The articles of association, full prospectus, Key Investor Information Document, annual and semi-annual reports as well as the list of purchases and sales may be obtained free of charge from the Swiss representative agent and from the SICAV's registered office.

# General Information

---

The net asset value per share of each sub-fund, the issue, redemption and conversion prices are published on each valuation date at the registered office of the Company in Luxembourg and of the Representative in Switzerland. They are also the subject in Switzerland of an insertion in [www.fundinfo.com](http://www.fundinfo.com).

The financial year starts on 1<sup>st</sup> January each year and ends on 31<sup>st</sup> December of the same year.

The Company publishes a detailed annual report on its activities and the management of its assets, which includes its financial statements expressed in USD, the detailed breakdown of assets for each sub-fund, and the audit report.

In addition, the Company publishes an unaudited semi-annual report after the end of each half-year.

The Shareholders' Annual General Meeting is held every year at the Company's registered office, or in any other location in Luxembourg as specified on the convening notice.

The Shareholders' Annual General Meeting is held on the third Thursday in April at 3 p.m., or if this day is a public holiday, on the following bank business day.

Notice of all General Meetings is sent by post to all registered shareholders at the address mentioned on the shareholders' register, at least eight days prior to the General Meeting.

This notice will indicate the time and place of the General Meeting and the admission conditions, the agenda and requirements under Luxembourg law regarding the necessary quorum and majority. Notices may also be published in the case of the Grand Duchy of Luxembourg and Switzerland in the "RESA" and in a Luxembourg newspaper (the Luxemburger Wort), and on the website [www.fundinfo.com](http://www.fundinfo.com) respectively as well as in the press or in any other media selected by the Board of Directors, respectively the Management Company, in the countries in which the Fund is marketed, and on [www.fundsquare.net](http://www.fundsquare.net). Requirements regarding participation, quorum and majority at all General Meetings are those set out in articles 67 and 67-1 (as amended) of the law dated 10<sup>th</sup> August 1915 relating to commercial companies, and in the Company's Articles of Association.

The statement of changes in transferable securities and other net assets made to the portfolio during the year may be obtained upon request and free of charge from the Depository bank or from the Paying and Information agent in Germany.

As regards the commercialisation of the Company in Germany, the parties elect domicile at the registered office of the Paying and Information agent and the relevant courts of the registered office will be the only authorised entities in the event of a dispute.

The paying and information agent in the Federal Republic of Germany is ODDO-BHF Aktiengesellschaft, Bockenheimer Landstraße 10, D-60323 Frankfurt am Main (hereafter "the German paying and information agent").

A list of the changes to the investment portfolio is available free of charge from the German paying and information agent, the SICAV's registered office and the Swiss representative.

Requests for redemption or conversion of shares of one sub-fund into shares of another sub-fund can be submitted to the German paying and information agent.

Redemption proceeds, possible distributions and any other payments to the shareholders carried out by the German paying and information agent may be paid out in cash in euros upon demand by the shareholders.

The prospectus, the Key Investor Information Document, the investment company's articles of association, annual and semi-annual reports, subscription and redemption prices, as well as any notices to shareholders are available to shareholders free of charge from the German paying and information agent.

The subscription and redemption prices are published on the website:  
<http://fondscontainer.vwd.de/>

Any notices to shareholders are published on the websites: [www.fundinfo.com](http://www.fundinfo.com) and [www.fundsquare.net](http://www.fundsquare.net).

## Report on activity

The Federal Reserve executed one of its sharpest-ever U-turns at the start of the year, leaving rates unchanged but opening up the possibility that its next move could be either a rate hike or a cut. This came on the back of slower growth in China and Europe, ongoing trade tensions, Brexit, the US government shutdown and tighter financial conditions. Global markets performed strongly in Q1 following positive expectations of a trade deal between the US and China and continued central bank support.

The second quarter of the year was characterized by the markets shift in its assessment of U.S. monetary policy, with three to four rate cuts expected before the end of 2020 compared to the Federal Reserve's projection materials with a median of only one rate cut. In the Eurozone, ECB President Draghi promised further quantitative easing to include rate cuts and bond purchases before his fall departure. He vowed to provide fresh stimulus as economic fears in Europe increased due to trade wars, weak inflation, and persistent manufacturing weakness.

During the second quarter, the Fed cut rates twice by 0.25% and the ECB followed by cutting rates by 10bps, and announcing that will resume asset purchases in November by EUR20bn per month for as long as necessary, will introduce two tier system for bank deposits and finally will create more accommodative conditions for TLTROs.

Markets rallied at the start of the month of October due to the positive sentiment in the US-China negotiations and in the Brexit political situation, where the EU and UK agreed on a Brexit deal. The Federal Reserve lowered the target for its benchmark rate by 25bps to a range of 1.5% to 1.75%. This move, the third but in four months, was hoped to shield the economy from the impact of trade wars and a global economic slowdown. Equity markets rallied in Q4, and bond yields increased across developed markets. The drivers of the move were likely the improvement in the US-China trade negotiations, the conclusion of the UK election and economic data that remain in expansive territory in overall. The year ended with impressive returns for global equity markets as the MSCI World returned 24.9%, the DJ Stoxx 600, 23.2% and the S&P 500 28.9%. Bond markets also generated significant returns for investors with the US Broad returning 8.9%, EMU 7-10Y 6.9% and the UK 7-10Y 4.9%. Spreads tightened for Global, US and European HY over 2019 with total returns for Global HY at 13.9%, USHY at 14.4% European HY at 11.3% and CoCo's at 17.6%.

### Outlook 2019

2019 was all about a never-quite-arriving recession. We saw an about-turn from the Federal Reserve that triggered renewed accommodation from other central banks, including in emerging markets. As 2020 nears, this trend seems to be on the verge of turning around and giving way to a more positive growth dynamic. We think these developments illustrate a wider and profound change that has important implications for all investors.

'Japanification' refers to the persistent economic situation of low growth, low inflation and low interest rates that Japan has endured for almost three decades. This now fairly describes western economies too. While a useful shorthand, the term misses an important implication for investors.

We have been conditioned to expect relatively long business cycles of alternating strong recoveries and sharp declines, painting a v-shape picture of relatively long economic boom and sudden bust. In this framework, as economies grew, central banks gradually tightened credit conditions to prevent inflationary pressures, finally pitching us into recessions before the whole round restarted. 'Japanification' marks a departure from this familiar, multi-decade model.

We believe that this new model also implies shorter and milder business cycles, of a few quarters or years at most. This shortening of cycles and their smaller magnitude means that investors will have to adapt to weaker or confused signals from traditional indicators. Just think of the recent manufacturing recession that we have seen in the US, or the short-lived inverse yield curve.

In addition, in the short term, interest rates may be less efficient in managing the ups and downs. The large volumes of debt already held by individuals and corporations inevitably limits their capacity and appetite for more, making each successive central bank rate cut less effective.

From a positive perspective, inflationary pressures remain minimal, and interest rates low, but stable. Central banks will not, we believe, become much more accommodative. But they can maintain their current stance at the very least through 2020 as they continue to undershoot their inflation targets. That implies a durable low-rate environment and a need for investors to look further afield for yield, as well as more tactical investment thinking over mini cycles that may be measured in months rather than years.

Turning to specific risks for next year, markets will follow US/Chinese relations closely. The tensions are mostly about political willingness complicated by domestic politics. Any serious deterioration in the relationship would cut into US growth and possibly trigger further reaction from the Fed to prevent the dollar from rising. This said, we see only one of two extremes - a worldwide recession or a sudden surge in US growth - prompting the Fed to adjust interest rates again in 2020. While we cannot exclude such dramatic developments, neither of these scenarios seem likely to us for the year ahead.

All of this implies that normalized monetary policy will not be with us any time soon, even in the case that global growth rises. Neither the European Central Bank nor Fed are likely to raise rates. That implies that real cash rates will remain negative, including in US dollars. As a result, looking to 2020, gold is likely to retain some value, if not for attractive returns, at least as a useful diversifier in portfolios, especially if we see more use of fiscal policies.

Turning to currencies, it may be easier to say what we do not expect to happen: there is no reason to expect the dollar to appreciate much further. Since 2014, it has been supported by a growing rate differential with the rest of the world, that we now expect to stabilize. So while there is no reason to strongly favor the euro or Swiss franc, we believe that investors should no longer expect to benefit from further gains in the USD. This also means that emerging assets will no longer face the headwind of a strong dollar in 2020.

All of a sudden, the global economy has been brought to an almost stop to try to contain the Covid-19 propagation. Following China and Asia's measures taken two month ago, Europe and now the United States have also entered into some form of lockdown. The first available economic data reflect a brutal drop in activity, particularly visible in the service sector where social distancing is most impactful.

Central banks and governments have reacted very rapidly to try to minimize the impact of this shock to the economy. We are witnessing rate cuts all over the globe, as well as the relaunch and expansion of asset purchase programs. Liquidity facilities have been deployed extensively by most central banks in order to prevent a gridlock of the financial system. In the meantime, governments have announced large budget programs that, beyond each country's specificities, all have the same purpose: to minimize the potential damages of this sudden stop on productive capacities (i.e. prevent business shutdown and layoffs as much as possible), and provide support to households and businesses who will face a partial or total loss of revenues during the lockdown period.

As of now, there is no doubt that all major economies will experience a sharp decline in economic activity, a recession, from the end of Q1 till the beginning of Q2 at least. However, beyond that certainty, a high level of uncertainty remains at all levels due to this unprecedented situation. We have now identified three key unknowns when it comes to financial markets:

## Report on activity (continued)

---

### - How long will this period of "global economy on pause" last?

Of course, this crisis is primarily a health crisis and the lockdown measures are designed to slow and contain the spread of the virus. Once the speed of propagation is seen as slowing down, or if cures are identified to help the health system to deal with this pandemic, the exit of the current situation will become possible, and with it the possibility to try assessing the cost and damages caused to the economies (which is virtually impossible at the moment)

### - How efficient will large government programs be in mitigating the short-term economic impact?

Large numbers and comprehensive measures have been announced but their success will depend on their implementation. For instance, how efficient will the US program be in limiting the unavoidable rise in unemployment rate and avoid reaching levels last seen 90 years ago in the Great Depression? The next few weeks might already provide some hints on that front.

### - How much is already priced by financial markets currently in terms of economic and earning disruption?

Equity, credit and rate markets have all adjusted at an unprecedented speed in March, in a rush for liquidity that barely left any asset class in positive territory.

It is too early to be able to answer these questions. The impact on the economy could be even larger than currently perceived, the pandemic could get even more out of control, fiscal and monetary policy measures could prove to be too little or ineffective in addressing a crisis that, unlike most historical precedents, didn't start from within the financial system. Furthermore, financial markets may not yet have grasped the full extent of those possible damages. For all these reasons, maintaining the cautious stance that has characterized portfolios so far is still warranted, both on the equity and fixed income sides of the allocation.

However, after this initial large shock has passed, we have to acknowledge a few tangible elements. All scientists around the globe are now working relentlessly to identify all possible means of improving the testing process, dealing with the symptoms and lower the pressure on the healthcare system, and ultimately discover a vaccine. All governments are now looking for realistic plans of gradual and partial economic activity resuming, while remaining committed to bearing the cost of the temporary lockdown. It is becoming a reality to everyone that this situation of economic lockdown cannot be maintained for excessively long and that life (at the very least, the economic life) will have to resume while the virus is still present at some point. Possible international cooperation (little visible so far) might improve the efficiency of this process.

For these reasons, and as equity markets have already discounted a significant part of the negative shock, it is therefore no longer appropriate to maintain an excessively cautious positioning in portfolios. Starting to reduce the amplitude of the significant underweight in equity exposure is now warranted, even if portfolios remain clearly tilted defensively. Gradual, incremental steps designed to rebalance the portfolio exposure and provide a better participation to the upside can be made. For larger and more structural movements, more visibility will be required on the three unknowns mentioned above."

Luxembourg, 14 April 2020

The Board of Directors

## Audit report

To the Shareholders of  
**OYSTER**

---

### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of OYSTER (the “Fund”) and of each of its sub-funds as at 31 December 2019, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### *What we have audited*

The Fund’s financial statements comprise:

- the combined statement of net assets as at 31 December 2019;
- the portfolio statements as at 31 December 2019;
- the combined statement of changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

---

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants’ Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

---

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

**Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

---

**Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

## Note 1 – General

Oyster, the SICAV is an open-ended investment company with variable capital (société d'investissement à capital variable, hereinafter referred to as the "SICAV") governed by Luxembourg law, established for an unlimited time period on 2<sup>nd</sup> August 1996, in accordance with the provisions of the Law of 17<sup>th</sup> December 2010 Part I (hereinafter referred to as "the Law") and of the Law of 10<sup>th</sup> August 1915 relating to commercial companies, as amended.

The SICAV is subject in particular to the provisions outlined in Part I of the Law, relating to undertakings for collective investment in transferable securities (UCITS) as defined in the Directive of the European Parliament and Council dated 13<sup>th</sup> July 2009 (2009/65/EEC, hereafter referred to as the "Directive"), as amended.

Its Articles of Association were initially published in the Companies and Associations section of the "Mémorial" (official state gazette) on 30<sup>th</sup> August 1996. They were amended on 22<sup>nd</sup> August 2012 and published in the "Recueil électronique des sociétés et associations" ("RESA") on 18<sup>th</sup> September 2012.

The SICAV is registered with the Luxembourg Trade and Companies Registry under number B-55740.

The SICAV was established in the form of an umbrella-type fund and is made up of several sub-funds, each representing a set of specific commitments and assets and corresponding to a distinct investment policy.

Currently, twenty-three sub-funds are active:

- OYSTER - Absolute Return GBP (denominated in GBP)
- OYSTER - Balanced Strategy Portfolio USD (denominated in USD)
- OYSTER - BM Alternativos (denominated in EUR)
- OYSTER - Continental European Income (denominated in GBP)
- OYSTER - Continental European Selection (denominated in GBP)
- OYSTER - Equity Premia Global (denominated in USD)
- OYSTER - European Corporate Bonds (denominated in EUR)
- OYSTER - Euro Fixed Income (denominated in EUR)
- OYSTER - European Mid & Small Cap (denominated in EUR)
- OYSTER - European Opportunities (denominated in EUR)
- OYSTER - European Selection (denominated in EUR)
- OYSTER - European Subordinated Bonds (denominated in EUR)
- OYSTER - Global Convertibles (denominated in EUR)
- OYSTER - Global Diversified Income (denominated in USD)
- OYSTER - Global Equity Income (denominated in USD)
- OYSTER - Global Flexible Fixed Income (denominated in USD)

\* See Note 1

# Notes to the financial statements as at 31<sup>st</sup> December 2019

The combined statement of net assets and the combined statement of changes in net assets for the financial year ended 31<sup>st</sup> December 2019 have not been adjusted to exclude the impact of the foregoing cross-investments.

The combined Net Asset Value excluding the amount of investments in the sub-funds referred to above amounts to USD 2,263,476,260.

## b) Valuation of each sub-fund's portfolio

Transferable securities admitted to an official Exchange listing or traded on another regulated market are valued on the basis of the last available price in Luxembourg on the valuation day. If these securities are traded on several markets, the main market's last available price will be applied.

Transferable securities not admitted to an official Exchange listing or not traded on another regulated market, and transferable securities admitted to official Exchange listing or traded on another regulated market, for which the last known price is not representative, are valued based on a prudent, good faith estimate of the probable sale value by the Board of Directors.

## c) Pooling

For purposes of good portfolio management, the SICAV may manage all or part of the assets of one or more sub-funds on a collective basis (pooling). Such pooling may involve several sub-funds of the SICAV, or the assets of one or more sub-funds of the SICAV and the assets belonging to other undertakings for collective investment, in accordance with their investment policies.

This management technique is used to achieve economies of scale. The sub-funds may thus hold an interest in the pools in proportion to their share of assets in the pool. These pools are not considered legal entities and are not directly accessible to investors.

The unrealised gains or losses of the pools are allocated to the sub-funds at each calculation of the Net Asset Value based on allocation factors determined at that time. There is no guarantee that the amount of these unrealised gains or losses will correspond to the change in the net unrealised gain or loss on investments at the sub-fund level.

## d) Net gains (losses) realised on the sale of investments in each sub-fund

Realised gains or losses on the sale of investments for each sub-fund are calculated on the basis of the average cost of the investments sold.

## e) Conversion of foreign currencies for each sub-fund

Bank assets, other net assets and the valuation of investments expressed in currencies other than that of the sub-fund are converted into that currency at the exchange rate in force at 31<sup>st</sup> December 2019.

Income and costs expressed in currencies other than the sub-fund currency are converted into that currency at the exchange rate in force on the transaction date.

Exchange gains and losses resulting from such conversions are recorded in the statement of changes in net assets.

The exchange rates used for the valuation of the net asset value as at 31<sup>st</sup> December 2019 were as follows:

1 USD =	1.422576	AUD	1 USD =	0.890869	EUR	1 USD =	1.482250	NZD
1 USD =	4.022704	BRL	1 USD =	0.754859	GBP	1 USD =	3.787305	PLN
1 USD =	1.296749	CAD	1 USD =	7.791803	HKD	1 USD =	62.111801	RUB
1 USD =	0.968350	CHF	1 USD =	294.619367	HUF	1 USD =	9.361017	SEK
1 USD =	6.965146	CNH	1 USD =	71.377587	INR	1 USD =	1.344650	SGD
1 USD =	6.965680	CNY	1 USD =	108.674980	JPY	1 USD =	5.950999	TRY
1 USD =	3,278.688525	COP	1 USD =	18.883958	MXN	1 USD =	29.976918	TWD
1 USD =	6.656992	DKK	1 USD =	8.787269	NOK	1 USD =	13.983472	ZAR

## f) Combined financial statements of the SICAV

The various entries in the combined statement of net assets and the combined statement of changes in net assets are equal to the sum of the corresponding entries in the financial statements of each sub-fund and are converted into USD at the following exchange rates as at 31<sup>st</sup> December 2019:

1 USD =	0.890869	EUR
1 USD =	0.754859	GBP
1 USD =	108.674980	JPY

The opening net assets are kept at the exchange rate in force at the closing date of the previous year. The resulting currency differences are included in the combined statement of changes in net assets under 'Currency variation'.

## g) Acquisition cost of investments in each sub-fund

The acquisition cost of investments by each sub-fund denominated in currencies other than that of the sub-fund is converted into this currency at the rate in force on the day of purchase.

## h) Currency forward foreign exchange contracts

Currency profits or losses resulting from non-matured currency forward foreign exchange contracts are determined on the basis of the currency forward foreign exchange rates applicable on the valuation date and recorded in the combined statement of changes in net assets.

## i) Futures contracts

Gains or losses resulting from non-matured futures contracts are determined on the basis of the latest price known for contracts on the valuation date and recorded in the combined statement of changes in net assets.

## j) Distribution of costs

Expenses and costs attributable to a particular share class and/or a particular sub-fund will be allocated directly. Other expenses and costs not directly attributable to a particular share class and/or a particular sub-fund will be allocated equally to the various classes within the various sub-funds and/or to the various sub-funds. If the amount of expenses and costs so requires, they will be allocated to the share classes and/or sub-funds on a pro-rata basis in terms of their respective net assets.

## k) Income

Dividends are recognised as income on the date when the shares are listed 'ex-dividend' for the first time. Interest is calculated daily.

## l) Options

Options are valued at the last known price on the valuation date.

## m) Valuation of swaps and CFD

Credit Default Swaps, Interest Rate Swaps and CFD are valued at fair value based respectively on the last known spread curve, rates curve and last known closing price of the underlying asset.

# Notes to the financial statements as at 31<sup>st</sup> December 2019

## Note 3 – Management and performance fees

### a) Management fees

On 17<sup>th</sup> November 2006, the SICAV entered into an agreement for an unlimited period with SYZ Asset Management (Luxembourg) S.A. (the "Manager") to manage the sub-funds' assets, while remaining under the permanent control of the SICAV's Board of Directors.

At the end of every quarter, the SICAV pays SYZ Asset Management (Luxembourg) S.A. a management fee as remuneration for its services, at the annual rates described hereafter and applied to the average Net Asset Value of each share class. A percentage of this management fee is paid to the various Sub-Managers as remuneration for their respective services.

The rates indicated are those in force for the shares that were active during the period.

The Management Company is assisted by sub-managers in the performance of its management functions. The Management Company has designated the companies named hereafter to carry out the functions of sub-managers of the SICAV's sub-funds as follows:

**Advent Capital Management, LLC:** Global Convertibles.

**Albemarle Asset Management Ltd:** Dynamic Allocation\*.

**Bank SYZ Ltd:** Balanced Strategy Portfolio USD\* and Growth Strategy Portfolio USD\*.

**Decalia Asset Management S.A.:** Italian Opportunities\*.

**Eiffel Investment Group S.A.S.:** Flexible Credit\*.

**Scout Investments, Inc.:** US Selection.

**Seix Investment Advisors LLC:** Global High Yield.

**SYZ Asset Management (Suisse) S.A.:** Absolute Return GBP, BM Alternativos\*, Equity Premia Europe\*, Equity Premia Global, Euro Fixed Income, Global Diversified Income\* (as of 16<sup>th</sup> August 2019), Global Equity Income\*, Japan Opportunities, Multi-Asset Absolute Return EUR, Multi-Asset Actiprotect, Multi-Asset Inflation Shield\*, Global Flexible Fixed Income\*, USD Bonds and World Opportunities\*.

**SYZ Asset Management (Europe) Ltd.:** Continental European Income, Continental European Selection, Global Diversified Income\*, European Corporate Bonds (until 31<sup>st</sup> March 2019), European Mid & Small Cap, European Opportunities, European Selection and European Subordinated Bonds (until 31<sup>st</sup> March 2019).

**SYZ Asset Management (Luxembourg) S.A.:** European Corporate Bonds (as of 1<sup>st</sup> April 2019), European Subordinated Bonds (as of 1<sup>st</sup> April 2019) and Global Flexible Fixed Income\*.

## b) Performance fee

Some sub-funds and classes will pay a performance-related fee to the Management Company.

Two different types of performance fee may be applied as follows:

- PF refers to Classes with absolute performance fee, i.e. combined or not with a High Water Mark.
- PR refers to Classes with relative performance fee, i.e. compared to a benchmark.

Share Class PF not combined with a High Water Mark:

Shares Classes PF of the Sub-fund(s) listed in the below table, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table of the annual performance calculated on each Valuation date on the basis of the Net asset value per Share, before deduction of the performance fee. The first period for calculating the performance fee will begin on the launch date of each Class, unless provided for otherwise below and in the appendix to the Prospectus. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company.

The calculated percentage of performance is applied to the total net assets of each of the Classes. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PF as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

\* See Note 1

## Notes to the financial statements as at 31<sup>st</sup> December 2019

Sub-fund	Max. Rate performance fee
Dynamic Allocation *	10%
Any other newly launched Share Class PF	Maximum rate to be disclosed on the Website and at the Registered Office

Share Class PF combined with a High Water Mark:

Share Classes PF of the Sub-funds listed in the below table, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table, applied to the difference between the Net asset value per Share concerned at the closing date of the current Financial Year and the High Water Mark, if this difference is positive. This fee will be calculated and provisioned or deprovisioned each time the Net Asset Value is calculated and will be based on the amounts of the net assets of each Class concerned before deduction of the performance fee. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PF as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Maximum rate of the performance fee	Initial High Water Mark
Any newly launched Share Class PF	Maximum rate to be disclosed on the Website and at the Registered Office	The initial issue price until it is outperformed, unless otherwise specified on the Website and on the list kept at the Registered Office

Share Class PR based on a benchmark index or a hurdle rate:

Share Classes PR of the Sub-funds listed in the below table will charge, each separately at the end of each Financial year, a performance fee of a maximum rate as indicated in the below table, of the annual performance calculated on each Valuation date and applied to the difference between the performance of the Net asset value per Share, before deduction of the performance fee, and the performance of their benchmark index or their reference hurdle rate for the same period. A performance fee may therefore be charged even when the Net asset value per Share of the relevant Share Class PR has decreased by reference to the Net Asset Value per Share at the end of the previous performance period (negative performance), provided that the benchmark index or the reference hurdle rate also has a negative performance over the same period. The first period for calculating the performance fee will begin on the launch date of each Class, unless provided for otherwise below and in the annex to the Prospectus. For Shares redeemed during the Financial year, the cumulative provision of the performance fees during the same period shall be crystallized and charged at the end of the period to the Management Company. The calculated percentage of performance is applied to the total net assets of each of the Classes. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Class	Maximum rate of performance fee	Hurdle rate or benchmark index
All other existing or future Sub-fund(s)	Any other newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

Share Class PR subject to outperforming its hurdle rate or benchmark index:

Share Classes PR of the Sub-fund(s) listed below, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table, on the basis of the difference between the Net asset value per Share at the last Valuation date of the current Financial year and the Net asset value per Share at the last Valuation date of the previous Financial year provided that the level of the hurdle rate as indicated below is exceeded. A performance fee may therefore be charged even when the Net asset value per Share of the relevant Share Class PR has decreased by reference to the Net Asset Value per Share at the end of the previous performance period (negative performance), provided that the benchmark index or the reference hurdle rate also has a negative performance over the same period. The Net Asset Value taken into consideration for the calculation at the Valuation date will be considered before the provision made for the current year at the Valuation date. The rate of the performance fee will be applied to the average annual assets calculated on each Valuation date. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of subscriptions and/or redemptions, to crystallize the performance fee. For the first calculation of the performance fee, the basis is the difference between the Net asset value per Share of the Sub-fund concerned, before deduction of the performance fee, calculated at the last Valuation date of the current Financial year and that calculated on the first Valuation date of the Sub-fund. This fee will be calculated each time the Net asset value is calculated, without consideration to the historically highest Net asset value.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Class	Max. rate of performance fee	Hurdle rate or benchmark index
All other existing or future Sub-fund(s)	Any other newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

\* See Note 1

## Notes to the financial statements as at 31<sup>st</sup> December 2019

Share Class PR subject to outperforming its hurdle rate or benchmark index:

Share Classes PR of the Sub-fund(s) listed below, will charge, each separately and at the end of the Financial year, a performance fee at the maximum rate as indicated in the below table, on the basis of the difference between the Net asset value per Share at the last Valuation date of the current Financial year and the Net asset value per Share at the last Valuation date of the previous Financial year provided that the level of the hurdle rate as indicated below is exceeded. A performance fee may therefore be charged even when the Net asset value per Share of the relevant Share Class PR has decreased by reference to the Net Asset Value per Share at the end of the previous performance period (negative performance), provided that the benchmark index or the reference hurdle rate also has a negative performance over the same period. The Net Asset Value taken into consideration for the calculation at the Valuation date will be considered before the provision made for the current year at the Valuation date. The rate of the performance fee will be applied to the average annual assets calculated on each Valuation date. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of subscriptions and/or redemptions, to crystallize the performance fee. For the first calculation of the performance fee, the basis is the difference between the Net asset value per Share of the Sub-fund concerned, before deduction of the performance fee, calculated at the last Valuation date of the current Financial year and that calculated on the first Valuation date of the Sub-fund. This fee will be calculated each time the Net asset value is calculated, without consideration to the historically highest Net asset value.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-fund	Class	Max. rate of performance fee	Hurdle rate or benchmark index
All other existing or future Sub-fund(s)	Any other newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

Share Class PR combined with an Outperformance High Water Mark:

Share Classes PR of the Sub-funds described in the table below will charge, each separately and at the end of the Financial year, a performance fee at a maximum rate as indicated in the below table, against the Outperformance High Water Mark that is the latest historical outperformance record of a given Class compared with its associated hurdle rate or benchmark index as appropriate, in respect of which outperformance a performance fee was charged. Outperformance is calculated on each Valuation date on the basis of the performance of the Net asset value per share, before performance fee, and of the performance of the benchmark index. The provision set aside in respect of this performance fee is adjusted on each valuation day according to the change in the relative performance of the Class. If the relative performance of the Class decreases during the calculation period, the provision set aside will be reduced accordingly. If this provision is reduced to zero, no performance fee will be payable. The first period for calculating the performance fee will begin on the launch date of the Class. For shares redeemed during the Financial year, the cumulative provision of the performances during the same period will be crystallized and charged at the end of the period to the Management Company. The calculated percentage of performance is applied to the total net assets of the Class. The Board of Directors reserves the right in the event of exceptional circumstances, such as a large volume of redemptions, to crystallize the performance fee.

Further Share Classes PR as the above, may be launched at anytime in accordance with the below table. In such case, the Website and the list kept at the Registered Office will be immediately updated with the newly launched Share Classes, which will be included in the next Prospectus. The KIID provided to investors in relation to each new Share Class will include the required information on the applicable performance fee.

Sub-funds	Class	Max. rate of performance fee	Hurdle rate or benchmark index
All other existing or future sub-fund(s)	Any other newly launched Share Class PR	Maximum rate to be disclosed on the Website and at the Registered Office	Hurdle rate or benchmark index to be disclosed on the Website and at the Registered Office

As at 31<sup>st</sup> December 2019 the following Share Classes had their Performance Fees stopped:

Sub-funds	Class	Performance Fee
Oyster - Italian Opportunities	CAP, IE2, REU	Last performance fee calculated 31.10.2019
Oyster - Global Diversified Income	C, CAP, CHF, REU, SE	Last performance fee calculated 28.02.2019*
Oyster - Multi-Asset Absolute Return EUR	DE2, E2, IE2, NE2, YE2	Last performance fee calculated 28.02.2019*
Oyster - European Opportunities	C, CAP, CH2, DE2, DRE, E2, G2, IU2, NE2, U2, YD2, YE2	Last performance fee calculated 28.02.2019*
Oyster - Japan Opportunities	CHF, EUR, IE2, IJ2, IUS, MRC, MRE, MRG, MRU, NLE, RCH, RUS, U2, YE2, YEN, YJ2	Last performance fee calculated 28.02.2019*
Oyster - Equity Premia Europe	DRG, EUR, I, NE, YEU	Last performance fee calculated 28.02.2019

\* Only crystallized amounts were kept in the fund (the performance fee accrued on 2019 has been cancelled).

## Notes to the financial statements as at 31<sup>st</sup> December 2019

### c) Miscellaneous provisions

The Board of Directors reserves the right to change the characteristics of the performance fee, particularly if the benchmark or reference index were to cease to exist.

The Board of Directors eventually reserves the right to stop charging a performance fee in respect of any Share Class, in which case the performance fee will be calculated according to the above sections as appropriate, up to the date the performance fee is no longer charged and paid at the end of the relevant Financial year.

In all the cases above, the performance fee Variable Characteristic of the relevant Share Class will be immediately updated, the investors will be given appropriate information and prior notice (where necessary), and the next Prospectus will be duly amended.

### d) Specific fee for management of the duration risk of the Class HD Shares

By way of remuneration for the services described for these Classes, the Class HD Shares may pay, each separately, at the end of each quarter, a duration risk management fee at the maximum annual rate of 0.05% and applied to the average Net Asset Value of each Class HD Share. This fee shall be payable to the sub-manager of the sub-fund concerned and/or to the entity in charge of the management of the duration.

In accordance with the ESMA's Opinion ESMA34-43-296 dated 30<sup>th</sup> January 2017 on "Share classes of UCITS", the Share Classes with an HD Variable Characteristic have been subject to a Soft-Closure since 30<sup>th</sup> July 2017. Existing investors at that date, that choose to remain invested in these Share Classes will be able to top-up their investment and reinvest dividends, if any, until 30<sup>th</sup> July 2018, on which date these Share Classes will be eventually subject to a Hard Closure (no further subsequent subscription will be allowed).

### e) Specific fee for management of the foreign exchange risk of the Class HA and HP shares

By way of remuneration for the services described for these Classes, the Class HA and HP Shares may pay, each separately, at the end of each quarter, a foreign exchange risk management fee at the maximum annual rate of 0.10% and applied to the average Net asset value per Share of each Class HA or HP Share.

This fee shall be payable to the entity in charge of the management of the foreign exchange.

### Note 4 – Subscription tax

The SICAV is governed by Luxembourg tax laws.

Pursuant to the legislation and regulations currently in force, the SICAV is subject in Luxembourg to an annual tax of 0.05%, the subscription tax, payable quarterly and calculated on each of the SICAV sub-funds' net assets at the end of each quarter.

This tax is limited to 0.01% of the asset value for share classes reserved to institutional investors.

No additional tax is due on the assets held in units of other Ucits which are already subject to this tax in Luxembourg.

### Note 5 – Depository bank fee

The SICAV pays the Depository Bank an annual fee which varies between 0.012% and 0.20% of the Net Asset Value of each sub-fund. These fees are payable monthly and do not include transaction fees or fees of sub-custodians or similar agents. The Depository Bank is also entitled to be reimbursed for reasonable expenses and disbursements that are not included in the expenses referred to hereunder.

### Note 6 – Administration fee

An annual administration fee representing a maximum of 0.45% of the net assets of each sub-fund will be paid quarterly to the Management Company in consideration for the services it provides to the SICAV. This fee will also allow the Management Company to remunerate RBC Investor Services Bank S.A. for its services as central administrator and transfer and register agent.

### Note 7 – Bank charges

This entry includes bank costs and transaction fees (excluding brokerage fees) paid by the SICAV to RBC Investor Services Bank S.A. for each securities transaction.

### Note 8 – Forward foreign exchange contracts

A forward exchange contract is a special type of foreign currency transaction. Forward exchange contracts are agreements between two parties to exchange two designated currencies at a specific time in the future. These contracts always take place on a date after the date that the spot contract settles and are used to protect the buyer from fluctuations in currency prices.

As at 31<sup>st</sup> December 2019, the sub-funds listed below had the following forward foreign exchange contracts outstanding:

#### • Absolute Return GBP

Maturity	Sales	Purchases
16/03/2020	BRL 4,135,000	GBP 760,989

- RBC IS Bank Luxembourg SA.

## Note 9 – Futures contracts

A futures contract is a legal agreement to buy or sell a particular commodity or asset at a predetermined price at a specified time in the future. Futures contracts are standardized for quality and quantity to facilitate trading on a futures exchange. The buyer of a futures contract is taking on the obligation to buy the underlying asset when the futures contract expires. The seller of the futures contract is taking on the obligation to provide the underlying asset at the expiration date.

As at 31<sup>st</sup> December 2019, the sub-funds listed below had the following futures contracts outstanding:

### • Absolute Return GBP

Purchase of 23 contracts on the FTSE 250 INDEX with maturity on 20/03/2020, for a commitment of GBP 1,007,400.

The unrealised loss on futures contracts as at 31<sup>st</sup> December 2019 is EUR (10,109) and is shown in the combined statement of net assets.

The futures contracts have the following counterparties:

- Morgan Stanley And Co. Intl PLC.
- RBC Capital Markets. LLC.

### Note 10 – Swaps

Swaps are derivative instruments that represent an agreement between two parties to exchange a series of cash flows over a specific period of time. A total return swap gives an investor the benefits of owning a security without actual ownership. A credit default swap offers insurance in case of default by a third-party borrower.

As at 31<sup>st</sup> December 2019, the sub-fund listed below had the following swap outstanding:

### • Equity Premia Global

#### Total Return Swaps

Name		Spread in %	Currency	Nominal	Date of maturity	Unrealised result USD
DBGLSZGM INDEX	Sale	0.00	USD	29,141,024	23/12/2020	13,570
<b>Total</b>						<b>13,570</b>

As at 31<sup>st</sup> December 2019, the unrealised net gain on swaps is USD 13,570 and is shown in the combined statement of net assets.

The swap contract has the following counterparty:

- Deutsche Bank AG

No collateral has been received in relation with the swap contract.

\* See Note 1

# Notes to the financial statements as at 31<sup>st</sup> December 2019

---

## **Note 11 – CFD**

A “contract for difference” (CFD) is a contract executed between two parties to exchange, upon closure of the contract, the difference between the opening and closing price of the underlying share multiplied by the number of shares specified in the contract.

In evaluating CFDs, a “reset” is carried out (recognition of CFDs at opening price) when calculating NAV at the end of each month. Unrealised gains and losses are recognised in the accounts as net gains or losses on CFDs.

As at 31<sup>st</sup> December 2019, there is no CFD contract outstanding.

## **Note 12 – Options**

Options are a type of derivative security. Its price is intrinsically linked to the price of something else. Purchasing an option grants the right but not the obligation to buy or sell an underlying asset at a set price on or before a certain date.

As at 31<sup>st</sup> December 2019, there are no options outstanding.

## **Note 13 – Changes in the composition of the portfolio**

Changes in the composition of the portfolio and money market instruments are available free of charge from the SICAV's registered office.

These documents may be obtained free of charge from the representative agent.

## **Note 14 – Securities lending**

The Fund may engage in Securities Lending and borrowing operations with the Securities Lending Agent RBC Investor Services Trust, a trust company incorporated under the laws of Canada having an office at 3rd floor, 155 Wellington Street West, Toronto, Ontario M5V 3L3.

Multi-Asset Inflation Shield*	1,087	1,226	2,313	USD
World Opportunities*	12,641	14,255	26,896	EUR

The collateral given as coverage for the lent securities represents at least 105% of the market value of the equities and 102% of the bonds lent as at 31<sup>st</sup> December 2019.

It consists of securities issued or guaranteed by a member state of the OECD or its local authorities or by supranational organisations or institutions.

Revenue excluding charges received in respect of securities lending is included under the heading "Securities Lending income" in the combined statement of changes in net assets.

### Note 15 – Transaction costs

For the year ending 31<sup>st</sup> December 2019, the sub-funds sustained the following transaction costs (brokerage costs) in connection with the sale or purchase of transferable securities, money market instruments, derivatives or other eligible assets.

The cost of these transactions, as set out below, is included in the purchase cost or deducted from the sale price.

Absolute Return GBP	126,564	GBP

### Note 17 – OTC Collateral / Collateral on Forward Foreign Exchange Contracts / Collateral on Futures

Sub-funds	Counterparty	Collateral Type	Currency	Amount received/(paid)
Equity Premia Global	Deutsche Bank AG	Cash	USD	140,000

### Note 18 – Subsequent event

The sub-fund OYSTER - European Mid & Small Cap will merge in the sub-fund OYSTER - European Opportunities on 31<sup>st</sup> January 2020.

The spread of COVID-19 has had significant impact on both the financial markets and the economy at large. However, it does not impact the financial statements as of 31 December 2019, nor does it present any issues with regards to the going concern of the Company.

### Information concerning the remuneration policy (unaudited):

#### Remuneration Disclosure

European Directive 2014/91/EU amending Directive 2009/65/EC on undertakings for collective investment in transferable securities, which is applicable to Oyster, the SICAV, came into force on 18 March 2016. It is implemented in national law under the Luxembourg Law of 17 December 2010, as amended. Due to these new regulations, the UCITS is required to publish information relating to the remuneration of identified employees within the meaning of the Law in the annual report.

#### Remuneration Policy of the Management Company

The current remuneration policy of the Management Company can be found at [www.syzassetmanagement.com](http://www.syzassetmanagement.com).

#### Quantitative Disclosures

The table below provides an overview of the aggregate 2019 total remuneration paid to staff of the Management Company for the services rendered and the number of beneficiaries. It is not possible to provide a further breakdown of remuneration attributable to the Management Company in a relevant or reliable way. However, for context, the Management Company manages one AIF (with 2 sub-funds) and one UCITS (with 23 sub-funds), with AUM as at 31 December 2019 of USD 85.7m and USD 2.29b respectively.

	Fixed	Variable	Number of beneficiaries	Carried interest paid
All Staff	EUR 685,900	EUR 64,744	8	None

The 'Identified Staff' of the Management Company are those employees whose actions have a material impact on the risk profile of the Management Company or the UCITS it manages.

For the purposes of the above disclosures, where portfolio management activities have been formally delegated, remuneration for the relevant employees of the delegate has not been included.
