BOND ■

## Objective and Investment Policy

The Sub-Fund is a financial product that promotes ESG characteristics pursuant to Article 8 of the Disclosure Regulation. Seeks to increase the value of your investment and to provide income over the recommended holding period. The Sub-Fund invests mainly in government and corporate bonds from emerging markets that are denominated in U.S. dollars or other OECD currencies. The corporate bonds from emerging markets are issued by companies that are incorporated, headquartered in or do substantial business in emerging markets. The Sub-Fund may also invest up to 25% of its assets in bonds with attached warrants, up to 10% of its assets in UCIs and UCITS and up to 5% in equities. The Sub-Fund's exposure to Distressed securities is limited to 10% of its assets and its exposure to contingent convertible bonds is limited to 10% of its assets. The overall currency exposure to emerging markets may not exceed 25% of the Sub-Fund's assets. The Sub-Fund makes use of derivatives to reduce various risks, for efficient portfolio management and as a way to gain exposure (long or short) to various assets, markets or other investment opportunities (including derivatives which focus on credit, interest rates and foreign exchange). The Sub-Fund may use derivatives to gain exposure to loans up to a maximum of 20% of its assets. **Benchmark** : The Sub-Fund is actively managed by reference to and seeks to outperform the 95% JP Morgan EMBI Global Diversified Index and 5.00% JP Morgan 1 Month Euro Cash Index. The Sub-Fund is mainly exposed to the issuers of the Benchmark, however, the management of the Sub-Fund is discretionary, and will be exposed to issuers not included in the Benchmark. The Sub-Fund monitors risk exposure in relation to the Benchmark however the extent of deviation from the Benchmark is expected to be material. The Sub-Fund has not designated the Benchmark as a reference benchmark for the purpose of the Disclosure Regulation. **Management Process** : The Sub-Fund integrates Sustainability Factors in its investment process as outlined in more detail in section "Sustainable Investment" of the Prospectus. The investment manager chooses securities based on an intrinsic value analysis (bottom-up), then monitors the sensitivity of the portfolio to equity and credit markets according to their market expectations (top-down). The investment team actively manages market and risk exposure with the goal of optimising the asymmetric risk/return profile of the fund. Further, the Sub-Fund seeks to achieve an ESG score of its portfolio greater than that of the investment universe.

Aggregate

## Risk & Reward Profile (Source: Fund Admin)

The risk indicator assumes you keep the product for 4 Years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely impact our capacity to pay you. Additional risks: Market liquidity risk could amplify the variation of product performances. This product does not include any protection from future market performance so you could lose some or all of your investment. Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the Amundi Funds prospectus.

The holdings listed should not be considered recommendations to buy or sell any particular security listed.

Breakdown by rating (% of assets, source: Amundi) \*

\* Includes Credit and Total Return Swaps

Based on Cash Bonds, CDS and TRS but excludes other types of derivatives. Median Rating calculated of the three agencies: Fitch, Moody's and Standard & Poor's.

## BOND ■

## AVERAGE ESG RATING (source : Amundi)

Environmental, social and governance rating

**ESG Investment Universe:** 50% JP MORGAN EMBI GLOBAL DIVERSIFIED COMPOSITE + 50% JP MORGAN CEMBI BROAD DIVERSIFIED

Investment Portfolio Score: -0.08

ESG Investment Universe Score<sup>1</sup>: -0.14

## ESG Coverage (source : Amundi)

	Portfolio	ESG Investment Universe
Percentage with an Amundi ESG rating <sup>2</sup>	91.73%	95.20%
Percentage that can have an ESG rating <sup>3</sup>	96.84%	99.92%

## ESG Terminology

## ESG criteria

The criteria are extra-financial criteria used to assess the Environmental, Social and Governance practices of companies, states or local authorities:

"E" for Environment (energy and gas consumption levels, water and waste management, etc.).

"S" for Social/Society (respect for human rights, health and safety in the workplace, etc.).

"G" for Governance (independence of board of directors, respect for shareholders' rights, etc.).

## ESG Rating

**The issuer's ESG rating:** each issuer is assessed on the basis of ESG criteria and obtains a quantitative score, the scale of which is based on the sector average. The score is translated into a rating on a scale from A (highest rating) to G (lowest rating). The Amundi methodology provides for a comprehensive, standardised and systematic analysis of issuers across all investment regions and asset classes (equities, bonds, etc.).

**ESG rating of the investment universe and the portfolio:** the portfolio and the investment universe are given an ESG score and an ESG rating (from A to G). The ESG score corresponds to the weighted average of the issuers' scores, calculated according to their relative weighting in the investment universe or in the portfolio, excluding liquid assets and non-rated issuers.

## Amundi ESG Mainstreaming

In addition to complying with Amundi Responsible Investment Policy<sup>4</sup>, Amundi ESG Mainstreaming portfolios have an ESG performance objective that aims to achieve a portfolio ESG score above the ESG score of their ESG Investment universe.

<sup>1</sup> The investment universe reference is defined by either the fund's reference indicator or an index representative of the ESG-related investable universe.

<sup>2</sup> Percentage of securities with an Amundi ESG rating out of the total portfolio (measured in weight).

<sup>3</sup> Percentage of securities for which an ESG rating methodology is applicable out of total portfolio (measured in weight).

<sup>4</sup> The updated document is available at <https://www.amundi.com/int/ESG>.

## Sustainability Level (source : Morningstar)

The sustainability level is a rating produced by Morningstar that aims to independently measure the level of responsibility of a fund based on the values in the portfolio. The rating ranges from very low (1 Globe) to very high (5 Globes).
