If you would like more information before you invest, please consult the most recent full prospectus (the "Full Prospectus"). Unless defined in this document, defined terms shall bear the same meaning as in the Full Prospectus. For details about the Sub-Fund's holdings, please see the most recent report.

HSBC Global Investment Funds – Indian Equity (hereinafter the "Sub-Fund") is a sub-fund of HSBC Global Investment Funds (hereinafter the "Company"). The Company is a Luxembourg investment company with multiple compartments organised as a "*société anonyme*" incorporated on 21 November 1986.

The Company exists for an unlimited period and qualifies as an undertaking for collective investment in transferable securities under Part I of the Luxembourg law of 20 December 2002 on undertakings for collective investment, as amended (the "2002 Law").

The rights and duties of the investor as well as the legal relationship with the Company are laid down in the Full Prospectus. The Full Prospectus and the periodical reports may be obtained, free of charge, from the Company.

### What does the Sub-Fund invest in?

#### Investment objective

The Sub-Fund seeks long-term capital growth by investing primarily in a diversified portfolio of investments in equity and equity equivalent securities of companies which have their registered office in, and with an official listing on a major stock exchange or other Regulated Market of India, as well as those companies which carry out a preponderant part of their business activities in India. Whilst there are no capitalisation restrictions, it is anticipated that the Sub-Fund will seek to invest across a range of market capitalisations with a bias to medium and large companies.

The Sub-Fund intends to invest part or all of the net proceeds of the issue of Shares in HSBC Global Investment Funds Mauritius Limited, Rogers House, 5 President John Kennedy Street, Port Louis, Mauritius (the "Subsidiary") which is a Mauritian company wholly-owned by the Company. Under normal market conditions, the Subsidiary will invest substantially all of its assets in Indian equities and equity equivalent securities of companies which have their registered office in, and with an official listing on a major stock exchange or other Regulated Market of India.

The remainder of the net proceeds of the issue of Shares will be invested directly in equity and equity equivalent securities of companies registered in, and with an official listing on a major stock exchange or other Regulated Market of India. The investment objectives of the Subsidiary are in line with those of Indian Equity and the Subsidiary will apply the Company's investment restrictions as outlined in the Full Prospectus.

The Subsidiary was incorporated in Mauritius on 3 October 1995. It is wholly-owned by the Company. It will issue ordinary Shares and redeemable preference Shares only to the Company's Indian Equity fund. The Subsidiary is registered with the Mauritius Offshore Business Activities Authority and has obtained a certificate of tax residency from the Commissioner of Income Tax in Mauritius (Please refer to "Taxation" in Section 2.15 of the Full Prospectus).

The directors of the Subsidiary are responsible, *inter alia*, for establishing the investment objectives and policy of the Subsidiary and for monitoring the Subsidiary's investments and performance and for providing advisory services to the exclusive benefit of the Company, including in relation to massive redemptions in the Sub-Fund.

The Subsidiary has appointed Multiconsult Limited, Rogers House, 5 President John Kennedy Street, Port Louis, Mauritius, to provide administrative services to the Subsidiary in Mauritius, including maintenance of its accounts, books and records. The Subsidiary has appointed KPMG Mauritius of KPMG Centre, 30 St George Street, Port Louis, Mauritius, as auditors of the Subsidiary in Mauritius to perform the auditor's duties required by Mauritius law.

The Subsidiary has appointed the Custodian as custodian over its assets. Based on its custodian arrangements with the Company, the Custodian has entered into a Mauritius Cash Custodian Agreement with HSBC Bank (Mauritius), a bank incorporated under the laws of Mauritius and a wholly owned subsidiary of the Hong Kong and Shanghai Banking Corporation Limited, and duly licensed to do business in Mauritius, and having an office at 5/F Le Cascade Building, Edith Cavell Street, Port Louis, Mauritius, for the remittance of all cash and currency of the Subsidiary for the purpose of inward investment into India by the Subsidiary and in respect of remittances from such investments.

## Who should invest in the Sub-Fund?

### Profile of the typical investor

The Sub-Fund (being in the Dynamic category) is suitable for investors with a long term investment horizon. The Sub-Fund is intended to provide additional exposure for more experienced investors within a portfolio where a high proportion of the assets may be invested in Emerging Markets and smaller capitalisation securities, which may restrict liquidity and increase the volatility of return.

To determine if the Sub-Fund is suitable, it is recommended that the investor consult a stockbroker, bank manager, solicitor, accountant, representative bank or other financial adviser.

## What are the risks of investing in the Sub-Fund?

### Risk Profile

Investment in the Sub-Fund carries with it a degree of risk, but not limited to, those referred to below. Potential investors should review the Full Prospectus in its entirety and have a clear picture of the Sub-Fund prior to a decision to invest. There can be no assurance that the Sub-Fund will achieve its investment objectives and past performance should not be seen as a guide to future returns.

In addition, by investing through the Mauritius subsidiary, the Sub-Fund intends to benefit from the double tax treaty concluded between Mauritius and India, as described more fully in Section 2.15 of the Prospectus. It cannot be guaranteed that the Sub-Fund will always have these tax advantages. Furthermore, amendments could also be made to the double tax treaty, and these could affect the taxation of the Sub-Fund's investments and/or the taxation of the Mauritius subsidiary and, consequently, the value of shares in the Sub-Fund.

Moreover, applicable law in Mauritius asserts the total separation between a subsidiary and the Sub-Fund in cases involving the subsidiary's commitments toward third parties. In exceptional cases, however, there is a risk that the Sub-Fund could be held responsible for such commitments.

#### ▪ Stock risk

The Sub-Fund is exposed to equity markets for all or part of its total assets. The value of these assets can therefore rise or fall and investors may not get back all of their investment.

#### ▪ Foreign exchange risk

The Sub-Fund is exposed to foreign exchange risk for all or part of its total assets. The underlying assets may be denominated in a currency other than the dealing currency. The value of these assets may rise or fall in line with movements in the relevant exchange rates.

#### ▪ Emerging Markets

Because of the special risks associated with investing in Emerging Markets, the Sub-Fund investing in such securities should be considered speculative. Investors in the Sub-Fund are advised to consider carefully the special risks of investing in emerging market securities. Economies in Emerging Markets generally are heavily dependent upon international trade and, accordingly, have been and may continue to be affected adversely by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed or negotiated by the countries with which they trade. These economies also have been and may continue to be affected adversely by economic conditions in the countries in which they trade.

Brokerage commissions, custodial services and other costs relating to investment in Emerging Markets generally are more expensive than those relating to investment in more developed markets. Lack of adequate custodial systems in some markets may prevent investment in a given country or may require the Sub-Fund to accept greater custodial risks in order to invest, although the Custodian will endeavour to minimise such risks through the appointment of correspondents that are international, reputable and creditworthy financial institutions. In addition, such markets have different settlement and clearance procedures. In certain markets there have been times when settlements have been unable to keep pace with the volume of securities transactions, making it difficult to conduct such transactions. The inability of the Sub-Fund to make intended securities purchases due to settlement problems could cause the Sub-Fund to miss attractive investment opportunities. Inability to dispose of a portfolio security caused by settlement problems could result either in losses to the Sub-Fund due to subsequent declines in value of the portfolio security or, if the Sub-Fund has entered into a contract to sell the security, could result in potential liability to the purchaser.

The risk also exists that an emergency situation may arise in one or more developing markets as a result of which trading of securities may cease or may be substantially curtailed and prices for the Sub-Fund's securities in such markets may not be readily available.

Investors should note that changes in the political climate in Emerging Markets may result in significant shifts in the attitude to the taxation of foreign investors. Such changes may result in changes to legislation, the interpretation of legislation, or the granting of foreign investors the benefit of tax exemptions or international tax treaties. The effect of such changes can be retrospective and can (if they occur) have an adverse impact on the investment return of shareholders in the Sub-Fund so affected.

Prospective investors should ascertain from their professional advisers the consequences to them of acquiring, holding, redeeming, transferring, selling or converting Shares under the relevant laws of the jurisdictions to which they are subject, including the tax consequences and any exchange control requirements.

Under current law and practice, the Company is not liable to any Luxembourg income tax. Further details are provided in the Full Prospectus. The Company is liable to annual tax in Luxembourg ("*taxe d'abonnement*") calculated at the rate of 0.05% per annum of its net asset value, and at the rate of 0.01% per annum of the net asset values of the sub-funds or Classes of Shares reserved to institutional investors within the meaning of article 129 of the 2002 Law and Reserve sub-funds. The Redemption Price is published on each Dealing Day, in the relevant currencies in various international publications and on data providers websites and platforms.

The prices are calculated on each Dealing Day on the basis of the net asset value of the relevant Class of Shares of the Sub-Fund in its relevant currencies. The redemption price is equal to the net asset value per Share adjusted by the pricing adjustment, as fully described above (the "Redemption Price").
