#### KEY PRODUCT FEATURES

##### WHAT ARE YOU INVESTING IN?

- You are investing in Class USD units (the "**Units**") of the Fund, which is an exchange traded fund constituted in France and is an Undertaking for Collective Investments in Transferable Securities ("**UCITS**") Part IV scheme that aims to track the Benchmark Index by using a synthetic replication strategy (please see the "Investment Strategy" section below for further details).
- The Benchmark Index is calculated and published by Dow Jones & Company, Inc. The Benchmark Index is price weighted, which means that its component weightings are affected only by changes in their market prices, and reflects global market performance of the United States industrial sector.
- The Manager reserves the discretion to pay out income distributions and net realised capital gains of the Fund to Holders at such times as it may determine. There can be no assurance that the Manager will declare dividends or make distributions.

Please refer to the "Basic Information", "Investment Objectives, Focus & Approach", "Other Material Information – Distributions" sections and "Appendix 1: Benchmark Index" of the Prospectus for further information.

<sup>1</sup> The Prospectus is accessible at [www.lyxoretf.com.sg](http://www.lyxoretf.com.sg). Investors may also obtain copy of the Prospectus from the Singapore Representative of the Fund, whose details can be found on the last page of this PHS. Unless the context otherwise requires, terms defined in the Prospectus shall have the same meaning when used in this PHS.

Distributions out of income and/or net realised capital gains of the Fund (if any) may lower the NAV of the Fund.

These risk factors may cause you to lose some or all of your investment:</b>	Please refer to the “Risks” section of the Prospectus for further information.
<b>Market and Credit Risks</b>	
<ul style="list-style-type: none"> <li><b>Market prices for the Units may be different from their NAV</b> <ul style="list-style-type: none"> <li>Units are transacted on the SGX-ST on a willing-buyer-willing-seller basis at market prices throughout the trading day.</li> </ul> </li> </ul>	

<ul style="list-style-type: none"> <li>○ The price of any Units traded on the SGX-ST will depend, amongst other things, on market supply and demand, movements in the value of the Benchmark Index, prevailing financial market, corporate, economic and political conditions.</li> <li>○ As market prices of Units may sometimes trade above or below the NAV of the Fund, there is a risk that Holders may not be able to buy or sell at a price close to the NAV.</li> </ul>	
<b>Liquidity Risks</b>	
<ul style="list-style-type: none"> <li>• <b>Units can be redeemed at NAV only through Participating Dealers</b> <ul style="list-style-type: none"> <li>○ Investors who wish to redeem their Units at NAV must approach a Participating Dealer to apply to the Manager to redeem the Units on their behalf. However, you may not be able to find a buyer on the SGX-ST when you wish to sell your Units. While the Fund intends to appoint at least one market maker to assist in creating liquidity for investors, liquidity is not guaranteed and trading of Units on the SGX-ST may be suspended in various situations.</li> <li>○ If the Units are delisted from the SGX-ST or if the CDP is no longer able to act as the depository for the Units listed on the SGX-ST, the Units in the investors' securities accounts with the CDP or held by the CDP may be repurchased (compulsorily or otherwise) by the designated Market Maker or otherwise at a price calculated by reference to the NAV of the Fund calculated as of a certain number of day(s) following the last trading day of the Fund on the SGX-ST (or such other day as may be determined by the Manager in consultation with the SGX-ST and/or the CDP).</li> </ul> </li> </ul>	
<b>Product-Specific Risks</b>	
<ul style="list-style-type: none"> <li>• <b>You are exposed to counterparty risk related to the swap agreement(s) entered into by the Fund and risks relating to swap agreement(s)</b> <ul style="list-style-type: none"> <li>○ The Fund currently enters into swap agreement(s) with a swap counterparty. There is a risk that the swap counterparty may default on its obligations under the swap agreement(s) which may cause the Fund to incur significant losses. However the Fund is subject to a maximum single counterparty risk exposure of 10% of its NAV under the UCITS directive.</li> <li>○ If the swap counterparty defaults on its obligations, the NAV of the Fund may be adversely affected by fluctuations in the Basket of Balance Sheet Assets (which may not comprise shares that make up the Benchmark Index) during the period where an alternative swap counterparty is being sought for the Fund.</li> <li>○ There is also a possibility that the swap transactions may be terminated under certain circumstances.</li> </ul> </li> <li>• <b>The Fund, Manager, Depository and the current swap counterparty are not constituted in Singapore and are governed by foreign laws. Any winding up of the investments of the Fund including the swap agreement(s) which are governed by foreign laws may involve delays and legal uncertainties for Singapore investors.</li> </ul> </li> </ul>	
<b>Potential Conflicts of Interest Risks</b>	
<ul style="list-style-type: none"> <li>• The Manager is a subsidiary of Lyxor Asset Management, which is in turn a wholly-owned subsidiary of Société Générale (which is currently the swap counterparty, designated Market Maker, depository and the registrar of the Fund).</li> <li>• Whilst compliance procedures require effective segregation of duties and responsibilities between the relevant divisions within the Société Générale Group, the possibility of conflicts of interest arising cannot be wholly eliminated.
