full suite of actively managed investment products across asset classes.

As a company, we believe the notion of 'connecting' is powerful – it has shaped our evolution and our world today. At Janus Henderson, we seek to benefit clients through the connections we make. Connections enable strong relationships based on trust and insight as well as the flow of ideas among our investment teams and our engagement with companies. These connections are central to our values, to what active management stands for and to the long-term outperformance we seek to deliver.

Our commitment to active management offers clients the opportunity to outperform passive strategies over the course of market cycles. Through times of both market calm and growing uncertainty, our managers apply their experience weighing risk versus reward potential – seeking to ensure clients are on the right side of change.

#### Why Janus Henderson Investors?

At Janus Henderson, we believe in linking our world-class investment teams and experienced global distribution professionals with our clients around the world.

#### Active because active matters

We selectively invest in what we believe are the most compelling opportunities. Our investment teams are free to form their own views and seek to actively position portfolios to connect clients with their financial goals.

#### Global strength to deliver local solutions

We offer true global reach with a presence in all major markets, combined with the responsiveness, tailored solutions and personal touch you would expect from a local partner.

#### Empowering clients through knowledge shared

We connect our clients with insights and knowledge that empower them to make better investment and business decisions.

## **Background of the Company**

Janus Henderson Capital Funds plc (the "Company") is an open ended investment company with variable capital incorporated in Ireland on 19 November 1998, under Registration No. 296610. Unless otherwise provided for in this report, all capitalised terms shall have the same meaning herein as in the prospectus of the Company dated 31 October 2022 (the "Prospectus").

The Company is authorised by the Central Bank of Ireland (the "Central Bank"), as an Undertaking for Collective Investment in Transferable Securities ("UCITS") under the European Communities UCITS Regulations 2011, as amended and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ("UCITS Regulations"). The Company has been structured as an umbrella fund with segregated liability between Funds so that separate Classes of Shares representing interests in different Funds may be authorised for issue from time to time by the Manager with the prior approval of the Central Bank. A separate portfolio of assets will be maintained for each Fund. The assets of each of the Funds will be invested in accordance with the investment objective and policies applicable to that Fund as disclosed in the relevant Supplement. The Company may issue multiple Classes in respect of each Fund upon prior approval of the Central Bank. A separate pool of assets shall not be maintained for each Class within the same Fund. Additional Funds may be established by the Manager with the prior approval of the Central Bank.

The Company has thirty five constituent sub-funds (individually a "Fund", collectively the "Funds") as follows:

## Sustainable Finance Disclosure Regulation and EU Taxonomy Regulation

The EU Sustainable Finance Disclosure Regulation ('SFDR') (Regulation (EU) 2019/2088) has applied since 10 March 2021. Pursuant to Article 11 of SFDR (Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports), the Manager is required to provide, with respect to each Article 8 Fund: prescribed information on the extent to which environmental or social characteristics are met.

The Janus Henderson Global Investment Grade Bond Fund and Janus Henderson Global Real Estate Equity Income Fund promotes environmental and social characteristics and are Article 8 Funds for the purpose of SFDR. Please refer to the Appendix for details on SFDR for each of these Funds.

## **Market Review (unaudited)**

#### Overview

Global equities, as measured by the MSCI World Index, fell by 17.7% in US dollar terms during the year to 31 December 2022. Soaring inflation, fuelled by rising commodity prices following Russia's invasion of Ukraine, prompted major central banks to tighten monetary policy aggressively, heightening fears of a global economic recession. COVID-19 lockdowns in China further pressured share prices, although positive earnings momentum and bouts of optimism that policy makers would slow the pace of interest rises provided some respite.

## Equities UK

The FTSE All Share Index edged up by 0.3% in sterling terms, on hopes of a slowdown in monetary tightening and some favourable corporate results. Concerns about a deep recession and investor alarm about government plans for unfunded tax cuts - most of which were scrapped - caused significant volatility. Investors largely welcomed the appointment of Rishi Sunak, who became the UK's third prime minister in 2022, following the resignations of Liz Truss and Boris Johnson. In December, the Bank of England (BoE) raised its base rate by 50 basis points (bps) to 3.5% - the ninth consecutive increase - and signalled further hikes in 2023. During the year, annual inflation doubled to 11.1% in October - a 41-year high - although it eased to 10.7% in November, with BoE Governor Andrew Bailey saying it had likely passed its peak. The economy contracted 0.3% over the third quarter, following secondquarter growth of 0.1%. Sterling fell heavily against the US dollar - it touched a record low in September amid the mini-budget tumult – although it regained some of the lost ground in the final months of the year as the US currency weakened.

#### Europe

The FTSE World Europe ex UK Index was down by 12.2% in euro terms, on concerns about an economic downturn, inflation and geopolitical uncertainty. Hopes that major central banks would turn less hawkish and some favourable corporate results provided some support. Eurozone annual inflation hit record highs, reaching 10.6% in October, although it slowed to 10.1% in November – the first decline in 17 months. The European Central Bank raised its deposit rate four times, from -0.5% to a 14-year high of 2.0% and indicated in December that it expected to tighten policy further in the new year. Eurozone GDP growth weakened to 0.3% over the third quarter, from 0.8% over the second quarter, while business confidence sank, highlighting concerns about a protracted slowdown in 2023. The euro strengthened against sterling and weakened against the US dollar during the year.

#### US

The S&P 500® Index dropped by 18.1% in US dollar terms, with its 20% first-half fall – fuelled by anxiety about inflation and the economy – the biggest for the period since 1970. Hopes of an easing of policy tightening helped limit the overall losses, as did some solid corporate results.

Annual inflation reached a more than 40-year high of 9.1% in June – up from 7.5% in January – although it declined in the following five months. In December, the US Federal Reserve (Fed) raised interest rates by 50bps to a 15-year high of 4.5% – a slowdown from the four consecutive 75bps hikes implemented before. However, it remained hawkish as it warned rates could stay higher for longer. The economy grew by an annualised 3.2% in the third quarter as it rebounded from a technical recession, and while it continued to add jobs, December's gain in non-farm payrolls was the smallest in two years. The US dollar strengthened significantly, with the Fed's aggressive rate hikes helping the currency hit a more than 20-year high in September, although it came under pressure towards year end.

#### Japar

The TOPIX declined by 2.5% in yen terms, on growing recessionary fears, with the index suffering its largest monthly decline in two-and-a-half years in September. Equities made gains in October and November as the global mood improved, while the Japanese government announced a new US\$200bn stimulus package. In December, an unexpected policy adjustment by the Bank of Japan (BoJ) unnerved the market, as investors speculated that it could represent the start of a shift away from its highly accommodative monetary policy stance. The annual core inflation rate, which excludes fresh food prices, rose to 3.7% in November – a more than 40-year high – from just 0.2% in January, having remained above the BoJ's 2% target since April. The economy shrank by an annualised 0.8% in the third quarter, following second-quarter growth of 4.5%. The yen slumped against the US dollar, reaching a more than 30-year low in early October, although it clawed back some of the losses towards year end.

#### Asia

The MSCI AC Asia Pacific ex Japan Index was lower by 17.2% in US dollar terms. Weakening local currencies and high inflation prompted central banks to tighten monetary policy across the region during the year. Chinese equities fell heavily due to extended COVID-19 lockdowns, a weakening economy and worries about heightened geopolitical tensions. Indonesian equities increased as a commodity-led export boom underpinned economic growth. Stocks slumped in South Korea and Taiwan as US interest rate rises and worries about the global economy weighed on sentiment. Similar worries unsettled investors in Australia.

#### **Emerging markets**

The MSCI Emerging Markets Index weakened 19.7% in US dollar terms, as economic worries and the US currency's safe-haven appeal reduced interest in riskier assets. Indian stocks moved downwards as the rupee hit record lows against the US currency. Economic optimism, as GDP continued to grow, boosted the Indian market during the year. Brazilian stocks rose for the same reason, although worries that Luiz Inacio Lula da Silva, who narrowly won October's presidential run-off vote, would breach spending limits pressured sentiment. South African equities fell as damaging floods, continued power cuts and the US dollar's

## Market Review (unaudited) (continued)

strength hurt returns. Turkish stocks surged higher, buoyed by strong investment flows from domestic investors keen to protect their money from soaring inflation, and despite the lira hitting record lows against the US dollar.

#### Fixed income and commodities

Within fixed income, the JPM Global Government Bond Index fell by 13.0% in US dollar terms. Yields on core government bond markets - including the US, UK, Germany and Japan - rose (prices fell, reflecting their inverse relationship) as most major central banks increased raised interest rates aggressively to bring inflation under control. The yield on US benchmark 10-year Treasuries ended December at almost 3.9%, up from about 1.5% at the start of the year. The two-year Treasury bond yield remained above that of 10-year notes from early July - a possible sign of an impending recession. The yield on 10-year Japanese government bonds also gained, hitting a more than sevenyear high in December as the BoJ announced its policy revision. Corporate credit markets were weak overall, although US corporate bond funds attracted more than US\$16bn of investor cash in November - the strongest level in more than two years - as sentiment improved.

In commodity markets, oil prices rose as the Ukraine conflict and supply tightness outweighed worries about an economic downturn and a stronger US dollar. US benchmark West Texas Intermediate ended the year up by about 7%. Uncertainty caused by Russia's invasion of Ukraine helped drive spot gold prices to a near record high in March, although they ended little changed overall as the strong US dollar weighed on demand for the precious metal. Copper prices hit an all-time high in early March, although they finished the year lower, as the prospect of a global recession threatened demand.

Index returns are sourced from Refinitiv Datastream and are presented in local currency total return terms unless otherwise stated. Past performance is not a guide to future performance.

## Report of the Directors

The Directors submit their report together with the audited financial statements for the financial year ended 31 December 2022.

#### **Connected Persons**

In accordance with the requirements of the UCITS Regulations, the Board of Directors (the "Board") confirms that there are arrangements (evidenced by written procedures) in place, to ensure:

- (i) that any transaction carried out with the Company by Janus Henderson Investors International Limited ("JHIIL"), the Depositary and/or associated or group companies of these ("connected persons") were carried out as if negotiated at arm's length and that such transactions were in the best interests of the shareholders; and
- (ii) that these arrangements were applied to all transactions with connected parties during the year. The Board is satisfied that transactions with connected persons entered into during the year were carried out as if negotiated at arm's length and were in the best interests of the shareholders.

Please refer to Note 3 "Related Party Transactions" for details of transactions with the Directors' during the financial year.

#### Directors' Responsibilities

The Directors are responsible for preparing the annual report and the financial statements in accordance with FRS 102 the Financial Reporting Standard applicable in the UK and Republic of Ireland issued by the Financial Reporting Council (FRC) ("FRS 102") and the UCITS Regulations 2011 as amended and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

Irish company law requires the Directors to prepare financial statements for each financial year which give a true and fair view of the assets, liabilities and financial position of the Company as at the end of the financial year, and profit or loss, for the financial year. In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and

 prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping adequate accounting records that are sufficient to correctly record and explain the transactions of the Company; enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and enable them to ensure that the financial statements comply with the Companies Act 2014 and the UCITS Regulations. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are also responsible for confirming so far as they are aware that there is no relevant audit information of which the Company's statutory auditors are unaware. The Directors have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.

Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to a trustee for safe-keeping. In carrying out this duty, the Company has delegated custody of the Company's assets to J.P Morgan Bank (Ireland) PLC Designated Activity Company.

The Directors are responsible for the maintenance and integrity of the corporate and financial information of the Company included on the website of Janus Henderson Investors (www.janushenderson.com). Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

#### Corporate Governance Statement

The Company has adopted the 'Corporate Governance Code for Collective Investment Schemes and Management Companies' issued by the Irish Funds Industry Association (the "IF Code") which can be obtained from the Irish Funds' website at www.irishfunds.ie. The Company is also subject to corporate governance practices imposed by:

- The Irish Companies Act 2014 which is available for inspection at the registered office of the Company; and may also be obtained at www.irishstatutebook.ie.
- The Articles of Association of the Company which are available for inspection at the registered office of the Company and at the Companies Registration Office in Ireland; and

## Report of the Directors (continued)

 The Central Bank of Ireland (the "Central Bank") in their UCITS Regulations which can be obtained from the Central Bank's website at: www.centralbank.ie and are available for inspection at the registered office of the Company.

The Company is subject to the Companies Act and the UCITS Regulations, as applicable to investment funds. The Company does not apply additional corporate governance requirements beyond those required by the above. Each of the service providers engaged by the Company is subject to its own corporate governance requirements.

#### **Directors' Compliance Statement**

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014. the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

## Financial Reporting Process – Description of Main Features

The Board is ultimately responsible for overseeing the establishment and maintenance of adequate internal control and risk management systems of the Company in relation to the financial reporting process. The Company has no employees and has delegated all functions, including the preparation of the financial statements, to Henderson Management S.A. (the "Manager") which has in turn delegated responsibility for certain functions to other parties as outlined herein. The Manager has appointed J.P Morgan Administration Services (Ireland) Limited (the "Administrator") as the Company's administrator. The Administrator has functional responsibility for the preparation of the Company's interim and annual financial statements and the maintenance of its accounting records. On appointing the Administrator, the Board and the Manager noted that it was regulated by the Central Bank and in the Board's and the Manager's opinion, had significant experience as an administrator. The Board and the Manager also noted the independence of the Administrator from the Company's investment adviser and the Manager. Subject to the supervision of the Manager and the overall supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and

not absolute assurance against material misstatement or loss.

The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board reviews the financial statements prior to their approval, though it should be noted that such review does not include verification of information in the financial statements to source documents. The annual financial statements are subject to independent audit by PricewaterhouseCoopers and the Board receives and considers a report from PricewaterhouseCoopers as to the audit process.

#### Risk Assessment

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and for ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board is advised by the Administrator as to changes in accounting rules and provides recommendations as to how these changes are best reflected in the Company's financial statements. The Board's appointment of an administrator independent of the investment adviser to the Company and which is regulated by Central Bank is intended to mitigate though not eliminate the risk of fraud or irregularities which may impact the financial statements of the Company.

#### Monitoring

The Board receives and reviews regular reporting from the Depositary, Investment Adviser and Administrator. The Board also has an annual process to ensure that appropriate measures are taken to consider and address any control weaknesses identified and measures recommended by the independent auditors.

#### Capital Structure

No individual person or individual company has a significant direct or indirect holding of securities in the Company. No individual person or individual company has any special rights of control over the Company's share capital. There are no restrictions on voting rights.

For the appointment and replacement of Directors, the Company is governed by its Articles of Association. The Articles of Association themselves may be amended by special resolution of the shareholders.

#### Composition and Operation of the Board of Directors Each of the Directors has entered into a letter of appointment with the Company.

All related party transactions during the financial year are detailed in Note 3 to the financial statements. The Articles of Association do not provide for retirement of Directors by rotation. However, the Directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Companies Act. The Board meets at least quarterly. There are no sub-committees of the Board.

## Report of the Directors (continued)

The Board is responsible for managing the overall business affairs of the Company. Under the Articles of Association, the Board has appointed the Depositary to act as depositary to the Company and has delegated certain of its powers, duties and functions to the Manager which has in turn delegated certain of its powers, duties and functions to the Administrator, the Transfer Agent, the Distributors, and the Investment Adviser.

#### **Shareholder Meetings**

The annual general meeting (the "AGM") of the Company will usually be held in Dublin as determined by the Directors, normally during the month of June. In any event it shall be held within six months of the Company's financial year-end as determined by the Directors. Notice convening the AGM in each year at which the audited financial statements of the Company will be presented (together with the Directors' and Independent Auditors' Reports of the Company) will be sent to Shareholders at their registered addresses with 21 clear days notice before the date fixed for the meeting. Other general meetings may be convened from time to time by the Directors in such manner as provided by Irish law and the Articles of Association.

Each of the Shares entitles the holder to attend and vote at meetings of the Company and of the Funds represented by those Shares. Matters may be determined by a meeting of Shareholders on a show of hands unless a poll is requested by at least five Shareholders present or by Shareholders present holding 10% or more of the Shares in issue having the right to vote at the meeting or unless the chairman of the meeting requests a poll. Each Shareholder has one vote on a show of hands. Each Share gives the holder one vote in relation to any matters relating to the Company which are submitted to Shareholders for a vote by poll.

No Class confers on the holder thereof any preferential or preemptive rights or any rights to participate in the profits and dividends of any other Class or any voting rights in relation to matters relating solely to any other Class.

The quorum for any general meeting shall be two shareholders present in person or by proxy save that where it is proposed to vary the rights attached to a particular class of Shares, unless otherwise provided, the quorum at such general meeting shall be two or more shareholders of that class present in person or by proxy together holding at least one-third of the Shares of that class.

Each of the Shares other than subscriber shares entitles the Shareholder to participate equally on a pro-rata basis in the dividends and net assets of the Fund in respect of which the Shares have been issued, save in the case of dividends declared prior to becoming a Shareholder.

#### **Accounting Records**

To ensure that adequate accounting records are kept in accordance with Section 281 to 285 of the Companies Act 2014, the Board has employed a service organisation, J.P. Morgan Administration Services (Ireland) Limited (the "Administrator"). The accounting records are kept at J.P.

Morgan Administration Services (Ireland) Limited, 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, Ireland.

#### **Principal Activities**

The Company is an investment company with variable capital incorporated under the laws of Ireland as a public limited company pursuant to the Companies Act 2014, and the UCITS Regulations. The Company is an umbrella fund with segregated liability between Funds.

# Review of the Development of the Business and Future Developments

The business of the Company is reviewed in detail in the Investment Adviser's Fund Overviews. The performance of the various Classes on offer is detailed in the Fund Performance section. Details of changes to the Prospectus and changes to various Funds and share classes are detailed in the Other Relevant Information section to the Background of the Company and in the Significant Events During the Financial Year section (See Note 17). The Company intends to continue promoting and generating interest in its business in the future.

During the year, the Company has entered into a securities lending programme. Please refer to note 7 of the financial statements for further details. Please refer to note 1 of the financial statements for details of Fund closures during the year.

#### Risk Management Objectives and Policies

Details of the risks applicable to an investment in the Company are listed in Note 14 Financial Instruments and Financial Derivative Instruments, including market price risk, foreign currency risk, interest rate risk, liquidity risk and credit risk. In order to manage such risks, the Company shall comply with the investment restrictions and diversification limits provided for in the Prospectus and the UCITS Regulations.

#### Results and Dividends

The results for the financial year and particulars relating to distributions are stated in the Statement of Comprehensive Income included in the individual Fund's section of the financial statements. Particulars relating to the issue and redemption of Shares are set out in the Capital Share Transactions section of the financial statements located in the individual fund sections.

#### **Audit Committee**

The Company has decided that there is no requirement to form an audit committee as there are two independent Directors on the Board. The activities of the company have been delegated to a number of service providers and there is a robust due diligence procedure in place for these service providers.

#### Geopolitical risks/outlook

Janus Henderson continues to monitor the Russia/Ukraine conflict very closely and has established processes incorporated in the business as usual activities to be

## Report of the Directors (continued)

able to respond timely to changes. Prior to the Russia/ Ukraine conflict, inflation and geopolitics were critical challenges to the global economy. However, the conflict, and related supply chain disruptions, have since turned inflation into a bigger geopolitical risk. Janus Henderson have well established and tested business continuity and crisis management processes in place, which cover a large number of disruptive scenarios, including cyber threats and market events. Janus Henderson incorporates modelling potential scenarios to inform our investment decisions, as we continue to monitor the ongoing situation.

#### Significant Events During the Financial Year

Please refer to Note 17 for details of significant events during the financial year.

#### Significant Events Since Financial Year End

Please refer to Note 18 for details of significant events since the financial year end.

#### **Directors**

The names of the persons who were Directors at any time during the financial year ended 31 December 2022 are listed below.

Carl O'Sullivan (Ireland)\*

Ian Dyble (UK)

Jane Challice (UK)

Matteo Candolfini (Luxembourg)

Peter Sandvs (Ireland)\*

\*Independent Director

#### Directors' and Company Secretary's Interests

None of the Directors or the Company Secretary, at the date of this report, holds or held, on the date of his/her appointment or at 31 December 2022, or 31 December 2021 any beneficial interest in the Shares of the Company.

#### **Independent Auditors**

The auditors, PricewaterhouseCoopers, will continue in office in accordance with Section 383 of the Companies Act 2014.

On behalf of the Board:

Carl O'Sullivan

Director

## Report from the Depositary to the Shareholders

We, J.P. Morgan SE - Dublin Branch, appointed Depositary to Janus Henderson Capital Funds plc ("the Company") provide this report solely in favour of the Shareholders of the Company from 1 January 2022 to 31 December 2022 ("the Accounting Period").

This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ("the Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or to any other person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the Regulations, we have enquired into the conduct of the Company for the Accounting Period and we hereby report thereon to the Shareholders of the Company as follows; We are of the opinion that the Company has been managed during the Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documents and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documents and the Regulations.

### Independent auditors' report to the members of Janus Henderson Capital Funds plc

#### Report on the audit of the financial statements

#### **Opinion**

In our opinion, Janus Henderson Capital Funds plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2022 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report & Accounts, which comprise:

- the Statement of Financial Position of the Combined Company and each of its Funds as at 31 December 2022;
- the Statement of Comprehensive Income of the Combined Company and each of its Funds for the year then
  ended;
- the Statement of Changes in Net Assets Attributable to Redeemable Ordinary Shareholders for the Combined Company and each of its Funds for the year then ended;
- the Portfolio Investments for each of the Funds as at 31 December 2022; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

#### Emphasis of matter - financial statements prepared on a basis other than going concern

In forming our opinion on the financial statements, which is not modified, we draw attention to note 1 to the financial statements which describes the reasons why the financial statements of Janus Henderson Global Adaptive Capital Preservation Fund and Janus Henderson Intech US Core Fund have been prepared on a basis other than going concern.

#### Conclusions relating to going concern

With the exception of Janus Henderson Global Adaptive Capital Preservation Fund and Janus Henderson Intech US Core Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

With the exception of Janus Henderson Global Adaptive Capital Preservation Fund and Janus Henderson Intech US Core Fund where a basis of accounting other than going concern has been adopted as set out in the Emphasis of matter - financial statements prepared on a basis other than going concern above, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

#### Reporting on other information

The other information comprises all of the information in the Annual Report & Accounts other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Report of the Directors, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Report of
  the Directors for the year ended 31 December 2022 is consistent with the financial statements and has been
  prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Report of the Directors.

#### Responsibilities for the financial statements and the audit

#### Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities set out on page 8, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics.

In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsibilities for audit.pdf.

This description forms part of our auditors' report.

#### Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

#### Other required reporting

#### Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

#### Companies Act 2014 exception reporting

#### Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Declan Murphy

## Janus Henderson Balanced Fund

## **Fund Overview (unaudited) Investment Objective and Policy**

The Fund aims to provide a return, from a combination of capital growth and income, while seeking to limit losses to capital (although not guaranteed).

Performance target: To outperform the `Balanced' Index (55% S&P 500® + 45% Bloomberg US Aggregate Bond) by 1.5% per annum, before the deduction of charges, over any 5 year period.

The Fund invests between 35%-65% of its assets in the shares (equities) of mainly US companies, and between 35%-65% of its assets in bonds of any quality, including up to 35% in high yield (non-investment grade) bonds and loans (non-investment grade) issued mainly by US companies or the US government.

The Fund is actively managed with reference to the 'Balanced' Index (55% S&P 500® + 45% Bloomberg US Aggregate Bond), which is broadly representative of the companies and bonds in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to choose individual investments for the Fund.

#### **Fund Overview**

Jeremiah Buckley, Greg Wilensky and Michael Keough, portfolio managers

For the year ended 31 December 2022, the Janus Henderson Balanced Fund H2 US dollar terms returned -16.76% (Net) and -16.04% (Gross) compared with -15.52% and -14.26% Target (Gross) for its benchmark, the Balanced Index, an internally calculated benchmark that combines the total returns from the S&P 500® Index (55%) and the Bloomberg US Aggregate Bond Index (45%). Over the year, the S&P 500® Index returned -18.11%, and the Bloomberg US Aggregate Bond Index returned -13.01%.

We started the year with a generally positive outlook for equities. However, persistently high inflation and the US Federal Reserve's (Fed) aggressive response to taming it led us to shift to a more neutral asset allocation stance. We steadily reduced equity exposure from near its 65% mandated maximum at the beginning of the year to approximately 52% by the end of the third quarter. Toward year end, moderating interest rates and marginal improvements in the inflation picture shifted the risk/reward trade-off between equities and fixed income, and we ended December with our equity exposure at roughly 56%, our fixed income exposure at 43%, and a small portion in cash. Despite the late-period increase in our equity exposure, ongoing uncertainty and market volatility led us to reduce the level of valuation risk in the equity allocation throughout the year by focusing on nearer-term cash flows and companies with higher current earnings and dividend yields.

The equity allocation outperformed the S&P 500® Index. Holdings in the consumer discretionary and industrial sectors were among the top contributors. Agricultural equipment manufacturer Deere and Co. aided relative returns, reporting strong volumes with a solid outlook for its 2023 order book. Additionally, farmers, who represent a significant customer base, continued to benefit from elevated agricultural commodity prices. Some of our holdings in healthcare also contributed to relative performance, as the more defensive sector held up better than the market during the volatile period. Largecap pharmaceutical company Eli Lilly had continued success with its product portfolio and pipeline, including treatments for diabetes and a new therapy for obesity that demonstrated efficacy in clinical trials.

Our underweight to the strong-performing energy sector was a primary detractor, as was our positioning in information technology. Semiconductor equipment manufacturer Lam Research suffered as fears of a broader economic slowdown hurt overall expectations for semiconductor capital equipment expenditure. As a result of these lowered assumptions, particularly in the memory segment of the market, estimates for Lam's business declined over the year. Adobe also weighed on relative results. Our concerns around the company's valuation led us to reduce the position throughout the year. The evolving competitive landscape, potential end-market weakness, and Adobe's roughly \$20 billion acquisition of Figma led us to exit the name by year end.

The fixed income allocation outperformed the Bloomberg US Aggregate Bond Index. The Fund's overall interest rate risk positioning contributed to relative performance. Treasury rates rode the proverbial roller coaster during the year, and we actively managed duration amid the volatility. We ended the year marginally short duration versus the benchmark, and we reduced our Treasury curve-flattening position, as the spread between two-year and 10-year Treasuries inverted to -0.55%. The Fund's overall interest rate positioning focused on balancing the opposing forces of high inflation and a hawkish Fed with the growing likelihood of a recession.

As the year progressed and the possibility of an economic slowdown increased, we continued to improve the overall credit quality of the Fund. While we reduced our out-ofindex exposure to corporate high-yield bonds to cycle lows, the sector detracted on an asset allocation basis. Security selection within investment-grade corporates further detracted, particularly within the Fund's financials holdings. Despite relative underperformance, we continue to prefer financials over industrials within investment-grade corporates, given financials have underperformed and are now trading wide of industrials and wide of their historical spread relationship. Security selection within the Fund's mortgage-backed securities (MBS) contributed.

## Fund Overview (unaudited) (continued)

As we reduced our exposure to corporates, we added to our overweight to securitized sectors, particularly within MBS, as we believed spreads on securitized assets had widened to levels that better reflected the risk of an economic slowdown or recession. In contrast, corporate spreads continued to trade near their long-term averages, and, in our opinion, have priced in either a low probability of recession, or an extremely shallow recession.

As always, we continue to dynamically adjust each of the equity and fixed income allocations, as well as the Fund's overall mix between equities and fixed income, as we analyze the risks and opportunities in each market.

Thank you for investing in Janus Henderson Balanced Fund.

January 2023

#### **Statement of Financial Position**

	As of 31 December 2022 (USD)	As of 31 December 2021 (USD)
Assets:		
Financial assets at fair value through profit or loss	7,146,142,949	8,615,155,931
Cash and foreign currency	48,061,571	68,584,742
Collateral cash	5,810,000	-
Receivables:		
Investments sold	5,858,668	147,124,719
Funds shares sold	9,031,453	58,143,441

	Five years 31/12/2017 31/12/2022 %			
H2 USD (Gross) Balanced Index (55%S&P500®/45% BBUSAgg) + 1.50%	6.97 7.08			

Discrete performance	31/12/2021 31/12/2022 %	31/12/2020 31/12/2021 %	31/12/2019 31/12/2020 %	31/12/2018 31/12/2019 %	31/12/2017 31/12/2018 %
H2 USD (Net)	(16.76)	16.64	12.60*	20.08*	(0.95)*
Balanced Index (55%S&P500®/45% BBUSAgg)	(15.52)	14.32	14.20	21.03	(2.12)
H2 USD (Gross) Balanced Index (55%S&P500®/45%	(16.04)	17.66	14.74*	22.36*	0.96*
BBUSAgg) + 1.50%	(14.26)	16.04	15.92	22.85	(0.64)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the 'Balanced' Index (55% S&P 500® + 45% Bloomberg US Aggregate Bond) by 1.5% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

Class I2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Bloomberg 1 month US Treasury bill Index by 1% per annum, before the deduction of charges, over any 5 year period.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

## Janus Henderson Global Adaptive Multi-Asset Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a total return, from a combination of capital growth and income over the long term.

Performance target: To outperform the composite benchmark comprising 60% MSCI All Country World Index NR + 40% Bloomberg Global Aggregate Bond Index by 1% per annum, before the deduction of charges, over any 5 year period.

The Fund invests in a globally diverse portfolio of company shares (also known as equities) and equity-related investments, bonds of any type, commodities (such as gold, oil and agricultural produce), cash and money market instruments. The Fund may gain its exposure to these assets either directly, via other funds (collective investment schemes, including exchange traded funds) and investment trusts/companies, or by using derivatives (complex financial instruments). The investment manager has flexibility to shift allocations between different asset classes and may invest up to 100% of its assets in any of these classes, depending on prevailing market conditions. The Fund has no specific geographical or industrial focus and may invest in developing countries.

The investment manager may use derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the 60% MSCI All Country World Index NR + 40% Bloomberg Global Aggregate Bond Index, which is broadly representative of the assets in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to choose individual investments for the Fund

#### **Fund Overview**

#### Ashwin Alankar, portfolio manger

For the year ended 31 December 2022, the Janus Henderson Global Adaptive Multi-Asset Fund's Class H2 US dollar terms returned -8.09% (Net) and -7.22% (Gross), compared with -17.33% and -16.51% Target (Gross) for its benchmark, an internally calculated index comprised of 60% MSCI All Country World Index and 40% Bloomberg Global Aggregate Bond Index.

Global financial markets lost considerable ground in 2022. The driving force was an acceleration of inflation that had initially been dismissed as "transitory." Once it became apparent that inflation was reaching levels that could severely impact consumers' purchasing power, monetary authorities were forced to pivot toward a hawkish stance by aggressively raising interest rates. The scale of rate hikes hit

both bonds and equities, with the former reacting directly to monetary action and the latter pricing in both a slowing economy and higher discount rates' impact on stock valuations.

The key capital market tensions heading into 2023 are between "inflation has peaked" and "inflation is sticky" as well as "soft recession" versus "deep recession." The prevailing consensus among economists with respect to inflation is that it should ease. As for economic growth and the potential for a recession, the consensus is quite pessimistic. For example, economists' expected range on the most recent (November) year-on-year estimate for the U.S. Personal Consumption Expenditure Price Index was 30 basis points (bps), with a low estimate of 5.4% and a high of 5.7%. This dispersion is very tight. On the other hand, the most recent forecasts for third-quarter U.S. gross domestic product show a range of 200bps, from a low of 1.6% to a high of 3.6%. The dispersion between these estimates is quite wide.

When viewed through the lens of the options market, however, these outlooks contrast with the prevailing consensus. While economists are mixed on whether a soft or deep recession will come to pass, the options market is confident that a soft recession with minimal economic impact will occur. At the same time, the options market is pricing in a near average tail-Sharpe ratio for global Treasuries, at 0.99. This is a far from sanguine view on Treasuries risk, suggesting inflationary risk that the tight consensus among economists does not reflect.

If worst-case outcomes are already priced in by markets or if a possible recession is much shallower than expected (or avoided altogether), a global equity bull market could unfold. On the other hand, the options market's elevated pricing of downside to global Treasuries cannot be ignored. History tells a story of sticky inflation not to be ignored. Continued wage pressures would likely fuel the wage-price spiral and "cost-push" inflation, while potential China factory closures as COVID-19 infections keep sick workers at home as well as any flareup of geopolitical risk could fuel supply shortages and "demand-pull" inflation. These developments would weigh on growth, casting doubt on the equity bull scenario.

Thank you for investing in Janus Henderson Global Adaptive Multi-Asset Fund.

January 2023

Agg + 1.00%	(16.51)	9.86	15.19	19.74	(5.05)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the 60% MSCI All Country World Index NR + 40% Bloomberg Global Aggregate Bond Index by 1% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

### Janus Henderson Global Life Sciences Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the MSCI World Health Care NR Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% in shares (also known as equities) of companies, of any size, with a life sciences orientation, in any country.

The Fund is actively managed with reference to the MSCI World Health Care NR Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose individual investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

#### Andy Acker, portfolio manager

For the year ended 31 December 2022, the Janus Henderson Global Life Sciences Fund H2 US dollar terms returned -2.89% (Net) and -2.05% (Gross), outperforming its primary benchmark, the MSCI World Health Care Index, which delivered -5.41% and -3.53% Target (Gross).

An overweight to biotechnology, as well as stock selection within the subsector, contributed most to the Fund's performance. Conversely, positioning in health care supplies weighed on returns.

Looking at individual holdings, Sarepta Therapeutics was the largest contributor. During the year, the company announced it had filed for accelerated approval for SRP-9001, a gene therapy for Duchenne muscular dystrophy (DMD). The move was earlier than expected while the drug could transform patient lives: DMD is a fatal, hereditary muscle-wasting disease that affects tens of thousands of children. Sarepta has presented integrated data from several clinical trials of SRP-9001, showing a clinically meaningful benefit with a favorable safety profile. In addition, the firm is conducting studies for an improved version of an alternative DMD program known as exon skipping, which could prove complementary to the gene therapy approach.

Global Blood Therapeutics was another top contributor. The stock climbed after Pfizer announced it would acquire the firm for \$5.4 billion, a more than 100% premium to the unaffected stock price (the share price of a target company prior to an announced deal). Global Blood markets Oxbryta for the treatment of sickle cell disease, a devastating genetic condition that affects roughly 100,000 people in the U.S. Oxbryta sales have accelerated, with the drug recently expanded to the pediatric population and approved for use

in Europe and the UK. The company is also developing GBT-601, a follow-on to Oxbryta with greater than tenfold potency. Janus Henderson was a top holder in Global Blood before the acquisition.

Other holdings weighed on performance, including Align Technology. The stock came under pressure as part of a broader pullback in medical equipment and technology shares, as these companies had seen a slower-than-expected recovery in demand after the pandemic. Align, a dental products maker, reported that inflation, supply constraints, and ongoing COVID outbreaks weighed on sales of Invisalign, the company's alternative to metal braces. Even so, Invisalign has captured just a small percentage of the global market among teenagers. Meanwhile, iTero, a scanner that digitally models the structure of teeth and gums, has started to roll out in new markets and add-ons such as servicing have ramped up.

An underweight to Johnson & Johnson also weighed on performance. This traditionally low-volatility stock outperformed amid the market's risk-off environment. Investors also favored Johnson & Johnson's robust balance sheet and strong near-term free cash flow. These qualities were appealing, but the Fund remained underweight the stock in favor of potentially higher, long-term growth opportunities in the pharmaceutical industry.

Thank you for investing in Janus Henderson Global Life Sciences Fund.

<sup>&</sup>lt;sup>1</sup>At 31 December 2022 the administrator used a systematic fair valuation model provided by an independent third party to value listed securities in order to adjust for stale pricing between the close of foreign exchanges and the valuation point. This resulted in an increase of USD 574,514 to common stock with a fair value of USD 516,395,534.

There were transfers on Common Stock from level 3 to level 2 and level 1 to level 2 during the financial year ended 31 December 2022 and on Common Stock from level 3 to level 2 and level 2 to level 1 during the financial year ended 31 December 2021.

Valuation policy of private placements is referenced in note 1 of the financial statements.

The following tables present level 3 positions that were fair valued by the Janus Henderson USPC at 31 December 2022 and 31 December 2021.

	Fair Value at		
	31 December 2022	Fair Value as a %

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the MSCI World Health Care NR Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

### Janus Henderson Global Research Fund

### **Fund Overview (unaudited) Investment Objective and Policy**

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the MSCI World Index NR by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in shares (also known as equities) of mainly larger companies, in any industry, in any country.

The Fund is actively managed with reference to the MSCI World Index NR, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose individual investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index. The investment manager will seek to maintain the portfolio with sector weightings close to those of the index.

#### **Fund Overview**

Janus Henderson Central Research Team, portfolio managers

For the year ended 31 December 2022, the Janus Global Research Fund Class H2 US dollar terms returned -19.71% (Net) and -18.87% (Gross), compared with -18.14% and -16.51% Target (Gross) for its benchmark, the MSCI World Index.

On an individual stock basis, the top detractors among individual holdings included semiconductor equipment supplier ASML Holding and graphics chipmaker Nvidia. These stocks faced headwinds due to fears of an industrywide decline in semiconductor sales in 2023. New U.S. government restrictions on the export of high-end data center chips to China also pressured Nvidia's shares. While we reduced our positions in these stocks due to nearterm business headwinds, we remained invested in these businesses given strong management teams while both were well positioned in their markets.

Entertainment streaming company Netflix was another detractor. Netflix's stock declined in the first quarter on concerns over slowing subscriber growth, which in part reflected a delay in local language content spending in Eastern Europe and Southeast Asia. The company also issued weak guidance. Given our concerns over the company's subscriber growth trends, we liquidated our position in Netflix and reallocated assets from the sale into what we believed were more compelling investment ideas.

On a positive note, several investments benefited from a sharp rise in commodity prices in the aftermath of Russia's invasion of Ukraine. Oil refiner Marathon Petroleum reported strong profits and revenue growth that exceeded

analyst estimates, supported by tight refining capacity and strong demand for oil products. Marathon Petroleum also demonstrated a commitment to enhancing shareholder value through its share repurchase program. Oil producer ConocoPhillips, another contributor, reported strong financial results aided by favorable pricing. Like Marathon Petroleum, it continued to return cash to shareholders.

Higher commodity prices provided an earnings tailwind for Canada-based Teck Resources, a cost-disciplined producer of steelmaking coal, copper, and zinc. Teck Resources also shifted more of its operations to sustainable metals, such as copper, that are essential to the green energy transition.

Thank you for investing in the Janus Henderson Global Research Fund.

January 2023

#### **Fair Value Hierarchy**

The tables below provide the fair value hierarchy summary of the Fund's financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021.

	31 December 2022					
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)		
Common Stock	1,064,497	360,560 <sup>1</sup>	-	1,425,057		
Forward Currency Contracts	_	21,164	_	21,164		
Preferred Stock	_	12,479 <sup>1</sup>	_	12,479		
Total Investments in Securities	1,064,497	394,203	_	1,458,700		

	31 December 2021				
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)	
Common Stock	84,311,540	_	_	84,311,540	
Forward Currency Contracts	_	15,555	-	15,555	
Government Obligations	_	200,000	_	200,000	
Total Investments in Securities	84,311,540	215,555	=	84,527,095	

<sup>&</sup>lt;sup>1</sup>At 31 December 2022 the administrator used a systematic fair valuation model provided by an independent third party to value listed securities in order to adjust for stale pricing between the close of foreign exchanges and the valuation point. This resulted in an increase of USD 249 to common stock with a fair value of USD 360,560 and increase of USD 4 to preferred stock with a fair value of USD 12,479.

There were transfers on Common Stock from level 1 to level 2 during the financial year ended 31 December 2022 and on Common Stock from level 2 to level 1 during the financial year ended 31 December 2021.

There were no investments held by the Fund at 31 December 2022 and 31 December 2021 that were fair valued at level 3 by the Janus Henderson USPC.

Valuation policy of private placements is referenced in note 1 of the financial statements.

This fund distributes annually.

#### **Fund Performance (unaudited)**

#### As at 31 December 2022

Performance (Annualised)	One year 31/12/2021 31/12/2022 %	Three years 31/12/2019 31/12/2022 %	Five years 31/12/2017 31/12/2022 %	Since inception to 31/12/2022 %
H2 USD (Net)	(19.71)	2.74*	4.43*	5.00*
MSCI World NR	(18.14)	4.94	6.14	5.99
H2 USD (Gross) MSCI World NR + 2.00%	Five years 31/12/2017 31/12/2022 % 6.97 8.26			

Discrete performance	31/12/2021	31/12/2020	31/12/2019	31/12/2018	31/12/2017
	31/12/2022	31/12/2021	31/12/2020	31/12/2019	31/12/2018
	%	%	%	%	%
H2 USD (Net)	(19.71)	17.72	17.78*	25.44*	(8.70)*
MSCI World NR	(18.14)	21.82	15.90	27.67	(8.71)
H2 USD (Gross)	(18.87)	18.96	20.73*	28.57*	(6.41)*
MSCI World NR + 2.00%	(16.51)	24.25	18.23	30.22	(6.88)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the MSCI World Index NR by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

The accompanying notes are an integral part of the financial statements.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

### Janus Henderson Global Technology and Innovation **Fund**

#### **Fund Overview (unaudited) Investment Objective and Policy**

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the MSCI All Country World Index Technology Index NR by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a concentrated portfolio of shares (also known as equities) of companies, of any size, which are technology-related or derive profits from technology, in any country.

The Fund is actively managed with reference to the MSCI All Country World Index Technology Index NR, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose individual investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index

#### **Fund Overview**

Denny Fish and Jonathan Cofsky\*, portfolio managers

For the year ended 31 December 2022, the Janus Henderson Global Technology and Innovation Fund Class H2 in US dollar terms returned -37.25% (Net) and -36.68% (Gross), compared with -31.07% and -29.70% Target (Gross) for its benchmark, the MSCI ACWI Technology Index.

During the year, macro drivers buffeted the sector as investors assessed headwinds including inflation, rising rates, a potentially slowing economy, and what these mean for corporate fundamentals and stock prices. Many of the stocks aligned with the secular themes we favor remained under pressure as rising rates reduced the future value of their cash flows. Also, cyclical-growth technology stocks - another segment that we believed had the potential to deliver attractive risk-adjusted returns - were held down by the possibility of a weakening economy.

A leading detractor was Amazon.com. The size of the company made vulnerability to the economic cycle unavoidable. Aggravating the situation was the wave of investment undertaken during the pandemic. Its current round of investment, in our view, exceeded what marketplace conditions would merit, especially as the economy entered a downturn.

Another detractor affected by the slowing economy was Atlassian. The company provides project management tools for software developers, and the expectation of additional technology staff layoffs forced management to reduce forward guidance. Other headwinds for the company were

\*Effective 1 March 2022 Jonathan Cofsky also manages this Fund.

its European exposure and the impact of its transition to the cloud on revenue recognition.

A leading relative contributor was real estate information and analytics provider CoStar. The stock had been pressured by investor trepidation toward the company's initiative into the residential space. Consensus has since grown more comfortable with management's ability to develop this business.

A relative contributor within the semiconductor capital equipment space was KLA. The stock rebounded from previous weakness as investors sought exposure to the capital equipment required to fabricate the chips used across a range of industrial and consumer applications.

We expect macro developments to remain a factor until greater visibility emerges on the future path of inflation and its effect on interest rates. A higher cost of capital is a headwind for cyclically exposed technology companies, as it restrains both big-ticket corporate investments and aggregate consumption across the economy.

A softening economy can be regenerative, as it exposes weaker businesses and creates the conditions for competitively advantaged companies to emerge on the other side in an even stronger position. We expect this dynamic to play out in internet-related ecosystems as higher-quality platforms expand their reach by proving their services' value to customers.

Another area where a slowing economy could represent opportunity is cloud computing. Also, semiconductor companies tend to price in an eventual recovery relatively early as investors anticipate a recovery in demand.

Digital advertising may not enjoy the same fate. While we expect a flagging economy to weigh on corporate advertising budgets in the near term, major online ad platforms also face structural privacy-related issues.

Thank you for investing in Janus Henderson Global Technology and Innovation Fund.

January 2023

#### Fair Value Hierarchy

The tables below provide the fair value hierarchy summary of the Fund's financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021.

	31 December 2022								
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)					
Common Stock	244,898,901	32,385,7581	2,449,594	279,734,253					
Forward Currency Contracts	_	2,261,106	_	2,261,106					
Government Obligations		5,000,000	_	5,000,000					
Total Investments in Securities	244,898,901	39,646,864	2,449,594	286,995,359					

	31 December 2021								
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)					
Common Stock	514,537,320	1,741,566 <sup>2</sup>	2,486,936	518,765,822					
Forward Currency Contracts	_	2,336,655	-	2,336,655					
Government Obligations	_	8,100,008	_	8,100,008					
Total Investments in Securities	514,537,320	12,178,229	2,486,936	529,202,485					

<sup>&</sup>lt;sup>1</sup>At 31 December 2022 the administrator used a systematic fair valuation model provided by an independent third party to value listed securities in order to adjust for stale pricing between the close of foreign exchanges and the valuation point. This resulted in an increase of USD 85,713 to common stock with a fair value of USD 32,385,758.

There were transfers on Common Stock from level 1 to level 2 during the financial year ended 31 December 2022 and on Common Stock from level 2 to level 1 and level 3 to level 1 during the financial year ended 31 December 2021.

Valuation policy of private placements is referenced in note 1 of the financial statements.

The following tables present level 3 positions that were fair valued by the Janus Henderson USPC at 31 December 2022 and 31 December 2021.

Security Name	Fair Value at 31 December 2022 (USD)	Fair Value as a % of Net Assets	Valuation Method
Via Transportation, Inc., Private Placement	1,816,273	0.63%	Market Comparable Model
Via Transportation, Inc., Private Placement	372,365	0.13%	Market Comparable Model
Via Transportation, Inc., Private Placement	260,956	0.09%	Market Comparable Model
Total	2,449,594		
	Fair Value at 31 December 2021	Fair Value as a %	
Security Name	(USD)	of Net Assets	Valuation Method
Via Transportation, Inc., Private Placement	1,872,551	0.35%	Valued at cost
Via Transportation, Inc., Private Placement	614,385	0.11%	Valued at cost
Total	2,486,936		

<sup>&</sup>lt;sup>2</sup>At 31 December 2021, Investments with a fair value of USD 6,694 had a liquidity discount applied in line with USPC pricing policies.

Class H2 USD is disclosed as it is the representative share class.

Performance Target: To outperform the MSCI All Country World Index Technology Index NR by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

The accompanying notes are an integral part of the financial statements.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

### Janus Henderson US Contrarian Fund

#### **Fund Overview (unaudited) Investment Objective and Policy**

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the S&P 500® Index by at least 2% per annum, before the deduction of charges. over any 5 year period.

The Fund invests at least 80% of its assets in a concentrated portfolio of shares (also known as equities) of companies, of any size, in any industry, in the United States.

The Fund is actively managed with reference to the S&P 500® Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to exercise conviction, which may result in a high degree of bias within the portfolio. The Fund may hold companies which are not within the index.

#### **Fund Overview**

Nick Schommer, portfolio manager

For the year ended 31 December 2022, the Janus Henderson US Contrarian Fund Class H2 US dollar terms returned -22.42% (Net) and -21.61% (Gross), compared with -18.11% and -16.48% Target (Gross) for its benchmark, the S&P 500® Index. As the Fund is a concentrated portfolio, stock selection was the primary driver of relative underperformance.

Casino operator Caesars Entertainment was among the top detractors from performance. The stock generally fell on worries about the resiliency of consumer demand for gaming in the face of a weakening economic outlook as well as concerns around the company's financial leverage. In addition, there was increased concern around competition in the emerging online sports-betting industry.

Social media operator Snap Inc. was also among the top detractors. The company suffered earlier in the year as it faced difficulty in measuring advertisers' conversion rates due to Apple's iOS privacy changes. Later, Snap's stock fell when management pre-announced results that were below expectations, as the company had a more difficult time than expected gaining market share amid a weakening environment for advertising revenue. We exited our position in the stock during the year.

Marvell Technology was also a detractor. The semiconductor company is a leading provider of baseband processors. which are instrumental in the build-out of 5G networks, and in data center applications. During the year, Marvell lowered guidance for its legacy storage business, as corporate technology spending was impacted by a softer macroeconomic environment.

International oil and gas exploration and production company Occidental Petroleum was among the top

contributors. During the year, the market shock from the Russia-Ukraine war and a general decline in traditional fossil fuel investment resulted in tight supply and a subsequent spike in oil and gas prices. Demand for oil and gas also rose during the year as the pandemic waned and economies reopened. Occidental's financial leverage and significant upside exposure to commodity prices were a benefit considering these developments.

Howmet Aerospace was another top contributor. The company, which was spun out of Arconic in 2020, has a leadership position in the manufacturing of specialized aircraft components. The aerospace industry today is operating on its own economic cycle due to COVID-19. We appreciated Howmet's exposure to trends such as increased travel demand and the modernization of aircraft fleets to address network issues, fuel efficiency, and reduced carbon emissions.

Gaming real estate investment trust VICI Properties was also a top contributor. During the year, the stock rose given the general resiliency of the company's business model during an uncertain time. VICI was also added to the S&P 500® Index and its credit rating was upgraded to investment grade during the year.

Thank you for investing in the Janus Henderson US Contrarian Fund.

January 2023

#### **Statement of Financial Position**

S&P 500® TR + 2.00%	(16.48)	31.28	20.77	34.11	(2.46)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the S&P 500® Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

The accompanying notes are an integral part of the financial statements.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

#### Janus Henderson US Balanced 2026 Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a total return (income and capital growth), over the 7 year term. Neither the income nor capital value at maturity is guaranteed.

Performance Target: To deliver 2.5% per annum income (based upon the initial subscription value) and capital growth, before the deduction of fees and expenses, to 18 November 2026 ("Maturity").

The Fund invests between 25% and 45% of its assets in shares (equities) of US companies and between 55% and 75% of its assets in bonds issued by US companies. The investment manager actively adjusts the allocation between equities and bonds over time based on a view of overall market risk and the valuations of bond and equity markets. At least 75% of the Fund is invested in US assets.

The Fund is actively managed without reference to a benchmark. The investment manager has a high degree of freedom to choose individual investments for the Fund.

#### **Fund Overview**

Jeremiah Buckley, Greg Wilensky and Michael Keough, portfolio managers

For the year ended 31 December 2022, the Janus Henderson US Balanced 2026 Fund Y2 HEUR shares returned -19.12% (Net) and -17.68% (Gross) in euro terms.

We started the year with a generally positive outlook for equities. However, persistently high inflation and the US Federal Reserve's (Fed) aggressive response to taming it led us to shift to a more neutral asset allocation stance. We steadily reduced equity exposure from near its 45% mandated maximum at the beginning of the year to approximately 32% by the end of the third guarter. Toward year end, moderating interest rates and marginal improvements in the inflation picture shifted the risk/reward trade-off between equities and fixed income, and we ended December with our equity exposure at roughly 37%, our fixed income exposure at 62%, and a small portion in cash. Despite the late-period increase in our equity exposure, ongoing uncertainty and market volatility led us to reduce the level of valuation risk in the equity allocation throughout the year by focusing on nearer-term cash flows and companies with higher current earnings and dividend yields.

The equity allocation outperformed its benchmark, the S&P 500® Index. Holdings in the consumer discretionary and industrial sectors were among the top contributors. Agricultural equipment manufacturer Deere and Co. aided relative returns, reporting strong volumes with a solid outlook for its 2023 order book. Additionally, farmers, who represent a significant customer base, continued to benefit from elevated agricultural commodity prices. Some of our holdings in healthcare also contributed to

relative performance, as the more defensive sector held up better than the market during the volatile period. Large-cap pharmaceutical company Eli Lilly had continued success with its product portfolio and pipeline, including treatments for diabetes and a new therapy for obesity that demonstrated efficacy in clinical trials.

Our underweight to the strong-performing energy sector was a primary detractor, as was our positioning in information technology. Semiconductor equipment manufacturer Lam Research suffered as fears of a broader economic slowdown hurt overall expectations for semiconductor capital equipment expenditure. As a result of these lowered assumptions, particularly in the memory segment of the market, estimates for Lam's business declined over the year. Adobe also weighed on relative results. Our concerns around the company's valuation led us to reduce the position throughout the year. The evolving competitive landscape, potential end-market weakness, and Adobe's roughly \$20 billion acquisition of Figma led us to exit the name by year end.

The fixed income allocation marginally underperformed its benchmark, the Bloomberg US Aggregate Bond Index. Our overall spread risk positioning hurt relative returns. We continued to improve the overall credit quality of the Fund as the year progressed and the possibility of an economic slowdown increased. While we reduced our outof-index exposure to corporate high-yield bonds to cycle lows, the sector detracted on an asset allocation basis. Security selection within investment-grade corporates further detracted, particularly within the Fund's financials holdings. Despite relative underperformance, we continue to prefer financials over industrials within investment-grade corporates, given financials have underperformed and are now trading wide of industrials and wide of their historical spread relationship. Security selection within the Fund's mortgage-backed securities (MBS) contributed.

Treasury rates rode the proverbial roller coaster during the year, and we actively managed duration amid the volatility. We ended the year marginally short duration versus the benchmark, and we reduced our Treasury curve-flattening position, as the spread between two-year and 10-year Treasuries inverted to -0.55%. The Fund's overall interest rate positioning focused on balancing the opposing forces of high inflation and a hawkish Fed with the growing likelihood of a recession.

As we reduced our exposure to corporates, we added to our overweight to securitized sectors, particularly within MBS, as we believed spreads on securitized assets had widened to levels that better reflected the risk of an economic slowdown or recession. In contrast, corporate spreads continued to trade near their long-term averages, and, in our opinion, have priced in either a low probability of recession, or an extremely shallow recession.

### Janus Henderson US Balanced 2026 Fund (continued)

### Fund Overview (unaudited) (continued)

As always, we continue to dynamically adjust each of the equity and fixed income allocations, as well as the Fund's overall mix between equities and fixed income, as we analyze the risks and opportunities in each market.

Thank you for investing in Janus Henderson Balanced 2026 Fund.

January 2023

Total Investments in Securities	30,729,974	40,749,341	_	71,479,315

There were no transfers between levels during the financial year ended 31 December 2022 and financial year ended 31 December 2021.

There were no investments held by the Fund at 31 December 2022 and 31 December 2021 that were fair valued at level 3 by the Janus Henderson USPC.

Valuation policy of private placements is referenced in note 1 of the financial statements.

#### **Capital Share Transactions**

For the financial year ended 31 December 2022

_	Y2 HEUR	Y4 HEUR
	Shares	Shares
At beginning of the year	1,426,554	3,706,900
Shares issued	-	-
Shares redeemed	(105,139)	(202,107)
At end of year	1,321,415	3,504,793

For the financial year ended 31 December 2021

	Y2 HEUR	Y4 HEUR
	Shares	Shares
At beginning of the year	1,544,741	3,872,666
Shares issued	-	-
Shares redeemed	(118,187)	(165,766)
At end of year	1,426,554	3,706,900

#### **Net Asset Comparison**

	31 Dece	31 December 2022		31 December 2021		31 December 2020	
	Net Assets (USD)	NAV Per Share (Local Currency)	Net Assets (USD)	NAV Per Share (Local Currency)	Net Assets (USD)	NAV Per Share (Local Currency)	
Y2 HEUR	13,959,389	9.87	19,817,595	11.71	21,070,582	11.17	
Y4 HEUR	34,315,453	9.15	48,966,870	11.14	51,530,159	10.89	

The following table details the difference between the published NAV and the NAV which has been disclosed in the financial statements as at 31 December 2022 and 31 December 2021:

	Year ended	Year ended
	31 December	31 December
	2022	2021
	(USD)	(USD)
Published NAV	48,826,145	69,544,545
Placement fee	(551,303)	(760,080)
Closing NAV	48,274,842	68.784.465

For the purposes of calculating the Janus Henderson US Balanced 2026 published NAV, in accordance with its prospectus and leading industry practice, the placement fee with respect to Y shares has been capitalised and is amortised through the Statement of Comprehensive Income over a 7 year period from the date of commencement of the Fund's operations. However, as the financial statements are prepared under Irish GAAP and FRS102, the placement fee was expensed in the Statement of Comprehensive Income for the period 18 November 2019 to 31 December 2019.

Class Y shares are also subject to a redemption fee (exit fee) if an Investor redeems shares during the term of the Janus Henderson US Balanced 2026 fund, on a sliding scale depending on the date of redemption.

The difference between the published NAV per share and that shown in the financial statements is wholly attributable to the differences arising from expensing the placement fee. This has no impact on the published NAV per share, its related redemption pricing or the calculation of fees due to the Janus Henderson US Balanced 2026 Fund.

### **Total Expense Ratio (unaudited)**

The Average Total Expense Ratio table shows the actual expenses, excluding transactions costs and trade commissions, incurred by each Class for the Fund during the reporting financial year expressed as a percentage of the average net assets for the corresponding year, on an annualised basis.

	31 December 2022	31 December 2021	31 December 2020
Y2 HEUR	1.78%	1.73%	1.53%
Y4 HEUR	1.78%	1.73%	1.53%

### Distribution per share (unaudited)

The following table shows the distribution rate per share at Ex-date for each distributing share class:

Share Class (Local												
Currency)	14/01/2022	15/02/2022	15/03/2022	14/04/2022	13/05/2022	15/06/2022	15/07/2022	15/08/2022	15/09/2022	14/10/2022	18/11/2022	15/12/2022
Y4 HEUR	-	-	-	_	_	-	_	_	_	-	0.23957	_

This fund distributes annually.

### **Fund Performance (unaudited)**

#### As at 31 December 2022

	31/12/2022	31/12/2021	31/12/2020	31/12/2019
	%	%	%	%
Y2 HEUR (Net)	(19.12)	9.01	11.97	1.10
Euro Main Refinancing Rate	-	-	12.53	1.64
Y2 HEUR (Gross)	(17.68)	10.96	13.99	1.31

Class Y2 HEUR is disclosed as it is the representative share class.

Only share class returns are displayed as we do not currently subscribe to this index.

Please note the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> The Fund had launched on 18 November 2019, hence no performance numbers disclosed

### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

## Janus Henderson US Forty Fund

### **Fund Overview (unaudited) Investment Objective and Policy**

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the Russell 1000® Growth Index by at least 2.5% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a concentrated portfolio of shares (also known as equities) of companies, in any industry, in the United States. The Fund is focused towards larger US companies.

The Fund is actively managed with reference to the Russell 1000® Growth Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to exercise conviction, which may result in a high degree of bias within the portfolio. The Fund may hold companies which are not within the index.

#### **Fund Overview**

Doug Rao, Nick Schommer and Brian Recht\*, portfolio managers

For the year ended 31 December 2022, the Janus Henderson US Forty Fund Class H2 US dollar terms returned -33.39% (Net) and -32.89% (Gross), compared with -29.14% and -27.37% Target (Gross) for its benchmark, the Russell 1000® Growth Index. Stock selection in the communication services and information technology sectors detracted from benchmark-relative performance, while stock selection in the industrials and consumer discretionary sectors contributed to performance.

Social media operator Snap was among the top detractors from relative performance. The company suffered earlier in the year, as it faced difficulty in measuring advertisers' conversion rates due to Apple's iOS privacy changes. Later, the company had a more difficult time than expected gaining market share amid a weakening environment for advertising revenue. We exited our position in the stock during the year.

Medical device company Align Technology, which designs, manufactures, and markets dentistry products such as Invisalign, was also among the top detractors. During the year, the company suffered from fears that demand for their clear aligner product may have been pulled forward during the pandemic more than previously expected and that consumer spending on big-ticket items would decline as the macroeconomic outlook weakened. We exited our position in the stock during the year.

Agriculture and industrial equipment manufacturer Deere & Company was among the top contributors. Deere reported strong volumes with a solid outlook for its 2023 order book during the year, as farmers continued to be supported by

\*Effective 1 March 2022 Brian Recht also manages this Fund.

elevated agricultural commodity prices. Deere has also benefited from the market's recognition that the company is transitioning from a cyclical, agricultural-based company to a technology-centric provider of precision agriculture products.

TJX Companies, the parent company of retailers such as T.J. Maxx and Marshalls, was another contributor. As an off-price retailer, TJX benefited from a buildup of excess inventory at full-price sellers. This surplus allowed TJX to buy high-quality inventory at a discount and distribute it across its stores. TJX has also benefited from consumers searching for bargains in a weaker economic environment.

Thank you for investing in the Janus Henderson US Forty Fund.

January 2023

### **Statement of Financial Position**

	As of 31 December 2022 (USD)	As of 31 December 2021 (USD)
Assets:		
Financial assets at fair value through profit or loss	788,882,011	1,198,129,468

### **Fair Value Hierarchy**

The tables below provide the fair value hierarchy summary of the Fund's financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021.

	31 December 2022				
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)	
Common Stock	745,130,257	14,935,714¹	_	760,065,971	
Forward Currency Contracts	_	1,234,010	_	1,234,010	
Government Obligations		27,500,000	-	27,500,000	
Total Investments in Securities	745,130,257	43,669,724	_	788,799,981	

	31 December 2021					
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)		
Common Stock	1,174,965,892	3,003,505	-	1,177,969,397		
Forward Currency Contracts	_	1,177,954	-	1,177,954		
Government Obligations	_	18,900,018	_	18,900,018		
Total Investments in Securities	1,174,965,892	23,081,477	_	1,198,047,369		

<sup>&</sup>lt;sup>1</sup>At 31 December 2022 the administrator used a systematic fair valuation model provided by an independent third party to value listed securities in order to adjust for stale pricing between the close of foreign exchanges and the valuation point. This resulted in a decrease of USD 27,832 to common stock with a fair value of USD 14,935,714.

There were transfers on Common Stock from level 1 to level 2 during the financial year ended 31 December 2022 and on Common Stock from level 2 to level 1 during the financial year ended 31 December 2021.

There were no investments held by the Fund at 31 December 2022 and 31 December 2021 that were fair valued at level 3 by the Janus Henderson USPC.

Valuation policy of private placements is referenced in note 1 of the financial statements.

Discrete performance	31/12/2021	31/12/2020	31/12/2019	31/12/2018	31/12/2017
	31/12/2022	31/12/2021	31/12/2020	31/12/2019	31/12/2018
	%	%	%	%	%
H2 USD (Net)	(33.39)	22.98	37.27*	34.45*	(0.32)*
Russell 1000® Growth TR	(29.14)	27.60	38.49	36.39	(1.51)
H2 USD (Gross)	(32.89)	23.89	40.22*	37.34*	1.88*
Russell 1000® Growth TR + 2.50%	(27.37)	30.78	41.96	39.80	0.96

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Russell 1000® Growth Index by at least 2.5% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

### Janus Henderson US Research Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the Russell 1000® Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in shares (also known as equities) of mainly larger companies, in any industry, in the United States.

The Fund is actively managed with reference to the Russell 1000® Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose individual investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index. The investment manager will seek to maintain the portfolio with sector weightings close to those of the index.

#### **Fund Overview**

Janus Henderson Central Research Team, portfolio managers

For the year ended 31 December 2022, the Janus Henderson US Research Fund Class H2 US dollar terms returned -20.42% (Net) and -19.59% (Gross), compared with -19.13% and -17.52% Target (Gross) for its benchmark, the Russell 1000® Index.

On an individual stock basis, Catalent was a notable detractor from relative performance. Catalent has become a leading provider of contract drug development and production services by producing therapies more cost effectively than biopharmaceutical companies can do themselves. Catalent was also tapped to produce several COVID-19 vaccines, a business that provided a revenue tailwind in recent years. Catalent had expected this tailwind to slow in 2022. However, the fall-off in vaccine demand was steeper than expected due to lower uptake of booster shots. As a result, Catalent issued weaker-than-expected guidance, leading to a sell-off in the stock. We reduced our position, but we remained invested in Catalent due to the performance of its non-COVID-related businesses.

Gaming and hospitality company Caesars Entertainment also detracted, as the stock declined during the first half of 2022 on concerns about a slowing economy and perceptions that many gaming stocks had become overvalued. The company's management noted negative margins in its nascent digital gaming segment and lower occupancy rates at its hotels. Higher revenue per room helped to offset this weakness, however. Despite these concerns, the company reported better-than-expected revenue growth in the third quarter, as its business remained

resilient despite the slowing economy. As a result, the stock regained some ground in the fourth quarter.

Relative performance was also hindered by an overweight investment in e-commerce and cloud computing company Amazon.com. The stock sold off in the fourth quarter of 2022 after the company reported third-quarter earnings that broadly missed analysts' consensus estimates. It also issued cautious guidance. Costs in the retail business remained elevated due to the recent overbuild in their fulfillment infrastructure, as well as inflationary headwinds. Moreover, the company reported disappointing year-over-year revenue growth for Amazon Web Services, typically one of its most steady growth businesses. On a positive note, its advertising revenue remained relatively strong.

On a positive note, relative performance benefited from the Fund's underweight position in electric vehicle manufacturer Tesla. The stock faced headwinds in the first half of 2022, as COVID-related factory disruptions in China slowed production. The stock declined further in the fourth quarter after Tesla reported disappointing quarterly performance, including weaker-than-expected revenue growth. Tesla also reduced planned production in China as economic headwinds and increased competition impacted demand.

Several investments also benefited from a sharp rise in commodity prices in the aftermath of Russia's invasion of Ukraine. Oil refiner Marathon Petroleum reported strong profits and revenue growth that exceeded analyst estimates, supported by tight refining capacity and strong demand for oil products. Marathon Petroleum also continued to demonstrate a strong commitment to enhancing shareholder value through its share repurchase program. Oil producer ConocoPhillips, another contributor, reported strong financial results aided by favorable pricing. Like Marathon Petroleum, it continued to return cash to shareholders. Both stocks were notable positive contributors to relative performance.

Thank you for investing in the Janus Henderson US Research Fund.

January 2023

### **Total Expense Ratio (unaudited)**

The Average Total Expense Ratio table shows the actual expenses, excluding transactions costs and trade commissions, incurred by each Class for the Fund during the reporting financial year expressed as a percentage of the average net assets for the corresponding year, on an annualised basis.

	31 December 2022	31 December 2021	31 December 2020
A2 HEUR	2.25%	2.24%	2.03%
A2 USD	2.25%	2.25%	2.25%
B2 USD	3.75%	3.75%	3.51%
H2 USD	1.05%	1.05%	1.02%
I2 USD	1.20%	1.18%	1.11%

### Distribution per share (unaudited)

The following table shows the distribution rate per share at Ex-date for each distributing share class:

Share Class (Local												
Currency)	14/01/2022	15/02/2022	15/03/2022	14/04/2022	13/05/2022	15/06/2022	15/07/2022	15/08/2022	15/09/2022	14/10/2022	15/11/2022	15/12/2022
Z1 USD	_	_	_	_	_	_	_	_	_	2.74683	_	_

This fund distributes annually.

### **Fund Performance (unaudited)**

#### As at 31 December 2022

Performance (Annualised)	One year 31/12/2021 31/12/2022 %	Three years 31/12/2019 31/12/2022 %	Five years 31/12/2017 31/12/2022 %	Since inception to 31/12/2022 %
H2 USD (Net)	(20.42)	5.31*	7.21*	6.54*
Russell 1000® TR	(19.13)	7.35	9.13	8.18
H2 USD (Gross) Russell 1000® TR + 2.00%	Five years 31/12/2017 31/12/2022 % 9.59 11.32			

Discrete performance	31/12/2021	31/12/2020	31/12/2019	31/12/2018	31/12/2017
	31/12/2022	31/12/2021	31/12/2020	31/12/2019	31/12/2018
	%	%	%	%	%
H2 USD (Net)	(20.42)	23.44	21.85*	27.51*	(4.91)*
Russell 1000® TR	(19.13)	26.45	20.96	31.43	(4.78)
H2 USD (Gross)	(19.59)	24.74	24.25*	30.01*	(2.89)*
Russell 1000® TR + 2.00%	(17.52)	28.98	23.39	34.05	(2.87)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Russell 1000® Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

### Janus Henderson US Small-Mid Cap Value Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the Russell 2500® Value Index by 2.5% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a concentrated portfolio of shares (also known as equities) of small and medium sized companies in any industry, in the United States. Companies will be incorporated, headquartered, listed on an exchange in, or deriving significant revenue from, the United States. The investment manager may use derivatives (complex financial instruments) to reduce risk, to manage the Fund more efficiently, or to generate additional capital or income for the Fund.

The Fund is actively managed with reference to the Russell 2500® Value Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose individual investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

#### Kevin Preloger and Justin Tugman, portfolio managers

For the year ended 31 December 2022, the Janus Henderson US Small-Mid Cap Value Fund Class H2 US dollar terms returned -9.30% (Net) and -8.47% (Gross), compared with -13.08% and -10.92% Target (Gross) for its benchmark, the Russell 2500® Value Index. Stock selection drove relative outperformance, especially in the financials and health care sectors. Stock selection detracted from relative performance in the information technology and energy sectors.

We were pleased to see many of our investments with the higher-quality characteristics we always seek rewarded during the year, as companies with strong balance sheets and positive earnings outperformed lower-quality businesses. First Horizon National was a standout performer in the financials sector. The stock surged higher on news that the Memphis-based bank would be acquired by Toronto-Dominion Bank for a sizable premium. This merger was expected to close in early 2023.

Cardinal Health was a top contributor in the health care sector. Cardinal provides cost-effective pharmaceutical distribution and other services to hospitals and health care providers. It is a business that has historically delivered stable returns, which were especially attractive to investors in a less certain economic environment.

A strong demand and pricing environment also supported several commodities-related investments, including energy company Magnolia Oil and Gas and Commercial Metals, the leading U.S. rebar producer. We continued to favor disciplined, cost-advantaged commodities producers with strong competitive positioning and pricing power.

On a negative note, economic concerns pressured several consumer-related holdings. These included sportswear and casual apparel company Hanesbrands, which saw sales slow as inflation squeezed consumer budgets and large retailers had excess inventory. We exited the stock due to concerns over consumer spending and margin pressure. Frozen foods producer Nomad Foods, another detractor, was challenged by weaker European economic growth and higher costs, as it shifted product sourcing away from Russia.

In the information technology sector, our overweight exposure to semiconductor companies hindered relative performance, as worries over slowing global chip demand led to a sell-off in semiconductor-related stocks. Teradyne, a provider of semiconductor testing equipment, was among our detractors, as the company issued cautious guidance due to supply shortages and higher materials costs. A clouded outlook for semiconductor-related capital spending also hurt stock performance for MKS Instruments, which makes instrumentation tools used in chip production. We exited our positions in both companies given the clouded outlook. The Fund ended the quarter overweight in energy, health care, materials, information technology, consumer staples, and industrials. It was underweight in financials, utilities, real estate, communication services, and consumer discretionary.

Thank you for investing in Janus Henderson US Small-Mid Cap Value Fund.

January 2023

#### **Fair Value Hierarchy**

The tables below provide the fair value hierarchy summary of the Fund's financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021.

	31 December 2022					
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)		
Common Stock	168,629,481	_	_	168,629,481		
Forward Currency Contracts	_	257,610	_	257,610		
Government Obligations		3,500,000	-	3,500,000		
Total Investments in Securities	168,629,481	3,757,610	_	172,387,091		

	31 December 2021					
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)		
Common Stock	207,665,244	_	_	207,665,244		
Forward Currency Contracts	_	172,149	_	172,149		
Government Obligations	_	4,700,005	_	4,700,005		
Total Investments in Securities	207,665,244	4,872,154	=	212,537,398		

There were no transfers between levels during the financial year ended 31 December 2022 and financial year ended 31 December 2021.

There were no investments held by the Fund at 31 December 2022 and 31 December 2021 that were fair valued at level 3 by the Janus Henderson USPC.

Valuation policy of private placements is referenced in note 1 of the financial statements.

Russell 2500® Value TR + 2.50%	(10.92)	27.09	5.45	29.41	(6.28)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Russell 2500® Value Index by 2.5% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

The accompanying notes are an integral part of the financial statements.

146 Janus Henderson Capital Funds plc / 31 December 2022

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

# Janus Henderson US Venture Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the Russell 2000® Growth Index by 2% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a concentrated portfolio of shares (also known as equities) of companies, in any industry, in the United States. Companies will be incorporated, headquartered, listed on an exchange in, or deriving significant revenue from, the United States. The Fund will invest at least 50% in smaller US companies.

The Fund is actively managed with reference to the Russell 2000® Growth Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose individual investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

Jonathan Coleman and Scott Stutzman, portfolio managers

For the year ended 31 December 2022, the H2 USD class returned -24.75% (Net) and -24.03% (Gross), compared with -26.36% and -24.89% Target (Gross) for its benchmark, the Russell 2000® Growth Index.

Stock selection in the information technology and financial sectors aided relative performance. An underweight in the energy sector and stock selection in the industrials sector detracted from relative performance.

LPL Financial Holdings was a top contributor to relative performance. This financial services firm provides a full-service, technology-enabled platform that helps independent financial advisors serve their customers. LPL Financial continued to add new advisors to its network, which supported its revenue and earnings growth. Higher interest rates were an additional tailwind for its earnings growth because of the interest income it earned on client cash balances.

Vaxcyte, another contributor, is a health care company that develops vaccines for infectious diseases. Vaxcyte reported positive, early-stage clinical trial results for VAX-24, its vaccine targeting the pneumonia-causing pneumococcal bacteria. The current market share leader in this space targets 13 different strains of pneumococcal bacteria. Vaxcyte's proprietary platform has enabled VAX-24 to target up to 24 strains, while showing superior efficacy relative to currently marketed vaccines in recent clinical trials.

Catalent was a notable detractor from relative performance. Catalent has become a leading provider of contract development and manufacturing services to the pharmaceutical industry. Catalent was tapped to produce several COVID-19 vaccines, a business that provided a revenue tailwind in recent years. Catalent had expected this tailwind to slow in 2022, but the drop-off in vaccine demand was even steeper than expected due to a lower uptake of booster shots. As a result, Catalent issued weaker-than-expected guidance, leading to a sell-off in the stock. We reduced our position, but we remained invested in Catalent due to the performance of its non-COVID-related businesses.

Clarivate Analytics was another detractor. Clarivate provides life sciences researchers and companies with access to over 7,000 scientific journals and proprietary databases through an online portal. The stock declined in the second half of 2022 as the company reported disappointing revenue growth and reduced guidance, which reflected economic headwinds for its businesses. We trimmed our position, and we will continue to closely monitor the company's business fundamentals.

Thank you for investing in Janus Henderson US Venture Fund.

January 2023

#### **Statement of Financial Position**

	As of 31 December 2022 (USD)	As of 31 December 2021 (USD)
Assets:

Russell 2000® Growth TR + 2.00%	(24.89)	4.89	37.33	31.05	(7.49)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Russell 2000® Growth Index by 2% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

# Janus Henderson Intech European Core Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide capital growth over the long term.

Performance target: To outperform the MSCI Europe Index by at least 2.75% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in shares (equities) and equity-related securities of companies, which at the time of purchase are at least equal in size to a company included in the MSCI Europe Index, in any industry, in Europe (including UK).

The Fund is actively managed with reference to the MSCI Europe Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has a mathematical approach to investing which controls the extent to which the portfolio may differ from the index.

#### **Fund Overview**

Adrian Banner, Joseph Runnels and Vassilios Papathanakos, portfolio managers

For the year ended 31 December 2022, the G2 EUR class returned -12.66% (Net) and -12.30% (Gross) compared with -9.49% and -7.01% Target (Gross) for its benchmark, the MSCI Europe Index.

The Fund was negatively impacted by its smaller size positioning as larger-capitalization stocks within the MSCI Europe Index strongly outperformed in 2022.

An average underweight to the energy sector, which outperformed the broad market by more than 45% in 2022, was a headwind on overall relative performance. While stock-specific effects were positive amongst information technology names, the Fund was negatively impacted by adverse selection effects within the financials and consumer discretionary sectors during the year.

Intech builds portfolios in a disciplined and systematic manner, with risk management remaining the hallmark of our investment process. As Intech's ongoing research efforts yield modest improvements, we will continue implementing changes that we believe are likely to improve the long-term results for our clients.

Thank you for investing in Janus Henderson Intech European Core Fund.

January 2023

#### **Statement of Financial Position**

	As of 31 December 2022 (EUR)	As of 31 December 2021 (EUR)
Assets:		
Financial assets at fair value through profit or loss	59,173,592	140,482,501
Cash and foreign currency	264,534	671,182

#### Fair Value Hierarchy

The tables below provide the fair value hierarchy summary of the Fund's financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021.

		31 December	2022	
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)
Common Stock	_	58,951,670¹	-	58,951,670
Forward Currency Contracts	_	(292)	_	(292)
Preferred Stock		221,9141	-	221,914
Total Investments in Securities	_	59,173,292	_	59,173,292

		31 December	2021	
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)
Common Stock Forward Currency Contracts	136,885,233	(158)	-	136,885,233 (158)
Preferred Stock	3,597,265		<u> </u>	3,597,265
Total Investments in Securities	140,482,498	(158)	_	140,482,340

<sup>&</sup>lt;sup>1</sup>At 31 December 2022 the administrator used a systematic fair valuation model provided by an independent third party to value listed securities in order to adjust for stale pricing between the close of foreign exchanges and the valuation point. This resulted in an increase of USD 55,133 to common stock with a fair value of USD 58,951,670 and increase of USD 32 to preferred stock with a fair value of USD 221,914.

There were transfers on Common Stocks from level 1 to level 2 during the financial year ended 31 December 2022 and on Common Stock and Preferred Stock from level 2 to level 1 during the financial year ended 31 December 2021.

There were no investments held by the Fund at 31 December 2022 and 31 December 2021 that were fair valued at level 3 by the Janus Henderson USPC.

Valuation policy of private placements is referenced in note 1 of the financial statements.

71 FUR	_	_	_	_	_	_	_	_	_	5.37775	_	_

This fund distributes annually.

#### **Fund Performance (unaudited)**

#### As at 31 December 2022

Performance (Annualised)	One year 31/12/2021 31/12/2022 %	Three years 31/12/2019 31/12/2022 %	Five years 31/12/2017 31/12/2022 %	Since inception to 31/12/2022 %
G2 EUR (Net) MSCI Europe NR	(12.66) (9.49)	3.72 3.07	5.44 4.30	7.02 6.44
G2 EUR (Gross) MSCI Europe NR + 2.75%	Five years 31/12/2017 31/12/2022 % 6.07 7:17			

Discrete performance	31/12/2021	31/12/2020	31/12/2019	31/12/2018	17/10/2018
	31/12/2022	31/12/2021	31/12/2020	31/12/2019	31/12/2018
	%	%	%	%	%
G2 EUR (Net)	(12.66)	23.74	2.06*	25.18*	(8.47)*
MSCI Europe NR	(9.49)	25.13	(3.32)	26.05	(10.57)
G2 EUR (Gross)	(12.30)	24.25	3.84*	27.35*	(6.87)*
MSCI Europe NR + 2.75%	(7.01)	28.57	(0.66)	29.51	(8.10)

Class G2 EUR is disclosed as it is the representative share class.

Performance Target: To outperform the MSCI Europe NR Index by at least 2.75% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

S&P 500® TR	(21.05)	28.71	18.40	31.48	(4.39)
G2 USD (Gross)	(22.07)	22.13	15.56*	29.27*	(8.00)*
S&P 500® TR + 3.00%		32.56	21.96	35.42	(1.50)

Class G2 USD is disclosed as it is the representative share class.

Performance target: To outperform the S&P 500® Index by at least 3% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

# Janus Henderson Global Real Estate Equity Income Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a positive level of income with the potential for capital growth over the long term (five years or more).

Performance target: To achieve a dividend yield exceeding that of the FTSE EPRA Nareit Global REIT NR Index, before the deduction of charges, on an annual basis.

The Fund invests at least 80% of its assets in shares (also known as equities) and equity-related securities of real estate investment trusts (REITs) and companies, which invest in property, in any country. Companies will derive the main part of their revenue from owning, developing and managing real estate.

The Fund is actively managed with reference to the FTSE EPRA Nareit Global REIT NR Index, which is broadly representative of the companies in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

Guy Barnard, Tim Gibson and Greg Kuhl, portfolio managers

For the year ended 31 December 2022, the H2 USD class returned -22.11% (Net) and -21.39% (Gross) compared with -24.45% (Gross) for its benchmark, FTSE EPRA Nareit Global REIT Index.

Global equities experienced considerable volatility over the year, as investors' expectations rebased rapidly and central banks pursued more aggressive monetary policy measures to cool persistently elevated inflation.

Overall, the equity markets made modest gains as some of the more extreme economic outcomes from the Russian invasion of Ukraine faded and inflation data began to slow. However, the property sector lagged as the impact of rising interest rates and credit spreads began to feed through into investors' expectations.

Within the sector, property stocks in Asia Pacific outperformed, driven by relative strength in Singapore and Hong Kong. In contrast European names lagged, with German residential and industrial/logistics names underperforming. In the US, retail, net lease and hotel landlords saw the strongest performance, whereas apartment and office landlords underperformed.

The Fund outperformed its index over the year. We saw a positive contribution from the US where exposure to the net lease sector proved beneficial, with retail-focused owners Agree Realty, Spirit Realty Capital and National Retail Properties adding value on perceived defensiveness of cashflows. Exposure to niche property sectors also proved positive, as gaming landlords VICI Properties and MGM Growth Properties made material contributions. Student accommodation provider American Campus Communities also generated alpha (excess returns relative to the benchmark), with the company subject to a takeover from private equity firm Blackstone. An underweight to mall owners also added value as concerns over a cost-of-living crisis impacted investor sentiment. By contrast, positions in logistics owners/developers Goodman, Dream Industrial Real Estate Investment Trust, and VGP detracted. Likewise, healthcare landlord Welltower and German residential landlord LEG Immobilien negatively impacted performance.

Within the portfolio, we remained close to index weightings at a regional level and therefore continued to provide well-diversified global exposure. At a sector level, we reduced exposure to the US rental residential sector, where we expected market rental growth to slow significantly while property tax/expense headwinds had increased. We sold Invitation Homes, Sun Communities, Equity Lifestyle Properties and Essex Property Trust. Having been underweight industrials/logistics, we used share price weakness to rebuild our overweight given still strong fundamentals, adding to Prologis and Dream, and initiating a new position in STAG Industrial. This was partially funded by exiting our position in First Industrial Realty Trust. We also grew exposure to the retail sector, with the addition of US grocery-anchored shopping center owner Brixmor Property and Link Real Estate Investment Trust in Hong Kong, and in the healthcare sector, through Healthpeak Properties, Welltower and Chartwell Retirement Residences. Other key disposals included Hilton, Duke Realty and Ventas on outperformance as well as American Tower, Alexandria Real Estate Equities, Douglas Emmett, LEG and Instone Real Estate. We also took profits from Singapore following outperformance and reduced exposure to Tokyo offices, adding to existing holdings in Australia.

Looking ahead, while real estate will not be immune to the challenging macroeconomic landscape, its ability to provide more dependable income streams, diversification benefits and inflation protection over time, should provide some comfort, we believe. Within the sector, real estate fundamentals are likely to reflect ongoing divergence across different property types in the years ahead, driven by the themes of changing demographics, digitisation, sustainability and the convenience lifestyle. It therefore remains important, in our view, to stay selective. The importance of management, and asset and balance sheet quality are back to the fore again.

# Fund Overview (unaudited) (continued)

Finally, whilst the direct property market is only now adjusting to higher funding costs, the listed market has already reacted, resulting in shares trading at wide discounts to previous asset values and reflecting the repricing seen in bond markets.

Thank you for investing in Janus Henderson Global Real Estate Equity Income Fund.

January 2023

### **Fair Value Hierarchy**

The tables below provide the fair value hierarchy summary of the Fund's financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021.

	31 December 2022						
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)			
Common Stock	135,939,390	44,123,1171	_	180,062,507			
Forward Currency Contracts	_	397,462	_	397,462			
Total Investments in Securities	135,939,390	44,520,579	_	180,459,969			

	31 December 2021						
	Level 1 - Quoted Prices (USD)	Level 2 - Other Significant Observable Inputs (USD)	Level 3 - Significant Unobservable Inputs (USD)	Total (USD)			
Common Stock Forward Currency Contracts	313,480,714	- 324,708	-	313,480,714 324,708			
Total Investments in Securities	313,480,714	324,708	_	313,805,422			

<sup>&</sup>lt;sup>1</sup>At 31 December 2022 the administrator used a systematic fair valuation model provided by an independent third party to value listed securities in order to adjust for stale pricing between the close of foreign exchanges and the valuation point. This resulted in an decrease of USD 19,996 to common stock with a fair value of USD 44,123,117.

There were transfers on Common Stock from level 1 to level 2 during the financial year ended 31 December 2022 and on Common Stock from level 2 to level 1 during the financial year ended 31 December 2021.

There were no investments held by the Fund at 31 December 2022 and 31 December 2021 that were fair valued at level 3 by the Janus Henderson USPC.

Valuation policy of private placements is referenced in note 1 of the financial statements.

	%	%	%	%	%
H2 USD (Net)	(22.11)	22.43	0.52*	29.26*	(4.95)*
FTSE EPRA Nareit Global REIT NR	(24.45)	27.87	(9.16)	23.58	(5.55)
H2 USD (Gross)	(21.39)	22.43	2.75*	32.11*	(2.73)*
FTSE EPRA Nareit Global REIT NR	(24.45)	29.14	(7.34)	26.05	(3.65)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To achieve a dividend yield exceeding that of the FTSE EPRA Nareit Global REIT NR Index, before the deduction of charges, on an annual basis.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

 $<sup>^{\</sup>star}$  Historical figures are based on the A2 USD share class.

## Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

## Janus Henderson Absolute Return Income Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide positive, consistent returns (although not guaranteed) above those that would be earned on cash deposits over time.

Performance target: To outperform the FTSE 3-Month US Treasury Bill Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a global portfolio of bonds of any quality, including high yield (non-investment grade) bonds and asset-backed and mortgage-backed securities, issued by governments or companies. The Fund may invest directly or via derivatives (complex financial instruments).

The Fund will not invest more than 15% of its assets in high yield (non-investment grade) bonds and will never invest in bonds rated lower than B- or B3 (credit agency ratings), or if unrated deemed to be of a comparable quality by the investment manager.

The investment manager may use derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the FTSE 3-Month US Treasury Bill Index as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to choose individual investments for the Fund.

#### **Fund Overview**

Jason England and Daniel Siluk, portfolio managers

For the year ended 31 December 2022, the G2 USD class returned -0.45% (Net) and 0.00% (Gross), compared with 1.50% and 3.52% Target (Gross) for its benchmark, the FTSE 3-month US Treasury Bill Index.

Underperformance resulted from the Fund's exposure to rapidly rising interest rates. Given the degree to which rates rose across the entirety of the yield curve, there was quite literally no place for bond investors to hide. Early in the year, we moved to lower exposure to interest rate risk (duration), which likely thwarted what would have been even steeper losses, but negative returns were inescapable across tenors and geographies.

Given the sustained interest rate volatility, in addition to shortening duration early in the year, we also deployed securities with the aim of dampening the impact of future rate swings. In aggregate, these hedges generated positive returns over the course of 2022. Detracting, however, were hedges meant to insulate the Fund from credit risk.

We expect the path of inflation, interest rates, and the economy to continue to play a significant role in the bond market until greater visibility into these forces emerges. The chances are slim, we believe, that the inflation and interest rate disruptions of 2022 will be repeated, but last year's resetting of rates has left bonds better positioned to withstand additional shocks. After several years, a fixed income allocation once again has the potential to offer diversification against swings in riskier asset classes as well as levels of income generation that investors feared had been consigned to the annals of history.

Consensus has coalesced around the global economy slowing in 2023. This potential outcome is partly responsible for the bond market's recovery as bulls expect it would force the US Federal Reserve (Fed) to pivot, but we think a pivot is unlikely. Fed Chairman Jerome Powell has been resolute in his messaging that guiding inflation back toward 2.0% is his highest priority. We don't see any path toward 2.0% inflation that doesn't involve quelling the demand for labor which may result in upward wage pressure. As alluded to in the Fed's most recent projections, the central bank is willing to pay the price of a slowing economy and higher unemployment to maintain credibility and, importantly, avoid the mistakes of the 1970s when a premature dovish pivot only increased inflation's volatility.

Given what we view as the questionable foundation of the late-year rally, we believe conservative positioning within a bond allocation is in order. Typically, this entails forgoing the higher yields of longer-dated securities with the aim of limiting interest rate risk. But with shorter-dated securities offering meaningfully higher yields than those with longer maturities, an allocation that's light on duration also presents the potential for a greater amount of income generation.

Thank you for investing in the Janus Henderson Absolute Return Income Fund.

January 2023

Class G2 USD is disclosed as it is the representative share class.

Performance target: To outperform the FTSE 3-Month US Treasury Bill Index by at least 2% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

## Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a return, from a combination of income and capital growth, while seeking to limit losses to capital (although not guaranteed).

Performance target: To outperform the FTSE 3-Month US Treasury Bill Index by at least 3% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a global portfolio of bonds of any quality, including high yield/non-investment grade bonds, issued by companies or governments, asset-backed and mortgage backed securities.

In certain market conditions, the Fund may invest more than 35% of its assets in government bonds issued by any one body. The investment manager makes extensive use of derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the FTSE 3-Month US Treasury Bill Index as this forms the basis of the Fund's performance target. The investment manager has a high degree of freedom to choose individual investments for the Fund.

#### **Fund Overview**

Jason England and Daniel Siluk, portfolio managers

For the year ended 31 December 2022, the G1m USD class returned -1.47% (Net) and -0.93% (Gross) compared with 1.50% and 4.54% Target (Gross) for its benchmark, the FTSE 3-Month U.S. Treasury Bill Index.

Underperformance resulted from the Fund's exposure to rapidly rising interest rates. Given the degree to which rates rose across the entirety of the yield curve, there was quite literally no place for bond investors to hide. Early in the year, we moved to lower exposure to interest rate risk (duration), which likely thwarted what would have been even steeper losses, but negative returns were inescapable across tenors and geographies.

Given the sustained interest rate volatility, in addition to shortening duration early in the year, we also deployed securities with the aim of dampening the impact of future rate swings. In aggregate, these hedges generated positive returns over the course of 2022.

We expect the path of inflation, interest rates, and the economy to continue to play a significant role in the bond market until greater visibility into these forces emerges. The chances are slim, we believe, that the inflation and interest rate disruptions of 2022 will be repeated, but last year's resetting of rates has left bonds better positioned

to withstand additional shocks. After several years, a fixed income allocation once again has the potential to offer diversification against swings in riskier asset classes as well as levels of income generation that investors feared had been consigned to the annals of history.

Consensus has coalesced around the global economy slowing in 2023. This potential outcome is partly responsible for the bond market's recovery as bulls expect it would force the US Federal Reserve (Fed) to pivot, but we think a pivot is unlikely. Fed Chairman Jerome Powell has been resolute in his messaging that guiding inflation back toward 2.0% is his highest priority. We don't see any path toward 2.0% inflation that doesn't involve quelling the demand for labor which may result in upward wage pressure. As alluded to in the Fed's most recent projections, the central bank is willing to pay the price of a slowing economy and higher unemployment to maintain credibility and, importantly, avoid the mistakes of the 1970s when a premature dovish pivot only increased inflation's volatility.

Given what we view as the questionable foundation of the late-year rally, we believe conservative positioning within a bond allocation is in order. Typically, this entails forgoing the higher yields of longer-dated securities with the aim of limiting interest rate risk. But with shorter-dated securities offering meaningfully higher yields than those with longer maturities, an allocation that's light on duration also presents the potential for a greater amount of income generation.

Thank you for investing in the Janus Henderson Absolute Return Income Opportunities Fund.

January 2023

Class  ${\sf G1m}$  USD is disclosed as it is the representative share class.

Performance target: To outperform the FTSE 3-Month US Treasury Bill Index by at least 3% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class

## Janus Henderson Flexible Income Fund

## Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a return, from a combination of income and capital growth, while seeking to limit losses to capital (although not guaranteed) over the long term.

Performance target: To outperform the Bloomberg US Aggregate Bond Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 67% (but typically more than 80%) of its assets in US bonds of any quality, including high yield (non-investment grade) bonds and asset-backed and mortgage-backed securities, issued by governments, companies or any other type of issuer.

The Fund is actively managed with reference to the Bloomberg US Aggregate Bond Index, which is broadly representative of the bonds in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

Greg Wilensky and Michael Keough, portfolio managers

For the year ended 31 December 2022, the H2 USD class returned -14.18% (Net) and -13.62% (Gross) compared with -13.01% and -11.93% Target (Gross) for the Bloomberg US Aggregate Bond Index.

While we reduced the Fund's spread risk exposure to cycle lows, we generally maintained more spread risk versus the benchmark, and this detracted as spreads widened. As the year progressed and the possibility of an economic slowdown increased, we continued to improve the overall credit quality of the Fund. We reduced our exposure to corporate bonds in favor of adding to our overweight position to securitized sectors, particularly within mortgage-backed securities. We believed spreads on securitized assets had widened to levels that better reflected the risk of an economic slowdown or recession. At the same time, corporate spreads continued to trade near their long-term averages and, in our opinion, had priced in either a low probability of recession, or an extremely shallow recession.

The Fund's overall interest-rate risk positioning contributed to relative results, helping to offset relative underperformance. Treasury rates rode the proverbial roller coaster during the year, so we actively managed duration amid the volatility, ending the year marginally short duration versus the benchmark. The Fund's overall interest rate positioning continued to balance the opposing forces of high inflation and a hawkish Federal Reserve (Fed) with the growing likelihood of a recession.

We believe that 2023 is likely to mark an end to the Fed's current hiking cycle, with the focus shifting from how high rates need to go to what the negative effects of tighter monetary policy will be on the fundamentals of the U.S. economy. While a soft landing remains possible, we expect it to be difficult to pull off as further demand destruction from a weaker labor market will likely be required to bring inflation all the way down to the Fed's 2% target. As such, we favor maintaining a conservative allocation to credit and spread risk, and we aim to be more exposed to risk in sectors that, in our view, are well-positioned and well-priced for an economic slowdown.

Shifting to interest rates and duration, investors were best served in 2022 being underweight duration due to higher interest rates and inflation. With most of the increase in rates behind us, we expect the backdrop in 2023 to be about declining inflation and slower growth. Portfolios may benefit from a timely shift to a duration overweight if the Treasury yield curve steepens and rates eventually fall as we anticipate.

We are more optimistic for fixed income in the year ahead, as we think bonds are well-positioned to provide the income and diversification benefits in 2023 that investors have come to expect from their core fixed income allocation.

Thank you for investing in Janus Henderson Flexible Income Fund.

January 2023

Bloomberg U.S. Aggregate Bond TR + 1.25%	(11.93)	(0.31)	8.85	10.07	1.27

Class H1m USD is disclosed as it is the representative share class.

Performance target: To outperform the Bloomberg US Aggregate Bond Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

#### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

## Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a return, from a combination of income and capital growth over the long term.

Performance target: To outperform the Bloomberg Global Aggregate Corporate Bond Hedged USD Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a global portfolio of investment grade (equivalent to BBB rated or higher) corporate bonds, issued by companies and issuers.

The investment manager may use derivatives (complex financial instruments), including total return swaps, with the aim of making investment gains in line with the Fund's objective, to reduce risk or to manage the Fund more efficiently.

The Fund is actively managed with reference to the Bloomberg Global Aggregate Corporate Bond Hedged USD Index, which is broadly representative of the bonds in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

## Michael Keough, James Briggs, Brad Smith and Tim Winstone, portfolio managers

For the year ended 31st December 2022, the H2 USD class returned -14.83 (Net) and -14.26% (Gross) compared with -14.11% and -13.04% Target (Gross) for its benchmark, the Bloomberg Global Aggregate Corporate Bond Hedged USD Index.

Security selection and interest rate positioning were positive for performance, while asset allocation detracted, predominantly due to the Fund's underweight to credit relative to its index. Specifically, the underweight to credit beta was additive in the first half of the year, but turned into a drag in the fourth quarter as the market rallied. Regional allocation was positive in the first half of the year, given the Fund's overweight in US investment-grade and underweight in European investment-grade credit. However, this positive performance was tempered towards the end of the year due to the strong rally witnessed in European investment grade. The Fund has been underweight Europe relative to the US, owing to fears about the energy outlook and deeper recessionary risk. However, we reduced this underweight in November, moving to a much more neutral stance between Europe and the US.

The off-benchmark allocation to high yield was beneficial, but was offset by high-yield risk hedges via credit default

swaps that were hit when synthetics outperformed cash later in the year. In a year of rising yields, performance was helped by the Fund's average short duration position.

The Fund's biggest sector overweight was in banking, owing to strong fundamentals and the attractive valuations in the sector. The overweight was affected by the technical condition of continued primary supply in the sector, although security selection in banks was positive for performance overall. An overweight to real estate also detracted given negative technicals and contagion risk within the sector. Conversely, the underweight to utilities benefited performance.

Security selection strongly benefited performance. Having no direct exposure to Russia-related entities, in particular Russian oil company Lukoil, was positive for performance. In a challenging year for the real estate sector, the Fund's overweight to Heimstaden Bostad was additive after the company called its bonds we own at a premium to market levels. Security selection within banks was positive, with overweight positions in US bank Morgan Stanley and French bank BPCE among the leading contributors. An overweight position in HCA was also supportive. We identified the issuer as a 'rising-star' candidate and it was upgraded by Standard & Poor's ("S&P") Global Ratings from high yield to investment grade over the year. In terms of detractors, an overweight to Credit Suisse negatively affected performance following noise around liquidity concerns and news of outflows from its wealth management arm. The outflows have since subsided and the bank's plans for asset sales are expected to be positive for bondholders. Holdings in real estate names such as VGP, Sirius Real Estate and CPI Property Group further weighed on performance.

The Fund continued to be positioned moderately underweight credit relative to the benchmark, reflecting our cautious economic outlook.

A global slowdown remains our base case, but the easing of the European energy crisis has led forecasts for Europe to be revised up. We have therefore reduced our underweight in Europe and overweight in the US and now have a more neutral geographic allocation. While headline inflation has peaked, we are yet to see much sign of core inflation beginning to slow. Labour markets are still tight, especially in the US, and the central banks may have to create significant economic slack to bring core inflation back down. Company earnings have so far remained robust and interest coverage ratios still look solid, but leverage is similar to pre-recession levels in previous cycles and the outlook is highly uncertain. Valuations aren't pricing in any meaningful or deep recession, but spreads are above average and provide some cushion against spread widening through more attractive yields. Market technicals may also deteriorate, particularly in Europe, with the European Central Bank beginning quantitative tightening and reducing its

## Fund Overview (unaudited) (continued)

holdings of non-financial corporate bonds. We think credit spreads are likely to widen if evidence mounts of a deeper recession and deteriorating corporate health, which we believe may present better entry points to reduce the Fund's underweight position.

We expect markets to remain volatile over the medium term and, in this uncertain macro environment, continue to move up the quality spectrum into high-quality, non-cyclical companies with robust balance sheets and strong liquidity. In terms of the yield curve, we believe medium maturities offer the best value and are looking to focus any purchases in this segment. As we navigate these uncertainties, we will continue to adhere to our research-driven investment process, with a focus on taking what we see as the right amount of risk throughout the cycle.

Thank you for investing in Janus Henderson Global Investment Grade Bond Fund.

January 2023

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Bloomberg Global Aggregate Corporate Bond Hedged USD Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup> Historical figures are based on the A2 USD share class.

### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

## Janus Henderson High Yield Fund

## Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a high income with the potential for some capital growth over the long term.

Performance target: To outperform the Bloomberg US Corporate High Yield Bond TR Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in US high yield (non-investment grade, equivalent to BB+ rated or lower) corporate bonds, issued by companies or any other type of issuer.

The Fund is actively managed with reference to the Bloomberg US Corporate High Yield Bond TR Index, which is broadly representative of the bonds in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

**Seth Meyer, Brent Olson and Tom Ross\***, *portfolio managers* 

For the year ended 31 December 2022, the H2 USD class returned -15.12% (Net) and -14.58% (Gross) compared with -11.19% and -10.08% Target (Gross) for the Bloomberg US Corporate High Yield Bond Index.

We entered the year with more overall risk than the benchmark, which detracted as rates rose and credit spreads widened on the back of the Federal Reserve's hawkish pivot to combat rampant inflation. While we reduced our small out-of-index allocation to common stock to cycle lows, our exposure to equities proved to be the main detractor.

As the year progressed and the likelihood of an economic slowdown increased, we shifted to a more defensive stance in the Fund. We raised the Fund's overall credit quality by adding exposure to BB rated issuers and by reducing our holdings of CCC rated securities, as we expected wider dispersion in returns between the CCC segment of the investment universe and higher-rated securities. We expected higher defaults to impact CCC bonds to a greater degree, with a commensurate widening in spreads. Conversely, we expected the BB segment to be relatively more affected by rates than credit risk. Considering our view that most of the move up in rates has taken place, we thought rate moves should underpin relative outperformance for higher-rated bonds, and we positioned the Fund accordingly.

Security selection within the Fund's corporate high-yield holdings further detracted. Relative underperformance was concentrated in the technology and gaming sectors. On an individual issuer basis, positions in Bally's and Caesars Entertainment were notable detractors as the gaming sector struggled amid concerns over slower economic growth. Strategic investments in online gaming in the US also raised investor concerns. Coherent, Advanced Micro Devices and Nvidia were the key detractors in the technology space as concerns over slowing chip demand, high inflation, and restrictions on sales of chips to China weighed on manufacturers of semiconductors.

On a positive note, healthcare names Bausch Health and Teva Pharmaceuticals contributed on a relative basis and helped to somewhat offset relative underperformance.

While credit spread levels in high yield are narrower than one might expect considering the risk of recession, spreads are supported by several mitigating factors: the somewhat lower expected default rate (4%-6%) relative to prior periods of credit stress, the higher quality of the high-yield index versus history (BB rated issuers now make up over 50% of the high-yield index), and the limited new issuance calendar. Additionally, the high-yield index now offers yields around 9.0% – some of the highest we've seen since the Global Financial Crisis. As such, while the outlook is uncertain, and we continue to exercise caution, we believe high yield offers an attractive income opportunity for long-term investors who are prepared to weather any near-term volatility.

Thank you for investing in Janus Henderson High Yield Fund.

January 2023

<sup>\*</sup>Effective 31 October 2022 Tom Ross also manages this Fund.

Bloomberg U.S. Corporate High Yield Bond TR	(11.19)	5.28	7.11	14.32	(2.08)
H2 USD (Gross) Bloomberg U.S. Corporate High Yield Bond	(14.58)	6.28	7.12*	15.75*	(2.22)*
TR + 1.25%	(10.08)	6.59	8.46	15.75	(0.85)

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Bloomberg US Corporate High Yield Bond TR Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

 $<sup>^{\</sup>star}$  Historical figures are based on the A2 USD share class.

### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

## Janus Henderson Multi-Sector Income Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide a high income with the potential for some capital growth over the long term.

Performance target: To outperform the Bloomberg US Aggregate Bond Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in a global portfolio of bonds of any quality, including high yield (non-investment grade) bonds and asset-backed and mortgage-backed securities, issued by governments, companies or any other type of issuer.

The Fund is actively managed with reference to the Bloomberg US Aggregate Bond Index, which is broadly representative of the bonds in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

Seth Meyer, John Lloyd and John Kerschner, portfolio managers

For the year ended 31 December 2022, the H2 USD class returned -12.01% (Net) and -11.36% (Gross) compared with -13.01% and -11.93% Target (Gross) for the Bloomberg US Aggregate Bond Index.

The Fund's structural underweight to duration risk was the key contributor as rates rose on the back of the Federal Reserve's (Fed) hawkish pivot in response to rampant inflation. At year-end, the Fund's overall interest rate positioning continued to balance opposing forces of sticky services inflation and a hawkish Fed with the growing likelihood of a recession. As such, the Fund remained somewhat defensively positioned on duration risk.

Relative outperformance was partially offset by the Fund's spread risk positioning. While we reduced the Fund's overall risk exposure over the course of the year, we maintained more spread risk than the benchmark until December, and this detracted as spreads widened.

We believed overly aggressive Fed policy, leading to a recession, was the biggest risk to the market. Therefore, we further reduced our exposure to corporate investment-grade and high-yield bonds to an historic low for the Fund. Corporate spreads continued to trade near their long-term averages and, in our opinion, had priced in either a low probability of recession or an extremely shallow recession. Most of the Fund's spread risk exposure was shifted to securitized credit sectors, where, in contrast to corporates, spreads had widened to levels that better reflected the risk

of recession, in our view. Turning to high yield, while yields in this segment were attractive, we believed high yield was likely to be more affected by downgrades and defaults as economic conditions worsened. As such, we maintained our exposure to the sector at cycle lows.

While we anticipate a deterioration in fundamentals in 2023, we do not think it is necessarily a time to be "risk-off". Rather, our focus is to take risk in the right places and to be more exposed in those sectors that, in our view, are well-positioned and well-priced for an economic slowdown. On a positive note, with most of the increase in rates behind us, we expect the backdrop in 2023 to be about declining inflation and slower growth, which may provide investors with a better interest-rate environment. We are more optimistic for fixed income in the year ahead as we think bonds are well positioned to provide the income and diversification benefits in 2023 that investors have come to expect from their fixed income allocation.

Thank you for investing in Janus Henderson Multi-Sector Income Fund.

January 2023

Bloomberg U.S. Aggregate Bond TR	(13.01)	(1.54)	7.51	_*	_*
H2 USD (Gross)	(11.36)	3.23	5.79**	_*	_*
Bloomberg U.S. Aggregate Bond TR + 1.25%	(11.93)	(0.31)	8.85	_*	_*

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Bloomberg US Aggregate Bond TR Index by 1.25% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

<sup>\*</sup>The Fund had launched on 4 December 2019, hence no performance numbers disclosed.

 $<sup>^{\</sup>star\star}$  Historical figures are based on the A2 USD share class.

### Statements of Changes in Composition of Portfolio (unaudited)

The tables below show a breakdown of material purchases and sales of the Investment Portfolio in accordance with Central Bank UCITS Regulations 79(2) requirements. All purchases and sales of investments exceeding 1% of the total value of each transaction respectively, are disclosed, with a minimum number of 20 of each such transaction. A full analysis of the movement on the Investment Portfolio is available upon request from the registered office.

### Janus Henderson US Short-Term Bond Fund

# Fund Overview (unaudited) Investment Objective and Policy

The Fund aims to provide as high a level of income as is consistent with the aim of limiting losses to capital over the long term.

Performance target: To outperform the Bloomberg 1-3 Year US Government/Credit TR Index by 0.75% per annum, before the deduction of charges, over any 5 year period.

The Fund invests at least 80% of its assets in US short-term and intermediate-term bonds, issued by governments or companies.

The Fund is actively managed with reference to the Bloomberg 1-3 Year US Government/Credit TR Index, which is broadly representative of the bonds in which it may invest, as this forms the basis of the Fund's performance target. The investment manager has discretion to choose investments for the Fund with weightings different to the index or not in the index, but at times the Fund may hold investments similar to the index.

#### **Fund Overview**

Greg Wilensky, Michael Keough and Seth Meyer\*, portfolio managers

For the year ended 31 December 2022, the H2 USD class returned -5.47% (Net) and -4.96% (Gross) compared with -3.69% and -2.97% Target (Gross) for the Bloomberg 1-3 Year US Government/Credit Index.

Our objective is to generate moderate income from credit spread sectors while limiting drawdowns. To do this, over the cycle, we construct the portfolio with credit risk and a modest amount of interest-rate risk. While we lowered duration as the year progressed, the Fund's average duration exceeded that of the benchmark, which detracted from relative returns as rates rose. We ended the year with a shorter duration position versus the benchmark as the market expected a more dovish scenario than the Federal Reserve (Fed) had communicated. We tended to follow the Fed on this one and thought the market's expectations were too optimistic and that rates were unlikely to move much lower in the coming months.

The Fund's overall spread risk positioning further detracted as spreads widened broadly in 2022. We remained tactical throughout the year and strategically shifted the composition of the Fund's spread risk. Notably, we systematically reduced our allocation to investment-grade and high-yield corporates to cycle lows in favor of higher allocations to securitized sectors. Corporate credit spreads continued to trade near their long-term averages, despite the increased likelihood of an economic slowdown and, in our opinion, had priced in either a low probability of recession or an extremely shallow recession. In contrast, spreads on securitized assets

\*As of 1 October 2022 Seth Meyer also managed the Fund.

widened to levels that better reflected the risk of recession and, in our view, offered better opportunities for risk-adjusted returns.

Our portfolio construction favored being prudent with our allocation to credit and spread risk. While we were concerned about fundamentals in 2023, we believed high-quality short-end credit offered some of the most attractive yields across fixed income markets. Our focus was to take risk in the right places and to be more exposed to those sectors that, in our view, were well-positioned and well-priced for an economic slowdown. To that end, with their higher average credit ratings and spreads trading wider than their 10-year averages, we favored an overweight to short duration securitized sectors relative to corporates.

Shifting to interest rates and duration, we expect the backdrop in 2023 to be about declining inflation and slower growth. The front end of the yield curve may stay higher for longer, with the Fed holding rates through 2023, but we believe the sharp move higher is in the rear-view mirror. As such, attractive carry may lead to positive returns for short duration bonds. We stand ready to dynamically adjust our asset allocation to capitalize on the opportunities we expect this year.

Thank you for investing in Janus Henderson US Short-Term Bond Fund.

January 2023

H2 USD (Gross) Bloomberg 1-3 Year US Govt/Credit TR + 0.75%	(4.96) (2.97)	0.45 0.27	5.39* 4.11	4.66* 4.81	1.67* 2.36

Class H2 USD is disclosed as it is the representative share class.

Performance target: To outperform the Bloomberg 1-3 Year US Government/Credit TR Index by 0.75% per annum, before the deduction of charges, over any 5 year period.

The Total Expense Ratio includes fees payable to Distributors. In some cases where the Fund's outperformance target (before the deduction of charges) relative to the benchmark has been achieved, the return for an individual class may ultimately be below the benchmark return if its ongoing charges exceed the outperformance.

Please note the Gross Returns 5 year annualised table is only applicable for share classes which have been active for 5 or more years and the performance target is to be achieved over a specific annualised time period. Performance target and index shown in USD.

Past performance does not guarantee future returns. The rates of return will vary and the principal value of an investment will fluctuate. Shares, if redeemed, may be worth more or less than their original cost. The performance data does not take account of the commissions and costs incurred on the issue and redemption of Shares. All returns are calculated in the base currency of the representative Share Class.

There is no guarantee that the Fund's performance will match or exceed the benchmark.

 $<sup>^{\</sup>star}$  Historical figures are based on the A2 USD share class.

## **Notes to the Financial Statements**

## 1. Accounting Policies

The significant accounting policies and estimation techniques adopted by the Company are as follows:

### Statement of Compliance

The financial statements for the year ended 31 December 2022 are prepared in accordance with FRS 102 Financial Reporting Standard applicable in the UK and Republic of Ireland issued by the Financial Reporting Council (FRC) and the UCITS Regulations 2011 as amended and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company has applied the same accounting policies and methods of computation in this annual report and financial statements as in its annual financial statements for the financial year ended 31 December 2021 unless otherwise stated.

The format and certain wordings of the financial statements have been adapted from those contained in the FRS 102 and the Companies Act 2014 so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company's business as an investment fund.

#### Fair Value Measurement

Under FRS 102, in accounting for its financial instruments a reporting entity is required to apply either:

- a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments,
- b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, or
- c) the recognition and measurement provisions of IFRS 9 Financial Instruments and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments. The Company has chosen to apply the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments.

#### Use of Estimates

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are outlined within this note to the financial statements.

#### **Basis of Measurement**

The financial statements are prepared under the historical cost convention as modified to include financial assets held at fair value through profit or loss.

The financial statements are prepared on a going concern basis except for Janus Henderson Global Adaptive Capital Preservation Fund and Janus Henderson Intech US Core Fund.

The financial statements for the Funds listed below have been prepared on a basis other than going concern as the Funds have ceased investment activity on the dates provided below. There has been no impact on the financial statements or disclosure notes to adjust assets or liabilities to realisable value. No adjustments were necessary to provide for the costs of terminating the Funds as the Manager will bear any related costs for the Funds.

Fund Name	Closure Date
Janus Henderson Global Adaptive Capital Preservation Fund	25 March 2022
Janus Henderson Intech US Core Fund	28 September 2022

#### Cash Flow Statement

The Funds are not required to produce a cash flow statement as they meet the exemption criteria set out in Section 7 of FRS 102 as the Funds' investments are highly liquid, are carried at market value and a Statement of change in net assets attributable to redeemable ordinary shareholders is provided for each Fund.

### Valuation

The financial statements have been prepared using a valuation date of 31 December 2022 and 31 December 2021.

#### **Investment Valuation**

The Company values both financial assets and financial liabilities at fair value in the Statement of Financial Position and Statement of Comprehensive Income. Gains and losses arising from changes in their fair value are included in the Statement of Comprehensive Income in the financial year in which they arise.

All the Company's assets and liabilities are held for the purpose of being traded.

The Manager has assigned the responsibility to review and approve level 3 fair value pricing decisions on a regular basis to the Janus Henderson USPC.

The Fair Value Hierarchy tables within each individual funds' financial statements present the positions which were fair valued by Janus Henderson USPC and classified as level 3, as at 31 December 2022 and 31 December 2021. These estimated fair values may not reflect amounts that could be realised upon immediate sale or amounts that ultimately may be realised.

#### **Listed Securities**

Securities listed on a recognised exchange or traded on any other organised market are valued at the latest available market price on that regulated market, as at the close of the regular trading session of the New York Stock Exchange ("NYSE") on the relevant Business Day (normally 4:00 p.m., New York time, Monday through Friday) or, if unavailable or, in the opinion of the Administrator unrepresentative of fair value, the last available market price on the principal exchange. If for specific assets the latest available prices do not, in the opinion of the Administrator, reflect their fair value or if prices are unavailable, the value shall be calculated by the Administrator in consultation with the Investment Adviser or the relevant Sub-Investment Adviser on the basis of the probable realisation value for such assets as at the close of the regular trading session of the NYSE on the relevant Business Day. The Administrator may use a systematic fair valuation model provided by an independent third party to value equity securities in order to adjust for stale pricing which may occur between the close of foreign exchanges and the relevant Valuation Point.

#### **Debt Securities**

The fair value of debt securities (including corporate and government bonds) are based on closing evaluated mid prices at the Statement of Financial Position date. The mid prices are obtained from reputable pricing sources. The Fund would exercise judgement on the quantity and quality of pricing sources used. Where no market price is available the Investment Manager/Investment Adviser will determine the fair value using valuation techniques. These valuation techniques include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis and other valuation techniques used by market participants.

### **Investment Funds**

Units or shares in investment funds are valued at the latest available unaudited net asset value estimated by the underlying administrator or, if listed or traded on a Regulated Market, at the latest quoted trade price or a mid-quotation (or, if unavailable, a bid quotation) or, if unavailable or unrepresentative, the latest available unaudited net asset value estimated by the underlying administrator as deemed relevant to the investment fund.

#### Short-Term Investments

Amortised cost calculated using the effective yield method, which approximates fair value, is used to value discounted debt obligations with 60 days or less remaining to maturity, unless a competent person appointed by the Directors or its duly appointed delegate determine that this does not represent fair value. All other short-term investments, including time deposits, are valued at cost, which approximates their fair value. When calculating the effective interest rate, the Company estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses.

### **Exchange Traded Derivative Instruments**

Exchange traded derivative instruments are valued at the close of the regular trading session of the NYSE on the relevant Business Day at the settlement price for such instruments on such market. If the settlement price of an exchange traded derivative instrument is not available, the value of such instrument shall be the probable realisation value estimated with care and in good faith by the Administrator or other competent person approved for the purpose by the Depositary.

### Over-the-Counter ("OTC") Derivative Instruments

OTC financial derivative instruments are valued daily using either the counterparty valuation or an alternative valuation, such as a valuation calculated by the Company or by an independent pricing vendor appointed by the Company provided that the Company or other party has adequate human and technical means to perform the valuation and is approved for that purpose by the Depositary. The counterparty to derivative instruments not traded on an exchange must be prepared to value the contract and to close out the transaction at the request of the Company at fair value. Where the counterparty valuation is used, the valuation must be approved or verified at least weekly by an independent party who is approved for the purpose by the Depositary and who is independent of the counterparty. The independent verification shall be carried out at least monthly. Where an alternative valuation is used, the Company shall follow international best practice and shall adhere to the principles on the valuation of OTC instruments established by bodies such as International Organisation of Securities Commissions ("IOSCO") and Alternative Investment Management Association ("AIMA") such valuation shall be reconciled on a monthly basis to the valuation provided by the counterparty to such instrument. Where significant differences arise these will be promptly investigated and explained.

### **Futures Contracts**

Futures are contracts for delayed delivery of securities in which the seller agrees to make delivery at a specified future date of an instrument, at a specified price or yield. Initial margin deposits are made upon entering into future contracts and are generally made in cash or cash equivalents. Futures contracts are fair valued based upon their daily quoted settlement price. For open futures contracts, changes in the fair value of the contract are recognised as unrealised gains or losses by "markingto-market" the value of the contract at the Statement of Financial Position date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded as a realised gain or loss. Futures contracts are held at fair value through profit or loss. The variation margin receivable or payable at the financial year end date is reported as an asset or liability, as applicable, in the Statement of Financial Position, gains and losses arising from changes in the fair value of the futures contracts are included in the Statement of Comprehensive Income in the financial year which they arise.

#### **Options**

Options are rights to buy or sell an underlying asset or instrument for a specified price (the exercise price) during, or at the end of, a specified contractual period. The seller (or writer) of the option receives a payment, or premium. from the buyer, which the writer keeps regardless of whether the buyer uses (or exercises) the option. The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is added to the cost of the securities or foreign currencies purchased. Premiums paid from the purchase of options, which expire unexercised are treated as realised losses. The premium on written call options exercised is added to the proceeds from the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on written put options exercised is subtracted from the cost of the securities or foreign currencies purchased. Premiums received from written options, which expire unexercised are treated as realised gains. A call option gives the holder (buyer) the right to buy the underlying asset from the seller (writer) of the option. A put option gives the holder the right to sell the underlying asset to the writer of the option. Options can trade on exchanges or in the OTC market and may be bought or sold on a wide variety of underlying assets or instruments, including financial indices, individual securities, and other derivative instruments, such as futures contracts, foreign currencies, forward currency contracts, structured investments (derivative securities which are specifically designed to combine the characteristics of one or more underlying securities in a single note) and yield curve options. Options that are written on futures contracts are subject to margin requirements similar to those applied to futures contracts.

Options, held at fair value though profit or loss, are fair valued daily based upon the quotation provided by counterparty on the principal exchange on which the option is traded. Realised and unrealised gains and losses arising from option contracts are included in the Statement of Comprehensive Income in the financial year in which they arise.

#### **Swaps**

A swap is an agreement that obligates two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset. The Company may utilise swap agreements as a means to gain exposure to certain common stocks and/or to "hedge" or protect their portfolios from adverse movements in securities prices or interest rates. Swap contracts of the Company are reported as an asset or liability on the Statement of Financial Position. Realised gains and losses of the swaps are reported in "Net gain/(loss) on financial assets and liabilities at fair value through profit or loss" on the Statement of Comprehensive Income.

Total return swaps involve an exchange by two parties in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains over the payment financial period. The Company's maximum risk of loss for total return swaps from counterparty risk or credit risk is the discounted value of the payments to be received from/paid to the counterparty over the contract's remaining life, to the extent that the amount is positive. The risk is mitigated by having a netting arrangement between the Company and the counterparty and by the posting of collateral to the Company to cover the Company's exposure to the counterparty. Total return swaps are valued daily by independent pricing vendor Markit.

Equity swaps involve an exchange of cash flows between two parties that allows each party to diversify its income, while still holding its original assets. The two sets of nominally equal cash flows are exchanged as per the terms of the swap, which may involve an equity-based cash flow (such as from a stock asset) that is traded for a fixed-income cash flow (such as a benchmark rate). Equity swaps are valued daily by independent pricing vendor Markit.

An interest rate swap is an agreement between two parties in which one stream of future interest payments is exchanged for another based on a specified principal amount. Interest rate swaps usually involve the exchange of a fixed interest rate for a floating rate, or vice versa, to reduce or increase exposure to fluctuations in interest rates or to obtain a marginally lower interest rate than would have been possible without the swap. Interest rate swaps are valued daily by independent pricing vendor Markit.

Credit default swap agreements ("CDS") enable the Company to buy or sell credit protection on an individual issuer or basket of issuers. The Company may enter into CDS to gain long or short exposure to sovereign bond markets. Long CDS positions are utilised to gain exposure to a sovereign bond market (similar to buying a bond) and are akin to selling insurance on the bond. Short CDS positions are utilised to short exposure to a sovereign bond market (similar to shorting a bond) and are akin to buying insurance on the bond. CDS are valued daily by independent pricing vendor Markit. All credit default swap positions held are centrally cleared.

Some derivatives may be centrally cleared through a Central Counterparty Clearing House ("CCP"). A CCP is a financial institution that takes on counterparty credit risk between parties to a transaction and provides clearing and settlement services for trades in foreign exchange, securities, options, and derivative contracts. For centrally cleared trades the CCP marks contracts to market, and requires the posting of variation margin in response to changes in market values. Details of individual Funds exposure to the CCP is detailed in the relevant portfolio investments.

### **Forward Currency Contracts**

The Company may, without limitation, enter into three types of forward currency contracts: non-base currency Share Class level hedging, foreign security hedging and security transaction level hedging. The unrealised appreciation or depreciation on open forward currency contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract. Realised gains or losses include net gains/losses on contracts, which have been settled or offset by other contracts.

For foreign security and security transaction level hedging, realised and unrealised gains and losses are allocated at Fund level. For non-base currency Share Class level hedging the realised and unrealised gains and losses are allocated solely to the relevant Share Class.

#### **Tranche Loans**

The Company invests in direct debt instruments which are interests in amounts owed to lenders or lending syndicates by corporate, governmental, or other borrowers. A Fund's investment in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties. When investing in a tranche loan, a Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the lender selling the loan agreement and only upon receipt of payments by the lender from the borrower. Tranche loans are fair valued based on valuations provided by the independent pricing vendor Markit. Fees earned or paid and the receipt of payments of principal are recorded as a component of net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

### **Private Placement Investments**

A private placement is a private alternative to issuing a publicly offered security as a means for raising capital. In a private placement the sale of securities is made directly by the issuer to a select number of investors without public offering through an investment bank. Typically, when the Fund invests through a private placement, the Fund makes a commitment to invest a specified amount of capital in the investee private company in a series of tranches. The capital commitment for the initial and any future closings are triggered following the completion of defined conditions or events.

The Fund recognises investment purchases in the financial statements for tranches that completed or became binding transactions prior to the end of the financial reporting period. These are then included in the year end investment portfolio as an investment holding. Private placements are fair valued using valuation techniques approved by the Janus Henderson USPC in line with the valuation policy. Future tranches that have not completed before the year end and are dependent on future events are unfunded commitments and not recognised in the financial statements. These future commitments are disclosed in the Unfunded commitments and contingent liabilities Note 14.

### Receivables and Payables

Receivables and payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

#### Allocations between Classes

A Fund's income, expenses provisions, accruals and changes in values are allocated between classes using an allocation ratio representing the proportion of the Fund nominally owned by each class. In addition class specific movements, such as class fees and charges are applied to just the appropriate class. Subscriptions, redemptions and gains or losses on share class hedges are applied as class specific items.

### Cash, Bank Overdraft and Other Liquid Assets

Cash, bank overdraft and other liquid assets are valued at their fair value with the relevant interest accrued, where applicable, and charged to the Statement of Comprehensive Income when incurred.

#### Investment Transactions and Investment Income

Investment transactions are accounted for as of the date purchased or sold. Gains and losses arising from changes in the fair value of the financial assets at fair value through profit or loss are included in the Statement of Comprehensive Income in the financial period in which they arise. The weighted average cost basis is used to calculate realised gains and losses on the sale of investments. The Fund derecognises an investment as a financial asset when the contractual rights to the cash flows from the financial asset expire or a financial asset is transferred and the transfer qualifies for derecognition with FRS 102. The Fund derecognises an investment as a financial liability when the obligation specified in the contract is discharged, cancelled or expired.

Dividends are included in the Statement of Comprehensive Income on the dates on which the relevant securities are listed as "ex-dividend". Interest income is accrued daily on an effective yield basis. Income is shown gross of non-recoverable withholding tax. Withholding tax is shown net of any reclaim receivable.

#### **Expenses**

Expenses are accounted for on an accruals basis and are charged to the Statement of Comprehensive Income when incurred.

#### **Transaction Costs**

Transaction costs include fees and commissions paid to agents (including employees acting as selling agents), advisers, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative costs. Transaction costs on financial assets and liabilities at fair value through profit or loss are expensed as incurred. Transaction costs per Fund are presented in Note 12.

# Distributions Payable to Holders of Redeemable Ordinary Shares

Distributions to holders of redeemable ordinary shares are recognised in the Statement of Comprehensive Income when they are appropriately authorised and no longer at the discretion of the Company. Distributions paid to holders of redeemable ordinary Shares are classified as finance costs in the Statement of Comprehensive Income. Please refer to the Prospectus for details on distribution policies applicable to each Class of Shares.

#### Income Equalisation

All Funds operating a distributing share class intend to operate income equalisation. Income equalisation prevents the dilution of current shareholders' earnings by applying a portion of the proceeds from Shares issued or redeemed to undistributed income. When Shares are purchased or redeemed the price may include an element of income. Equalisation is this element of income paid out to shareholders who have purchased or redeemed during this financial year and it is accounted for in the Statement of Changes in Net Assets Attributable to Redeemable Ordinary Shareholders in the Proceeds from/Redemption of redeemable ordinary shares.

#### **Dilution Adjustment**

A Fund may suffer dilution which is a reduction in the value of the assets as a result of the costs incurred in dealing in its underlying investments and of any spread between the buying and the selling prices of such investments which is not reflected in the issue or redemption price paid by or to shareholders. With a view to countering this (which, if it is significant, disadvantages existing or continuing shareholders), the Directors may make an adjustment to the share price on a dealing day. The dilution adjustment may apply to redemptions or to subscriptions and if charged, the value of the dilution adjustment will be paid into the Fund and will become part of the net asset attributed to the relevant Fund. Any dilution adjustments are disclosed in Statement of Changes in the Net Assets Attributable to Redeemable Ordinary Shareholders.

Where a dilution adjustment is applied, it will increase the Net Asset Value per Share of a Fund when there are net inflows and decrease the Net Asset Value per Share of a Fund when there are net outflows. The Net Asset Value per Share, as adjusted by any dilution adjustment, will be applicable to all transactions in Shares or the relevant Fund on the relevant dealing day. Therefore, for an investor who subscribes to a Fund on a dealing day when the dilution adjustment increases the Net Asset Value per Share, the cost per Share to the investor will be greater than it would have been absent the dilution adjustment. For an investor who redeems a certain number of Shares from a Fund on a dealing day when the dilution adjustment decreases the Net Asset Value per Share, the amount received by the investor in redemption proceeds for the Shares redeemed will be less than it would have been absent the dilution adjustment.

## Foreign Exchange Translation

Functional and Presentation Currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"), which is the US Dollar (USD). All amounts disclosed in the financial statements are in USD (the "presentation currency"), with the exception of the Janus Henderson Intech European Core for which the functional currency is the Euro (EUR).

The Statement of Financial Position is translated using exchange rates listed in Note 11 at the financial year end and the Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Redeemable Ordinary Shareholders are translated at an average rate over the financial year for inclusion in the combined financial statements of the Company. The resulting notional currency gain/(loss) on retranslation of opening net assets is included in the Combined Company Statement of Changes in Net Assets Attributable to Redeemable Ordinary Shareholders.

The method of translation has no effect on the value of net assets allocated to the individual Funds.

## Transactions and Balances

Assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the Statement of Financial Position date. Transactions in foreign currencies are translated into the functional currency at the exchange rates ruling at the dates of the transactions. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the financial year.

## Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where the Company has a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

## 2. Share Capital

### **Authorised**

The paid up share capital of the Company shall at all times equal the combined net asset value of the Funds. The Directors are authorised to issue up to 500 billion Shares of no par value each. For financial statements purposes, these are deemed to be either subscriber shares or redeemable ordinary Shares ("Ordinary Shares").

### Subscriber Shares

There are currently 30,000 subscriber shares in issue of no par value, held by two subscriber shareholders. The subscriber shares do not form part of the net asset value

of the Company and are thus not disclosed in the financial statements except by way of this note only. The subscriber shares entitle the shareholders holding them to attend and vote at all meetings of the Company, but do not entitle the holders to participate in the dividends or net asset value of any Fund or of the Company.

### Redeemable Ordinary Shares

The Company issues redeemable ordinary shares, which are redeemable at the holder's option and are classified as financial liabilities. Redeemable ordinary shares can be put back to the Company at any time for cash equal to a proportionate share of the net asset value of the relevant Fund. The redeemable ordinary share is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the share back to the Company at that date. Holders of redeemable ordinary shares are entitled to attend and vote at meetings of the Company and of the Fund represented by those Shares.

The net asset value for each Class of Shares of each Fund is calculated by determining the value of the assets of the relevant Fund applicable to that Class, including accrued income, and deducting all liabilities (including all fees and charges) of that Class, and dividing the resultant sum by the total number of Shares of that Class in the relevant Fund in issue or allotted at that time, to give the net asset value per Share per Class of the Fund. As the Share Classes of each Fund will have different amounts of liabilities, the net asset value per Share attributable to each of them, even within the same Fund, will be different.

#### **Hedged Share Classes**

In order to limit the currency exposure between the share classes denominated in a currency other than the relevant Fund's base currency (with the exception of BRL Hedged share classes which are denominated in the relevant Fund's base currency) and that include the prefix "H" in their names, the relevant currency of the share class may be hedged provided that (1) it is generally in the best interests of the Shareholders of the relevant class and (2) the overhedged position will not exceed 105% of the net asset value of the share class.

Alternatively a hedged currency share class (the "Portfolio Hedged Share Class") that include the prefix "PH" in their name may be created with the aim of hedging any currency exposure between the currency of the share class and the currency of any underlying investment of a Fund to the extent a Fund has not hedged the currency exposure between the Base Currency of that Fund and the currencies of the underlying investments of that Fund.

## 3. Related Party Transactions

Janus Henderson Investors Europe S.A. ("JHIESA") was appointed as manager of the Company with effect from 00.01 am (Irish time) on 6 July 2020. JHIESA is responsible for the general management of the Company's affairs and is the distributor of the Funds. JHIESA has appointed JHIIL as

the Company's investment adviser. JHIIL acts as Investment Adviser and Distributor to the Company. JHIIL is a company incorporated under the laws of England and Wales, which is authorised and regulated by the Financial Conduct Authority ("FCA") in the UK. JHIIL holds 29,997 Subscriber Shares of the Company as of 31 December 2022 (31 December 2021: 29,997).

JHIIL has delegated to JHISL responsibility for providing discretionary investment management and advisory services the whole or part of the assets of the Janus Henderson Global Real Estate Equity Income Fund, pursuant to an Investment Management Delegation Agreement dated 15 December 2017, as amended. JHISL is a limited liability company incorporated in Singapore and is regulated by the Monetary Authority of Singapore.

JHIIL has delegated to JHIUKL responsibility for providing discretionary investment management and advisory services the whole or part of the assets of the Janus Henderson Global Real Estate Equity Income Fund, Janus Henderson Absolute Return Income Fund, Janus Henderson Absolute Return Income Opportunities Fund, Janus Henderson Fixed Maturity Bond Fund I (This fund was authorised during the year 2020, the fund is yet to launch), Janus Henderson Multi-Sector Income Fund and Janus Henderson Global Investment Grade Bond Fund pursuant to an Investment Management Delegation Agreement dated 15 December 2017, as amended. JHIUKL is a limited liability company incorporated under the laws of England and Wales. JHIUKL is authorised and regulated by the FCA.

JHIIL has delegated to JHIUS responsibility for providing discretionary investment management and advisory services to the whole or part of the assets of the Equity & Allocation Funds (except for the Janus Henderson US Small-Mid Cap Value Fund), the Alternative Investment Funds and the Fixed Income Funds pursuant to an Investment Management Delegation Agreement dated 17 August 1999, as amended. JHIUS is registered as an investment adviser with the US Securities and Exchange Commission. JHIUS which indirectly owns JHIIL is owned by Janus Henderson Group plc. JHIUS hold the 3 remaining Subscriber Shares of the Company as of 31 December 2022 (31 December 2021: Nil).

JHIIL has previously delegated to Intech responsibility for providing discretionary investment management and advisory services to the Intech Sub-Advised Funds pursuant to an Investment Management Delegation Agreement dated 6 January 2003, as amended. Intech has been in the investment advisory business since 1987 and served as investment adviser or sub-adviser to a number of mutual funds, institutional investors and separately managed accounts. On March 31 2022, the Janus Henderson Group plc ("JHG") completed the sale of its 97.11% ownership of Intech to a consortium composed of Intech management and certain non-executive directors (the "Management Buyout"). [The Management Buyout is expected to enable both organisations to refocus on their key value propositions:

JHG on providing active, fundamental investing, and Intech on delivering quantitative investment solutions for institutional investors.] JHG and Intech also entered into a transition services agreement that provides for continuous support services to help ensure a seamless transition in operations and continuity in serving Intech's clients. As of 31 December 2022, 0% (31 December 2021: 97.11%) of the outstanding voting shares of Intech were ultimately owned by JHG. There were no transactions between the funds and Intech Investment Management LLC during the year.

Kapstream Capital PTY Limited was appointed as Sub-Investment Adviser to the Janus Henderson Absolute Return Income Fund and Janus Henderson Absolute Return Income Opportunities Fund pursuant to an Investment Management Delegation Agreement dated 5 November 2019, as amended.

Janus Henderson Investors UK Limited ("JHIUKL") was appointed as Sub-Investment Adviser to the Janus Henderson Absolute Return Income Fund, Janus Henderson

Absolute Return Income Opportunities Fund, Janus Henderson Fixed Maturity Bond Fund I (This fund was authorised during the year 2020, the fund is yet to launch) and Janus Henderson Multi-Sector Income Fund during the year. JHIESA has also appointed JHIUKL as the distributor of the Funds.

lan Dyble, Matteo Candolfini and Jane Challice are officers of Janus Henderson Group plc and have waived their right to a director's fee during the financial years ended 31 December 2022 and 31 December 2021. Carl O'Sullivan and Peter Sandys are the Independent Directors and receive a fixed fee from the Company in their roles as directors. All transactions with related parties, Directors or any party in which they have a material interest are entered into in the ordinary course of business and on normal commercial terms.

None of the Directors have entered into an employment or service contract with the Company. Directors' remuneration is detailed in Note 15 to the financial statements.

In accordance with the requirements of the UCITS Regulations FRS 102 section 33 the following table details the total value of transactions between JHIIL and related parties for the financial year 31 December 2022. The total value of purchases and sales transactions between JHIIL and related parties were 254,994,015.03 and 259,155,598.85 respectively for the financial year 31 December 2021. The total number of transactions between the related parties were 202 purchases (2021: 1,524 purchases) and 222 sales (2021: 1,537 sales) of corporate bonds.

In respect of the Class Z Shares, the Investment Adviser is entitled to an investment management fee which is payable under a separate agreement with the Investment Adviser into which each investor will enter (and maintain) prior to their initial subscription for Class Z Shares in the Fund.

<sup>\*</sup>Calculated as a percentage of the Fund's average daily net asset value attributed to the relevant class.

<sup>\*\*</sup>Class B is 1.00% However Class E is 0.55% as per the latest Prospectus.

<sup>\*\*\*</sup>Class I is 0.50% However Class S is 0.60% as per the latest Prospectus.

<sup>\*\*\*\*</sup>For Janus Henderson US Research Fund and Janus Henderson US Small-Mid Cap Value Fund Class T is 1.00% as per the latest Prospectus.

<sup>\*\*\*\*\*</sup>For Janus Henderson Balanced Fund Class IA is 1.00% as per the latest Prospectus.

#### Shareholder Service Fees

A shareholder service fee with respect to Class A Shares is payable out of the assets of each Fund at the rate of up to 0.75% per annum (up to 0.60% for the Janus Henderson Global Adaptive Multi-Asset Fund, up to 0.50% for the Janus Henderson Intech European Core Fund and the Janus Henderson Multi-Sector Income Fund, up to 0.40% for the Janus Henderson Global Investment Grade Bond Fund, up to 0.25% for the Janus Henderson Absolute Return Income Fund and Janus Henderson Absolute Return Income Opportunities Fund and up to 0.20% for the Janus Henderson US Short-Term Bond Fund) of the Fund's average daily net asset value attributable to Class A Shares.

A shareholder service fee with respect to Class B Shares is payable out of the assets of each Fund attributable to the Class B Shares at the rate of up to 0.75% per annum (up to 0.50% for the Janus Henderson Intech European Core Fund and the Janus Henderson US Short-Term Bond Fund) of the Fund's average daily net asset value attributable to Class B Shares.

A shareholder service fee with respect to Class E Shares is payable out of the assets of each Fund attributable to the Class E Shares at the rate of up to 1.25% for each of the Equity & Allocation Funds, Intech Sub-Advised Fund and Alternative Investment Funds, up to 1.00% for each of the Fixed Income Funds per annum of the relevant Fund's average daily net asset value attributable to Class E Shares.

A shareholder service fee with respect to Class T Shares is payable out of the assets of each Fund attributable to the Class B Shares at the rate of up to 0.75% per annum (up to 0.50% for the Janus Henderson Intech US Core Fund and up to 0.20% for the Janus Henderson US Short-Term Bond Fund) of the Fund's average daily net asset value attributable to Class T Shares.

A shareholder service fee with respect to Class V Shares is payable out of the assets of each Fund attributable to the Class V Shares at the rate of up to 0.75% per annum (up to 0.50% for Intech European Core Fund and the Janus Henderson US Short-Term Bond Fund) of the Fund's average daily net asset value attributable to Class V Shares.

A shareholder service fee with respect to Class Y Shares is payable out of the assets of each Fund at the rate of up to 0.40 % per annum of the Fund's average daily net asset value attributable to Class Y Shares.

There are no shareholder service fees with respect to Class I, Class IA, Class S, Class U, Class G, Class H and Class Z Shares.

A shareholder service fee is payable to the Manager for onward transmission to the relevant Distributor or, where the Manager is acting in its capacity as Distributor, retained by the Manager.

#### **Distribution Fees**

A distribution fee with respect to Class B and T is payable out of the assets of each Fund at the rate of up to 1.00% per annum of the Fund's average daily net asset value attributable to each such Class.

A distribution fee is payable to the Manager, for onward transmission to the relevant Distributor or, where the Manager is acting in its capacity as Distributor, retained by the Manager.

Fees charged in relation to Investment Management, Shareholder Service and Distribution Fees are shown as separate line items in the Statement of Comprehensive Income.

### **Fund Expense Limits**

The Investment Adviser has agreed to waive all or a portion of its investment management fee to the extent necessary to ensure that the total fees (including all fees of the Administrator, the Depositary and any Company representatives in any jurisdiction) and out-of-pocket expenses allocated to a Fund in any fiscal year do not exceed the percentage of average daily net assets attributable to each Class of Shares of such Fund which are set out in the "Fees and Expenses" section of the Prospectus.

## Management fees

The Manager shall be entitled to receive a fee out of the assets of the Company. Such fee shall accrue daily and shall be payable monthly in arrears. The fee payable to the Manager in relation to the provision of management services shall not exceed 0.025% of NAV of the Company per annum plus the amount of the maximum investment management fee per Share Class payable to the Investment Adviser. The Manager shall also be entitled to be reimbursed by the Company for all reasonable disbursements and out-of-pocket expenses incurred by it and the Investment Adviser, if any.

### Contingent Deferred Sales Charge

Class B, Class T and V Shares are subject to a Contingent Deferred Sales Charge (CDSC) if an investor redeems Shares within four and three years of purchase respectively. Any such CDSC collected shall be payable to the Manager for onwards transmission to the relevant Distributor or, where the Manager is acting in its capacity as Distributor, retained by the Manager. The amount of the CDSC will vary depending on the number of years from the time of purchase of the Shares until the time of redemption of such Shares.

#### 4. Taxation

The Directors have been advised that under current Irish law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997 (of Ireland) (as amended). On that

basis it is not generally chargeable to Irish tax on its income and gains.

Tax may however arise on the occurrence of a chargeable event in the Company. A chargeable event includes any payments of distributions to Shareholders, any encashment, repurchase, redemption, cancellation or transfer of Shares and any deemed disposal of Shares as described in the Company's Prospectus.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) a Shareholder who is neither resident nor ordinarily resident in Ireland at the time of the chargeable event and has made the necessary signed statutory declarations to that effect which are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- (b) certain exempted Irish resident investors as defined in the Prospectus and who have provided the Company with the necessary signed statutory declarations.

If the Company becomes liable to account for tax on a chargeable event, the Company shall be entitled to deduct from the payment arising on that chargeable event an amount equal to the appropriate tax and/or, where applicable, to repurchase and cancel such number of Shares held by the Shareholder as is required to meet the amount of tax. The relevant Shareholder shall indemnify and keep the Company indemnified against loss arising to the Company by reason of the Company becoming liable to account for tax on the happening of a chargeable event.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/ gains are received and such taxes may not be recoverable by the Company or its shareholders.

On 1 April 2018, India introduced a taxation regime for long term capital gains. As a result, the Janus Henderson Global Research Fund has included a provision of Nil (2021: USD 11,965) for tax on incremental Indian long term and short term capital gains earned as at 31 December 2022 on Indian securities. Other overseas capital gains tax is recognised when paid and no provision has been made for this.

#### 5. Margin Cash and Collateral

All cash balances and bank overdrafts, for the financial year ended 31 December 2022 and 31 December 2021, were held by the Depositary, with the exception of margin cash and cash held as collateral. The below tables show the margin cash, cash collateral and non-cash collateral held for financial derivatives such as futures, options and swaps and the associated counterparties at the financial years ended 31 December 2022 and 31 December 2021.

As at 31 December 20	22

Janus Henderson US Short-Term Bond Fund	Goldman Sachs	55,124	250,000	-	Futures

Cash collateral provided by the Fund is identified in the Statement of Financial Position as collateral cash and is

not included as a component of cash and foreign currency. Cash collateral payable to the broker is identified in the Statement of Financial position as Collateral cash payable to broker. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as pledged collateral. Where the party to whom the collateral is provided does not have the right to sell or re-pledge, a disclosure of the collateral provided is made in the notes to the financial statements.

#### 6. Commitments and Contingent Liabilities

For Credit Default Swaps in which the Company is selling protection the notional amount of the Credit Default Swap contract on which protection has been sold represents the maximum payout. As at 31 December 2022 and 31 December 2021 there is no credit risk exposure.

### 7. Securities Lending

The Company has entered into a securities lending programme with J.P. Morgan Chase Bank, National Association (London Branch) acting as the Securities Lending Agent for the purposes of efficient portfolio management and in order to generate additional revenue. The Securities Lending Agent shall ensure that sufficient value and quality of collateral is received before or simultaneously with the movement of loaned collateral. This will then be held throughout the duration of the loan transaction and only returned once the lent asset has been received or returned back to the relevant fund. The Securities Lending Agent will also monitor and maintain all operational aspects of the assets while they are on loan. Securities lending revenue is accounted for in the Statement of Operations within 'Other income'. As remuneration for this agency role, J.P. Morgan Chase Bank, National Association (London Branch) receives a maximum of 8% of the variable fees from the associated program.

All securities are fully collateralised.

As at 31 December 2022, the market value of the securities lent is as follows:

Fund	Counterparty	Currency	Total market value of securities on loan	Amont of collateral received	Type of collateral

Janus Henderson High Yield Fund	USD	355	40	315

<sup>\*</sup>The direct and indirect costs and fees also include withholding tax in addition to the 8% Securities lending fee.

### 8. Soft Commissions Arrangements

The Investment Manager and where relevant, subinvestment managers, use investment research, both internally generated and externally sourced, to inform their decision making.

The Investment Manager, and where relevant subinvestment managers, pay for investment research from their own resources.

For the year ending 31 December 2022 and 31 December 2021 there were no soft commission arrangements.

#### 9. Cross Liability

The Company has segregated liability between Funds. This ensures that the liabilities incurred on behalf of a Fund will generally be discharged solely out of the assets of that Fund and there generally can be no recourse to the other Funds to satisfy those liabilities. Notwithstanding the foregoing, there can be no assurance that, should an action be brought against the Company in the courts of another jurisdiction, the segregated nature of the Funds would necessarily be upheld. In addition, whether or not there is a crossliability between Funds, proceedings involving an individual Fund could involve the Company as a whole which could potentially affect the operation of all Funds.

## 10. Efficient Portfolio Management

The Company may enter into derivative contracts and Securities Financing Transactions (a repurchase transaction, securities or commodities lending and securities or commodities borrowing, a buy-sell back transaction or sell-buy back transaction and a margin lending transaction) for the purposes of efficient portfolio management. Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk; the reduction of cost; or the generation of additional capital or income for the Funds with an appropriate level of risk, taking into account the risk profile of the Funds. Permitted efficient portfolio management transactions are transactions in derivative contracts dealt in or traded on regulated markets operating regularly or over-the-counter arrangements with highly rated financial institutions specialising in this type of transactions.

During the financial year, forward currency contracts, futures, options, swaps transactions and stock lending arrangements were entered into for the purpose of efficient portfolio management in order to hedge currency and market exposure and/or for investment purposes. Details of all open transactions at the financial year end are disclosed in the Portfolio Investments.

The Funds did not engage in any efficient portfolio management techniques using repurchase and reverse repurchase agreements during the years ended 31 December 2022 and 31 December 2021.

## 11. Exchange Rates

The following exchange rates were used to translate assets and liabilities in currencies other than USD at 31 December 2022 and 31 December 2021:

Janus Henderson US Short-Term Bond Fund	USD	5,407	USD	4,472
Short-rellif Dona i uliu	030	3,401	030	4,412

<sup>\*</sup>There is a change in the methodology for calculation of transaction cost and hence the prior numbers were updated accordingly.

There were no transaction costs for Janus Henderson Global Investment Grade Bond Fund for the financial year ended 31 December 2021.

Direct transaction costs related to bonds and collective investments schemes are not separately identifiable as with other financial instruments as the costs form part of the dealing spread and therefore are inherent within the purchase and sale prices of the trade.

Transaction costs on purchases or sales of investments at fair value through profit or loss are presented in the statement of comprehensive income within 'Net (loss)/gain on financial assets and liabilities at fair value through profit or loss', in the period in which they arise.

### 13. Distribution Policy

The Company will declare or make dividend payments as per the distribution policy of each share class.

Where the above Classes of Shares operate equalisation, distributions made by such Classes of Shares will include an amount of income equalisation. This amount corresponds to the equalisation income included in the net asset value per Share of such Classes.

Please refer to pages 357 to 358 (which are unaudited) for details on distribution policies applicable to each Class of Share.

# 14. Financial Instruments and Financial Derivative Instruments

As an investment company, in pursuing their investment objectives set out in the Prospectus, the Funds hold a number of financial instruments, and derivatives for efficient portfolio management, which means that the assessment and monitoring of these risks attached to these instruments is fundamental to the financial position and results of the Company. These comprise of:

- Equity and non-equity shares, fixed income securities, floating rate securities, tranche loans and derivatives. These are held in accordance with each Fund's investment objectives and policies;
- Cash, liquid resources and short-term debtors and creditors that arise directly from operations; and
- Redeemable ordinary shares which represent investors' monies which are invested on their behalf.

Risk can be separated into the following components: Market Risk, Credit Risk and Liquidity Risk. The main risks arising from the Company's financial instruments are market price, foreign currency, interest rate, liquidity, credit, counterparty risk, increased margin calls and unlimited risk of loss. Further details of these and other risks are set out in the Prospectus under the heading "Risk Factors and Special Considerations".

#### Assessment and Monitoring of Risk

Day-to-day risk management of the Company is undertaken by the Investment Adviser. The Investment Adviser together with the Sub-Investment Advisers identify, monitor and manage all applicable risks pertaining to the Company to the extent required under the UCITS Regulations. The Investment Adviser has undertaken to report to the Manager on a monthly basis matters arising in relation to the monitoring of certain material risks arising from a Fund's investments in financial instruments. In addition to the

Investment Adviser undertaking a daily review of a Fund's investments in financial instruments, other risk management issues are also reported on a quarterly basis to the Manager by the individual or individuals within the relevant service providers responsible for monitoring risk including certain operational risks relating to the Company's key service providers.

The risk management process is well integrated with the Investment Adviser's investment process. The Investment Adviser has a dedicated Risk Management Group that ensures that risk is continuously monitored versus the benchmarks. The Risk Management Group meets periodically with the portfolio managers to highlight the risk and positioning of the portfolios.

## **Securities Lending Arrangements**

A Fund may seek to earn additional income through lending its securities to certain qualified broker-dealers and institutions. There is the risk that when portfolio securities are lent, the securities may not be returned on a timely basis, and a Fund may experience delays and costs in recovering the security or gaining access to the collateral provided to a Fund to collateralise the loan. If a Fund is unable to recover a security on loan, the Fund may use the collateral to purchase replacement securities in the market. There is a risk that the value of the collateral could decrease below the value of the replacement security, resulting in a loss to the Fund. In participating in any securities lending programme, assets of the Company may be transferred to certain borrowers. Notwithstanding the requirement to receive collateral from any borrower, there are certain risks inherent in the lending of securities such as the default or failure of a borrower or securities lending agent. In addition, there are certain market risks associated with the investment of any collateral received from a borrower which could result in a decline in the value of the invested collateral, resulting in a loss to the Company.

The Investment Adviser has appointed the following Sub-Investment Advisers with responsibility for investing and managing the assets of the Funds and for assisting in identifying, monitoring and managing the relevant risks.

Janus Henderson Investors US LLC ("JHIUS"),
Janus Henderson Investors (Singapore) Limited
("JHISL") and Janus Henderson Investors UK Limited
("JHIUKL")

JHIUS and JHISL generally take a "bottom-up" approach to building portfolios. In other words, they seek to identify individual companies with earnings growth potential that may not be recognised by the market at large. Those Funds in the Equity and Allocation Funds and Alternative Fixed Income Investment Funds categories with the exception of the Janus Henderson US Small-Mid Cap Value Fund follow an investment strategy in which companies are considered principally on their own fundamental qualitative and quantitative characteristics. Commonly referred to as stock picking or bottom up investing, portfolios

of fundamental based investment funds are built one security at a time following intensive in house research into each company. Areas of research focus can include the company's management, financials, competitive strengths and weaknesses, earnings growth prospects and numerous other metrics. This approach rests on a belief that some companies have inherent strengths for creating shareholder value over time, have superior prospects to their peer groups and should therefore outperform even in challenging industry and economic circumstances. The purpose of a fundamental investment approach is to identify and invest in such companies.

JHIUKL is the Sub-Investment Adviser for the Janus Henderson Absolute Return Income Fund, Janus Henderson Absolute Return Income Opportunities Fund, Janus Henderson Multi-Sector Income Fund and Janus Henderson Fixed Maturity Bond Fund I (This fund was authorised during the year 2020, the fund is yet to launch). There is no overarching house style used by JHIUKL team. Each team is responsible for their investment process, stock selection, and portfolio construction. Research analysts are embedded within teams as required, depending on the requirements of the individual investment processes

#### 2. Intech Investment Management LLC ("Intech")

Intech the Sub-Investment Adviser for the Janus Henderson Intech European Core Fund, applies a mathematical approach to building portfolios. Intech developed the formulas underlying this mathematical process. The process is designed to take advantage of market volatility (variation in stock prices), rather than using research or market/economic trends to predict the future stocks. The process seeks to generate a return in excess of the relevant Risk Managed Equity Fund's benchmark over the long term, while controlling the risk relative to the benchmark.

Intech's investment and risk process is unique in that it is based on a rigorous mathematical theory – its risk process employs a proprietary optimisation process to identify the target security weights in the portfolio. Using a precise mathematical formula and applying that within specific risk constraints, the process attempts to identify a portfolio that is more efficient than the benchmark index.

## 3. Kapstream Capital PTY Limited ("Kapstream")

Kapstream, is the Sub-Investment Adviser for the Janus Henderson Absolute Return Income Fund and Janus Henderson Absolute Return Income Opportunities Fund during the year. Kapstream portfolios are managed on a largely unconstrained basis, with risk constraints limited mostly to headline exposures. Risk is specifically managed and monitored through a combination of proprietary inhouse and external quantitative risk systems (Kapstream Analytics Portal, SimCorp Dimension, Bloomberg, FINCAD) and the judgment of the portfolio managers.

#### Market Risk

This risk comprises of three types of risk, Market Price Risk, Foreign Currency Risk and Interest Rate Risk.

#### Market Price Risk

Market price risk arises mainly from uncertainty about future prices of financial instruments held, which are classified as financial assets at fair value through profit or loss. It represents the potential loss the Company might suffer through holding market positions in the face of price movements. The value of Shares of a Fund and the related income may rise or fall, as the fair value price of the securities in which the Fund invests may fluctuate. Each Fund seeks to maintain a diversified portfolio but certain Funds may be less diversified leading to an increased concentration of investments which will increase the risk of that Fund suffering proportionately higher loss should a particular investment decline in value. Investment concentrations within the portfolio for each Fund are disclosed in the Portfolio Investments. There can be no assurance that the Funds will achieve their investment objectives. Certain Sub-Investment Advisers may take a "bottom up" approach to building portfolios. In other words, they seek to identify individual companies with earnings growth potential that may not be recognised by the market at large.

As at 31 December 2022 and 31 December 2021, for the Funds listed in the following table, should the market value have increased or decreased by 5% with all other variables remaining constant, the increase or decrease in net assets attributable to holders of redeemable ordinary shares at the year end is shown in the following table:

Market Price Risk - 31 December 2022 and 31 December 2021

		Volatility		Increase or decrease of financia assets or liabilities a fair value through profit or loss	
Fund	Currency	2022	2021	2022	2021

The analysis is based on the investment valued as incorporated in the financial year end Dealing Net Asset Value.

Please refer to note 1 of the financial statements for details of Fund closures during the year.

### Global Derivative Exposure

For all Funds other than the Janus Henderson Absolute Return Income Opportunities Fund, Janus Henderson Global Adaptive Capital Preservation Fund, Janus Henderson Global Adaptive Multi-Asset Fund and Janus Henderson Absolute Return Income Fund, the Investment Adviser uses the "commitment approach" to quantitatively measure the Fund's global exposure when using financial derivative instruments ("FDI"). In the case of the Janus Henderson Global Adaptive Capital Preservation Fund, Janus Henderson Global Adaptive Multi-Asset Fund, Janus Henderson Absolute Return Income Fund and Janus Henderson Absolute Return Income Opportunities Fund the Investment Adviser uses the Value at Risk ("VaR") method.

The VaR of the relevant Funds, are set to a time horizon of 20 days and a one-tailed confidence level of 99% such that the resulting VaR number represents the level of loss that should occur in only one out of one hundred periods. The models and methods are continuously backtested in each Fund's specific environment to ensure they are capturing the extreme risks of a Fund to within an accepted tolerance level. The Funds are stress tested continuously, with a review of these tests being carried out quarterly. Further to the above, the calculation of VaR will be carried out in accordance with the following parameters:

(a) one-tailed confidence interval of 99%;

- (b) holding period of 20 days;
- (c) effective observation period (history) of risk factors of at least one (1) year (250 business days) unless a shorter observation period is justified by a significant increase in price volatility (for instance in extreme market conditions);
- (d) quarterly data set updates, or more frequent when market prices are subject to material changes; and
- (e) at least daily calculation.

The following table details the Absolute VaR during the financial years 2022 and 2021:

31 December 2022			
	Lowest VaR (%)	Highest VaR (%)	Average VaR (%)
Janus Henderson Global Adaptive Capital			
Preservation Fund* Janus Henderson	1.00	2.80	1.70
Global Adaptive Multi- Asset Fund	3.00	9.90	6.10
Janus Henderson Absolute Return Income Fund	0.30	2 40	0.80
Janus Henderson Absolute Return Income	0.30	2.40	0.60
Opportunities Fund	0.70	2.70	1.20

31 December 2021			
	Lowest VaR (%)	Highest VaR (%)	Average VaR (%)
Janus Henderson Global Adaptive Capital			
Preservation Fund Janus Henderson	1.40	6.40	2.50
Global Adaptive Multi- Asset Fund Janus Henderson	7.40	12.70	9.40
Absolute Return Income	1.10	2.10	1.50
Janus Henderson Absolute Return Income		20	
Opportunities Fund	0.80	1.90	1.20

## Limitations of VaR

Whilst VaR is a good general risk measure, it does have certain limitations, including:

- The measure is a point-in-time calculation, reflecting positions as recorded at that date, which do not necessarily reflect the risk positions held at any other time.
- VaR is a statistical estimation and therefore it is possible that there could be, in any period, a greater number of days in which losses could exceed the calculated VaR than implied by the confidence level.
- Although losses are not expected to exceed the calculated VaR on 99% of occasions, on the other 1% of occasions losses will be greater and might be substantially greater than the calculated VaR.
- The period over which positions are expected to be held may differ and so will the modelled losses incurred.
- A look back period of 2 year means that any return that has not been evidenced in this time period will not be present in the distribution.

The following table details the VaR limit during the financial years 2022 and 2021:

31 December 2022			
	Lowest Utilisation (%)	Highest Utilisation (%)	
Janus Henderson Global Adaptive			
Capital Preservation Fund* Janus Henderson	5.10	14.00	8.60
Global Adaptive Multi- Asset Fund	14.90	49.70	30.40
Janus Henderson Absolute Return			
Income Fund Janus Henderson	1.70	11.80	3.80
Absolute Return Income Opportunities	2.60	12.60	6.00
Fund	3.60	13.60	6.00
31 December 2021	Lowest	Highest	Average

31 December 2021			
	Lowest Utilisation (%)	Highest Utilisation (%)	Average Utilisation (%)
Janus Henderson Global Adaptive Capital Preservation			
Fund Janus Henderson Global Adaptive Multi-	6.90	31.80	12.50
Asset Fund Janus Henderson Absolute Return	36.90	63.30	47.00
Income Fund Janus Henderson Absolute Return Income Opportunities	5.30	10.30	7.50
Fund	4.00	9.50	6.10

In the case of the above Funds leverage is calculated as the sum of the notionals of the derivatives used.

The average level of leverage employed by the Janus Henderson Global Adaptive Capital Preservation Fund, Janus Henderson Global Adaptive Multi-Asset Fund, Janus Henderson Absolute Return Income Fund and Janus Henderson Absolute Return Income Opportunities Fund during the financial years 2022 and 2021 was as follows:

31 December 2022	
	Average Level of Leverage (%)
Janus Henderson Global Adaptive Capital	
Preservation Fund*	14.30
Janus Henderson Global Adaptive Multi-Asset	
Fund	55.80
Janus Henderson Absolute Return Income Fund	87.70
Janus Henderson Absolute Return Income	
Opportunities Fund	75.50
31 December 2021	

31 December 2021	
	Average Level of Leverage (%)
Janus Henderson Global Adaptive Capital	
Preservation Fund	18.70
Janus Henderson Global Adaptive Multi-Asset	
Fund	78.80
Janus Henderson Absolute Return Income Fund	118.30
Janus Henderson Absolute Return Income	
Opportunities Fund	154.50

<sup>\*</sup> The fund closed on 25 March 2022.

### Foreign Currency Risk

Each of the Funds has the flexibility to invest a portion of its net assets in non-base currency securities. As long as a Fund holds a foreign currency asset or liability, its value will be affected by the value of the local currency relative to the base currency of the Fund. While the Company will attempt to hedge against currency exposure in the non-base currency Share Classes, there can be no guarantee that the value of these Classes will not be affected by the value of these currencies relative to the base currency of the Funds as applicable.

The Investment Adviser has identified three principal areas where foreign currency risk could impact the Company:

- Movements in rates affect the fair value of investments;
- Movements in rates affect short-term timing differences;
- Movements in rates affect the income received.

The Company can hedge the initial investment and subsequent gains of the value of investments that are priced in other currencies. The hedging is done by entering into forward currency contracts to minimise the amount of foreign currency risk. For more information on open forward currency contracts please refer to the section "Forward Currency Contracts" in the Portfolio Investments of the Financial Statements. The Investment Adviser also employs forward currency contracts to hedge the currency exposure of the Classes and the base currency of the Funds, as applicable, provided that the conditions set out in the Prospectus are met ("Class Level Hedging").

The Company may be subject to short-term exposure to exchange rate movements, for instance, where there is an exchange difference between the date an investment purchase or sale is entered into and the date when settlement of the proceeds occurs. When the Company enters into such a transaction which will involve the buying and selling of foreign currency in order to complete it, a forward currency contract can be entered into at the same time as the initial transaction in order to minimise foreign currency risk.

The Company receives income in currencies other than the non-base currency of the Funds and the value of this income can be affected by movements in exchange rates. The Company converts all receipts of income into the base currency as appropriate on or near the date of receipt. However it does not hedge or otherwise seek to avoid movement risk on income accrued but not received.

Janus Henderson US Research Fund, Janus Henderson US Small-Mid Cap Value Fund, Janus Henderson Intech US Core Fund, Janus Flexible Income Fund, Janus Henderson US Contrarian Fund, Janus Henderson High Yield Fund and Janus US Short-Term Bond Fund had partial but insignificant exposure to foreign currencies other than

their functional currency as at 31 December 2022 and 31 December 2021.

The following sets out the total exposure to foreign currency risk including short-term assets and liabilities excluding relevant class level hedging as at 31 December 2022 and 31 December 2021 as applicable:

(63,286)

The following table demonstrates the effect on net assets attributable to holders of shares at the years ended 31 December 2022 and 2021 of a movement in foreign currencies against the Funds' functional currency by way of illustration. In the interests of providing consistent comparisons across the Funds the analysis assumes a 5% upward movement in the value of the local currencies (a negative 5% would have similar negative results).

## Interest Rate Risk

The performance of the Fixed Income Funds (and the debt or interest bearing component of the Equity & Allocation Funds and Global Real Estate Fund, if any) depends primarily on interest rate risk. Interest rate risk is the risk that the value of a portfolio will fluctuate in response to changes in interest rates. Generally, the value of debt securities will tend to decrease in value when interest rates rise and increase in value when interest rates rise and increase in value when interest rate changes than longer term securities, but they also usually offer lower yields. Subject to applicable maturity restrictions, each Fund will vary the average maturity of its portfolio based on a Sub-Investment Adviser's analysis of interest rate trends and other factors.

The Fixed Income investment process begins with an investment outlook that provides a broad framework of macroeconomic factors followed by JHIUS's views on the valuation and expected performance of various sectors.

For interest rate sensitive portfolios, the Investment Adviser's risk measurement tools quantify interest rate, curve, and sector risk versus the respective benchmarks. The Funds may utilise interest rate swaps and swap related products to manage interest rate risk. The Risk Management Group of the Investment Adviser also generates tracking error and scenario analysis reports. These reports quantify intended and unintended risks versus the respective benchmarks and enable the Sub Investment Adviser to structure optimal portfolios based on its investment outlook.

The Investment Adviser's basic investment philosophy for the credit portfolios is to add value through in-depth fundamental research. The Investment Adviser has developed a proprietary system that brings together Relative Value, Quantitative Default analysis, Risk Management and Attribution for the Credit portfolio on one platform. This system gives the Investment Adviser the ability to look across analytics and quantitative scores across bonds and bank loans and enables the Investment Adviser to have a consistent way to analyse credits. To maximise the Investment Adviser's risk adjusted return within the sector, JHIUS and the Sub-Investment Advisers use a combination of fundamental analysis and the Investment Adviser's proprietary system outputs.

The Investment Adviser's risk management tool quantifies the tail risk for the Credit portfolio, sectors and issues. The output of this tool factors default frequency, correlations between sectors, seniority in capital structure and recovery values. The Investment Adviser also has credit reviews on a periodic basis where the analyst presents the credit analysis of the names held by a Fund to the group.

The Funds with a majority of financial assets held in equity shares which neither pay interest nor have a maturity date are not subject to significant amounts of risk due to fluctuations in prevailing levels of market interest rates. The cash positions are monitored daily by the Investment Adviser and any overdraft positions are on a short term basis. Any excess cash and cash equivalents are invested at short term interest rates.

At 31 December 2022 and 31 December 2021 the following Funds are exposed to material interest rate risk to the extent disclosed in the following Interest Risk Table. It includes for each Fund the assets and liabilities at fair value, categorised

by the earlier of contractual repricing or maturity dates. Results of the Funds that do not invest in floating and fixed rate bonds are not included as there was minimal interest rate risk for those Funds.

## Interest Rate Risk - 31 December 2022

The following funds invest in floating and fixed rate bonds: Janus Henderson US Balanced 2026 Fund, Janus Henderson Balanced Fund, Janus Henderson Absolute Return Income Fund, Janus Henderson Flexible Income Fund, Janus Henderson Global Investment Grade Bond Fund, Janus Henderson High Yield Fund, Janus Henderson Global Adaptive Capital Preservation Fund, Janus Henderson Global Adaptive Multi-Asset Fund. Janus Henderson Absolute Return Income Opportunities Fund. Janus Henderson Multi-Sector Income Fund and Janus Henderson US Short-Term Bond Fund. The basis of calculation for the floating rate notes is based on the date of change of each coupon rate as opposed to the bond maturity date disclosed in the Portfolio Investments. The floating rate notes held by the Funds at the financial year end are tracking the US LIBOR one or three month indices.

The performance of the debt or interest bearing component depends primarily on interest rates. Generally, the value of debt securities will tend to decrease in value when interest rates rise and vice versa. Shorter-term securities are less sensitive to interest rate changes than longer-term securities, but they usually offer lower yields. Each of the above Funds varies the average maturity profile of its portfolio based on an analysis of interest rate trends and other factors.

Any change to the interest rates relevant for particular securities may result in either income increasing or decreasing, or the Sub-Investment Advisers being unable to secure similar returns on the expiry of contracts or the sale of securities. In addition, changes to prevailing rates or changes in expectations of future rates may result in an increase or decrease in the value of securities held.

The following table shows the corresponding +/performance effect on each of the Fixed Income Funds and the Janus Henderson Balanced Fund of a +/- 1% move in interest rates calculated by reference to the duration of the respective portfolios as at 31 December 2022 and 2021 assuming no convexity. It also assumes that both the securities and derivatives held in these Funds as at 31 December 2022 and 31 December 2021 and the overall balance of long and short positions would remain unchanged in the event such a shift in interest rates was anticipated or actually occurred, which would not generally be the case. Furthermore, as with the analysis of market price risk, as the Funds' portfolios are managed on an active and dynamic basis with frequent changes in the holdings, the Directors believe that this sensitivity should not be relied on as a measure of future performance. Finally, it should also be considered that although duration is widely used as a measure of portfolio interest rate sensitivity, it is only useful as a measure for interest rate changes which are relatively small in size and it is itself sensitive to changes in the level and term structure of interest rates, which may cause portfolio duration to change independently of changes in the actual portfolio held.

### Liquidity Risk

Liquidity risk is the risk that the Company may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The Company is exposed to daily cash redemptions of redeemable ordinary shares. Each Fund therefore invests the majority of its assets in investments that are traded in an active market and can be readily disposed of; it invests only a limited proportion of its assets in investments that are not actively traded on a listed exchange. Listed securities of each Fund are considered readily realisable, as they are listed on a regulated stock exchange. The Investment Adviser may use derivative instruments and debt securities, if appropriate, such as exchange traded futures contracts to allow exposure to markets whilst maintaining sufficient liquidity.

Where a Fund acquires securities on the over-the-counter markets, there is no guarantee that the Fund will be able to realise the fair value of such securities due to their tendency to have limited liquidity and comparatively high price volatility.

The Company has the ability to borrow in the short term to ensure settlement. In order to manage the Company's overall liquidity and to facilitate an orderly disposition of securities the Directors are able to refuse to repurchase any shares in excess of one tenth of the shares in issue in a Fund on any one valuation day by way of the provisions

in the prospectus. All redemption requests were met during the period in line with the prospectus and none were withheld as at 31 December 2022 and 2021.

All securities investments present a risk of loss of capital. The maximum loss of capital on purchased options, long equity and debt securities is limited to the fair value of those positions. On written call options and short futures positions the maximum loss of capital can be unlimited. The maximum loss of capital on written put options, long futures and forward currency contracts is limited to the notional contract values of those positions.

The main liability of the Funds tends to be outstanding payables on the purchase of investments and the redemption of any redeemable ordinary shares that investors wish to sell. Substantially all financial liabilities of each Fund are payable within two months.

The Investment Adviser has established a liquidity risk management policy to monitor and manage the liquidity risks of each Fund and to ensure that the liquidity profile of the investments held by each Fund will facilitate compliance with the Fund's obligation to meet redemption requests. The Investment Adviser liquidity policy takes into account different factors including but not limited to the investment strategy; the liquidity profile; the redemption policy; the dealing frequency; the ability to enforce redemption limitations and the fair valuation policies of the relevant Fund. Please refer to the prospectus for further details on liquidity risk management.

### Credit Risk

The Company is exposed to a credit risk on parties with whom it trades and bears the risk of settlement default. The Company minimises concentrations of credit risk by undertaking transactions with a number of counterparties on recognised and reputable exchanges.

Each Fund's exposure is limited to the contracts in which it currently has a financial asset position reduced by any collateral received from the counterparty, or to counterparties who have received collateral from each Fund or any margin arrangements in place with the counterparty.

Credit default swaps are transactions under which the parties' obligations depend on whether a credit event has occurred in relation to the reference asset. The credit events are specified in the contract and are intended to identify the occurrence of a significant deterioration in the creditworthiness of the reference asset. The buyer in a credit default swap contract is obligated to pay the seller a periodic stream of payments over the term of the contract provided that no event of default on an underlying reference asset has occurred. If a credit event occurs, the seller must pay the buyer the full notional value of the reference asset that may have little or no value.

All Funds' assets are currently held within J.P Morgan SE – Dublin Branch depositary network, with the exception of Tranche Loans and Financial Derivative Instruments as

appropriate. Bankruptcy or insolvency of the Depositary may cause the Funds' rights with respect to securities held by the Depositary to be delayed or limited. The Company monitors this risk by monitoring the credit quality and financial position of the Depositary. The Depositary's credit rating at 31 December 2022 is A+ (31 December 2021: A+).

The table below shows the credit ratings of the derivative/tranche loans counterparties at 31 December 2022 and 31 December 2021.

The Company may invest in financial assets which are rated (by well known rating agencies) or unrated. Unrated securities are treated by the Investment Adviser as non investment grade securities unless the Investment Adviser or the relevant Sub-Investment Adviser determines that such securities are the equivalent of investment grade securities.

Cash and non-cash collateral pledged are reflected as assets on the Statement of Financial Position, their use is restricted until the underlying contracts are closed out. See note 5 for details.

The Funds hold credit default swaps at year end which are centrally cleared through ICE (Central Counterparty Clearing House "CCP"). Centrally cleared credit default swaps are subject to the credit risk of the clearing broker which is Citigroup through which the Funds hold the positions.

As at 31 December 2022 and 31 December 2021 the Funds which have a material exposure to credit risk due to their investment in asset backed securities, government obligations, certificate of deposits, commercial papers and corporate bonds, and their respective S&P credit ratings (if available) shown as a percentage of NAV are detailed below.

#### Counterparty Risk

The Investment Adviser undertakes a detailed review of all counterparties before any arrangements are entered into. The credit quality of all counterparties is monitored on a regular basis. The Investment Adviser reports to the board on a commitment basis or value-at-risk basis depending on the Fund as part of the UCITS V periodic reporting.

Details of the counterparties are included in the Portfolio Investments.

### Unfunded commitments and contingent liabilities

The Fund invests in a number of private placement investments where there are unfunded future commitments at the year end date. These future commitments arise through the tranche structure of the investment process for such securities and are dependent on future events that have not occurred at the year end date. These typically relate to future financial or commercial targets set in the investment agreement with the investee entity and it is not practicable to assign any probability of achieving these in the financial statement disclosures. When the triggers are met, there is a binding commitment to fund the additional purchase, at which point an investment purchase transaction is recognised. The unfunded commitments expose the Fund to certain risks.

The Fund's exposure to price risk may be increased by such future commitments because there is a probability of increased exposure to investments already held in the portfolio.

There is also a liquidity risk because future tranches will become binding commitments at a future date and the Fund may need to liquidate other assets or raise further capital to meet these commitments. Such future commitments that may become payable are considered as part of the Fund's investment strategy in such a way as to mitigate the risk of needing to liquidate portfolio holdings at an inopportune time. The fund manager will also be aware of future commitments that may crystallise and will receive regular communications from the investee entities so that fund raising to meet them can be planned. The Fund will also receive notice of the future commitment and can then make investment decisions on how to realise sufficient cash for the commitment to be met.

As at 31 December 2022, the funds had no total unfunded commitments (31 December 2021: USD 604,910).

#### Fair Value Estimation

Under FR2 102 the Company is required to classify its investments using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

For financial instruments held at fair value in the statement of financial position, the Funds are required to disclose for each class of financial instrument, an analysis of the level in the following fair value hierarchy into which the fair value measurements are categorised. A fair value measurement is categorised in its entirety on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The tables providing a summary within the fair value hierarchy of the Funds' financial assets and liabilities measured at fair value at 31 December 2022 and 31 December 2021 are disclosed in the individual Fund sections.

#### 15. Directors' Remuneration

The Articles of Association provide that the Directors shall be entitled to a fee by way of remuneration for their services at a rate to be determined from time to time by the Directors. The Directors have agreed that the current aggregate amount of Directors' remuneration in any one financial year may not exceed EUR 300,000. Directors' fees incurred for the year ended 31 December 2022 were USD 112,400 (approximately EUR 105,000). Directors' fees paid

for the year ended 31 December 2021 were USD 96,025 (approximately EUR 85,000).

#### 16. Auditor's Remuneration

Fees and expenses paid to our statutory auditors, PricewaterhouseCoopers Ireland, in respect of the financial year are as follows:

	31 December 2022	31 December 2021
	USD	USD
Audit of financial statements	359,453	457,575
Out of pocket expenses	-	-
	359,453	457,575

#### 17. Significant Events During the Financial Year

On 3 January 2022 Janus Capital Management LC changed its name to Janus Henderson Investors US LLC.

On 22 January 2022 (the "Merger Date"), J.P. Morgan Bank (Ireland) PLC was merged into J.P. Morgan AG, which at the same time changed its legal form from a German Stock Corporation (Aktiengesellschaft) to a European Company (Societas Europaea), being J.P. Morgan SE.

The merger does not change the scope of services provided to the Fund by J.P. Morgan Bank (Ireland) PLC. Since the Merger Date, J.P. Morgan SE continues to carry out the depositary functions through J.P. Morgan SE, Dublin Branch.

As legal successor of J.P. Morgan Bank (Ireland) PLC, J.P. Morgan SE, Dublin Branch has assumed all rights and obligations that J.P. Morgan Bank (Ireland) PLC has under the existing agreements with the Fund. Any agreements in place with J.P. Morgan Bank (Ireland) PLC have been transferred to J.P. Morgan SE, Dublin Branch by operation of law

Brain Recht is portfolio manager of Janus Henderson US Forty Fund and Jonathan Cofsky is portfolio manager of Janus Henderson Global Technology and Innovation Fund effective 1 March 2022.

On 11 March 2022 Janus Capital International Limited changed its name to Janus Henderson Investors International Limited (JHIIL).

On 15 March 2022 Henderson Global Investors Limited changed its name to Janus Henderson Investors UK Limited (JHIUKL).

Janus Henderson Global Adaptive Capital Preservation closed on 25 March 2022.

Janus Henderson completed the sale of Intech Investment Management LLC on 31 March 2022.

IA2 HBRL share class was launched on 11 April 2022 for Janus Henderson Balanced Fund.

A4m HKD share class was launched on 5 May 2022 for Janus Henderson Multi-Sector Income Fund.

Janus Henderson continues to monitor the Russia/Ukraine conflict very closely and has established processes incorporated in the business as usual activities to be able to respond timely to changes. We have well established and tested business continuity and crisis management processes in place, which cover a large number of disruptive scenarios, including cyber threats and market events. Janus Henderson incorporates modelling potential scenarios to inform our investment decisions, as we continue to monitor the ongoing Russia/Ukraine conflict. The Funds had no direct exposure to Russia or Ukraine during the year to 31 December 2022.

T2 USD share class was launched on 2 August 2022 for Janus Henderson Balanced Fund, Janus Henderson Global Life Sciences Fund, Janus Henderson Global Technology and Innovation Fund, Janus Henderson Flexible Income Fund and Janus Henderson High Yield Fund.

A5m HAUD share class, A5m USD share class, T5m HAUD share class and T5m USD share class were launched on 2 August 2022 for Janus Henderson Flexible Income Fund and Janus Henderson High Yield Fund.

H2 EUR share class was launched on 10 August 2022 for Janus Henderson Balanced Fund.

E2 USD share class was launched on 10 August 2022 for Janus Henderson US Contrarian Fund.

Janus Henderson Intech US Core Fund closed on 28 September 2022.

Seth Meyer is no longer portfolio manager of Janus Henderson US Short-Term Bond Fund effective 1 October 2022.

On 1 October 2022 Henderson Management S.A.("HMSA") changed its name to Janus Henderson Investors Europe S.A.("JHIESA").

G2 HEUR class was launched on 11 October 2022 for Janus Henderson Global Technology and Innovation Fund.

G2 USD class was launched on 11 October 2022 for Janus Henderson US Contrarian Fund, Janus Henderson US Forty Fund, Janus Henderson US Small-Mid Cap Value Fund, Janus Henderson US Venture Fund and Janus Henderson Global Real Estate Equity Income Fund.

Tom Ross is portfolio manager of Janus Henderson High Yield Fund effective 31 October 2022.

A new Prospectus was issued on 31 October 2022 and 1 December 2022.

The Janus Henderson Global Real Estate Equity Income Fund and the Janus Henderson Global Investment Grade Bond Fund were re-categorised as Article 8 funds for the

purpose of the Sustainable Finance Disclosures Regulation (SFDR) on 1 December 2022.

There were no other significant events during the financial year ended 31 December 2022.

### 18. Subsequent Events

S2 USD share class was launched on 19 January 2023 for Janus Henderson Global Investment Grade Bond Fund.

On 3 February 2023 Janus Henderson Global Flexible Income Fund was revoked by Central Bank of Ireland.

S2 HEUR share class was launched on 16 March 2023 for Janus Henderson Global Investment Grade Bond Fund.

Janus Henderson continues to monitor price movements, evaluate the regulatory response, and assess the liquidity risks in light of the changing environment relating to Credit Suisse and Silicon Valley Bank (SVB), as the situation unfolds. We continue to assess the risk and reward in investment portfolios and monitor and manage exposures. The following funds held 6 positions in Credit Suisse and 16 positions in SVB. The table below shows the impact of the holdings on the Funds NAV across these holdings. The funds disposed of all 31 December 2022 holdings in Credit Suisse and SVB post year end.

	Total Fair Value	NAV	
Fund	(USD)	(USD)	% NAV
Janus Henderson Balanced Fund	11,410,265	6,738,329,697	0.17%
Janus Henderson US Balanced 2026 Fund	154,340	48,274,842	0.32%
Janus Henderson US Small-Mid Cap Value Fund	2,236,271	172,386,739	1.30%
Janus Henderson Absolute Return Income Fund	563,384	107,603,806	0.52%
Janus Henderson Flexible Income Fund	4,601,891	504,147,019	0.91%
Janus Henderson Global Investment Grade Bond Fund	7,360,955	379,885,481	1.94%
Janus Henderson High Yield Fund	3,007,070	370,792,871	0.81%
Janus Henderson Multi-Sector Income Fund	4,392,348	222,124,900	1.97%
Janus Henderson US Short-Term Bond Fund	2,070,755	258,421,895	0.80%

There were no other subsequent events since the financial year end.

### 19. Approval of the Financial Statements

The financial statements were approved by the Board on 20 April 2023.

## **Fund Expense Limits (unaudited)**

The Maximum Expense Limits table shows the total fees and out-of-pocket expenses allocated to a Fund in any fiscal year, excluding transactions costs and trade commissions, expressed as a percentage of the average daily net assets, for each Share Class ("Maximum Expense Limits") under the terms of the Prospectus as set out in the "Fees and Expenses" section.

## **Supplementary Notes (unaudited)**

#### Remuneration Disclosure

In line with the requirements of the UCITS Regulations, the Company has adopted a remuneration policy which is consistent with the principles outlined in the ESMA guidelines on sound remuneration policies under the UCITS Directive (the "Remuneration Guidelines"). The remuneration policy is appropriate to the Company's size, internal organisation and the nature, scope and complexity of its activities.

The Company's remuneration policy applies to certain identified staff whose professional activities have a material impact on the risk profile of the Company. As at 31 December 2022, the Company did not have any employees and the Company's remuneration policy applies only to members of the Company's management body (i.e. the board of directors). The directors not affiliated with the Investment Adviser receive a fixed annual fee which is inline with the fees paid by other Irish funds and compensates these directors for their tasks, expertise and responsibilities.

Directors that are employees of the Investment Adviser (or an affiliate) are not paid any fees for their services as directors.

For the financial year ended 31 December 2022, only the Independent Directors received a fixed fee from the Company in their roles as directors, which was in aggregate USD 112,400. None of the directors are entitled to receive any variable remuneration from the Company.

The remuneration policy was amended to take account of the issue of Remuneration Guidelines in October 2016, and the policy is reviewed on an annual basis with the most recent review to ensure that it remains consistent with the Remuneration Guidelines, with the most recent review being undertaken in February 2021.

	Headcount <sup>1</sup>	Total Remuneration (£'000s) <sup>2,3,6</sup>
Janus Henderson Capital	2,203	20,395
of which		
Fixed Remuneration	2,203	9,863
Variable Remuneration	2,190	10,532
Janus Henderson Capital Remuneration Code Staff	49	4,403
of which		
Senior Management <sup>4</sup>	27	1,743
Other Code Staff <sup>5</sup>	22	2,660

<sup>&</sup>lt;sup>1</sup> The actual number of employees who are fully or partly involved in the activities of Janus Henderson Capital Funds – no attempt has been made to apportion the time spent specifically in support of Janus Henderson Capital Funds, as this data is not captured as part of the Company's normal processes.

- where fixed pay is directly attributable to Janus Henderson Capital Funds (for example, fees for Janus Henderson Capital Funds Board members), 100% of those fees;
- pro-rated using the average AUM of Janus Henderson Capital Funds (as a proportion of the aggregate average AUM of Janus Henderson Group PLC) as a proxy.
- · in respect of performance fee incentives, 100% of any direct allocations of performance fees generated within the Company

<sup>&</sup>lt;sup>2</sup> Please note that due to the employment structure and resourcing of the Janus Henderson Group, the staff indicated in this table may provide services to other companies in the Janus Henderson Group.

<sup>&</sup>lt;sup>3</sup> The remuneration disclosed is only in respect of the provision of services to each of the funds of Janus Henderson Capital Funds for the year, rather than the total remuneration for the year – for this purpose, remuneration has been apportioned between the provision of services to Janus Henderson Capital Funds and to other entities in the Janus Henderson Group, in respect of fixed pay and annual/long term incentive bonuses, as follows:

<sup>&</sup>lt;sup>4</sup> Senior Management includes the Janus Henderson Executive Committee and other Group Board members and the Board of Janus Henderson Capital

<sup>&</sup>lt;sup>5</sup> Other Code Staff includes all other JHIESA Code Staff.

<sup>&</sup>lt;sup>6</sup> Please note that rounding off of values could lead to a mismatch of individual numbers and their sum.

## Non-Financial Risks (unaudited)

#### Political and Economic Risk

Investments in certain countries, particularly Developing Markets, may be subject to heightened political and economic risks. Subject to the limitations on investments set forth under "Investment Objective and Policies" in each Supplement, the Funds may invest in Developing Markets. Developing Markets involve risks such as immature economic structures, national policies restricting investments by foreigners, and different legal systems.

### **Special Situations**

Certain Funds may invest in special situations or turnarounds such as development of a new product, a technological breakthrough or management change. A Fund's performance could suffer if the anticipated development in a "special situation" investment does not occur or does not attract the expected attention.

#### Cyber Security and Identity Theft

Information and technology systems relied upon by the Company, a Fund, the Manager, the Investment Adviser, the Sub-Investment Advisers, a Fund's service providers (including, but not limited to, the auditors, Depositary, Administrator, Transfer Agent and Distributor) and/or the issuers of securities in which a Fund invests may be vulnerable to damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorised persons and security breaches, usage errors by their respective professionals, power outages and catastrophic events such as fires, tornadoes, floods, hurricanes and earthquakes. Although the parties noted above have implemented measures to manage risks relating to these types of events, if these systems are compromised, become inoperable for extended periods of time or cease to function properly, significant investment may be required to fix or replace them. In addition, there are inherent limitations in such measures, including the possibility that certain risks have not been identified. The failure of these systems and/or of disaster recovery plans for any reason could cause significant interruptions in the operations of a Fund, the Manager, the Investment Adviser, a Sub-Investment Adviser, a service provider and/or the issuer of a security in which a Fund invests and may result in a failure to maintain the security, confidentiality or privacy of sensitive data, including personal information relating to investors (and the beneficial owners of investors). Such a failure could also harm a Fund's, the Manager's, the Investment Adviser's, a Sub-Investment Adviser's, a service provider's and/or an issuer's reputation, subject such entity and its affiliates to legal claims and otherwise affect their business and financial performance. When such issues are present with regard to an issuer of a security in which the Fund invests, the Fund's investment in such securities may lose value.

### Regulatory Risk and Legal Framework

There may be less government supervision of markets in Developing Markets, and issuers in such markets may not be subject to the uniform accounting, auditing, and financial reporting standards and practices applicable to issuers in the developed countries. There may be less publicly available information about issuers in Developing Markets.

The legislative framework in Developing Markets for the purchase and sale of investments and in relation to the beneficial interests in those investments may be relatively new and untested and there can be no assurance regarding how the courts or agencies of Developing Markets will react to questions arising from a Fund's investments in such countries and arrangements contemplated in relation thereto.

The following disclosure follows the requirements of EU Securities Financing Transactions Regulation ("SFTR") which came into effect on 12 January 2016. A Securities Financing Transaction ("SFT") is defined as per Article 3(11) of the SFTR as:

- A repurchase transaction;
- Securities or commodities lending and securities or commodities borrowing;
- A buy-sell back transaction or sell-buy back transaction; or
- A margin lending transaction.

Total return swaps ("TRS") are also in the scope for the SFTR disclosure requirements. There were no TRS held as at 31 December 2022.

#### Return/Costs:

All returns generated by the TRSs belong to the Fund itself. Transaction costs on the purchase and sales of TRSs are included in the purchase and sale price of the investment.

	Realised Gains/(Losses) USD	% overall returns
Collective Investment undertaking:		
Janus Henderson Global Adaptive		
Capital Preservation Fund	25,543	100
Janus Henderson Global Adaptive		
Multi-Asset Fund	52,119	100

<sup>\*</sup> The fund closed on 25 March 2022.

#### Securities financing transactions

The funds engage in securities financing transactions (SFTs) (as defined in Article 3 of Regulation (EU) 2015/2365, SFTs include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions). In accordance with Article 13 of the Regulation (EU) 2015/2365, the funds' involvement in and exposures related to securities lending for the year ended 31 December 2022 are detailed below.

### Global data

The following table lists the amount of securities on loan as a proportion of total lendable assets and the funds' AUM as at 31 December 2022:

Fund	Market Value of securities on loan (in Fund Currency)	% of lendable assets	% of AUM

<sup>\*</sup>The Direct and indirect costs and fees also include withholding tax in addition to the 8% Securities lending fee.

The EU Sustainable Finance Disclosure Regulation ('SFDR') (Regulation (EU) 2019/2088) has applied since 10 March 2021. Pursuant to Article 11 of SFDR (Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports), the Manager is required to provide:

With respect to each Article 8 Fund: prescribed information on the extent to which environmental or social characteristics are met.

Please see this information disclosed in the below Annexes for each Fund.

In addition, the EU Taxonomy Regulation ('Taxonomy Regulation') (Regulation (EU) 2020/852) establishes a framework for identifying economic activities as environmentally sustainable within the EEA and requires the sub-funds to additionally disclose whether the EU criteria for environmentally sustainable economic activities has been taken into account. This information is set out as follows:

With respect to each Article 8 sub-fund: the Funds promote environmental or social characteristics and as such, are required as per Article 6 of the Taxonomy Regulation to state that the 'do no significant harm' principle applies only to those investments held in the strategy that take into account the EU criteria for environmentally sustainable economic activities. It should be noted that the Funds do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation and the Funds portfolio alignment with the Taxonomy Regulation is not calculated. Therefore, the 'do not significant harm' principle does not apply to any of the investments of each Funds' strategy.

With respect to each Article 6 Fund listed below, the investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

### Sustainability-related disclosure

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Janus Henderson Global Real Estate Equity Income Fund

Legal entity identifier: 549300L5HRO6TZE5HG45

- Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.
- ► The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? Yes No It made sustainable It promoted Environmental/ investments with an Social (E/S) characteristics environmental objective: % and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments in economic activities with an environmental that qualify as objective in economic environmentally activities that qualify as sustainable under the environmentally sustainable under the EU Taxonomy **EU Taxonomy** in economic activities with an environmental that do not qualify objective in economic as environmentally activities that do not sustainable under the qualify as environmentally sustainable under the EU **EU Taxonomy** Taxonomy with a social objective It made sustainable It promoted E/S characteristics, investments with a social but did not make anv objective: % sustainable investments

ANNEX 1 - ARTICLE 8

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 31 October 2022 until the end of the reference period (herein referred to as the "reference period"), the Fund promoted climate change mitigation through the adoption of GHG emission reductions targets and support for the UN Global Compact principles (which cover matters including human rights, labour, corruption, and environmental pollution). Additionally, the Fund also seeks to avoid investments in certain activities with the potential to cause harm to human health and wellbeing by applying binding exclusions. The Fund does not use a reference benchmark to attain its environmental or social characteristics.

### How did the sustainability indicators perform?

The sustainability indicators performed in line with expectations with the fund adhering to the minimum 10% of companies within the fund having approved commitment to verified or verified committed science-based emissions targets, as defined by the Science Based Targets Initiative, as well as the ESG exclusionary screens. The proportion of the portfolio with approved or committed targets was 40% at period end.

Issuers were excluded if they were deemed to have failed to comply with the UNGC Principles, which cover matters including human rights, labour, corruption and environmental pollution. Likewise, Prison Real Estate Investment Trusts (REITs) were excluded from the investible universe.

### ...and compared to previous periods?

This section is not applicable, the fund converted to Article 8 on 31 October 2022.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable, the fund does not invest in Sustainable Investments

ANNEX 1 - ARTICLE 8

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

This section is not applicable, the fund does not invest in Sustainable Investments

How were the indicators for adverse impacts on sustainability factors taken into account?

This section is not applicable, the fund does not invest in Sustainable Investments

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This section is not applicable, the fund does not invest in Sustainable Investments

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal Adverse Impact	How is PAI considered
Violations of UNGC and OECD	Exclusionary screens
Exposure to controversial weapons	Exclusionary screens
GHG Emissions	Through engagement with companies
Carbon Footprint	Through engagement with companies
GHG Intensity of Investee Companies	Through engagement with companies

ANNEX 1 - ARTICLE 8

► The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31 October - 31 December 2022.

### What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
VICI Properties Inc	Real Estate	6.13%	United States
Prologis Inc	Real Estate	5.88%	United States
Welltower Inc	Real Estate	5.14%	United States
National Retail Properties Inc	Real Estate	4.90%	United States
Healthpeak Properties Inc	Real Estate	4.58%	United States
Digital Realty Trust Inc	Real Estate	4.25%	United States
Spirit Realty Capital Inc	Real Estate	3.89%	United States
STAG Industrial Inc	Real Estate	3.87%	United States
Agree Realty Corp	Real Estate	3.69%	United States
Life Storage Inc	Real Estate	3.49%	United States
SITE Centers Corp	Real Estate	3.41%	United States
Brixmor Property Group Inc	Real Estate	3.40%	United States
CubeSmart	Real Estate	3.35%	United States
UDR Inc	Real Estate	3.25%	United States
Physicians Realty Trust	Real Estate	3.24%	United States

What was the proportion of sustainability-related investments?

### What was the asset allocation?

► Asset allocation describes the share of investments in specific assets.

**#1** Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2** Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

ANNEX 1 - ARTICLE 8

▶ To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

- Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.
- ➤ Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### In which economic sectors were the investments made?

In line with the fund's investment objective and policy, investments were made in real estate equities (also known as company shares) and real estate-related equity instruments

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not Applicable: The fund does not align with the EU Taxonomy
Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?
Not Applicable: The fund does not align with the EU Taxonomy
Yes:
In fossil gas In nuclear energy
<b>X</b> No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

ANNEX 1 - ARTICLE 8

- ► Taxonomy-aligned activities are expressed as a share of:
  - turnover reflecting the share of revenue from green activities of investee companies.
  - capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
  - operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds. Taxonomy-alignment of investments including sovereign bonds\* 2. Taxonomy-alignment of investments excluding sovereign bonds\* 100% Turnove Turnove 100% CapEx CapEx 100% ODEX OpEx 0% 50% 100% Taxonomy-aligned: Fossil gas Taxonomy-aligned (no gas and nuclear) Taxonomy-aligned: Nuclear Non-Taxonomy-aligned This graph represents 100% of the total investments. \*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

Not Applicable: The fund does not align with the EU Taxonomy

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not Applicable: The fund does not align with the EU Taxonomy

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not Applicable: The fund does not align with the EU Taxonomy

What was the share of socially sustainable investments?

This section is not applicable, the fund does not invest in Sustainable Investments.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

ANNEX 1 - ARTICLE 8

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Other investments were exclusively in cash

What actions have been taken to meet the environmental and/ or social characteristics during the reference period?

There were no exclusionary screens breached and compliance pre-trade controls have been applied to ensure adherence to the fund ESG screens on UNGC compliance and Prison REITs. The fund also maintained in excess of 10% of assets invested in companies with Science Based Targets Initiative approved or verified committed targets. The proportion of the portfolio with approved or committed targets was 40% at period end.

How did this financial product perform compared to the reference benchmark?

Not Applicable: The fund does not use a reference benchmark to attain its environmental or social characteristics

How does the reference benchmark differ from a broad market index?

Not Applicable: The fund does not use a reference benchmark to attain its environmental or social characteristics

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable: The fund does not use a reference benchmark to attain its environmental or social characteristics

How did this financial product perform compared with the reference benchmark?

Not Applicable: The fund does not use a reference benchmark to attain its environmental or social characteristics

▶ Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared with the broad market index?
This section is not applicable, the fund does not use a reference benchmark to attain its environmental or social characteristics.

ANNEX 1 - ARTICLE 8

## Sustainability-related disclosure

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Janus Henderson Global Investment Grade Bond Fund

Legal entity identifier: 5493002EQQLOB9HNG162

- ➤ Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.
- ► The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? Yes No It will make a minimum of It promotes Environmental/ sustainable investments Social (E/S) characteristics and with an environmental while it does not have as its objective: % objective a sustainable investment, it will have a minimum proportion of % of sustainable investments in economic activities with an environmental that qualify as objective in economic environmentally activities that qualify as sustainable under the environmentally sustainable under the EU Taxonomy **EU Taxonomy** in economic activities with an environmental that do not qualify objective in economic as environmentally activities that do not sustainable under the qualify as environmentally sustainable under the EU **EU Taxonomy** Taxonomy with a social objective It will make a minimum of It promoted E/S characteristics, sustainable investments but did not make any with a social objective: % sustainable investments

ANNEX 1 - ARTICLE 8

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From 31 October 2022 until the end of the reference period (herein referred to as the "reference period"), the Fund promoted climate change mitigation and support for the UN Global Compact Principles (which cover matters including human rights, labour, corruption, and environmental pollution). Additionally, the Fund also seeks to avoid investments in certain activities with the potential to cause harm to human health and wellbeing by applying binding exclusions. The Fund does not use a reference benchmark to attain its environmental or social characteristics.

### How did the sustainability indicators perform?

The sustainability indicators performed in line with expectations adhering to the overall Global Compact principles as well as the ESG exclusionary screens. Additionally the fund promoted the application of GHG intensity related criteria. Specifically, issuers were excluded if they derived more than 10% of their revenue from oil sands extraction, arctic oil and gas, thermal coal extraction, tobacco or adult entertainment. Issuers were also excluded if they are deemed to have failed to comply with the UNGC Principles (which cover matters including human rights, labour, corruption and environmental pollution). The fund did not make any direct investments in the companies involved in the current manufacture of, or minority shareholding of 20% or more in a manufacturer of controversial weapons.

### ...and compared to previous periods?

This section is not applicable, the fund converted to Article 8 on 31 October 2022.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

This section is not applicable, the fund does not invest in Sustainable Investments

ANNEX 1 - ARTICLE 8

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters. ANNEX 1 - ARTICLE 8

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

#### What was the asset allocation?

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2** Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

#3 E/S Alignment Metrics Approach: Numbers are provided Net Long\Short.

### In which economic sectors were the investments made?

During 2022, we made investments in the following sectors:

Banking

Basic Industry

Brokerage, Asset managers and Exchanges

Capital Goods

Communications

Consumer Goods (Cyclical and Non-Cyclical)

Electric

Energy

Finance Companies

Government Owned

Insurance

Local Authorities

Other Financial

Other Utility

Real Estate Investment Trusts

Supranational Technology

Transportation

ANNEX 1 - ARTICLE 8

- ▶ To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.
- ► Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

## **Share Class Distribution Policy (unaudited)**

The Company offers 12 Classes of Shares with various distribution policies, distribution frequencies, hedging policies and currencies in each Class. Furthermore, not all Funds or Classes of Shares are available in all jurisdictions. Applicants/ Shareholders are requested to contact the relevant Distribution Agent for a list of Funds and Classes of Shares available to them and ensure that they only subscribe for the Classes of Shares that they are eligible to hold.

The name of each Class of Shares offered by the Company enables Shareholders to identify the distribution policy, distribution frequency, hedging policy and currency of a Class by reference to the following sub-classifications:

Share Class	Distribution Policy	Distribution Frequency	Hedged	Share Class Currency
Class A	Series 1	Annual *	**	US Dollar (USD)
Class B	Series 2	Bi-Annual – s	Н	Euro (EUR)
Class E	Series 3	Quarterly – q	PH	Pound Sterling (GBP)
Class G	Series 4	Monthly m		Hong Kong Dollar (HKD)
Class H	Series 5			Japanese Yen (JPY)
Class I	Series 6			Australian Dollar (AUD)
Class S				Swiss Franc (CHF)
Class T				Canadian Dollar (CAD)
Class V				Renminbi (CNH)
Class Y				Swedish Kronor (SEK)
Class Z				New Zealand Dollar (NZD)
Class IA				Singapore Dollar (SGD)
				Norwegian Krone (NOK)
				Brazilian Real (BRL)#

<sup>\*</sup>Annually distributing share classes are identifiable by the absence of the distribution frequency sub-classification/series.

\*BRL Hedged Share Classes are denominated in the relevant Fund's Base Currency. Please refer to the section of the Prospectus titled "Brazilian Real Hedged Share Classes".

Each Class of Shares comprises five sub-classifications/series of Shares by reference to a Class' distribution policy. The five series and their corresponding distribution policies are set out below.

### **Accumulating share classes:**

The Company will not declare or make dividend payments on any accumulating Class. All net income and net realised capital gains will not be distributed and will be reflected in the net asset value per Share.

All accumulating Classes of Shares are "Series 2 Shares" and are denoted by the number 2 in the name of the Class of Shares.

#### Distributing share classes:

The distributing share classes intend to declare and distribute dividends, which are comprised of all or some portion of investment income and net realised, and unrealised capital gains and/or capital as disclosed below.

Distributing Share Classes may be designated as one of four series of Shares depending on their distribution policy and will be denoted by the numbers 1, 3, 4, 5 or 6 in the name of the Share Class.

### Series 1 Shares

The distribution policy is to distribute substantially all of the investment income for the relevant accounting period after the deduction of fees, charges and expenses. Distributions will not include realised and unrealised capital gains.

### Series 3 Shares

The distribution policy is to distribute substantially all of the investment income for the relevant accounting period before the deduction of fees, charges and expenses. Distributions will not include realised and unrealised capital gains.

<sup>\*\*</sup>Unhedged share classes are identifiable by the absence of the hedging policy sub-classification/series.

#### Share Class Distribution Policy (unaudited) (continued)

#### Series 4 Shares

The distribution policy is to distribute substantially all of the investment income over the relevant accounting period which may potentially include a portion of capital before the deduction of fees, charges and expenses. To allow more investment income to be distributed, the Share Classes will deduct fees, charges and expenses from capital and distributions may also include realised and unrealised capital gains and original capital invested.

#### Series 5 Shares

The distribution policy is to distribute substantially all of the investment income over the relevant accounting period which will typically include a portion of capital before the deduction of fees, charges and expenses. To allow more investment income to be distributed, the Share Classes will deduct fees, charges and expenses from capital and distributions may also include realised and unrealised capital gains and original capital invested.

#### Series 6 Shares

The distribution policy is to distribute substantially all of the investment income over the relevant accounting period which is expected to include a high portion of capital before the deduction of fees, charges and expenses. To allow more investment income to be distributed, the Share Classes will deduct fees, charges and expenses from capital and distributions may also include realised and unrealised capital gains and original capital invested.

The additional information in this section is for the Funds which are authorised by the Hong Kong Securities and Futures Commission ("SFC") as at 31 December 2022 to meet the disclosure requirements in Hong Kong.

Note: SFC authorisation is not a recommendation or endorsement of a product nor does it guarantee the commercial merits of a product or its performance. It does not mean the product is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

The following table details the past ten years highest and lowest net asset per share for each share class in issue and available to Hong Kong investors as at 31 December 2022:

#### Janus Henderson

For institutional / sophisticated investors / accredited investors qualified distributors use only. Not for onward distribution. All content in this document is for information or general use only and is not specific to any individual client requirements. Janus Henderson Capital Funds Plc is a UCITS established under Irish law, with segregated liability between funds. This is a marketing communication. Please refer to the prospectus of the UCITS and to the KID before making any final investment decisions. Investors are warned that they should only make their investments based on the most recent Prospectus which contains information about fees, expenses and risks, which is available from all distributors and Paying/Facilities agents, it should be read carefully. An investment in the fund may not be suitable for all investors and is not available to all investors in all jurisdictions; it is not available to US persons. Past performance does not predict future returns. The rate of return may vary and the principal value of an investment will fluctuate due to market and foreign exchange movements. Shares, if redeemed, may be worth more or less than their original cost. This is not a solicitation for the sale of shares and nothing herein is intended to amount to investment advice. For sustainability related aspects please access Janushenderson.com. This document does not constitute investment advice or an offer to sell, buy or a recommendation, nor should it be taken as a basis to take (or stop taking) any decision, for securities, other than pursuant to an agreement in compliance with applicable laws, rules and regulations. Janus Henderson Group plc and its subsidiaries are not responsible for any unlawful distribution of this document to any third parties, in whole or in part, or for information reconstructed from this document and do not guarantee that the information supplied is accurate, complete, or timely, or make any warranties with regards to the results obtained from its use. As with all investments, there are inherent risks that each individual should address. The distribution of this document or the information contained in it may be restricted by law and may not be used in any jurisdiction or any circumstances in which its use would be unlawful. This presentation is strictly private and confidential and may not be reproduced or used for any purpose other than evaluation of a potential investment in Janus Henderson Investors International Limited products or the procurement of its services by the recipient of this presentation or provided to any person or entity other than the recipient of this presentation. We may record telephone calls for our mutual protection, to improve customer service and for regulatory record keeping purposes. With effect from 1 January 2023, the Key Investor Information document (KIID) changed to the Key Information Document (KID), except in the UK where investors should continue to refer to the KIID.
